Hot Lotto Sizzler Triples Prizes

Now players may add the Hot Lotto Sizzler to their play for an extra \$1, similar to the Power Play in Powerball.

Players who purchase a Hot Lotto Sizzler ticket and win a prize will have that prize, except the jackpot, multiplied by three. A \$500 prize will be worth \$1,500 and a \$10,000 prize will be worth \$30,000! See the chart below for more information.

Retailers will see a message pop up on the Extrema terminal screen when a

Hot Lotto purchase is made asking whether the player wants to add the Hot Lotto Sizzler. The Hot Lotto Sizzler is a permanent addition to the Hot Lotto game.

Always ask the player if they would like to add the Hot Lotto Sizzler.

Players Can Use Gift Cards for Lottery Products

In this post-holiday season, retailers no doubt are seeing a lot of gift cards being used to pay for merchandise.

Gift cards sold by a retailer for products in its stores may be used to pay for lottery products. However, players may not use credit cards or pre-loaded gift cards issued by credit card companies to pay for lottery products.

Players may also use debit cards to buy lottery prod-

ucts, but clerks should verify with players which type of card they have to avoid confusion. Some cards are combination credit cards and debit cards.

If a lottery player hands you a card, it's important that you ask the player which kind of card they are using before you make the transaction.

Three symbols are printed under each tab. Check all five tab areas. If three consecutive symbols printed vertically or diagonally under any of the tabs match identically any of the winning combinations shown on the ticket front, the player wins the corresponding prize.
