

Outline of proposed livestock identification and traceability research activities in Loliondo

Florence Mutua

Livestock identification and traceability planning workshop

Loliondo, Tanzania

6 November 2014

PRESENTATION OUTLINE

- Overview of what we have done:
stakeholder consultations and initial market visits
- Then describe what we propose to do:
approach and database system

Stakeholder consultations

Stakeholder consultations

Past: Stakeholder consultations

*We visited some of the markets in
Ngorongoro and Longindo*

Longindo market

Wasso market

Soit sambu market

The previous activity has helped us in better understanding of local market routes and identify the one(s) to include in the pilot research

What we propose to do:-

- *Have a better understanding of the local market routes*
- *Identify one key market route to include in the study*
- *At this market*
 - *Sensitize traders- local workshop*
 - *Set up a crush to facilitate restraint*
 - *Implement research*
 - *Identify cattle (ear tags, other- back tags, paint)*
 - *Capture entry and exit details - markets*

We will seek owners consent to participate in the study (identify + provide details)

Brief of what we are doing (similar research) in Kenya

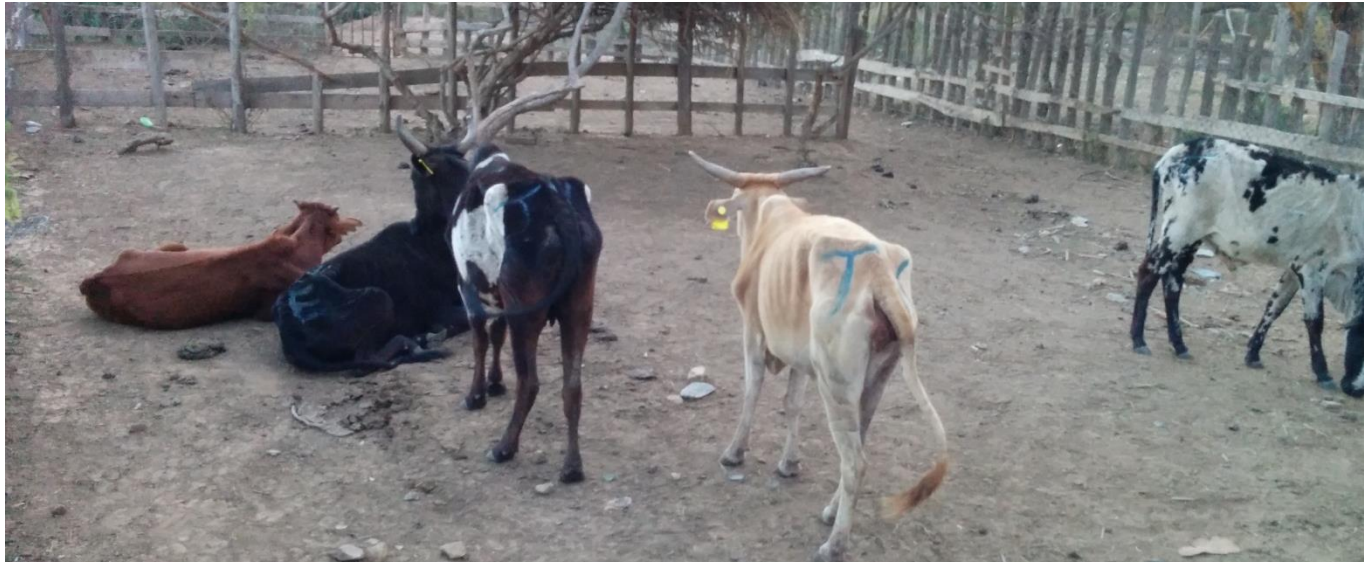

Other markets

Slaughter level

*Data are quickly collected using
mobile phones*

Why LITS

- *Disease control / surveillance*
- *Market access*
- *Food safety*
- *Ownership / theft control*
- *Other uses- breeding, access to credits*

ACKNOWLEDGEMENTS

- AU- IBAR / ICPALD
- TANLITS
- National governments
- Traders, local leadership
