Context for why we are doing the mini assignment analysis?

- Assumption that students have information literacy skills – pull in information literacy stats? PIL?
- Something else cool that we can briefly mention?
- Maybe mention bottlenecks? Or some of the content from the first assignment design workshop powerpoint

SAMPLE RESEARCH ASSIGNMENT

Analyze the assignment using the following criteria:

1. What is the instructor **asking their students to do?**
2. Where do they **explicitly explain how to do that?**
3. Does the instructor provide a chance for them **to practice those skills?**
4. Is there an opportunity for **peer or instructor feedback?**
