SITI Explains: IT Project Management

Monday, April 15th, 5:30 PM to 7:00 PM
Des Moines

Project management in the IT world has unique challenges. PMI certified project manager John Bridenstine of AURA Consulting will lead a panel discussion of these challenges and some new approaches for IT project management. This event is ideal for both those new to project management and established project managers. Panelists will include Nate Fagen, a professor with DMACC, and Dino Lack, president of AURA Consulting. Seating is limited. Member, \$7; non-member, \$10. [RSVP](#) required.

Extreme Programming in a Large J2EE Environment

[Central Iowa Java User's Group \(CIJUG\)](#)

Tuesday, April 9th, 6:00 PM to 7:30 PM
Johnston

To effectively build J2EE applications, you need more than just an ad hoc development process. Traditional methodologies work out to be too rigid and slow to work in the compressed timeframes that we see today. As a result, many organizations have been experimenting with the ideas that grew out of the C3 project at Chrysler under the name XP (Extreme Programming). Originally conceived as a set of disciplines for software development on small projects, XP has matured and grown to include ideas about project planning, tracking and delivery. The application of XP to larger Java enterprise developments has been relatively unexplored. Led by Cara Taber of Thoughtworks, this session will cover aspects of testing, paired programming, documentation, and delivery.

SITI Annual Meeting

Friday, April 12th, 6:00 PM to 11:00 PM
West Des Moines

[SITI's](#) Annual Meeting is scheduled for April 12th. Speakers include industry leaders and Iowa Governor Vilsack. Attendees will have the opportunity to network, have a great dinner, and enjoy the blues and beyond sound of the Instigators. Member, \$40; non-member, \$50. [RSVP](#) required.

Microsoft Government Get Secure, Stay Secure RoadShow

Tuesday, April 16th, 9:00 AM to 12:00 PM
Des Moines

Learn the latest from Microsoft's security experts-who are committed to helping you Get Secure: Stay Secure. Includes information about securing Outlook and Exchange. [RSVP](#) required.
