CONTENTS

Chapter 1	General Introduction and Thesis Outline	11
Part I	**RSV bronchiolitis in the PICU: Defining the landscape**	**23**
Chapter 2	High-Flow Oxygen Therapy in infants with Bronchiolitis (Correspondence; 2.1)	25
	Burden of Respiratory Syncytial Virus bronchiolitis on the Dutch pediatric intensive care units (2.2)	31
Chapter 3	The association between weather conditions and admissions to the pediatric intensive care unit for respiratory syncytial virus bronchiolitis	49
Chapter 4	Increasing burden of viral bronchiolitis in the pediatric intensive care unit; an observational study (4.1)	67
	Are changes in practice a cause of the rising burden of bronchiolitis for pediatric intensive care units? (4.2)	77
Part II	**RSV bronchiolitis in the PICU: a sticky problem**	**83**
Chapter 5	Prologue: Mucus accumulation and obstruction atelectasis in the PICU (5.1)	85
	Rational use of mucoactive medications to treat pediatric airway disease (5.2)	91
Chapter 6	Use of dornase alfa in the pediatric intensive care unit: current literature and a national cross-sectional survey	109
Chapter 7	Neutrophil Extracellular Traps increase airway mucus viscoelasticity and slow mucus particle transit	125
Chapter 8	Low-dose Neutrophil Extracellular Traps do not induce injury and inflammation in well-differentiated RSV-infected airway epithelium	143
Chapter 9	Bedside airway mucus rheology as a future tool in the pediatric intensive care unit, a pilot study	171

Part III	**General Discussion & Appendices**	191
Chapter 10	General Discussion	193
	General Summary	208
	Nederlandse Samenvatting	212
Chapter 11	Appendices	219
	- Author contributions	220
	- Authors and affiliations	222
	- List of Publications	225
	- PhD Portfolio	227
	- About the author	229
	- Dankwoord	230

Note: The chapters 2, 4, 6 and 7 refer to supplemental online data. For environmental purposes, these supplemental data are not printed. Instead a link to these data in presented at the chapter's title page. For chapter 8 accepted for publication the supplemental data are provided at the end of the chapter.
