

## DEANS DROP SOCCER MIX TO RANGERS

### Flashy, Mid-Season Form Marks Opening of League

## GOSKIRK TALLIES

### Close 1-0 Contest Exhibits Classy Green Squad

Captain Donald Dease and his band of ten green clad soccerites came out on the honorable but losing end of a 1-0 contest last Saturday afternoon on the Makiki field. Their opponents were the veteran Rangers who still retained enough of their old vim and vigor to hand the collegians the well known goose egg. Hawaii, however, played an exceptionally clean and fast game and came so close to scoring on several occasions that the Rangers found little enjoyment in their activities.

Black, Jensen and Capt. Dease swept the ball down the field time after time during the course of the afternoon only to have some little miscue cut short the rally. Sensational playing by Das, '26 member of the University squad and now playing left half for the Rangers, averted these brilliant rushes several times. The Dean attack seemed to be voided when Das was on the lot.

Late in the third quarter, Goskirk accounted for the only Ranger tally after receiving a neat corner kick. His placement evaded Goalie Christ-opherson by the narrowest possible margin. For the remainder of the game the leather see-sawed from one end of the field to the other, with both teams threatening at various moments.

Not one spot in the University lineup looked especially weak. The halves will have to buck up, however, and return the old pill with healthier wallops. By no means does this defeat put Hawaii out of the running, but rather serves as an ice-breaker for the entire squad. The Koreans are met next week on the same turf. If the green and white triumphs, there is still hope for a successful season, so let's get out and support the head-bouncers.

Lineup and summary of the Ranger contest:

Pos. Rangers	Deans
G—Ricketts	Christopherson
RE—Taylor	C. Judd
LB—Das	Ferreira
RH—Rattray	Cushnie
CH—Muirhead	Kaeo
LH—Lamb	Morrison
OR—Wink	Steele
IR—Judd	Black
CF—McLachlan	D. Dease
IL—Simpson	Jensen
OL—Walker	M. Dease

Refereed by George McKinlay.

## Girls Asked To Pay Dues Now

The women students of the University received a pleasant surprise when they returned from their vacations to find that the rest room in Hawaii Hall had been repainted.

The new shade of apple green takes the place of the dull brown which was there before, and bright flowered cretonne curtains hang where the old faded orange ones were.

The painting was paid for entirely by the University.

A week before Christmas, the Adelphai Club sponsored a campaign which was to raise the money for the curtains, couch-covers, cushions, and possibly all rugs, and an equal amount was to be put to this by the University, making a total of \$300 but now things are at a standstill.

Many of the girls have not paid their dues of twenty-five cents, so the rest room remains unfinished. The couch-covers have not been paid for yet, but it is hoped that enough money can be raised to get a rug and some pillows.

The girls appreciate the great part which the University took by supplying the funds, and at the same time wish to make an appeal to all of those who have been negligent in paying their dues, to do so at once.

## N. C. Hanks To Speak Friday

President David L. Crawford urges all students of the University of Hawaii to be present at a special assembly Friday, January 13, at 12:50, to hear an inspiring talk to be given by Nicholas C. Hanks, a prominent lecturer and educator.

Mr. Hanks is an unusual man, who lost both of his hands and sight in a mine explosion. At the time of this accident, he had only a seventh grade education.

Though blind and without hands, Mr. Hanks managed to gain an education. He graduated from Stanford and matriculated at Harvard for two years of advanced work. Lecturing throughout the universities of America Mr. Hanks has made \$100,000 and spent it all in educational work.

## Rice Promoted To Lt. Colonel

### Other Advancements In R.O.T.C. Are Given

Cadet Major Richard R. Rice has been promoted to lieutenant colonel in the University regiment of the R. O. T. C.

Cadet Captain Elwell P. Lydgate of Company L has been promoted to major. Cadet Captain Lydgate was acting cadet major during the absence with leave of Cadet Major Rice.

Many other cadets, especially members of the University band, were promoted in the corps. The list is as follows:

To be cadet captain: Cadet First Lieutenant Charles Buchanan.

To be cadet first lieutenant: Cadet Second Lieutenant Rogers P. Whitmarsh.

To be cadet sergeants: Cadet Corporal Clarence Christopherson; Cadet Corporal Thomas Daishi (band); Cadet Corporal William R. Smith (band); and Cadet Arthur Zane (band).

To be cadet corporals: Cadet Kenneth Chun (band); Cadet Arthur Liu, Cadet Paul Morihiro (band), and Cadet Ernest Spillner (band).

To be cadet first class: Cadet Wilfred Hussey; Cadet Yoichi Hanaoki (band); and Cadet Edward Y. Hosaka (special squad).

Cadet First Lieutenant Whitmarsh was transferred from Company K to L to occupy the position held formerly by Cadet First Lieutenant Buchanan, now cadet captain, taking the place of Cadet Captain Daniel P. McGregor, who sailed for Washington last month to serve as clerk to Victor Houston, Hawaii's Delegate to Congress.

## Local Business Firm Contributes \$250 To Chemistry

The Chemistry Department of the University of Hawaii was made happy during the Christmas vacation by the receipt of a check for \$250 from the Pacific Guano and Fertilizer Company, according to Professor Frank T. Dillingham. This check was accompanied by a letter from the Honolulu manager of the company expressing the hope that the check would be of value in the purchase of some laboratory apparatus or equipment in connection with the university's work in soils and fertilizers.

Prof. Dillingham said that through Ka Leo he wished to express the appreciation of the Chemistry Department for the gift.

"Gifts of this nature encourage us in the belief that our efforts as a university to turn out students equipped to take part in our local industries are recognized as being of value, and it causes us to hope further that other concerns will feel inclined to make such offerings as did the Pacific Guano and Fertilizer Company," Prof. Dillingham remarked. "It is our intention to use this gift in the purchase of a high grade chemical balance to be used in our work in agricultural chemistry," he added.

## FRESHMEN TO DEBATE SOPHS FRIDAY NIGHT

### Contest Is Sponsored By Hawaii Union

## FROSH ARE GOOD

### Finals Will Be Held During the Month of February

The annual inter-class debate sponsored by the Hawaii Union will begin when the Freshmen and Sophomores meet in the second forensic clash of the year on Friday evening, January 20, in Hawaii Hall. The question for debate is: "Resolved: that Congress should have the power to overrule supreme court decisions by a two-thirds vote." The Freshmen will uphold the affirmative.

### FROSH GOOD

According to past records of the team, the Freshmen should be able to walk away with the championship of the inter-class debates. Jack Wakayama, captain, and Makoto Nukaga were members of the McKinley High School championship team for three years, and Minatoya is also an experienced speaker. He took second place in the annual prohibition oratorical contest when he was still a Sophomore at Kauai High School.

### BAILEY TO COACH

With such a past record, and a good coach like Dr. Thomas Bailey, who has had much experience in oratory and debate, the Freshmen should be able to make a close bid for the championship.

### SOPH TEAM

Thomas Kurihara, captain, Kiyoto Tsubaki, and Masao Aizawa are members of the Sophomore team. Kurihara and Aizawa have had good training in platform speaking at Maui High School, but this will be the first time that they are going to debate. Tsubaki is a "dark horse." He has never done any platform speaking or debating heretofore. These three men are working without any coach, and although their past

## Practice Begins For Basketball

With the annual disappearance of old King Football from the sporting world, comes the return of basketball to the limelight as the Varsity Squad began training last week for the coming season.

Last week, coach "Spud" Harrison issued calls for basketball material, and it came in large quantities. Kanky Chun, captain led out his men to the first practice at Palama and some considerable headway has been made.

Among those turning out are: Kanky Chun, Buck You, Walter Holt, J. Shin, P. Baptiste, W. Whittle, G. Lindsay, D. Philpott, H. D. Ching, H. W. Ching, and others of no less importance.

The first game of the season took place last Tuesday, but as this paper went to press too early to allow of a story on the game, a full account will be given in next issue.

The probable lineup, issued on Monday by Charles Cooke, manager of the basketball squad, was as follows: W. Holt, center; Chun, running guard; G. Lindsay, guard; H. D. Ching and W. Whittle, forwards.

## Dr. Bailey Helps Frosh Speakers

Five-minute impromptu speeches were made by members of the Frosh Forensic Club at the Theological Seminary last Tuesday evening, the first meeting this year, with Dr. Thomas Bailey giving helpful criticisms in the manner of presentation of subject matter.

Jack Wakayama, president of the club, Makoto Nukaga, and Wilfred Minatoya, members of the Freshmen debating team are getting ready for the first inter-class debate with the sophomore to be held on Friday, the third week in January. The question for debate is, "Resolved: that Congress should have the power to overrule the decisions of the Supreme Court by a two-thirds vote." The freshmen are upholding the affirmative of the proposition.

## Proposal For Student Conference in 1929 Tentatively Accepted

Elwell Lydgate, official representative of the Executive Committee and delegate for the Cosmopolitan Club, returned from a trip to the mainland, where he attended the 1927 National Students' Federation of America. He states that he gained a tentative acceptance to hold a Pan-Pacific Students' Conference in Honolulu in August, 1929.

Mr. Lydgate presented the 200 student delegates of colleges of the United States with leis sent by the Pan-Pacific Union, and delivered official letters from Governor Wallace R. Farrington, Acting President Arthur R. Keller and Alexander Hume Ford.

### REPORT MADE

A long and detailed report of his trip and of his work while at the conference was given to the Pan-Pacific Cosmopolitan Club of the University of Hawaii at the dinner held at the Pan-Pacific Research Institute last evening.

With the accomplishment of Mr. Lydgate in getting 200 student delegates to accept tentatively the invitation of the Pan-Pacific Cosmopolitan Club, one great step has been made toward the realization of a

Model League of Nations to be conducted in cooperation with the Pan-Pacific Union to be held in Honolulu.

### AT THE CONFERENCE

According to Lydgate, the two main speakers at the conference were Professor Fred Morrow Fling of the University of Nebraska and Professor Todd of Northwestern University.

The purposes of the National Students' Federation of America are as follows:

To achieve a spirit of cooperation among the students of different colleges throughout the country to the end that their experience of one shall inure to the advantage of all.

To foster understanding between the students of America and foreign countries.

To develop an intelligent student opinion on questions of national and international importance.

There was a large attendance of members of the Pan-Pacific Cosmopolitan Club of the University of Hawaii last evening with Mitsuyuki Kido presiding at the meeting. He presided at all previous meetings during the absence of Lydgate.

## Chinese "U" Girls To Give Adelphai Party Saturday

Plans are now complete for the Chinese Adelphai Party on Saturday afternoon from 3 to 5 p. m. at the home of Miss Clara Chung on 1028 S. Beretania Street.

All University women are promised an enjoyable time and a rare treat from the diversified numbers on the program.

Unique demonstrations revealing the joy of girlhood in China, lavish display of costumes and gorgeous hangings with significant numbers indicating Chinese symbolism, and music on the moon harp will be featured on the afternoon's program.

After the performance by the Chinese women students all sorts of Chinese delicacies and confectionery will be served to the guests.

The hostesses of the party have cooperated in every way to create a true spirit of the fascination of a Chinese Girls' Festival, much credit being due to the various committee heads among which are Miss Margaret Wong, general chairman, and Miss Wai Sue Chun, program chairman.

## Staff of C. S. A. Annual Selected

Miss Eva Young, a senior of the College of Applied Science, and editor-in-chief of the Chinese Students' Alliance annual, made the following appointment for the staff of the annual which will soon be published.

Ah Ho Chun, assistant editor, Kenneth Chun, literary editor; Au Sung Hin, Chinese editor, Clara Young, assistant; jokes editor, T. P. Kamm; student activity, Elsie Ting; photography, Leong Fong; art, C. T. Lum. One member of the school unit in the Alliance will be appointed later as associate editor. Abraham Ng is acting in the capacity of business manager.

According to Miss Young the annual of 1928 will be made one of the best published by the Alliance. Special articles on problems of conditions in China will be given prominent places in the annual. The book will have as usual a Chinese section which will contain more materials than those of previous years.

## Notice

All cadets of the University Regiment of the R.O.T.C. who have time to make up are advised by the Military Department to complete all unfinished work by January 21, otherwise they will receive an incomplete for their grades this semester.

Cadet First Lieutenant Rogers P. Whitmarsh has been named principal with two other alternates to enter West Point by Hon. Victor Houston, Hawaii's Delegate to Congress.

## Valley Island Trip a Success

### Icebound Given Good Reception By Mauites

An enthusiastic reception was accorded the presentation at Kahului, Maui, of the play "Icebound," given by the University of Hawaii Dramatic Club on last Friday evening at the Kahului Theatre. A full house greeted the fourth performance of the university's big semester play, which had been voted such a success when previously given in Honolulu and Schofield.

The entire cast of players made the trip to the valley isle, leaving Honolulu last Thursday evening on the Mauna Kea. They arrived at Kahului at 4:30 o'clock the next morning, giving the play that evening. The cast was identical with that which appeared on the first night "Icebound" was given at Bishop Hall, Punahou, with Miss Alla Neely taking the leading feminine role of Jane Crosby. Miss Alice Dennison, who was alternate with Miss Neely for the part of Jane Crosby, assisted with prompting, make-up, and properties, Tommy Ellis, business manager, accompanied the cast.

The people of Maui received the university players with true Hawaiian hospitality, opening their homes to the visitors, and making every effort to assure them an enjoyable stay. Saturday was spent in touring the island, and in the evening Mr. Bevins gave the cast a fish chowder party at the Bevins' beach house. The students left Lahaina at one o'clock Monday morning on the Haleakala, arriving in Honolulu in time to attend classes at the university.

The trip was in every way successful, and while the exact amount of the net profits is not yet known, the cast more than cleared expenses.

## Library Presented With New Atlas

The Institute of Social and Religious Research in New York has presented to the library of the University of Hawaii a copy of the new World Missionary Atlas, containing a directory of missionary societies, classified summaries of statistics, maps, and comprehensive indices.

The university is indebted to Mr. Galen Fisher, executive officer of the institute for the gift. Mr. Fisher attended the recent meeting of the Institute of Pacific Relations, and became much interested in the work of the University of Hawaii.

CHICAGO, Ill.—(IP)—A college without examinations; no credits obtained by present stereotyped methods; routing banished excepting that which is self-imposed;—a place where the student may get the most fun out of life—such is the university of the future proposed by President Max Mason, of Chicago.

## FEDERAL AID FOR U. H. IS HOPE OF PRES.

### Crawford Attends 2 Conventions In Chicago

## TRIP SUCCESSFUL

### Carnegie Foundation Interested In Hawaii

Hopes that certain Federal appropriation acts in which the Territory does not now share will be extended so that the University of Hawaii will receive direct monetary benefits amounting to about \$100,000 per year for agricultural experiment work, were expressed by President D. L. Crawford on his return from his recent trip to Washington, D. C., where these and other matters were discussed.

President Crawford spent a week in the national capital following the matter of aid for the local experiment station, and he found that the secretary of agriculture, and those members of Congress with whom he made contact, were all well disposed toward the extension of the appropriation acts under consideration so as to include Hawaii.

### CLOSER RELATIONS DESIRED

"Because the University of Hawaii is a land grant college, there should be a closer relation between the university and the local experiment station," President Crawford stated.

"This need has long been felt, and it was partly in the interests of establishing here the relation that exists between the land grant colleges of the mainland and the various Federal experiment stations, that I made the trip to Washington. Of course, there were other reasons, and I attended two conventions in Chicago and conferred with officials of the Rockefeller Foundation in New York as well as taking up matters relative to the experiment station at the capital."

### ATTENDS ASSOCIATION MEETINGS

President Crawford went first to Chicago, where he attended meetings of the Association of State Universities and the Association of Land Grant Colleges, the two meetings lasting from November 14 to 17. He shared with the president of the University of Porto Rico, the distinction of representing the most distant universities at either of the conferences. The conference of the Association of State Universities, which gave most of its attention to discussion of various ad-

## R.O.T.C. Exam To Be Held Monday

On Monday the University regiment of the R.O.T.C. is going under a strict examination with Colonel Adna G. Clarke, retired, Captain Cecil J. Gridley, and Captain Norman Nelsen, as officers of the day.

Cadet captains, cadet first and second lieutenants as well as lesser cadet officers will be watched in the execution of movements. The errors of the officers will count very much toward the grade of the various companies to which they belong. The mistake of an ordinary cadet will count one point against his company but an officer's error is going to count much more.

Examinations will be held in closed order drill. This is one time of the school year, when students not connected with the R.O.T.C. can sit and watch good drilling because every cadet does his very best to help win the competition.

Grades obtained from the examination will count toward the monthly competition record for January.

## Aggie Club Will Elect New Officers

The Aggie Club will hold a meeting at the end of the first semester examination to elect new officers for the second semester. The present officers are Earl Nishimura, president; William C. Chalmers, vice-president; Jorgen J. Jorgensen, secretary; Jiro Suzuki, treasurer. The club is also planning to have a banquet and a dance about the same time. Already a committee is making arrangements for the occasion.

**Ka Leo o Hawaii**

**Students' Conference**

President Percy E. Lydgate, representing the University of Hawaii, the Territory, and the Pan-Pacific Cosmopolitan Club, returned from the mainland, where he attended the annual meeting of the American University Students' Federation, held in Lincoln, Nebraska.

He has extended an invitation to 200 universities to hold a Pan-Pacific Students' Conference in Honolulu in August, 1929. The offer has been favorably received, and, in all probability, the conference will be a reality.

The Cosmopolitan Club, which has undertaken this conference with the aid of the Pan-Pacific Union, has a tremendous task to carry through. It is an enterprise worthy of whole-hearted support not only from the members of the club, but also from the student body and the Territory.

The prestige, influence, and future membership of the organization will be materially determined by the success or failure of this undertaking. Not only the honor and record of the Cosmopolitan Club, but also those of the University of Hawaii, are involved, for the University will have a conspicuous share in the program.

**Complaints**

Ka Leo has received many complaints against the University cheering section at the final football game of the season. The cheering, the complainants aver, has been exceptionally poor, and that "university spirit" among the students has been conspicuous by its absence.

We can fully appreciate the high-mindedness and sincerity of those who have the honor and interest of the University at heart. While it is of no avail to lament over acts that have already been committed, perhaps a little consideration on our part may prevent us from making a poor showing before the public in the future.

We believe that the students are not essentially without "college spirit." The fault lies not in majority of the students, but in the presence of "outsiders" who do not possess the same ideals, sentiments, and loyalty toward our University, as we do.

It is known to many of us that a few University students have been guilty of collecting students' stubs and distributing these to outsiders who had only paid fifty cents general admission. Consciously or unconsciously, these students have violated the honor system and have done great injustice to the University.

For the best interest of the University, some suitable means should be provided to prevent such re-occurrence. We recommend that the Athletic Management take definite steps along this line and provide for punishments, should violations occur in the future.

**Honor System**

Six years ago, the students of the University of Hawaii started a campaign for the institution of the honor system. Realizing the sincerity of the students, and appreciating the merits of the plan, the administration finally consented to the establishment of the honor system to be entirely left in the hands of the student body.

Thereupon, the honor system was officially inaugurated in January, 1922, and a student council of six members was immediately elected to act upon cases of dishonesty or violation. In April, 1924, a special referendum revealed that the student body was strongly in favor of the continuance of the system.

Summing up the brief period in which the honor system operated, we can with all sincerity say that the system has been a success. Doubtless there have been cases of cheating and dishonesty among some students, but for the mass of the students, it has worked well.

What are some of the obligations of students under the honor system? In the first place, students must neither give nor receive aid in examinations, must not bring unnecessary books or papers, nor cause disturbance in the room. Whenever dishonesty occurs, it is the duty of the students to report to the student council.

**Congratulation**

Elsewhere in Ka Leo is an article announcing the marriage of Dr. Harold S. Palmer, popular geological department head of the University, to Miss Dorothy Magoffin of Colorado. While students have been told of his betrothal, the wedding which took place during the holiday season was somewhat of a pleasant surprise. While Ka Leo must console itself for having lost a "scoop," nevertheless it extends to Dr. and Mrs. Palmer its sincere congratulations. To Mrs. Palmer, it says Aloha. We hope that she will be able to come into contact with the students and be part and parcel of this little community of ours.

**Let's Kokua**

With the football season gone, the attention of all those who are athletically inclined is turned toward basketball. First call for varsity practice has already been sounded by Kan Mun "Kanky" Chun, this year's Varsity captain, and many are responding. Ka Leo wants to sound "first call" for those who are not turning out for the team, namely, the rest of the student body. It wishes to remind them that basketball demands just as much courage, endurance, and general physical fitness as football, and that it is one of the most strenuous games in college sports. The team needs and has a right to demand the support of the students. Let's kokua.

**U. H. May Get Federal Help**

Continued From Page 1.

Administrative problems confronting universities and colleges, and many questions of interest to the University of Hawaii were considered.

**ENTRANCE TESTS STUDIED**

One of the most important of these problems was that of entrance requirements for new students. Applicants for membership to colleges and universities are flooding such institutions all over the country, and the problem of restricting and selecting those who should be admitted has become increasingly grave. President Crawford said that many experiments and ideas on this subject were presented at the conference, and much time was devoted to discussing ways of selecting those applicants who are properly prepared and keeping the others from entering college. One of these experiments which has turned out differently from its avowed purposes, was the establishment of junior colleges.

**LARGE ENROLLMENT**

The junior colleges, according to President Crawford, were established to reduce the numbers of students seeking admittance to the state universities, but the results have been just the opposite. More students have entered the junior colleges than would have gone to the university, but when they are through the lower college, most of them wish to continue and finish in the universities. Hence the number of applicants at the state universities is even larger than it would have been, had there been no junior colleges established.

**R. O. T. C. DISCUSSED**

President Crawford further stated that there was a general feeling among those who attended the conference that the mental tests of which so much was expected a few years ago, were not proving to be as effective as was generally supposed. Another problem of interest to students of the University of Hawaii that was touched upon at the Chicago conference was that dealing with R. O. T. C.

There was a general feeling that military training was a good thing, President Crawford declared, but there was considerable dissatisfaction expressed at the distribution of its control. The members of the conference felt that more of the control should be in the hands of the university administration than there is at present, and the conference went on record requesting the government to provide in the War Department an officer familiar with the university point of view and university problems.

**COLLEGE PROBLEMS DISCUSSED**

Other problems discussed at the conference were hazing, against which there was expressed a strong sentiment; housing conditions for students; controlling the driving of autos on the campus, which seems to be even more of a problem on the mainland than it is here; fraternities were discussed, and while it was recognized that they presented some difficult problems, it was agreed that they had their good points as well; the holding of Freshman week came in for a share of the talk, and the custom seems to be growing in favor.

**QUESTIONS OF ADMINISTRATION**

President Crawford did not have so much to say regarding the meeting of the Association of Land Grant Colleges, although it was at this convention that he presented the situation existent in Hawaii regarding the relations of the University and the Federal experiment station. The conference was largely attended by deans and instructors, and problems relative to courses of study, graduation requirements, standardization of work in the different institutions, the growing importance of the extension service, and similar questions were taken up.

**FARM RELIEF**

The engineering section of this meeting was largely attended and problems of research training were discussed in particular. Much of the time of the entire gathering was occupied with the question of farm relief, which is becoming such an important political issue. A committee of a dozen of the leading agricultural experts had been working for six months on a nation-wide survey, and its report was gone into in detail.

**PLAN TO AID HAWAII**

While in New York conferring with the Rockefeller Foundation officials regarding work here, with which they are well satisfied, President Crawford made contact with the Carnegie Foundation, and found them interested in Hawaii and its problems. They have been considering various plans for extending their work to the islands, according to information received by President Crawford. Among the plans being considered by them is one for subsidizing an arrangement whereby eminent lecturers and professors from the mainland can give short lecture courses here, or perhaps conduct classes for a semester.

This foundation is also considering the possibility of contributing toward the expenses of our summer sessions in an effort to make it possible for teachers of geography, eco-

**Open Letter**

Miss Helen MacNeill,  
 Registrar, University of Hawaii,  
 Honolulu, T. H.

My dear Miss MacNeill:

I am very sorry that I delayed in writing you a letter of recognition of diploma which you sent me a few weeks ago through registered mail. The diploma reached me in fine condition and I am proud of being a possessor of a University of Hawaii degree.

May I take this opportunity to send a proud message to our Alma Mater. David I. Katsuki, a senior at this medical college, and a University of Hawaii trained man, was recently elected to the membership of A. O. A. (Alpha Omega Alpha), a national medical honorary society, on his high scholastic standing. This is one of the many good showings made by University of Hawaii men elsewhere and I am more convinced that University of Hawaii men stand on the same level as any other mainland college graduates.

With best wishes, I am,  
 K. OKAZAKI,  
 College of Medicine, University of Nebraska, Omaha, Nebraska.

**Dr. Palmer Weds**

A wedding which came as a surprise to many university students and faculty members, was that of Dr. Harold S. Palmer, Professor of Geology, and Miss Dorothy Magoffin, of Colorado.

The ceremony was performed by the Rev. Philip A. Swartz of the Central Union Church, at 2 o'clock, Saturday afternoon, December 24. The bride wore a gown of white silk crepe trimmed with a collar of white silk lace.

Professor and Mrs. Lewis Henke were the only attendants, and the others present were Mrs. F. Palmer, mother of the bridegroom, and Mr. and Mrs. Ed. Caum.

Dr. and Mrs. Palmer spent a brief honeymoon on the other side of the island and are now making their home on 1540 Kewalo street.

**Bates May Debate U. H. In Honolulu**

According to Professor J. M. Baker, debate coach, Bates College debating team will be anxious to meet the University of Hawaii in Honolulu some time during the month of May. Bates College around-the-world debating tour is the second of its kind to be undertaken by an undergraduate college team, the first being by the University of Oregon.

The team is expected to leave San Francisco sometime early in May for Honolulu. After debating the university, it will then proceed direct to Australia.

Bates has been nationally known for forensics. It has undertaken the first trans-Atlantic debating expedition. Although a small college, Bates has defeated most of the leading universities in England and in the eastern part of the United States.

**Union Discusses Pan-Pacific Tour**

The proposed Pan-Pacific debate tour was the main topic discussed at the meeting of the University of Hawaii Union, at the Pan-Pacific Research Institute, Thursday evening, January 5, at 6:30 p. m. All members of the Union and candidates for the team were invited to supper through the courtesy of Alexander Hume Ford.

According to present plans, the team is scheduled to leave Honolulu for Japan on the Taiyo Maru, May 1. After a few weeks in Japan, the itinerary includes China, Philippines, New Zealand, and Australia. The team will probably return during the month of September.

After the business meeting, an informal discussion on the question, "Resolved, that the passing of the Eighteenth Amendment and the Volstead Act has been justified by its results," was held.

nomics, and kindred subjects, to spend a summer here in Hawaii where they can get a great deal of first-hand information on racial relations.

**RETURNS ON MALOLO**

On his way home, President Crawford passed through Louisiana where he made a short study of sugar cane growing as compared with our methods. He made the trip here from the coast on the Malolo, arriving in Honolulu on December 21.

"I believe the trip was very successful and worth while," he said in closing the interview. "I made the acquaintance of many prominent educators who will be of great help to us here at the university, and I hope that my trip to the national capital will at least be an indirect cause of our receiving some more financial aid from the government."

**Yellow Jacket Cast Is Chosen**

**Was Presented Five Years Ago In Honolulu**

"The Yellow Jacket," that powerful Chinese drama written in English by J. Harvey Benrimo, which was produced for the first time in Honolulu five years ago, will be acted out again by members chosen from the entire Chinese Students' Alliance of Honolulu.

**THE HERO**

Arthur Liu, a Sophomore at the University of Hawaii, will take the part of Wu Hoo Git, the young hero of the Wu family destined for the Yellow Jacket.

Other university students who have secured parts in this play are: Miss Eva Young, Miss Gladys Li, Ah Leong Fong, David Yap, Miss Elsie Ting, Kim Fan Chong, Miss Beatrice Lee, Miss Kam Oi Sun, James Lee, Kenneth Chun, Cyrus Yee, and Edwin Chinn.

**MRS. LAWSON TO COACH**

The cast for "The Yellow Jacket" has been chosen with great care and deliberation by Mrs. Edna B. Lawson, dramatic coach at the Normal Territorial Training School, Professor Baker of the University of Hawaii, and Miss Beatrice Chong. Mrs. Lawson will coach the play with the assistance of Miss Chong and Miss Alicia Young, a popular student at Normal school, and who, incidentally, has won the star role of Chee Moo, the kind mother and first wife of Wu Sin Yin.

**SCORED SUCCESS**

"The Yellow Jacket" scored a tremendous success when it was produced in Honolulu five years ago by the joint Student Alliances. Critics believe that the performance this time will be just as excellent as before, judging from the able cast.

The play will probably be given in April, but definite plans in this regard are not yet known.

**Quill Announces Rules and Judges For Play Contest**

**16 Students Now At Work To Produce Drama**

Official announcement of judges and rules for the play-writing contest sponsored by the Hawaii Quill was made recently by Miss Marguerite Louis, President of the club.

The judges selected by Miss Louis are Dr. A. L. Andrews, Dean of the College of Arts and Sciences, Don Blanding, well known poet and artist, and John M. Baker, assistant professor in English at the University, who has had much experience in judging and writing plays.

Miss Floralyn Cadwell, instructor in English and dramatic coach, will receive the plays, which, Miss Louis states, must be typewritten and handed in in a sealed envelope to no one but Miss Cadwell.

**MUST BE "LOCAL"**

The plays must be of a local character and limited to one act of not less than 12 or more than 45 minutes duration, according to Miss Louis. Play writers may judge the time of their play by the length of the manuscript, one typewritten page takes about one minute of acting on the stage, Miss Louis explains.

Speeches in the plays must be double spaced and stage directions single spaced, and the absolute deadline for handing in plays is registration day of the second semester.

A contestant may submit more than one play if he so desires, but not more than five, Miss Louise states.

**WINNERS TO BE ANNOUNCED**

The winners will be announced and the prize of \$25 awarded as soon as the three judges have come to a decision. The best play will probably be put on sometime in the second semester.

**KEEN COMPETITION**

The competition is expected to be keen, as more than 16 students are now at work on a play, and more are expected to participate. Those now at work on a play are: Eve Fleener, Marguerite Louis, B. Buchanan, Gladys Li, Nina Bowman, Lillian Abe, B. Lee, Ruth McLean, B. Newport, Ethel Widdifield, Flora Woodhull, Stowell Wright, Thad Coykendall, Ernest Barr, Guy Cadwell, David Yap and others.

Miss Louis urges all contestants to get their work handed in as quickly as possible, and consult freely any authority on playwriting, except the three judges, if any help is needed.

**Sociology Class Makes Field Trip During Vacation**

**Students Entertained By Residents of Honokaa**

Lloyd R. Killam, instructor in sociology, and his class, who were invited by the Reverend Howard Smith of Honokaa Union Church to give the Honokaa people an opportunity to come into contact with some of the university students, completed a successful field trip to Honokaa during the Christmas recess. They returned on the S. S. Haleakala on January 2nd.

Andrew Lind, who is connected with the sociology department, also made the trip.

**LEAVES ON 27TH**

The party left Honolulu on December 27, 1927, and arrived at Hilo the following morning where friends of the students were waiting to take them to the Kilauea volcano. At Oloa, Shunzo Sakamaki joined the party. Late in the afternoon the visitors were taken to Honokaa, a distance of more than sixty miles.

**HOLD MEETINGS**

During the stay at Honokaa several meetings, both devotional and social, were held with the young people. Among the meetings held, the play, "Two Spectacles," the music given on Friday night, and the impressive watch night service on Saturday night made the best impression on the people of that community. On Sunday, New Year's day, Sunday School classes and services were conducted by the university delegation.

**WELL ENTERTAINED**

The party was well entertained by the people. Japanese "chicken heka" dinners were given by Kameju Hiyaakawa of Paauhau, Miss Oda of Paaulo, and Mr. Kono of Honokaa. Several pleasure jaunts, including the trip to the Kilauea volcano, Rainbow Fall, Waipio Valley, Waimea Plain and the Parker Ranch, Honokaa Mill Camp, Paauhau, and a side trip toward Akaka Fall, were also enjoyed.

**VOTED A SUCCESS**

The trip which was both educational was voted a complete success. The following made the trip: Lloyd R. Killam, Kameju Hayakawa, Lincoln Kanai, Masatoshi Katagiri, Miss Ruth Komuro, Edwin Kuniyuki, Norikazu Muramaru, Siku Ogura, Paul Osumi, Roy Votaw, Ruth Votaw, and Masao Yamada.

**TALKS ON PLAY-WRITING**

A talk on play-writing was given last Friday evening in the University Library seminar room by John M. Baker, assistant professor in English. Those who listened to the talk were: Misses Eva Fleener, Marguerite Louis, Beatrice Buchanan, Lillian Abe, Mr. Blasingame, and Fred Stocks.

Mr. Baker gave some good rules for successful writing of a play, among them being, keeping the speeches of the actors as short as possible, keeping the action moving all the time, and making the actors conform to type, so that they can be recognized by the audience.

### Class Debate Series Begins

Continued From Page 1. records are nil, they may spring a surprise.

**THE SENIORS**  
The Seniors and Juniors are scheduled to debate on Wednesday, January 18. Stowell J. Wright, Richard Kaneko and David Yap are the three members of the Senior team. Wright was one of the contenders in the Berndt Oratorical Contest last year. Yap is a member of Hawaii Union. Kaneko is well known and experienced in oratory, having participated in many oratorical contests.

**JUNIOR TEAM**  
Kam Tai Lee, Joseph Gerdes, and Masao Yamada are the Juniors who compose the Junior team.

Lee won the 1924 prohibition oratorical contest, the Hivama oratorical contest, and was a member of last year's Sophomore team.

Gerdes is a fluent speaker and is clever at refutations.

Masao Yamada was on last year's Sophomore team and he has participated in many plays which require oratorical ability.

The winners of the first clashes will meet in February to determine the championship of the 1928 inter-class debates. The team winning the finals will meet the Hawaii Union men to determine the University of Hawaii championship.

### Notice

The examination schedule for the end of the Semester has been posted on the bulletin board, and the program for next semester is there also.

### Danger Ahead

**N**O MATTER how careful a driver you are, you can't control the other fellow's car.

After the accident, you may find that while the fault was his, you suffer most—physically and financially.

Automobile Insurance won't control the other driver, but it will relieve you of worry when the repair bills, doctor's bills and lawyer's bills come piling in.

Automobile Insurance is a cheap way to save yourself thousands of dollars in law suits. Investigate now.

Insurance Department

### Beginning Class Serves Luncheon

Luncheons, featuring the cooking and serving of meats are being given by the primary class in food preparation, in completion of its first semester's work in cooking under the direction of Mrs. Dora M. Lewis.

The class works in groups of four, half planning, cooking, and serving luncheons, and the other half coming as guests and receiving instruction in the gentle art of being host or hostess.

The first two of these luncheons were served Thursday, January 5, in the upstairs corridor of Hawaii Hall. Two tables were set, each seating four persons. Varicolored hibiscus formed the decorations.

Miss Lucille Ing, Miss Eva Wong, Miss Shizu Midorikawa, and Miss Harue Fuyiyoshi cooked and served luncheon to Miss Anne Akaka, Miss Kiyoko Arita, Miss Chiyoko Miura, and Miss Hoshino.

Miss Lucille Ing was host at the first table, Miss Shizu Midorikawa, hostess, and Miss Chiyoko Miura, waitress.

The other luncheon was cooked and served by Miss Alice Campbell, Miss Dorothy Waldron, Miss Irene Char, and Miss Grace Lam to Miss Beatrice Buchanan, Miss Harriet Good, Miss Catherine Moragne, and Miss Margaret Wolf. At this table Miss Margaret Wolf was host, Miss Harriet Good, hostess, and Miss Irene Char, waitress.

The menu of the luncheons was as follows:

Swiss steak, mashed potatoes, combination salad, hot biscuit, and pineapple fluff. The cooking and serving of meat was the only part of this work which was new to the class, instructions in the preparation of other items on the menu having previously been given.

Two similar luncheons were cooked and served last Tuesday by the half of the class who had been guests at the previous luncheons. Later this class may serve tea to the faculty or other guests.

### Save for the things you want

### Palmer Speaks At Schofield

### Geology of Oahu Is Subject of Talk

Dr. Harold S. Palmer, Professor of Geology at the University, spoke before members and guests of the Women's Reading Club at Schofield on Thursday afternoon. The subject of his talk was "The Geology of Oahu," the first of a series of lectures on the island of Oahu, which are to be given at the club. The Infantry Club where the lecture was given was well supplied with maps.

The lecturer began by giving the audience an idea of the size of the Territory and also compared it to the state of California, which he said is 25 times as large as the Hawaiian Islands. The Island of Oahu with an area of 598 square miles is only one eighth the size of the state of Connecticut, Dr. Palmer explained.

### FORMATION OF OAHU

The constructive elements, he next discussed, saying "that most parts of the island were formed from volcanoes. If this matter is fluid, it flows quietly. This quiet fluid can pour out on low slopes. Another type of lava is known as "ash" which is thrown into the air by gas pressure. While in the air, it freezes and forms into a solid form. It is this type of lava that forms the most part of "Fujiyama."

"The islands are about 13,000 feet below sea level," asserted Dr. Palmer, who went on to say that more than half of all the islands are below the water. "There is a double fissure contributed to building up Oahu and this fissure runs the entire length of the islands."

"The minor elements of construction are coral and algae reef forming a thin veneer over most of the shore line. Also a few sand dunes can be considered a minor element," says Dr. Palmer.

### DESTRUCTIVE ELEMENT

The destructive element was the next topic touched upon by the lecturer. "First the breaking; one piece sinks, this being caused by pressure. Second, the streams carrying sand, etc., widening and deepening their beds, resulting in gulches. Third, the attack of the waves on the shores, but Oahu is protected the best because of its coral reefs which break the attack. The two ranges of mountains on Oahu are formed by 95 per cent volcanic ash, the leeward side being the higher, because the ash caught by the winds is thrown toward that side. If the Waianae and Koolau Ranges were the same age, the latter should be the most eroded, but because the Waianae Range is the more eroded, it is the older of the two.

"Some parts of this island were higher in years passed, especially the Honolulu district, as shown by the wave cuts on the newer formations," he says.

Dr. Palmer closed his talk by saying, "There is very little construction taking place and some day thousands of years hence, these islands will be as small as those in the north."

After the lecture, questions were asked the speaker who answered each, clearing up the difficult points.

### Four U. H. Cadets Qualify in Vacation Shooting Series

Four cadets fired for record at the range during the last vacation; one made expert rifleman, two sharp shooter, and one marksman.

Maitland C. Dease made 230 points out of possible 250, expert; T. R. B. Coykendall made 221 out of 250, sharpshooter; J. M. Huey 218 out of 250, sharpshooter; and V. C. Wightman 210 out of 250.

### 36 TURN OUT

Thirty-six cadets turned out for instruction practice, of whom ten completed their work in firing with the service rifle. All instruction practice firing will be completed until after the Easter holidays. At present anyone interested in firing for record can do as he pleases by first consulting Colonel Clarke.

### HIGH SCORES MADE

Many of the cadets who fired during the vacation have made very high scores and it is hoped by the officers of the military department that the good marksmen will turn out next year for the junior class which competes with all the universities on the mainland for the Warrior of the Pacific trophy presented by the University of Hawaii for the best record made by any college at the summer training camps.

Every cadet had to fire four positions in slow fire and two in rapid fire; prone, sitting, kneeling, and standing in the slow fire, prone and sitting in rapid fire. Ten rounds of ammunition were used by each cadet for each position.

### WATCH KA LEO

The individual scores of the men who fired at the range will be printed in the next issue of Ka Leo.

Takeji Betsui, last year graduate of the University of Hawaii, now enrolled in the medical school at Washington University, was elected vice-president of the Cosmopolitan club of that university.

### U. H. Undertakes Visual Education

The Visual Education department of the University of Hawaii is helping to educate service boys 4000 feet above Hilo at their military camp. The week before Christmas, when time was hanging heavy for those stationed there, two sets of reels were shown. The subject of both pictures were "Forest and Lumber Development."

The only moving picture machine that the camp uses is run by hand, but even with this advantage the boys enjoyed the pictures. As the weather was very depressing with rain falling every evening, the camp members flocked to the "day room," making an audience of about 200. These educational pictures are being shown at the camp about twice a week, and the recreation officer considers them a success in giving the enlisted men a form of enjoyable education.

### TRACK EQUIPMENT

We have a full and complete line.

### Dance Given For Santa Clara Boys

"The best dance yet" was the unanimous opinion of those who attended the Aloha dance given in honor of the visiting Santa Clara football team on the night of January 5 in the Outrigger Canoe Club pavilion at Waikiki.

The pavilion was tastefully decorated with red, white and green streamers, the combined colors of the two universities, by the Misses Anne Moore, Martha Wright, and Nada Stocks.

A large crowd was there and enjoyed the wonderful music played by the Californians.

"Chicken" Auld was the star performer of the evening and gave an interpretive dance which combined the most outstanding features of the hula, siva-siva, charleston, black-bottom, or what have you.

A slight feeling of formality on the part of the Santa Clara boys was dispelled by "Leaping Joseph" Gerdes, who, in a masterful speech which brought tears to the eyes of his audience, told the visitors that every dance was a tag dance as far as they were concerned and that they were to feel at home. The visitors responded very well and the dance became even more enjoyable.

The party broke up at 11:30 o'clock.

### Scholarship Fund Awarded 2 Seniors

Elsie Ting and David T. W. Yap, both seniors, were awarded the scholarship for the year 1928 offered by the Chinese community. Each receives about \$150 by reason of his or her high scholastic standing. This is the third offer made by the Chinese Community Scholarship Fund.

The fund was founded three years ago by William Kwai Fong Yap, who obtained a sum of Three thousand dollars from Chinese merchants and professional men in Honolulu. The fund yields a yearly income of about three hundred dollars to be awarded to three University students of Junior and Senior classes, preferably two men and one woman. The right of granting the scholarship remains with the President and the Deans of the University.

The honor of the first year went to Y. F. Lee and Hardy Lum, while Ah Ho Chun received the award of the second year.

The University of Missouri has a printing plant of its own and the faculty edits a weekly newspaper.

### 25 Men in R.O.T.C. Make Good Record

Twenty-five men in the R.O.T.C. are credited with having made a perfect attendance and discipline record during this semester. They are: R. K. Betsui, H. G. Chang, G. H. C. Choy, A. H. Chun, A. K. Chun, L. Chunn, T. M. Dalshi, A. O. Giles, H. Hamamoto, K. Harada, E. Hosaka, J. J. Jorgensen, J. K. P. Lee, C. T. Lum, E. P. Lydate, T. H. Maeda, R. T. Masuhara, T. Matsushima, A. K. Parker, R. H. Rice, T. F. Tanimoto, E. W. Towse, D. K. Wilson, J. S. F. Wong, and W. T. S. Wong.

Ten of the men are freshmen, five sophomores, three juniors, and seven seniors.

## 'U' Graduate Now in Japan Gives Her Impressions of the Country In Interview

Miss Frances Marian Fox, a graduate of the University of Hawaii, is studying Japanese life in Tokyo. Miss Fox left Honolulu about four months ago on a trip round the world.

### THE JAPANESE YOUTH

In order to observe the true life of the Japanese, she is teaching in Tokyo's "Quartier Latin," and living in the same district. In an interview in the "Japan Times" of Tokyo she gives some penetrating observations. In contrasting the Japanese and the Americans, she says she is impressed by the seriousness of the Japanese youth, and the differences in the relations between young men and women, finding the Japanese less frivolous but more exposed to emotional disturbances which lead to tragedy. This she attributes to the segregation of the sexes in school.

### POVERTY OF JAPANESE

"The desperate poverty of the Japanese people is caused by some fault in the economic system. The effort expended by Japanese laborers is great; they ought to be much better off than they are now.

"The students in the universities are not carefree, exuberant, young men as we find in America. They know the predicament their country is in, and consider things in a more serious light. In them lies the salvation and quite possibly the ruin of the country, too; it all depends on the way they are led," continues Miss Fox.

### SEGREGATION OF SEXES

It is believed by her that the segregation of the sexes in the schools is morally wrong. Because of this she says, "There is no wholesome friendly atmosphere between girls and boys; they are kept wide apart without a chance of ever meeting intimately. This segregation only leads to tragedies such as double suicides and similar affairs. I do not believe a sudden release from the present code of customs would be of any good.

### A BETTER FUTURE

"Japan could start to build up a generation with more normal ideas of relationship between the sexes. When this generation is fully grown you would find a brighter and better nation, with more normal and decent ideas," she concluded.

Miss Fox for many years was a resident of the Kona district on Hawaii. She was a teacher on these Islands before going to Japan. As Hawaii is her home she does not find Japan so strange. She says: "There are many Japanese there, and I have become used to their customs and language, although I still find it difficult to speak."

### HEAVEN HELP THE POOR WORKING GIRL

He was standing at the corner in the blinding pouring rain, and he glanced up as I passed him with a look that showed the pain he had suffered; all his clothing hung in tatters on his frame. Thin and gaunt and almost frozen, yet he stood there brave and game.

All the world had turned against him, bitter had been his defeat. "Friend," I said, "you look quite hungry, let's go have a bite to eat."

He accepted my proposal with a grateful touching smile. Seated in a restaurant he gulped down rations by the pile.

While he ate I sat and watched him. When he'd finished with the meal he said, "Sir, you can't imagine just how grateful I now feel. Let me tell you briefly how I came to be a common bum. Once I was as rich as you are, once I had a god income.

"When I was a Wall street broker I made money in the game. But success made me too careless and 'twas thus my downfall came. I had a chance at General Motors, way above all else it soared. But the advertisements led me, I waited for that d--d new Ford!"

## On Other Campuses

Lincoln, Nebraska.—Because they claim that autos on the campus are the cause of low grades the board of regents of the University of Nebraska is planning to restrict the use of automobiles by the students.

Oregon State Agricultural college has finally dropped the word "Agricultural" from its name, and is now known simply as Oregon State college. Less than 10% of the students are agricultural students.

U. Of Nebraska.—The erection of a new \$300,000.00 building was authorized by the Board of Regents yesterday. The building is to be called Andrew Hall and will be headquarters for the English and dentistry departments.

Stanford University — Additional construction on the Stanford Stadium during the summer has increased its capacity from 70,000 to 87,000 seats.

U. Of California.—The honor spirit at the University of California has been upheld after investigations by the Student Honor Spirit Committee.

Boulder, Col.—During the winter season, approximately 800 tons of coal are consumed every month in the operation of two 410-horsepower boilers that furnish the steam for the university heating system.

Cigarette smoking by women students at Ohio Wesleyan university will be followed by their expulsion from the university.

Boulder, Colorado—University students were arrested and fined for roller skating from their frats to school. It was said that they endangered the pedestrians.

Dr. Monroe E. Deutch, of the University of California, has suggested that a number of small colleges be established in the university for students in their first two years, each with its own living quarters and faculty.

LONDON, England.—(IP)—Oxford and Cambridge universities are said to be planning a new form of inter-collegiate competition. The two universities are making plans to have annual flying contests take place between them. Both schools have their own air squadrons.

The popularity of collegiate baseball in Japan is demonstrated by the arrangement of a home and home schedule between the University of California and Keio University of Japan. Starting next spring the Keio nine will visit Berkeley, and in 1929 the Golden Bears will invade the Flowery Kingdom to play return game.

BOSTON, Mass.—(IP)—Almost 10 per cent of the student body of the Massachusetts Institute of Technology come from foreign countries. Of the 234 foreign students registered at the institute this term, representing 51 nationalities, 42 are of Chinese extraction, and 28 come from Canada. Eighteen students live in Russia, while there are 14 from Mexico and 10 from England.

University of Washington—Of the 6,000,000 young men and women in this country between the ages of 18 and 21, only 750,000 are students in universities and colleges.

CAMBRIDGE, Mass.—(IP)—Doing away with all initiation of freshmen at Harvard is being considered following the attack by the Harvard Crimson on the recent antics of the Hasty Pudding-Institute of 1770 club when it initiated freshmen in Harvard Square.

It is being argued that such initiations are too childish and out of keeping with the dignity of the institution.

APPELTON, Wis.—(IP)—Carl Hoffman, a junior at Lawrence College, has discovered that worms can be made to develop heads on both parts of their body if cut in two, and that if the worm's head is split in two, two heads will develop where one was before.

## \$100 a Year For Women's Clothes Is Real Problem

One hundred dollars only for a young woman's clothes for an entire year, is the problem on which the costume appreciation class in the Household Art Department is working. According to Madame Dahl, a girl who really wants an education and has only limited means, can dress on this amount. With this money she must look well and her clothes chosen so she will never feel "out of place." This class is to consider the styles, number and cost of every type of garment a girl will need.

"Small flowers are worn on all types of clothes, from the simplest street dress to the most elaborate evening gown," writes Madame Dahl's daughter from France. "This does not mean that large flowers are never worn in the evening," Madame Dahl explains.

For the first time, extension work is being offered by the Household Art Department. These courses are offered in order that the city women can have a chance to study "Practical Costume Design" and "Millinery." In the latter course, Madame Dahl will be assisted by Mrs. Lillian Larson, who is very talented in this work.

## 'U' Men Present At 'Y' Leaders' Dinner

More than 40 University men were present at the leaders' dinner given by the United Y. M. C. A. at 1:00 p. m. Sunday, January 8. After the dinner, William D. Westervelt, well-known Honolulu, and F. Tibbetts of New York, who has been connected with the International Committee of the Young Men's Christian Association, gave inspiring talks to the young men who are leading various boys' clubs in the city and in the rural districts.

These University men are interested in the welfare of the community. At present there are more than 120 such clubs with a membership of more than 2000 boys of various nationalities.

CLEVELAND, Ohio.—(IP)—Foreign languages have been dropped from the curriculum of the Cas School of Applied Science here, and in their place have been instituted courses in economics, history and related subjects. The action was taken, according to President C. S. Howe, after several years of consideration as to the value of language courses in scientific institution.

## Quill Magazine Now Published

The long awaited Quill magazine will be finished in time for the members of the club to look it over at their next meeting on Monday night at the home of Miss Olive Day.

"The Quill magazine," says Miss Marguerite Louis, editor of the magazine and President of the Hawaii Quill, the only literary club on the University of Hawaii campus, "is the first literary magazine to be published by the club and one of the first to make use of nothing but original copy."

All material in the book is written by amateurs, and critics have commented very favorably upon it, according to Miss Louis. It has been very tastefully printed and bound in tapa by the Print Shop, and will be placed on sale as soon as approved by the members of the Hawaii Quill.

## Bruin Editor Strikes Blow At 'Joiners'

LOS ANGELES, December 8.—Striking a telling blow to those "joiners" who infest and harm all colleges, James F. Wickizer, editor of the Daily Bruin, in his editorial column, "The Stray Cat," has turned the cleansing light of publicity upon those clubs that exist only to give joiners enjoyment.

Various organizations that meet often enough to "promise" to accomplish something for the good of the Associated Students and then only to decide upon organization badges, are being exposed in this column.

The articles name prominent organizations that have done nothing but run up debts with the year book, disturbed the business of the campus and annoyed the legitimate and sincere organizations.

The series of exposures began after the Press club, campus journalistic society, had decided to disband since it "accomplished nothing" and couldn't fulfill its financial obligations. In disbanding, the Press club expressed the hope that all other campus organizations in a similar predicament would follow their example.

It is better for a frosh to remain silent and be thought a fool than to speak and remove all doubt.—University of Washington.

## Dr. George To Be Here February

Dr. William H. George, who is to take the place recently left vacant by the departure of Dr. K. C. Leebrick, will not arrive in Honolulu until the first of next month, according to the latest advices received by Ka Leo. Dr. Bachman, who is now conducting the classes formerly taken by Dr. Leebrick, stated that he had expected Dr. George to arrive about the middle of this month, but that his latest letter from the new head of the history department stated that it would not be possible for him to arrive here before the first of February, as he still had considerable work at the University of Washington which he had to finish before he could leave to take up duties here.

Here lies the body of William Gray, He died maintaining his right of way. He was right—dead right as he sped along. But He's just as dead as if he'd been wrong.—Oregon State College.

Dabson: "He claims to be related to you and says he can prove it." Dobson: "The man's a fool." Dabson: "That may be a mere coincidence."

Tick, Tock! Merrily ringing, Buzzing so gleefully, Noisily clinking, Rejoicing so happily. Pick it up gently, Toss it a block; A soul lost forever— A dead alarm clock. —"CROM," 31

## Hawaii Quill To Elect Officers

"To Hawaii Quill Officers: There will be an important meeting of Hawaii Quill officers tomorrow night, Friday, January 13, 1928, at 7:30 o'clock, in the Library seminar room.

"It is absolutely imperative that every officer be present; any one absent without adequate excuse will be suspended from office or absolutely impeached.

"The first semester edition of The Quill is ready for you. Editors must be selected for the second semester edition.

"The music for 'Patience' has finally arrived from London. The cast has started practice and regular turn-outs are expected and requested.

"Advertising manager, ticket manager and others must be appointed immediately in order to make it a success.

"Definite conclusions must be made about responsibilities of each individual officer for next semester. We don't want any sleepy or dead officers who have to be aroused or awakened from the dead, so every one is requested, for his own benefit, if for nothing else, to be at the meeting on time tomorrow night, Friday, January 13, at 7:30 o'clock, in the Library seminar room.

"(Signed) MARGARET LOUIS, President Hawaii Quill."
