talked him and his buddy into getting naked in the back seat of their car with the promise that they would get naked too

but after the guys got naked the girls wouldnt and they took off driving around town at an extremely high rate of speed with the guys in the back seat, naked

drove out into the country where the guys had to piss due to all the whiskey and beer which was why they got naked in the first place and they got out at the old train tunnel and were pissing good when they saw the car lights fading in the distance, felt the raw night and heard the high pitched

laughter this is what paul tells me when he calls in to say that he wont be in for work today i let it slide because i like paul and if his story is true i almost feel sorry for his dumb naked ass and if he made it all up, hell, anyone who can tell a story like that deserves the occasional hungover day off.
