

## **ABSTRACT**

Industrial Revolution in England caused many bad effects at the environment and the people especially children. This situation pushed tem to work in the workhouse. It was very common at that time to see many young children worked at the workhouse. They had to work very hard but with little rest and food. These all conditions are reflected in Oliver Twist Novel by Charles Dickens. This story is about Oliver Twist's struggle from the cruel society in the Industrial Revolution era.
