and Devin L. Kirkwood

December 2022

Thesis Advisor:	Kalev I. Sepp
Second Reader:	Michael Locklear (USASOC)

Approved for public release. Distribution is unlimited.

APPENDIX K. MODERN WAR INSTITUTE PODCAST

This capstone idea and subsequent work was sparked by a podcast that one of the Capstone students did in April 2021 to highlight the tactical level challenges that Special Forces units faced in the Scandinavian Arctic and sub-Arctic. The podcast, titled Special Operations Forces in the High North, helps build awareness for the environmental conditions that make training and equipping challenging for Special Forces in the Arctic.
