ABSTRAC

Vocabulary is one of the important points of English learning. It is one of the language components and as a base of a language. That is why vocabulary building should be given to children. Getting much vocabulary is better because they will have stronger base in learning and simple vocabulary is the best choice for children (colour, number, fruit and so on).

In addition, in teaching learning process, an English teacher for the elementary level is plays a very important role, because he/she is the most influential person in the classroom. They can support the success of the teaching and decisions to be made. Each decision involved a challenge to the skills or accessing a new situation and coming up with new problems. Furthermore, the efficiency of the use of media depend on how well a teacher determined and manipulated the good media for children.
