UNIT TWO POLICE ON STRIKE; DEMANDS CAR, BETTER FOOD

Poston II's police staff walked out yesterday morning after presenting demands for better lunches for members of the night force and a truck or car for exclusive use of the unit police organization. Chief of Police Harry Madokoro could not be reached at press time for a statement. George Ono, chairman of the Fair Practice Board stated that the demands had been placed before his group for their consideration.

The first demand is based on the fact that both Unit I and Unit III were allotted either a truck or car for their exclusive use. Unit II at present is sharing transportation with other divisions.

The second demand asserted that night shift lunches had consisted of the same kind of sandwiches for the past three weeks. A spokesman for the police department suggested either a change of lunch menu, or a kitchen meal, in the same manner in which Poston I's unit has been accommodated.

"SITUATION GRAVE", OFFICIALS ASSERT

Project and WRA officials will "undoubtedly view in serious light" yesterday's walk-out of the Poston II police force, said Vernon Kennedy, Project Employment Director. In keeping with national legislation for the peaceful settlement of labor disputes, Mr. Kennedy said, WRA Administrative instruction No. 27 specifically provides for "an intelligent solution to controversies such as the present one involving the Poston II police force."

The official instruction is as follows: Under Section D of WRA Administrative instruction No. 27:

"Any evacuee employee may report in writing any employment complaint to the Fair Practice Committee or to any of its members. The Fair Practice Chairman shall investigate and, by consultations with the parties concerned seek to effect a satisfactory solution. If such solution is not promptly secured, he shall present the case to a meeting of the Fair Practice Chairman to the Project Employment Officer for his action.

Appeal may be taken from the action of the Employment Officer to the Project Director, whose decision shall be final.

MORE EVACUEES ARRIVE HERE

Moonlight and Arizona stars put on a display last night for 94 evacuee arrivals from Santa Anita Assembly Center. Arriving by bus, the group was processed through Intake and Housing Centers and housed in Poston III. The group left Arcadia, Calif., at 11 a.m. Twelve members of the Poston I original Intake Staff, headed by Kiyoko Imamura, Grace Watanabe and Yuri Sugimoto volunteered for service. Ushers and police were furnished by Poston III residents. All members of the Poston I staff were to return to their usual chores at 1 p.m. today.

The outline for working hours is combined school hours and

VOICE OF AN ISSEI

ON EVACUEE TRUST FUND

The proposed creation of the evacuee trust fund out of the earnings of cotton pickers should be reconsidered. The trust fund to be created should have the joint approval of each and every member of workers and if all the workers give their consent to give up the greater portion of their earnings, it will be quite O.K. But in the case now under discussion, the general consensus of opinion on the question is a negative one. Some people think it quite illogical while others believe it would create some unpleasant feelings among the workers which it turn, might develop into something very sinister in its nature and finally, into un-American idea like Bolshevism.

If all the balance minus \$19 per month per head turned into the proposed trust fund, whoever getting paid over and above \$12 per month should turn in their dues--\$4 and \$7 according to their monthly allowances. The same principle should be applied also to those workers in sugar beet fields who are now getting more than \$12 per month. But this method of equalizing income for every one will eventually create an independent state within these United States. The idea is very absurd and ridiculous to think Poston an independent State. The cooperative set up of a government is purely a socialistic one and it should be functioned in socialistic principles. There is a clear line of demarcation between socialism and Bolshevism. The creation of an evacuee trust fund out of the earnings of hard workers without their consent amounts to a despotism which can only be practiced in the U.S.S.R., but not here.

We are supposed to stay here for the duration, but not for our life time unless we choose to remain here eternally. And when peace is restored, the greater majority of citizens here will be re-absorbed among the white Americans somewhere in the good old U.S.A. We hardly believe that this war will be the deciding factor to destroy the financial structure of this country. Of course, there will be some minor change in the economical practices. But the individualistic and competitive system in the economic set up will remain unchanged along with the time-honored democracy. Then, you will be free to earn as much as you are entitled and be financially independent. Now is the time that you should be prepared for this eventuality in future. But don't try to work out a plan the practice of which means nothing but to sponge on other honest guys earnings in some future date. The disbursement of evacuee trust fund accumulated by the operation of cooperative stores is quite lawful a procedure. But the fund forcibly wrested from hard working men and women should not become the property of other people under any pretext. Before the said plan goes into effect, the class distinction here in the settlement should be abolished.

Equalize the monthly allowances and then, adopt the plan now under formulation. Then the plan might work smoothly, provided of course, the people here understand Joseph Stalin's pet resume!

Lastly, the Voice suggests that whoever voted for the measure should take off a day and actually engage himself in picking cotton and see for himself how terribly hard it is to be a cotton picker and also try to find out whether it is quite easy to give up a greater portion of his hard earned money into the treasury of trust fund to be disbursed later. HOLLENBECK GIRLS' VICE PRINCIPAL GREET'S HER MISTI STUDENTS

Miss Helene Moore, Girls' vice-principal of Hollenbeck Junior High School in Los Angeles was quite fond of her misti students and misses them very much, since the evacuation days.

But because she found it quite impossible to greet all of the 800 misti girls one by one who were once attending that institution, Miss Moore contacted Miss Bartlett of the International Institute, to relate her message of salutation to the former pupils.

Miss Bartlett who makes her visits to this Community as social worker, expressed her sentiments of Miss Moore in the following words:

"Miss Moore told me to tell each and every one of her former pupils that she misses them very much, and sends her best wishes and luck to them all.

Most of the students in Hollenbeck were evacuated during the latter part of May, and the majority of them are residents of Poston.

TO THE EDITOR

Dear Sir:

We are reminded again that Sadie Hawkins Day is just a few days off (Nov. 7) in the community of Dogpatch, the home of Li'l Abner.

Colleges, high schools and the whole country from the west coast to the east will observe Sadie Hawkins Day and the rumors have it that Poston girls also will not be deprived of this joyous holiday on that date.

In behalf of Unit Two's Women Haters club of which I am a loyal member and of which Kaz Ikeda is president and Tom Masamori is vice-president, I will object vigorously to such an injustice and cruelty to the males of this center if Sadie Hawkins Day is decided to be declared legal here.

Sincerely yours,
Thomas Bud Tsuyuki
