Erratum / Clarification

Erratum: Brandon Luedtke,

Dividing Antarctica: the work off the Seventh International Geographical Congress in Berlin 1899

Polarforschung 80 (3), 173-180, 2010 (erschienen 2011)

There was an error on page 174, column 1, lines 49-50:

The sentence: "... that both **collaboration and cooperation** influenced the inception of the Antarctic program, and it will navigate the ebbing, and flowing of those sentiments. ...", should properly read:

"... that both **competition and cooperation** influenced the inception of the Antarctic program, and it will navigate the ebbing and flowing of those sentiments."

The author would like to apologize for this mistake and any confusion it caused.
