Welcome message from the Conference Co-Chairs

On behalf of the conference host, UQ Business School, we extend our warmest welcome to all delegates – both from overseas and from within Australia to the Asian Finance Association (Asian FA) International Conference 2009. Thank you for supporting this year's conference despite the difficult economic times. In particular, we thank the keynote speakers, Professor Hendrik Bessembinder of the University of Utah and Professor Alexander Ljungqvist of the New York University, program committee members, including the program chairs Professors Vidhan Goyal and Philip Gray, paper reviewers, colleagues and student helpers, without whom there would be no conference. They have each worked very hard to collectively put the entire program together and to ensuring all details have been well taken care of.

Work on the conference began in earnest in July of last year when the University of Queensland was appointed the host for this year's conference. Tons of emails, phone calls, exchange of ideas, planning, vetting, etc. followed. The real work had begun. Many hours have since been expended, both individually and collectively, in meetings, coordination, logistics, attending to queries, canvassing for sponsorships, invitations to industry professionals, database management, paperwork, attending to the hundreds of e-mails, registrations, hotel, etc. There were deadlines to meet, starting from the call for papers and participation to the printing of the conference program. In between, the logistics of dealing with the various service providers and daily updates of the conference web pages need to be taken care of. We are just glad that everything fell into place at the right time. Without the strong support and tireless efforts of the team at the UQ Business School, this conference would not have been possible. A special "thank you" goes to Karen and Maureen for their web support, the IT team and the admin team at the School for their assistance and, Tracy Artiach for her assistance at the conference. We would also like to thank Jackie and Janine from JK Connections for their efficient handling of the registrations and conference administration.

A big "thank you" goes to the paper reviewers for accepting the job that takes away valuable hours from their own research activities. This year, a total of 330 papers were submitted for the conference. Each paper went through a double-blind review process. Of the submitted papers, 184 (approximately 55%) made it into the final program. The quick turnaround by the reviewers has certainly helped in expediting the process of putting the program together. The work of the reviewers, who play a critical role in the quality of the conference, is therefore very much appreciated.

Running a conference of this nature and magnitude would not have been possible without the generous support of our university and industry partners, including the Australian National University (ANU), Securities Industry Research Centre of Asia-Pacific (SIRCA), Capital Markets Cooperative Research Centre (CMCRC), Queensland University of Technology (QUT), Griffith University, University of Southern Queensland (USQ), Financial Integrity Research Network (FIRN), Maple-Brown Abbott Investment Managers, HKUST Business School, QIC Ltd, and the Melbourne Centre for Financial Studies (MCFS). We also acknowledge the kind support toward the funding of three best paper awards – two from the Sandra Ann Morsilli Pacific-Basin Capital Markets Research Center at the University of Rhode Island and one from the CFA Institute.

We invite you to participate actively in the conference and to explore the beautiful city of Brisbane. We hope that you will have an enjoyable and meaningful conference.

Thank you!

Karen Benson
UQ Business School
The University of Queensland

David K. Ding
Lee Kong Chian School of Business,
Singapore Management University

Greetings from the Asian Finance Association

Welcome to the Asian FA 2009 International Conference. On behalf of the Asian Finance Association (Asian FA), I would like to take this opportunity to welcome all the participants to Brisbane in Queensland, Australia.

The Asian FA was founded in 2003 with the merger of the Asia Pacific Finance Association and Pacific Basin Financial Management Association. Over the last few years, the Asian FA has jointly organised the conferences with the Financial Management Association (FMA). This is the first time that the Asian FA solely organises the conference. As one can imagine, it is not easy to organise an international conference of this scale, especially in the midst of the current global economic turmoil. I would like to express sincere appreciation to the UQ Business School for devoting both manpower and financial resources to organising this conference. I would also thank the donations from the various conference sponsors. Without their generous support the conference would not be possible.

This conference could not have taken place without the contributions of many individuals who put in the time and efforts. Special thanks go to the Conference Co-Chairs Karen Benson and David Ding who have worked tirelessly to make the conference a successful one. The academic program co-chairs Vidhan Goyal and Philip Gray are commended for taking on the difficult task reviewing numerous papers, with the assistance of a long list of reviewers. I must also record the valuable services rendered by the colleagues and student helpers from the UQ Business School and JK Connections in the conference administration and local arrangements.

Just like previous years, the conference organising committee has put in a program that is intellectually invigorating. We have the pleasure to listening to the stimulating talk of the two keynote speakers, Professor Hendrik Bessembinder of the University of Utah and Professor Alexander Ljungqvist of NYU Stern. The theme of the conference is "New knowledge for finance". As the global financial crisis illustrates, there are both outstanding and new issues for the finance academics to explore, ranging from financial regulation, credit products, valuation techniques, risk management, financial market design, compensation policy, to financial market contagion. I expect many papers presented in the conference will shed light on some of the above issues.

I hope that every participant enjoy the fruitful exchange of ideas and the opportunity to meet old friends and new ones. Please also do not forget to take some time to tour the beautiful city of Brisbane.

Kalok Chan
HKUST
President of the Asian Finance
Association, 2008-10

Keynote Addresses

ALEXANDER LJUNGQVIST
Stern Business School,
New York University

**“Monitoring Managers:
Does it Matter?”**
Plenary Session

**Wednesday 1 July,
11.00 – 12.00 - Ballroom A**

Sponsored by: The Australian National University

Alexander Ljungqvist is the Ira Rennert Professor of Finance and Entrepreneurship at New York University’s Stern School of Business. He also serves as Editor of the *Review of Financial Studies*, a Research Fellow of the Centre for Economic Policy Research in London, and a Research Associate of the European Corporate Governance Institute in Brussels. Dr. Ljungqvist received his Master of Science in economics and business from Lund University in Sweden, and his Master of Arts, Master of Philosophy, and Doctor of Philosophy degrees in economics from Nuffield College at Oxford University. Prior to joining NYU in 2000, Dr. Ljungqvist taught at London Business School and Oxford University. He has held visiting appointments at Northwestern University’s Kellogg School of Management, LBS, and the University of Sydney, and he was recently named the Sir Evelyn de Rothschild Fellow at Cambridge University. Dr. Ljungqvist’s primary research areas include financial intermediation, investment banking, initial public offerings, entrepreneurial finance and venture capital, corporate governance, and behavioral corporate finance. Over the past 15 years, Dr. Ljungqvist has consulted widely, including for the European Central Bank, the World Bank, and Deutsche Bank. Between 1995 and 2000, he was a senior consultant with OXERA Ltd, where he advised corporate clients on questions of regulatory economics and corporate strategy. The recipient of several teaching awards, Dr. Ljungqvist teaches an MBA class in new venture financing, a PhD seminar in empirical corporate finance, and executive courses in venture capital, private equity, and investment banking.

HENDRIK BESSEMBINDER
David Eccles School of Business,
University of Utah

“Liquidity and Asset Pricing”

Plenary Session

**Thursday 2 July,
11.00 – 12.00 - Ballroom A**

Sponsored by: Financial Integrity Research Network (FIRN)

Hendrik (Hank) Bessembinder holds the A. Blaine Huntsman Presidential Chair in Finance at the David Eccles Business School of the University of Utah. He completed his Ph.D. in Finance at the University of Washington in 1986, and previously held faculty positions at the Goizueta Business School of Emory University, the Simon School of Business of the University of Rochester and at the Arizona State University College of Business.

Hank’s research and teaching interests include Financial Management, International Finance, Stock Markets, Foreign Exchange Markets, Energy Markets, Trading Costs, Trading Strategies, and Financial Risk Management. His research has been published in the top Finance outlets, including the *Journal of Finance*, the *Journal of Financial Economics*, and the *Review of Financial Studies*. He is Managing Editor of the *Journal of Financial and Quantitative Analysis*, and Associate Editor of the *Journal of Finance*, the *Journal of Financial Economics*, and the *Journal of Financial Markets*.

Hank has taught university courses in corporate finance, investments, financial markets, and financial engineering, at the masters and doctoral levels, having been nominated for and received teaching awards. He has been a consultant to the New York Stock Exchange, Goldman Sachs, Barclay’s Global Investors, Analysis Group, the United States Department of Justice, the United States Securities and Exchange Commission, the Federal Energy Regulatory Commission, and the Commodities Futures Trading Commission, among others.

Special Topic Sessions

WEDNESDAY 1 JULY

1.00 - 1.45

Sponsored by HKUST
Business School

BALLROOM A:

PROFESSOR TOM SMITH

AUSTRALIAN NATIONAL UNIVERSITY

Tom Smith is Professor of Finance, School of Finance and Applied Statistics, College of Business and Economics at the ANU. Before joining the ANU, Tom was Professor of Finance at the Australian Graduate School of Management and prior to that was at the Fuqua School of Business, Duke University, USA. He graduated from the University of Queensland with a Bachelor of Commerce (Honours) and Masters of Financial Management and received his Ph.D. in Finance from Stanford University.

Tom's research interests are in the areas of Asset Pricing Theory and Tests; Design of Markets - Market Microstructure; and Derivatives. His articles have appeared in leading journals including the Journal of Financial Economics, Journal of Finance, Review of Financial Studies, Journal of Financial and Quantitative Analysis, Journal of Business, Journal of Law and Economics, Journal of Accounting Research, Journal of Banking and Finance, Journal of Empirical Finance, Journal of Futures Markets, Journal of Fixed Income and Journal of Portfolio Management.

USING OPTION PRICES TO INFER OVERPAYMENTS AND SYNERGIES IN M&A TRANSACTIONS

Kate Barraclough, Tom Smith and Robert E Whaley

Abstract

Stock price reactions to M&A announcements reflect the market's belief about three distinct pieces of information. First, the announcement reveals new information about the standalone values of the firms involved. Second, the stock price reaction reflects the market's assessment of potential synergies arising from the business transaction. Finally, the stock price reaction also reflects the market's assessment of whether the bidder is overpaying for the target. In this paper we

show how call options written on firms involved in M&A transactions can be used to augment stock prices in uncovering the market's beliefs about bidder overpayment and relative synergies.

BALLROOM B:

PROFESSOR ROBERT FAFF

MONASH UNIVERSITY

Robert Faff is currently Professor of Finance and the Director of Research in the Department of Accounting & Finance at Monash University. He is also currently a Visiting Professor at the University of Leeds, within the Leeds University Business School and a Visiting Professor at the University of Strathclyde (Glasgow). Robert is widely published in numerous refereed international finance and economics journals - most notable among these are the Journal of Financial Economics and the Journal of Business, and also the Journal of Banking and Finance, Journal of Futures Markets, Journal of Financial Research, Financial Review and the Financial Analysts Journal. An article published in the Pacific-Basin Finance Journal (2005), "Ranking Finance Programs in the Asia-Pacific Region: An Update", by Kam Chan, Carl Chen and Peter Lung, assessed the research productivity of 170 Finance Departments at universities based in the Asia Pacific region to rank finance professors based on weighted Journal of Finance - equivalent page counts. According to this measure over the fifteen-year period 1990-2004, Robert ranked number one in the Asia-Pacific region. He is current Editor of Accounting and Finance and past Editor of Accounting Research Journal (1993-2001). Robert has also served as Treasurer of the Accounting Association of Australia and New Zealand (AAANZ) and Treasurer of the Asia Pacific Finance Association (APFA).

DO CREDIT WATCH PROCEDURES AFFECT THE INFORMATION CONTENT OF SOVEREIGN CREDIT RATING CHANGES?

Paula Hill and Robert Faff

Abstract

Very little is known about the effect of credit watch procedures on the market reaction

to credit rating changes. We address this gap in the literature by focusing on credit watch procedures at the sovereign level. Our primary finding is that re-ratings which follow watch procedures are neither more nor less informative, and we conclude therefore that the credit watch procedure does not impact upon the private information of credit rating agencies. In addition we provide evidence on the types of sovereign state for which credit watch procedures are invoked and of the relative activities at the sovereign level of three major rating agencies.

BALLROOM C:

PROFESSOR RENÉE ADAMS

UNIVERSITY OF QUEENSLAND

Renée Adams is Professor of Finance at UQ Business School, University of Queensland and Research Associate at the European Corporate Governance Institute (ECGI). Her research focuses on corporate governance, corporate finance and the economics of organizations. She is the co-author of a forthcoming Journal of Economic Literature survey of the literature on corporate boards with Michael Weisbach and Benjamin Hermalin. Amongst others, she has published in the Journal of Finance, the Journal of Accounting and Economics and the Review of Financial Studies and has a paper forthcoming in the Journal of Financial Economics. She holds a Ph.D. in economics from the University of Chicago and an M.S. in mathematics from Stanford University.

ASKING DIRECTORS ABOUT THEIR DUAL ROLES

Abstract

This paper uses a large survey of directors to investigate their dual roles as advisors and monitors of management. I examine whether the advisory role encourages information exchange between the CEO and directors. I also examine factors influencing directors' perceptions of their roles. The data suggests that directors who primarily monitor are less engaged than

directors who advise, "friendly" directors are more likely to advise, and directors on powerful boards deemphasize their monitoring role. The results are robust to using Heckman selection techniques to address nonresponse bias. The data suggests that monitoring alone may not be sufficient for good governance.

REDLANDS ROOM:

PROFESSOR SUDIPTO DASGUPTA

HONG KONG UNIVERSITY OF SCIENCE AND TECHNOLOGY

Sudipto Dasgupta is a Chair Professor at the Department of Finance of the Hong Kong University of Science and Technology, where he has been since 1993. Prior to that, he was at the University of Southern California. Professor Dasgupta is also the Director of the Center for Asian Financial Markets and he is one of the Editors of the International Review of Finance. His research interests are in corporate finance and applied microeconomics.

THE POWER ISSUE IN EMPIRICAL CAPITAL STRUCTURE RESEARCH

Abstract

The empirical literature in capital structure research over the last 10 years has debated which theories best explain firms' financing behavior. However, the empirical tests developed, for the most part, lack statistical power, that is, a failure to reject the null hypothesis when it is wrong. We provide several examples of this, and argue that empirical capital structure research needs to return to the question of why it is important for firms to have the right capital structure. The recent financial crisis should provide opportunities in this regard.

**THURSDAY 2 JULY – 4.00 – 5.30
BALLROOM A**

“Australia as a Finance Hub”

*Sponsored by: QIC Ltd and Melbourne
Centre for Financial Studies (MCFS)*

QIC

**MELBOURNE CENTRE
FOR FINANCIAL STUDIES**

Chair: Professor Deborah Ralston, MCFS

Panel Members:

Professor Tim Brailsford, UQ Business School
Mr Tim Crommelin, ABN AMRO Morgans Ltd
Mr Mark Johnson, Chair, Australian Financial
Centre Forum

Professor Deborah Ralston

Deborah Ralston, is a Professor of Finance at Monash University and is the Director of Melbourne Centre for Financial Studies (MCFS). Prof Ralston was formerly a Pro Vice Chancellor and Professor of Finance at University of Canberra, and has held a number of other senior academic appointments. Deborah’s research interests include financial regulation, the strategy and management of financial institutions, and regional economic development and she has published widely in these areas. Prof Ralston is a Fellow of the Financial Services Institute of Australasia (Finsia), the Australian Institute of Company Directors, and CPA Australia. She is currently a Director of Mortgage Choice, an ASX listed mortgage broking company.

Professor Tim Brailsford

Professor Brailsford is the Frank Finn Professor of Finance at the University of Queensland. Prior to this appointment, Tim was the Foundation Head & Dean of the UQ Business School, Dean of the Faculty of Economics & Commerce at the Australian National University in Canberra. Tim’s area of expertise is investments, corporate finance and financial management. He has published a number of books and research monographs and over 50 research papers. Tim’s expertise crosses into industry. He sits on several boards and is a member of the investment committee of an industry fund. Tim is also a regular consultant and advisor to industry and government, particularly in the field of investment management and valuation. Tim is an active contributor to the profession and has served on a number of professional committees, including CPA Australia, past President of the Accounting and Finance Association of Australia & New Zealand, and is currently the President of the Australian Business Deans Council. He also serves AACSB International and is the current Chair of their Initial Accreditation Committee and also sits on the Global Board of the European Foundation for Management Development. Tim was awarded a Prime Minister’s Centenary Medal in 2003 for his contributions.

Mr Tim Crommelin

Mr Crommelin is Chairman Stockbroking at ABN AMRO Morgans Limited and was General Manager of the Girdis Group of Companies (Property Development and Investment) before joining Morgan Stockbroking Limited (now ABN AMRO Morgans) in 1986. He is a Fellow of Land Economists (F.S.L.E), Fellow of the Securities Institute of Australia (F.S.I.A) and Trustee, Queensland Division of Committee for Economic Development of Australia. Mr Crommelin serves on the following boards: Deputy Chairman CS Energy Limited; Board of Trustees of Brisbane Grammar School; Director, Board of the Australian National University Superannuation Investment Committee; Director Abney Hotels Limited; Director Australian Cancer Research Foundation and Director Opcom Limited.

Mr Mark Johnson

Mr Johnson is Chairman of AGL Energy and Chairman of Macquarie Infrastructure Group. He retired as Deputy Chairman of Macquarie Bank in July 2007, after a career of more than forty years in banking and corporate finance. Mr Johnson is one of the three Australian members of the APEC Business Advisory Council (ABAC) since 2002, and he was Chairman of ABAC and the APEC Business Summit in Sydney in 2008. He was Chairman of the Australian Strategic Policy Institute from 2005 to 2008. Mr Johnson is a member of the Board of Governors of the Institute for International Trade at the University of Adelaide, and a Life Governor of the Victor Chang Cardiac Research Institute.
