

PAPERS OF THE
INSTITUTE FOR THERMAL SPRING RESEARCH
OKAYAMA UNIVERSITY

No. 45

March, 1976

CONTENTS

ORIGINAL PAPERS	Page
Koichi TAZAKI : Micromorphology of dendritic titanaugite	1
Keiko ITO : The effect of radioactive thermal bathing upon catecholamines of the whole brain of male mice	7
Kazue TAZAKI : Scanning electron microscopic study of formation of gibbsite from plagioclase — The clay minerals in the Daisen loam and the Sambesan loam, Part 8	11
Katsushi FURUNO and Masaaki MIFUNE : Studies on lithium in the field of balneology — Effects of lithium salts on analgesic activity of aminopyrine	25
REVIEW	
Hiroji HONMA : Genetic relationship between the Hiroshima and Ryoke granites as indicated by some geochemical evidence	33
DATA	
Taeko INOUE and Hiroshi MORINAGA : On climatology in Misasa Spa (fourth report)	47
Hiroji HONMA and Hitoshi SAKAI : Oxygen isotopic data and description of rocks of the Yanai district in the Ryoke belt, Japan	69
