

Developing an oral bait for badger vaccination: factors influencing bait disappearance and behavioural responses

Submitted by

Lucy Grove Borde,

to the University of Exeter as a dissertation for the degree of
Masters by Research in Biosciences,
October 2011.

This dissertation is available for Library use on the understanding that it is
copyright material and that no quotation from the dissertation may be published
without proper acknowledgement.

I certify that all material in this dissertation which is not my own work has been
identified and that no material has previously been submitted and approved for
the award of a degree by this or any other University.
