

# The Rangelands Initiative of the International Land Coalition

*Connecting, mobilising, influencing for more secure access to land and resources in pastoral areas*

*Fiona Flintan (ILRI); Ken Otieno (RECONCILE); Hijaba Ykhanbai (JASIL); Dinesh Desai (MARAG); Gabriel Seghezzo (FUNDAPAZ)*

Established in 2010, the Rangelands Initiative of the International Land Coalition (ILC) facilitates learning between, and provides technical support to, government and other actors working to make rangelands more tenure secure. The initiative works through ILC members in Africa, Asia and Latin America led by RECONCILE (Resource Conflict Institute) Kenya, JASIL Mongolia and MARAG (Maldahari Rural Action Group) India, and FUNDAPAZ (Foundation for Development in Justice and Peace) Argentina, respectively.

International Livestock Research Institute (ILRI) coordinates the global component of the Rangelands Initiative in close collaboration with ILC members—International Fund for Agricultural Development, Food and Agriculture Organization of the United Nations, the Pastoralist Knowledge Hub, World Bank, United Nations Environment Programme, World Resources Institute, Land Portal, International Food Policy Research Institute and Centre for International Forestry Research. By connecting, mobilizing and influencing, the global component of the Rangelands Initiative strengthens ILC member activities in-country and across its continental platforms.

## Focus

Help ILC members:

- develop and strengthen partnerships with a common vision of tenure security for rangeland users;
- identify, develop and/or scale up innovative solutions to tenure challenges, assist governments and other actors in implementing enabling policy and legislation; and
- through sharing experiences and lessons learned, influence these actors in land tenure development and implementation.

The global component and its partners are currently working on a key strategic research report on the status of land tenure in rangelands globally.

## Connecting

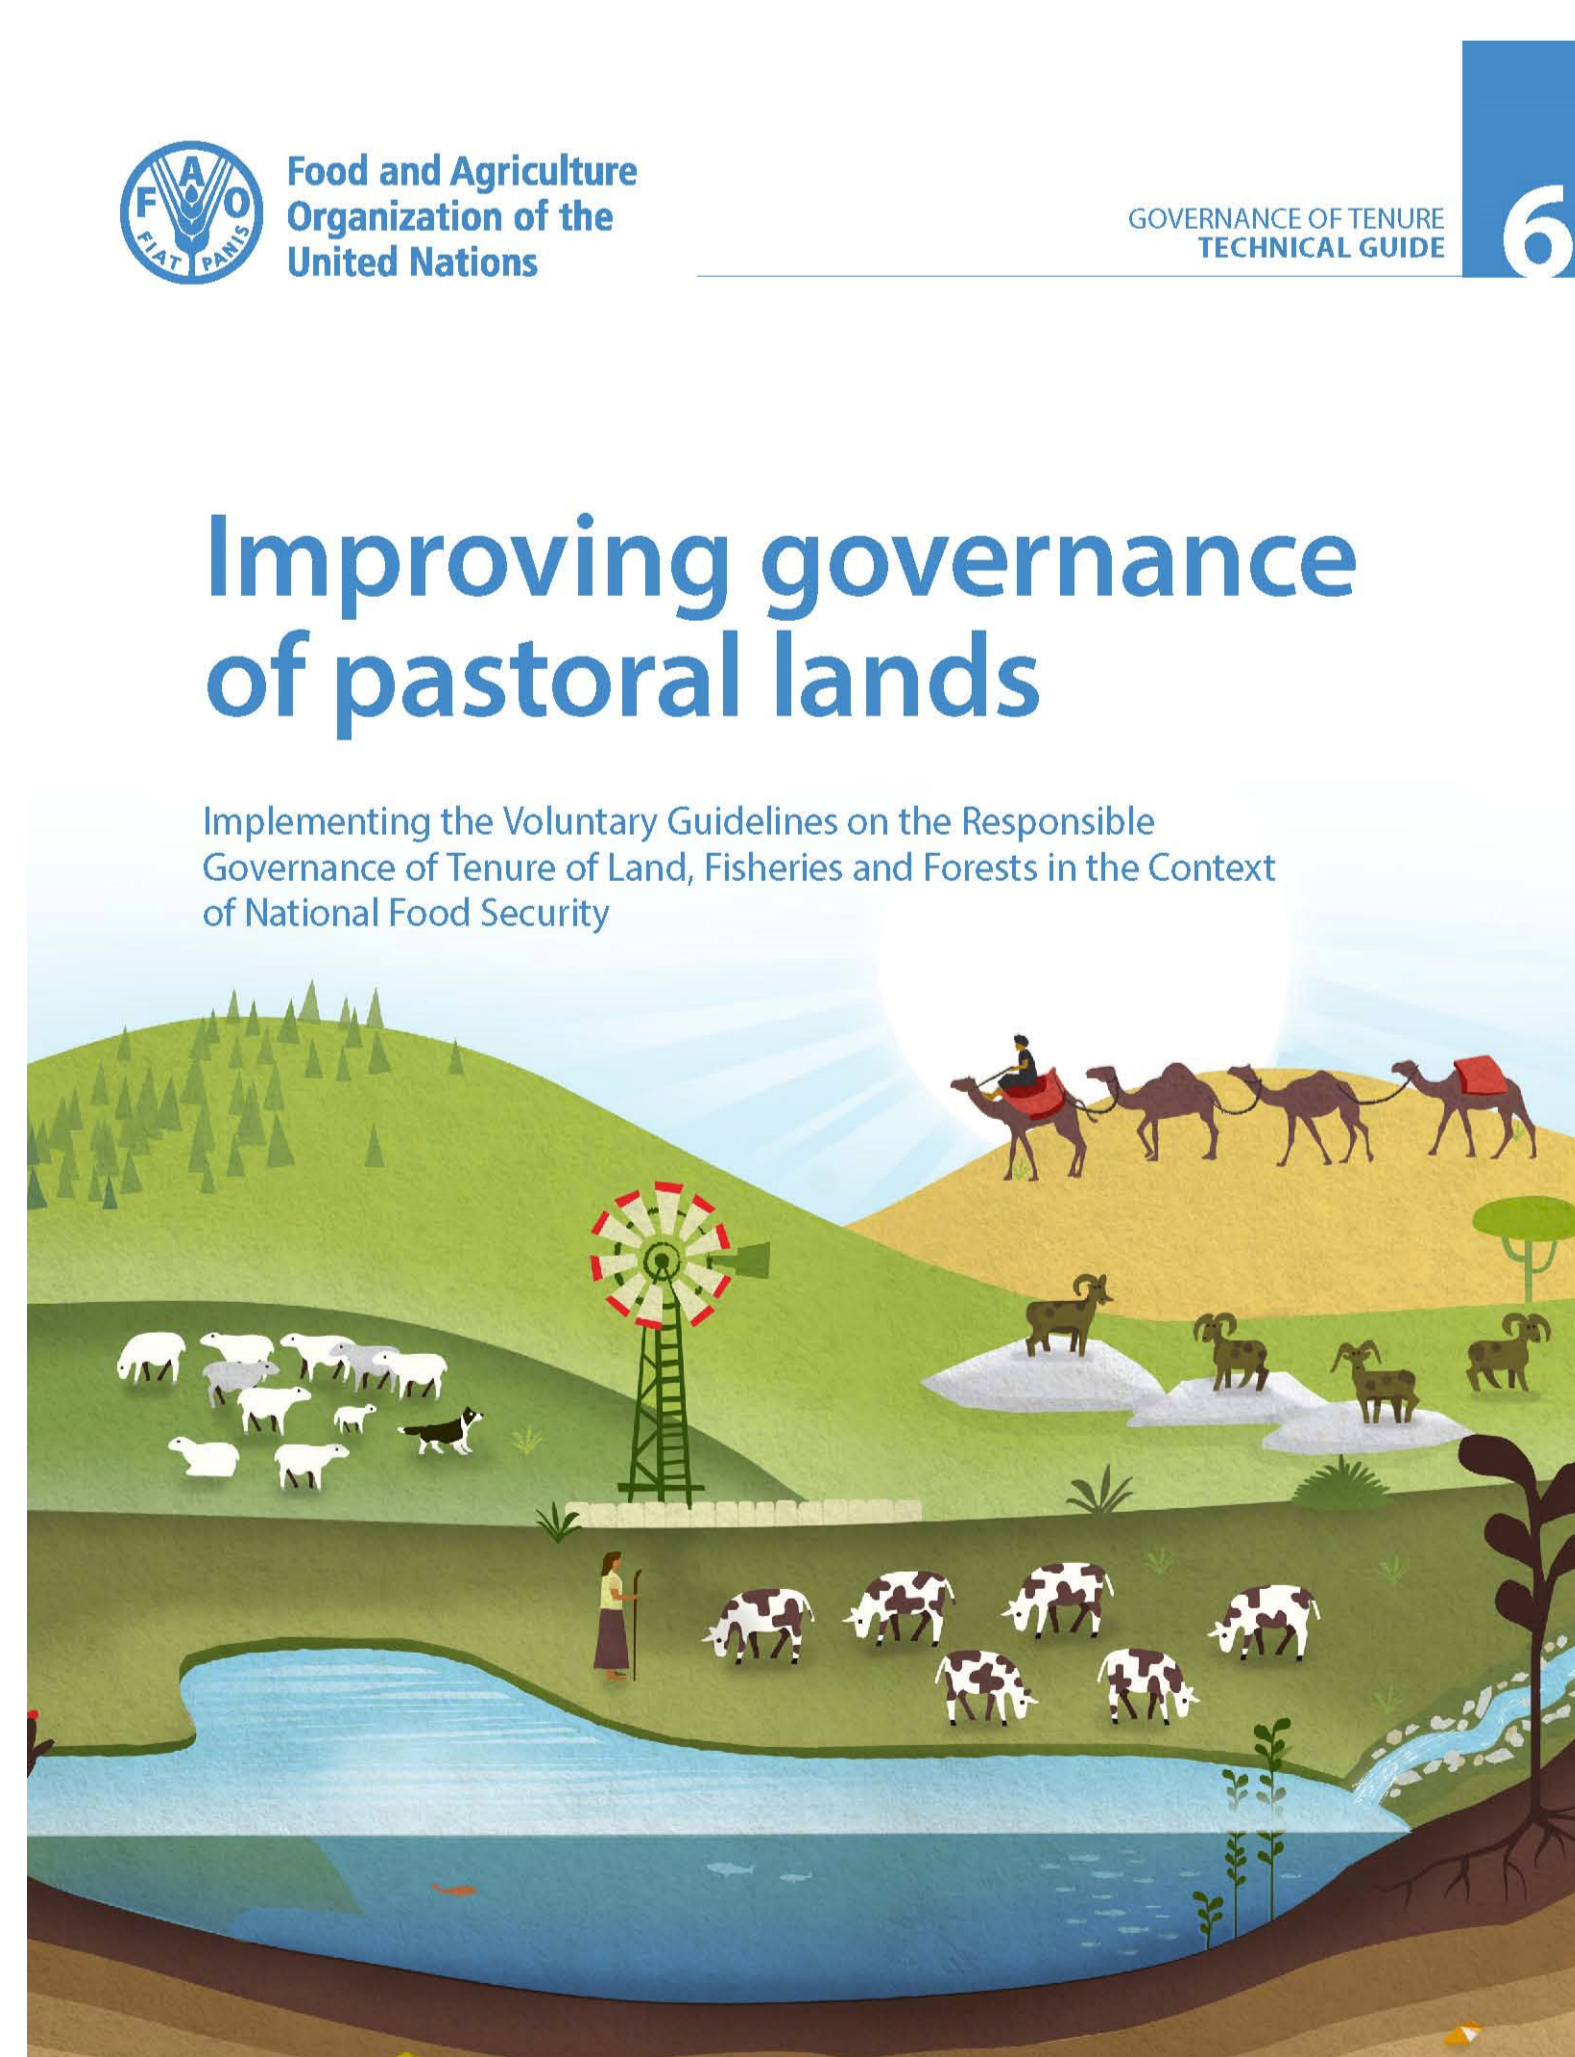

A study tour organized by the Initiative brings senior government land and livestock experts from Ethiopia to Kenya to learn from local pastoralists

## Mobilizing

Involvement in the drive to designate an International Year of Rangelands and Pastoralists includes mobilizing different stakeholders

## Influencing

Implementing the FAO Governance of Tenure Technical Guides no. 6, Improving Governance of Pastoral Lands, means influencing governments at national and local levels
