Outline

- The Partners in Information Access for the Public Health Workforce Collaboration
- PHPartners.org: Portal to Public Health Information
 - Target audience and link selection
 - Public health topic pages
 - General public health resources
- Healthy People 2020 Structured Evidence Queries
- Tools and tips for using PHPartners.org
 - Search tips
 - Keeping up with what's new in the field
 - Access from mobile devices

Public Health Partners

- Partners in Information Access for the Public Health Workforce (PHPartners)
 - Public Health Organizations
 - Federal Government Agencies
 - Health Science Libraries
- Founded in 1997
- Mission: To help the public health workforce find and use information effectively to improve and protect the public's health.
- Website: PHPartners.org

Partners in Information Access for the Public Health Workforce

- Agency for Healthcare Research and Quality (AHRQ) 
- American Public Health Association (APHA) 
- Association of Schools & Programs of Public Health (ASPPH) 
- Association of State and Territorial Health Officials (ASTHO) 
- Centers for Disease Control and Prevention (CDC) 
- Health Resources and Services Administration (HRSA) 
- Medical Library Association (MLA) 
- National Agricultural Library (NAL) 
- National Association of County and City Health Officials (NACCHO) 
- National Association of Local Boards of Public Health 
- National Library of Medicine (NLM) 
- National Network of Libraries of Medicine (NN/LM) 
- Public Health Foundation (PHF) 
- Society for Public Health Education (SOPHE) 

The screenshot shows the PHPartners.org website. At the top left is the logo: a cluster of colorful hexagons (yellow, blue, green, purple) next to the text "Partners in Information Access for the Public Health Workforce". Below the logo is the tagline "A collaboration of U.S. government agencies, public health organizations and health sciences libraries". A search bar with the text "Search PHPartners" and a "Go" button is on the right. Navigation links include "Home", "News", "About Partners", "Contact Us", "Sitemap", "FAQ", and "Suggest Link".

Our Mission
Helping the public health workforce find and use information effectively to improve and protect the public's health

Public Health Topic Pages

In the Spotlight
Cultural Competence Resources for Health Care Providers

Partners:

Agency for Healthcare Research and Quality (AHRQ) ♦ American Public Health Association (APHA) ♦ Association of Schools and Programs of Public Health (ASPPH) ♦ Association of State and Territorial Health Officials (ASTHO) ♦ Centers for Disease Control and Prevention (CDC) ♦ Health Resources and Services Administration (HRSA) ♦ Medical Library Association (MLA) ♦ National Agricultural Library (NAL) ♦ National Association of County and City Health Officials (NACCHO) ♦ National Association of Local Boards of Health (NALBOH) ♦ National Library of Medicine (NLM) ♦ National Network of Libraries of Medicine (NN/LM) ♦ Public Health Foundation (PHF) ♦ Society for Public Health Education (SOPHE) ♦

- One-stop portal for public health information
- Components include:
 - Current news
 - PH topic pages
 - Data, tools & statistics
 - Conferences/webinars
 - Jobs & careers
 - Reports, guidelines and more!
- Updated daily
- Quality guidelines with strict selection criteria

The screenshot shows the PHPartners.org website. At the top left is the logo: a cluster of colorful hexagons followed by the text 'Partners in Information Access for the Public Health Workforce'. Below the logo is the tagline 'A collaboration of U.S. government agencies, public health organizations and health sciences libraries'. A search bar with the text 'Search PHPartners' and a 'Go' button is on the right. Navigation links include 'Home', 'News', 'About Partners', 'Contact Us', 'Sitemap', 'FAQ', and 'Suggest Link'. The main content area is divided into several sections: 'Our Mission' (Helping the public health workforce find and use information effectively to improve and protect the public's health), 'Public Health Topic Pages' (listing categories like Bioterrorism, Dental Public Health, Environmental Health, HIV/AIDS, and How to Access Journal Articles), 'Main Topic Pages' (listing categories like Health Promotion and Health Education, Literature and Guidelines, and Health Data Tools and Statistics), 'Current Public Health News' (featuring articles such as 'NIH Scientists Draw Evidence-Based Blueprint for HIV Treatment and Prevention', 'Male and Female Drinking Patterns Becoming More Alike in the U.S.', 'Nearly Half of States Score 5 or Lower Out of 10 on Substance Misuse Prevention Report Card', 'NACCHO Launches Fracking Project with Associated Webpage and Resources', and '10 Percent of US Adults Have Drug Use Disorder at Some Point in Their Lives'), 'Get the Latest Information on Public Health Topics of Interest' (with an email update sign-up form and RSS/share options), 'In the Spotlight' (highlighting 'Cultural Competence Resources for Health Care Providers'), and several featured banners for 'Practice Informed by Research', 'Public Health Information and Data Tutorial', 'Disaster Lit: The Resource Guide for Disaster Medicine and Public Health', 'VitalSigns', and 'Against the Odds'. At the bottom, a red banner reads 'THIS IS PUBLIC HEALTH. thisispublichealth.org'. A red-bordered box at the very bottom lists the partner organizations.

Partners:

Agency for Healthcare Research and Quality (AHRQ) ♦ American Public Health Association (APHA) ♦ Association of Schools and Programs of Public Health (ASPPH) ♦ Association of State and Territorial Health Officials (ASTHO) ♦ Centers for Disease Control and Prevention (CDC) ♦ Health Resources and Services Administration (HRSA) ♦ Medical Library Association (MLA) ♦ National Agricultural Library (NAL) ♦ National Association of County and City Health Officials (NACCHO) ♦ National Association of Local Boards of Health (NALBOH) ♦ National Library of Medicine (NLM) ♦ National Network of Libraries of Medicine (NN/LM) ♦ Public Health Foundation (PHF) ♦ Society for Public Health Education (SOPHE) ♦

- One-stop portal for public health information
- Components include:
 - Current news
 - PH topic pages
 - Data, tools & statistics
 - Conferences/webinars
 - Jobs & careers
 - Reports, guidelines and more!
- Updated daily
- Quality guidelines with strict selection criteria

PHPartners.org Target Audience: the Public Health Workforce

- Public health practitioners at local, state & federal levels
 - Managers and program directors
 - Health educators
 - Public health nurses
 - Environmental health specialists
 - Preventive medicine specialists
 - Community health workers
 - Emergency preparedness and disaster responders
- Librarians and health information specialists
- Health policy makers, legislators, public officials
- Researchers and students

Selection of Resources

- Authority – credible author or producer
- Appropriateness – targeted to the public health workforce
- Quality – accurate, well-organized content
- Access & Reliability - links are maintained
- Currency – up-to-date information
- Purpose – aims clearly identified
- Sponsorship – funding organizations identified

Suggest a Link

We particularly invite suggestions for links to government and non-profit organizations that serve as gateways to information on a variety of topics related to public health. When suggesting a new link from PHPartners.org to another site, please consider that site's enduring value and the frequency with which it is updated. PHPartners.org does not normally include links to commercial products or services. PHPartners.org acknowledges that a site with valuable information may also contain information on commercial products or services, however, acceptance of a link does not imply that PHPartners.org endorses any commercial product or service contained in the link. To submit a link for consideration please complete the following:

Site title:

URL:

Description of the site:

You may enter up to 1500 characters. characters left

Sponsoring Organization:

Main Category:

Your name:

Your E-mail:

Does the site offer any product or service for sale? No Yes

You must solve the equation before submitting the form.
8-1 =

Suggest:

- Links to resources
- News and announcements
- Upcoming webinars and meetings

- Items are included in PHPartners email updates & RSS feeds

Nutrition News

[USDA Report: Climate Change Likely to Impede Progress on Global Food Security](#) - 02-DEC-2015

A new report released by the U.S. Department of Agriculture (USDA) that examines global food security and its implications for the United States says climate change is likely to impede progress on reducing undernourishment around the world in the decades to come.

[FDA Takes Action to Protect Consumers from Potentially Dangerous Dietary Supplements](#) - 18-NOV-2015

The U.S. Food and Drug Administration, in partnership with other government agencies, has announced the results of a yearlong sweep of dietary supplements to identify potentially unsafe or tainted supplements.

[USDA Awards \\$34.3 Million to Support Communities' Local Foods Infrastructure, Increase Access to Fruits and Vegetables](#) - 05-OCT-2015

Agriculture Secretary Tom Vilsack has helped to kick off the nation's harvest season by announcing nearly \$35 million in new funding through four grant programs to support local and regional food systems, including farmers markets.

[Return to Top](#) 

Associations and Organizations

Federal

[CDC Division of Nutrition, Physical Activity and Obesity](#)

The mission of CDC's Division of Nutrition, Physical Activity and Obesity is to lead strategic public health efforts to prevent and control obesity, chronic disease, and other health conditions through regular physical activity and good nutrition. (Centers for Disease Control and Prevention (CDC))

[FDA Food Safety](#)

Food safety resources from the FDA. (Food and Drug Administration (FDA))

[Food and Nutrition Service \(FNS\)](#)

FNS increases food security and reduces hunger in partnership with cooperating organizations by providing children and low-income people access to food, a healthy diet, and nutrition education in a manner that supports American agriculture and inspires public confidence. (United States Department of Agriculture (USDA))

[NIH Office of Nutrition Research](#)

The Division of Nutrition Research Coordination (DNRC) advises the National Institutes of Health (NIH) Director on nutrition research issues and works with the NIH organizational components to coordinate nutrition research and research training initiatives. (National Institute of Diabetes and Digestive and Kidney Diseases, NIH (NIDDK))

[Office of Dietary Supplements \(ODS\)](#)

The mission of ODS is to strengthen knowledge and understanding of dietary supplements by evaluating scientific information, stimulating and supporting research, disseminating research results, and educating the public to foster an enhanced quality of life and health for the U.S. population. (National Institutes of Health (NIH))

[Council of State and Territorial Epidemiologists Releases Healthcare-Associated Data Analysis Infections Toolkit](#) - 30-NOV-2015

The Council of State and Territorial Epidemiologists has released the Healthcare-Associated Infections (HAI) Data Analysis and Presentation Standardization Toolkit, which defines best practices, recommended methods, and example data tables for state and local health department HAI programs to present HAI data to both technical and consumer audiences.

[Big Cities Health Coalition Releases Big Cities Health Inventory](#) - 19-NOV-2015

The Big Cities Health Coalition, an independent initiative of NACCHO, has released an interactive data platform and report that examines data for 26 cities across 34 health indicators. (National Association of County and City Health Officials (NACCHO))

[New: Vital Statistics Rapid Release \(VSRR\) Program](#) - 26-OCT-2015

The National Center for Health Statistics (NCHS) has launched a new Vital Statistics Rapid Release (VSRR) program, which provides access to timely vital statistics for public health surveillance on a quarterly basis. In the recent pilot release of the Quarterly Provisional Estimates, NCHS presents data on death rates for seven selected causes of death during 2013 through the first quarter of 2015.

[ICD-10 Master Mapping Reference Table Available to Assist with Public Health Surveillance Activities](#) - 13-OCT-2015

The upcoming ICD-9/ICD-10 transition will have a significant impact on public health surveillance systems and activities that involve coded clinical data. The CDC has worked with clinicians and public health professionals to develop ICD-9 to ICD-10 translations based on conceptual mapping for 140 syndromes arranged into 16 broader syndrome groupings.

[HHS Publishes a Roadmap to Advance Health Information Sharing and Transform Care](#) - 07-OCT-2015

The Department of Health and Human Services' Office of the National Coordinator for Health Information Technology (ONC) has released the final Connecting Health and Care for the Nation: A Shared Nationwide Interoperability Roadmap.

Chronic Disease GIS Exchange

An online forum for showcasing maps of heart disease, stroke, and other chronic diseases, GIS techniques and accessing a wide range of chronic diseases, inform and guide policy and program development programs, especially within chronic disease units. (Centers

Community Commons

An interactive mapping, networking, and learning utility for the broad-based healthy, sustainable, and livable communities movement. Users have access to all kinds of tools and information. One highlight is the searchable profiles of hundreds of place-based community initiatives (multi-sector collaboratives) working towards healthy/sustainable/livable/equitable communities

Community Health Maps

Provides information about low cost mapping tools that can be used by community organizations. (National Library of Medicine (NLM) U.S.)

Diabetes State Atlas

Interactive tool to view maps and charts of diabetes data and trends at the U.S. state level. Features include 1) customizable maps and graphics of diabetes surveillance data; 2) an interactive application to view state-specific trends by age and sex; and 3) downloadable maps, charts, and data tables that can be used in grant applications, reports, articles, and publications. (Centers for Disease Control and Prevention (CDC))

Flu Vaccination Map

Mapping tool for researchers, providers, and health care workers to track influenza (flu) vaccination claims rates of Medicare beneficiaries in real-time. It includes information for every county and zip code in the United States. (Department of Health and Human Services (HHS) U.S.)

Global Burden of Diseases (GBD) Data Visualizations

Analyze the world's health levels and trends from 1990 to 2013 in this revamped interactive tool. Use treemaps, maps, arrow diagrams, and other charts to compare causes and risks within a country, compare countries with regions or the world, and explore patterns and trends by country, age, and gender. (Institute for Health Metrics and Evaluation (IHME), University of Washington)

HealthLandscape

Interactive web-based mapping tool that allows health professionals, policy makers, academic researchers, and planners to combine, analyze and display information in ways that promote better understanding of health and the forces that affect it. The tool can be used to create maps from publicly available data sets including regional criminal justice, education, healthcare, and demographic data, allowing users to discover community characteristics and share information with health professionals, policy makers, and legislators. (Health Foundation of Greater Cincinnati)

HealthMap

Global disease alert map that brings together disparate data sources for a comprehensive view of the current global state of infectious diseases and their effect on human and animal health. Data is presented by disease and displayed by location with links to disease details. (Boston Children's Hospital)

[Equity, Diversity, and Inclusion Training Institute](#) - 17-NOV-2015

December 16, 2015, Washington, DC. This one-day training will develop your knowledge and skills to apply equity, diversity, and inclusion, professionally and personally. Participants in the training will leave prepared to decide and act more equitably through policies, programs, and practices. This interactive and dynamic training is designed for professionals from all disciplines, sectors, and career stages. Whether you are new to equity, diversity, and inclusion or already addressing equity in your work, this training will give you knowledge, skills, and tools to make a greater impact. (CommonHealth ACTION)

[TRAIN Reaches Million Learner Milestone](#) - 29-OCT-2015

TRAIN, the nation's premier learning network for professionals who protect the public's health, just reached one million learners. Launched in 2003 by the Public Health Foundation (PHF), the TRAIN learning network provides health professionals with access to thousands of free trainings in more than 60 subject areas.

The *Public Health Information and Data Tutorial* provides instruction for members of the public health workforce on issues related to information access and management. There are no copyright restrictions on the contents of this tutorial and users are free to adapt or duplicate any portion.

The contributors and authors of this tutorial's content represent city, county, state and federal agencies. They establish clear connections to recognized competencies in public health and provide examples representing much of the diversity inherent in the practice of public health.

Learning objectives:

- Stay informed of developments and events related to public health;
- Find reliable and authoritative consumer-oriented materials to support health education;
- Retrieve statistical information and access data sets relevant to public health; and
- Retrieve and evaluate information in support of evidence-based practice.

This tutorial is based on *Public Health Information and Data: A Training Manual*. The manual is no longer maintained and is now out-of-date. The manual has been archived and is available upon request using the [Contact Us](#) form.

For additional training opportunities, contact the National Network of Libraries of Medicine at 1-800-338-7657 or <http://nnlm.gov>.

Disaster Lit: The Resource Guide for Disaster Medicine and Public Health

Public Health Workforce

Use of Mobile Technology Tools

Mobile Technology Tools	All Local Health Departments	Size of Population Served		
		<50,000	50,000-499,999	500,000+
Smartphones	91%	86%	97%	98%
Electronic Tablets	48%	40%	55%	75%

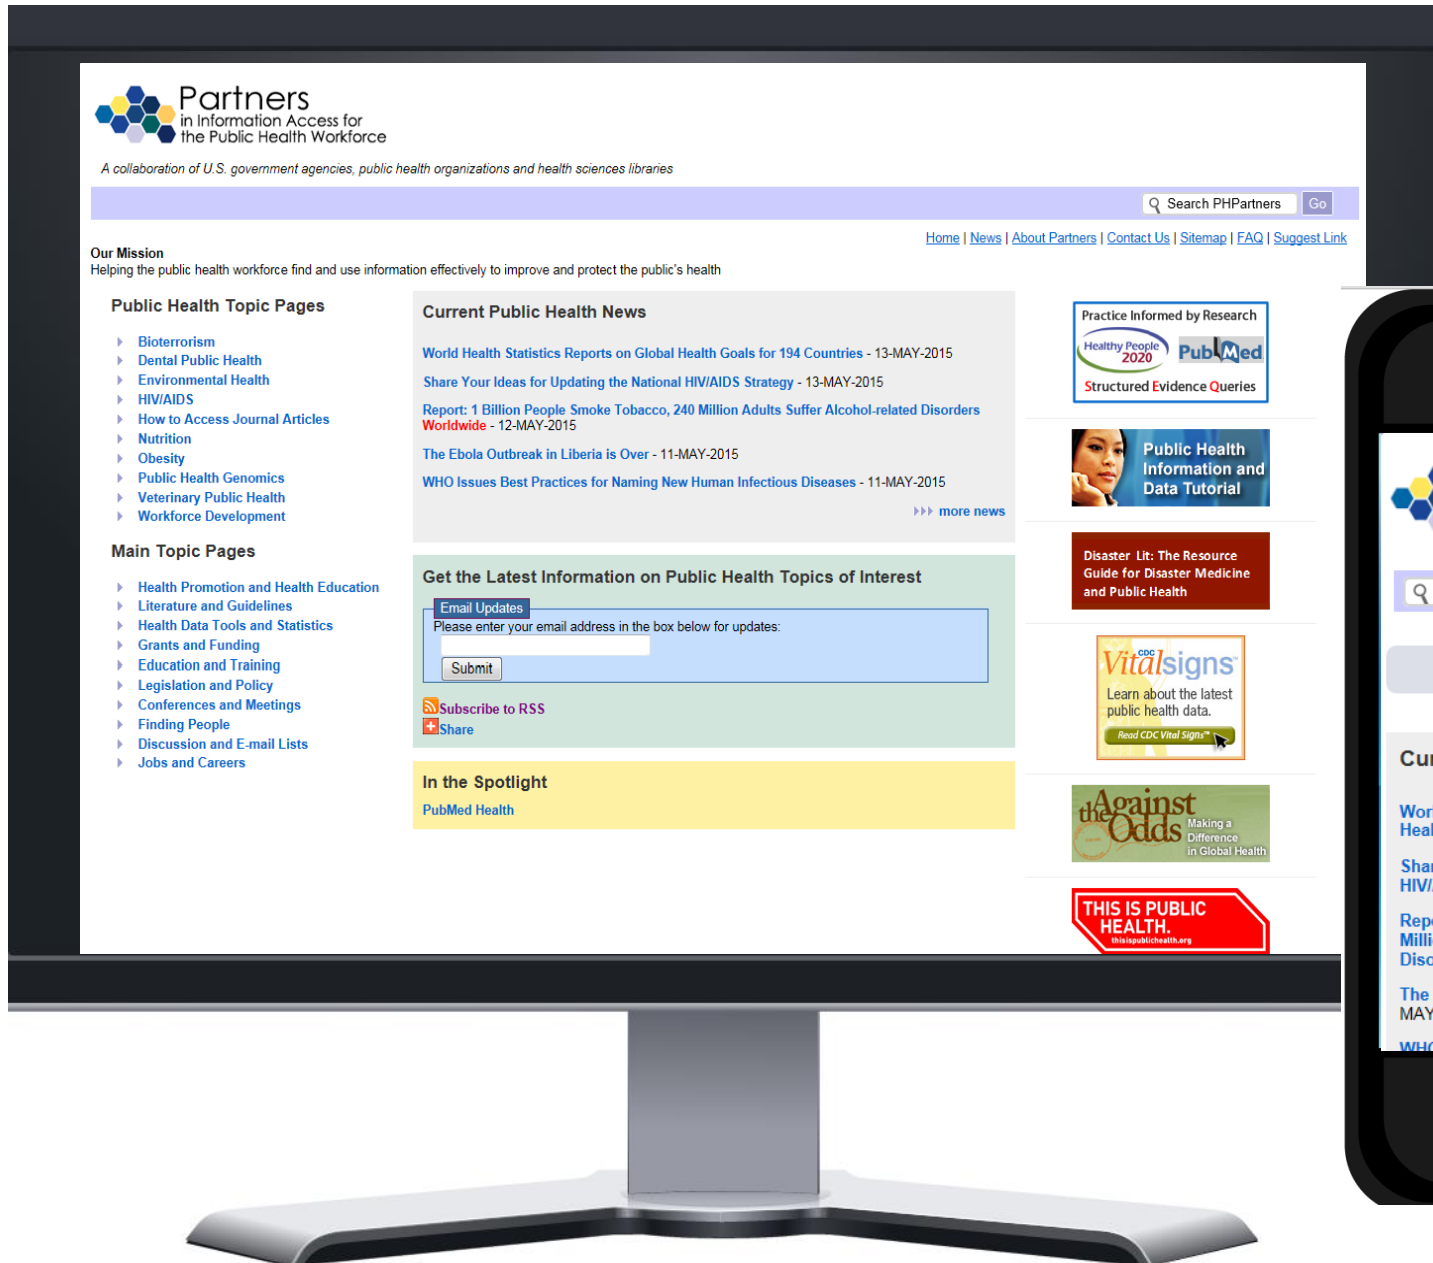

n=419

Public health departments are increasingly using mobile technology for activities and services including disaster preparedness and emergency response.

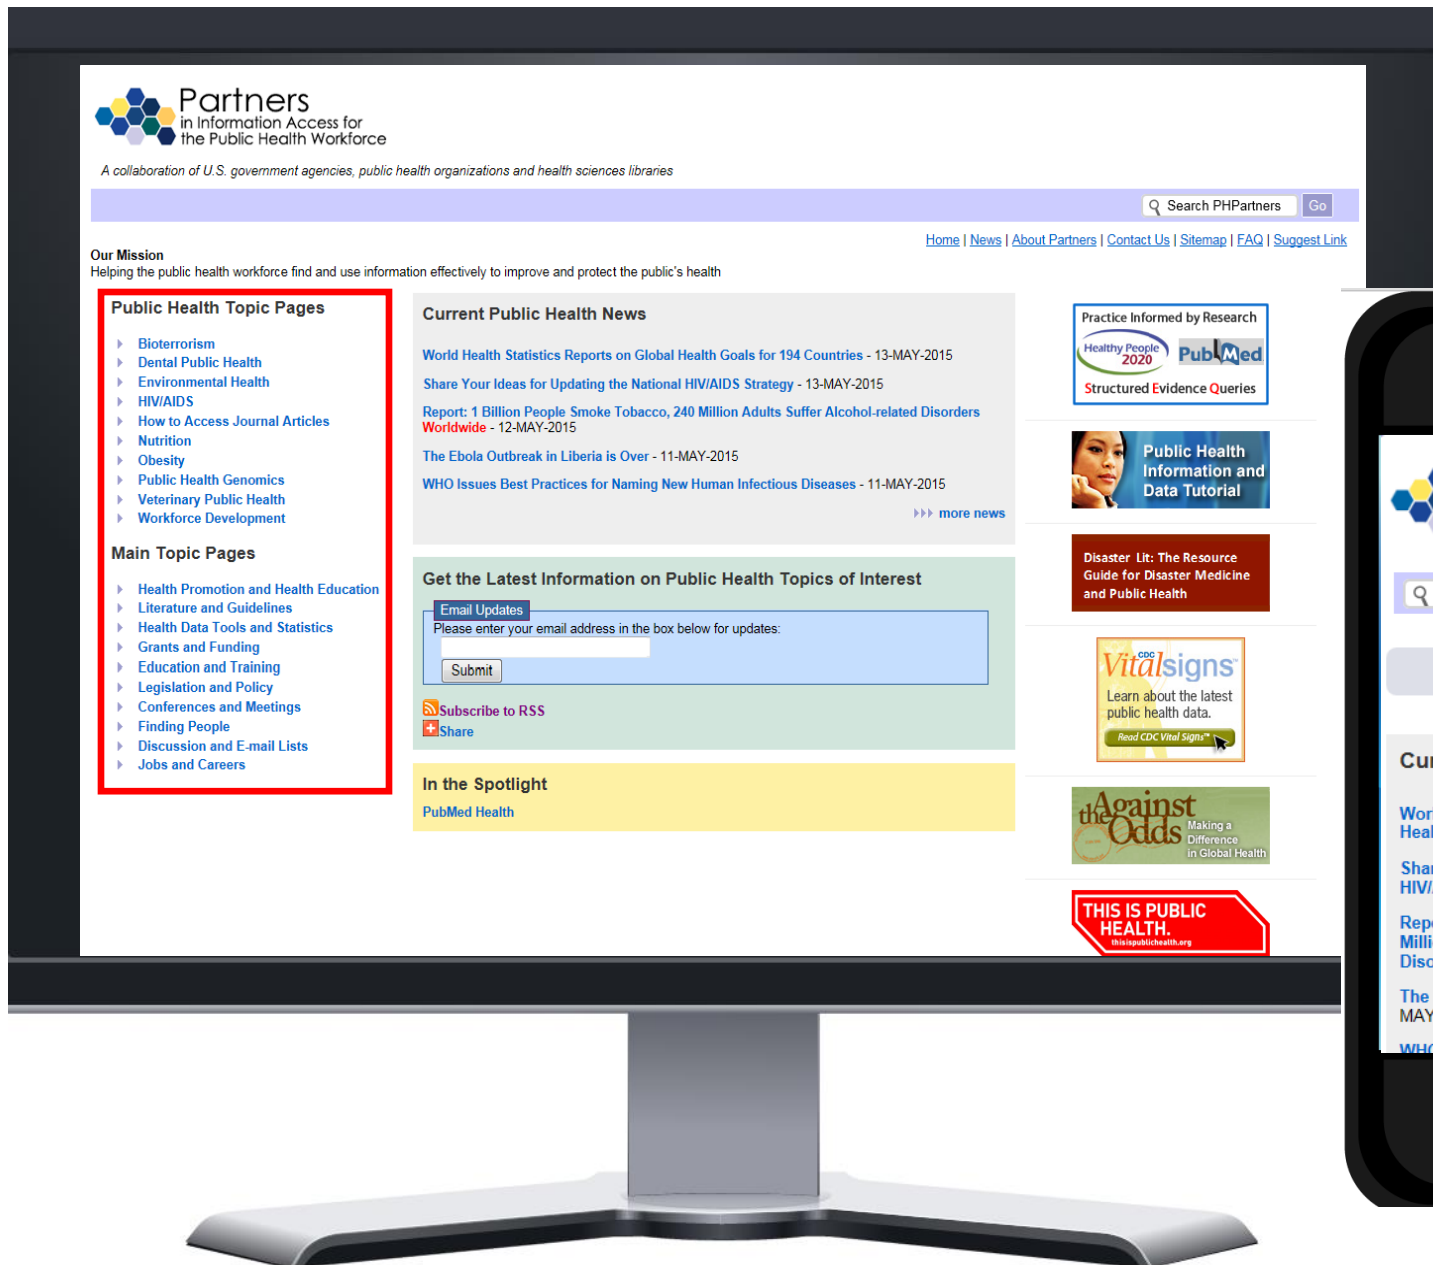

Sources: National Association of County and City Health Officials. 2013 National Profile of Local Health Departments. Washington, DC: National Association of County and City Health Officials, 2014. <http://nacchoprofilestudy.org/reports-publications/>.

Rubin S et al. The adoption of social media and mobile health technologies for emergency preparedness by local health departments: a joint perspective from NACCHO and the UPMC center for health security. J Public Health Manag Pract. 2014 Mar-Apr;20(2):259-63

County and Local Health Data

Area Resource File (ARF)

The ARF database contains more than 6,000 variables for each of the nation's counties and provides information on health facilities, health professions, measures of resource scarcity, health status, economic activity, health training programs, and socioeconomic and environmental characteristics. (Health Resources and Services Administration (HRSA))

Community Health Needs Assessment (CHNA)

Web-based platform designed to assist hospitals, non-profit organizations, state and local health departments, and other organizations seeking to identify and potential disparities in their communities. (Community Commons USA, Institute for People, Place & Possibility (IP3))

Community Health Status Indicators (CHSI)

Interactive web application that produces health profiles for all counties in the United States. Each profile includes key indicators of health outcomes, which describe the population health status of a county and factors that have the potential to influence health outcomes, such as health care access and quality behaviors, social factors, and the physical environment. (Centers for Disease Control and Prevention (CDC))

County Diabetes Data

Atlas of county-level diabetes data and trends. (Centers for Disease Control and Prevention (CDC))

County Health Calculator

Tool for advocates and policy makers to understand and demonstrate how education and income affect health. (Virginia Commonwealth University Center Human Needs)

County Health Rankings & Roadmaps

Provides county-by-county health rankings for each of the 50 states and Washington DC, explanations of each health factor, and actionable strategies to improve the health of communities across the nation. (Robert Wood Johnson Foundation (RWJF), University of Wisconsin)

Health Indicators Warehouse (HIW)

The Health Indicators Warehouse serves as the data hub for the HHS Community Health Data Initiative by providing a single source for national, state, and community health indicators. (National Center for Health Statistics, CDC (NCHS))

Interactive Atlas of Heart Disease and Stroke

An online mapping tool that documents geographic disparities in cardiovascular diseases and their risk factors at the local level. The Atlas allows users to county-level maps of heart disease and stroke and include overlays of congressional boundaries and health care facility locations. In addition, county-level of poverty rates, education levels, the food environment, access to health care, and other social factors are available. (Centers for Disease Control and Prevention (CDC))
