ELIGIBILITY REQUIREMENTS.

* To sit for Part I or Part II of the comprehensive examination you must have a grade point average of at least 3.0, tuition fully paid, and full admission status.

In addition to the above, to be eligible for CSA6090 (Part I), you must have completed 20 credits of coursework, including CSA6060.

To be eligible for CSA6089 (Part II), you must have passed CSA6090 (Part I) and CSA6140 for DBA and DIBA or CSA6210 for DPA, or 6310 for HRM and DBA/HRM, or CSA6440 for DBA/IM or CSA6640 for DBA/HRD.

COMPUTER-MEDIATED COURSE (CSA6071):

DBA, DPA, and HRM students who begin their doctoral program after the Summer 1985 Term, and DIBA students who begin their program after February 1986, are required to take CSA6071 - Computer Mediated Seminar in Research Methods. The course is in single credit increments. Satisfactory completion of cml is a prerequisite for the other cm segments. Other students are encouraged to take this course. Students should register for one credit at a time. Purchase of computer time is in addition to the tuition for the course. Successful completion of the first credit of this course is a prerequisite for CSA6030 - Information & Decision Science and for other courses as indicated. Registration and obtaining a UNIX account is a prerequisite for CSA6060.

READINGS COURSES: (CSA6150/6250/6370/6570/6480/6650)

---The Dissertation Topic Concept Paper is the first step. It is a 4-10 page paper in which you state the area of interest that you wish to pursue with your readings course and with your dissertation. Included in this paper is a very brief review from literature with respect to what has been done in the topic area and a short discussion as to the type of data which you believe would be developed as a result of your research. Include your resume with your Dissertation Topic Concept Paper. This allows us to help you to match a readings director who can also serve as your dissertation chairman. You may request to work with a specific person as your readings director and your request will be considered along with that person's area of expertise.

---The Research Office will review your submissions, communicate with you on the feasibility of the study and assist you in identifying a faculty person with whom to do the readings course.

---When your topic is approved you will receive written confirmation from the Research Office. This confirmation will be accompanied by an Instructor Approval Form for the Readings course. You should then contact the instructor, secure his/her agreement and forward to the instructor the Instructor Approval Form for signature. The instructor should then return the form to you.

---This form should accompany your registration. It should be sent, together with the appropriate fees, to the Program Office. You will be registered for the course under the instructor's name to facilitate grade processing on your academic record.

NOTE: This is a lengthy process. Please carry out these activities the term before the term during which you wish to take this course.

Please be advised that failure to comply with these instructions will result in your registration being returned.
