Corrigendum to

"Impact of seawater pCO_2 on calcification and Mg/Ca and Sr/Ca ratios in benthic foraminifera calcite: results from culturing experiments with *Ammonia tepida*" published in Biogeosciences, 7, 81–93, 2010

D. Dissard¹, G. Nehrke¹, G. J. Reichart^{1,2}, and J. Bijma¹

In the paper "Impact of seawater *p*CO₂ on calcification and Mg/Ca and Sr/Ca ratios in benthic foraminifera calcite: results from culturing experiments with *Ammonia tepida*" by D. Dissard et al. (Biogeosciences, 7, 81–93, 2010) the following acknowledgements were forgotten.

Acknowledgements. This work was supported by the German Research Foundation (DFG) under Grant No. BI 432/4-2 ("PaleoSalt"), under Grant No. BI 432/6-2 ("BioCalc"), and by the European Science Foundation (ESF) under the EUROCORES Programmes EuroCLIMATE and EuroMinScI, respectively, through Contract No. ERAS-CT-2003-980409 of the European Commission, DG Research, FP6. We would like to thank the three anonymous reviewers for improving the manuscript significantly and Lennart de Nooijer for helpful comments on an earlier version of the manuscript. We thank Gijs Nobbe and Paul Mason for technical support with LA-ICP-MS and Beate Mueller (formally Hollmann) for assistance with the culture experiments. We thank Anja Terbruggen for measuring DIC samples, and Stephan Frickenhaus for his help regarding statistical issues.
