

ABSTRACT

More and more non-Chinese ancestry Indonesian begin to learn Chinese, some of them even choose Chinese as their major in University. The survey of four major Chinese departments in Jakarta shows that intrinsic motivation is the most important motivation of Chinese studying. Interests and passion to Chinese language and culture encouraged the non-Chinese ancestry Indonesian students to study Chinese. To assist them overcome their difficulties in studying is very important for Chinese education in Indonesia.

Keywords: *motivation, non-Chinese ancestry Indonesian, Chinese, intrinsic motivation, interest*

内容提要

随着中国综合国力的增强，中文在国际上的地位不断提升，因而催生了世界范围的“中文热”。印度尼西亚华人众多，随着中文限制的解除，中文学习者人数与日俱增。近年来，印尼非华裔汉语学习者的数量也大幅增加，甚至有不少非华裔大学生选择中文作为自己的专业。华裔学生学习中文总是与身为华人的使命感紧密相连。非华裔学生学习中文动机是什么？带着这一疑问，笔者选取了雅加达地区四所具有代表性的大学，对其中文系非华裔学生学习中文动机进行调查。文章结合了雅加达主要大学中文系介绍，依托学习动机理论对问卷结果进行整理分析。调查结果表明，非华裔大学生学习中文多为内部动机，兴趣是学习中文的主要推动力。这与华裔学生受使命感驱使有较大不同。

关键词：学习动机、非华裔、中文、内部动机、兴趣
