

A survey related to 3D property

Abstract

A questionnaire survey was carried out on 114 personnel from government authorities and professional companies administering cadastre registration in Penang, Selangor, Kuala Lumpur, Putrajaya and Johore. The aim of the study was to elicit the opinions of the respondents and to appraise their understanding on five study areas, viz. land legislation, land administration, cadastre registration, and cadastral survey and mapping issues. The respondents were from State Lands and Mines Office, State District Land Office, Department of Survey and Mapping Malaysia, Department of Director General of Lands and Mines Office, State Local Authority and Licensed Land Surveyors.
