## Howes, C.A. Changes in the status and distribution of mammals of the order Carnivora in Yorkshire from 1600.

#### **Abstract**

Data derived largely from ecclesiastical (mostly churchwardens') accounts, foxhunting statistics, local scientific society records and 19th and 20th century literature sources from a wide range of published material, have provided detailed evidence of the status and changes in distribution over the past four centuries in Yorkshire for fox (*Vulpes vulpes*), badger (*Meles meles*), otter (*Lutra lutra*), pine marten (*Martes martes*), stoat (*Mustela erminea*), weasel (*M. nivalis*), polecat (*M. putorius*), American mink (*M. vison*), wildcat (*Felis silvestris*) and domestic cat (*Felis catus*). In the case of the domestic cat, questionnaire surveys quantified population sizes and predatory activity in rural, suburban and urban situations. Evidence of the former distribution of all the carnivores studied provides a credible historical basis for biodiversity action planning and the substantial archived database and bibliography provide further research opportunities.

**Keywords:** vermin bounty payments, fox hunting, otter hunting, fox, badger, otter, pine marten, stoat, weasel, polecat, American mink, wildcat, domestic cat, mustelids.

#### **ACKNOWLEDGEMENTS**

I am most grateful to my colleagues and friends at Doncaster Museum and Art Gallery, particularly Peter Skidmore and Martin Limbert, who have assisted and encouraged this work in numerous ways over the years, and to the natural history staff, past and present, have allowed access to their collections and records, notably Margaret Hartley (Cliffe Castle Museum), Adrian Norris (Leeds City Museum), Bill Ely (Rotherham Museum), Ian Massey (Wood End Natural History Museum, Scarborough), Derek Whiteley (Sheffield City Museum) and Colin Simms (Yorkshire Museum, York).

I would also like to acknowledge the help given by numerous archivists and local history librarians throughout the Yorkshire region and the innumerable mammal recorders and members of the Castleford Naturalists' Society, Doncaster Naturalists' Society, Harrogate Naturalists' Society, Scarborough Field Naturalists' Society, Sorby Natural History Society, Wharfedale Naturalists' Society, Yorkshire badger groups, Yorkshire Wildlife Trust the Yorkshire Mammal Group and the Yorkshire Naturalists Union.

Of the Statutory Agencies and conservation bodies I would thank David Hopkins (Environment Agency), Jeff Lunn (Natural England), Charles Critchley and Brian Walker (Forestry Commission), Don Malam (ADAS), Johnny Birks (Vincent Wildlife Trust) and Don Jefferies (Mammal Society).

Throughout the protracted gestation of this project and indeed its MPhil predecessor, I have benefited from endless encouragement, patience and kindnesses from my supervisor and mentor Professor Mark Seaward for which I am profoundly grateful.

### **CONTENTS**

	Pages
Chapter 1 Introduction	1-5
Chapter 2 Sources and Methods	6-9
Chapter 3 RED FOX (Vulpes vulpes L.)	10-46
Chapter 4 BADGER (Meles meles L.)	47-73
Chapter 5 OTTER (Lutra lutra L.)	74-128
Chapter 6 PINE MARTEN (Martes martes (L.)	129-149
Chapter 7 STOAT (Mustela erminea L.)	150-160
Chapter 8 WEASEL (Mustela nivalis L.)	161-173
Chapter 9 POLECAT (Mustela putorius L.)	174-198
Chapter 10 AMERICAN MINK (Mustela vison Schr.)	199-216
Chapter 11 WILDCAT (Felis silvestris Schr.)	217-225
Chapter 12 DOMESTIC CAT (Felis catus L.)	226-243
Chapter 13 Summary and Conclusions	244-248
Chapter 14 Bibliography	249-276

### **APPENDICES**

Presented in Microsoft Word files placed on a 700MB single sided read-only Compact Disc attached to the inside rear cover of the thesis.

APPENDIX 2.1. Index of sources examined for Vermin Bounty Payments in Churchwardens' Accounts from 157 Yorkshire Parishes. (Giving Parish name, Yorks. region, OS Grid ref., altitude of parish, Archive/Literature ref., Date range, numbers of all bounty species)
APPENDIX 2.2. All records of Vermin Bounty Payments in Yorkshire Parish Accounts (Alphabetical by parish)
APPENDIX 2.3. Review of Vermin Bounty Records in Yorkshire Parish Accounts (totals for each year in each parish)
APPENDIX 2.4. Yorkshire Parliamentary Enclosure Awards for 813 enclosures. (Giving Parish/Township name, Riding, post-1974 County, dates of Act and Award, number of awarded acres)
APPENDIX 3.1. Red Fox ( <i>V. vulpes</i> L.) Carnivora remains in Yorkshire Caves (from Chamberlain 2002, Rutter 1956, Jenkinson 1983 & Yalden 1999)
APPENDIX 3.2. Red Fox ( <i>V. vulpes</i> L.) 'Fox', 'Renard' and 'Tod' as elements in Yorkshire place-names
APPENDIX 3.3. Red Fox (V. vulpes L.) Gazetteer of Yorkshire Fox Hunts 4 pages
APPENDIX 3.4. Red Fox ( <i>V. vulpes</i> L.) Annual days hunting, kills & kills Per 100 days in the Badsworth, Bedale, Bramham, Brocklesby, Cleveland, Holderness, Middleton, Sinnington, Rabey, York & Ainsty and Braes of Derwent Hunts
APPENDICES 3.5 a to g. Red Fox ( <i>V. vulpes</i> L.) Fox hunting find sites and mean search distances
APPENDIX 4.1. Badger ( <i>Meles meles</i> L.) Place-name elements in Yorkshire (including Bowson, Brock, Grey, Pate)
APPENDIX 4.2. Badger ( <i>Meles meles</i> L.) Landmarks in badger protection in Yorkshire during the late 20 <sup>th</sup> century
APPENDIX 4.3. Badger ( <i>Meles meles</i> L.) Examples of badger persecution in Yorkshire
APPENDIX 4.4a Badger ( <i>Meles meles</i> L.) Local extinctions, scarcity and

decline
APPENDIX 4.4b. Badger ( <i>Meles meles</i> L.) Translocation or protection on estates
APPENDIX 4.4c. Badger (Meles meles L.) Increasing or strong populations2 pages
APPENDIX 4.4d. Badger ( <i>Meles meles</i> L.) Indications of good populations
APPENDIX 4.5. Badger ( <i>Meles meles</i> L.) Yorkshire road casualty records (Chronological)
APPENDIX 5.1. Chronological list of Yorkshire Otter records (Chronologically by river catchments/regions)
APPENDIX 5.2. Review of the fish fauna and fish biodiversity zones in the River catchments in the Yorkshire Dales
APPENDIX 5.3. Otters encountered or killed in the River Hodder by Squire Lomax's Pack 1829 to 1866
APPENDIX 5.4. Otters encountered or killed in the River Ribble by Squire Lomax's Pack 1830 to 1871
APPENDIX 5.5. Otters encountered or killed in the River Swale, by Squire Lomax's Pack 1835 to 1843
APPENDIX 5.6. Otters encountered or killed in the River Ure by Squire Lomax's Pack1841 to 1847
APPENDIX 5.7. Otters encountered or killed in the River Nidd by Squire Lomax's Pack 1832 to 1844
APPENDIX 5.8. Otters encountered or killed in the River Wharfe by Squire Lomax's Pack 1831 to 1866
APPENDIX 5.9. Otters encountered or killed in the River Aire by Squire  Lomax's Pack in 1840
APPENDIX 5.10. Success rates (*) in locating otter bounty records in Churchwardens' accounts in 32 targeted riparian parishes within the Humberhead Levels
APPENDIX 5.11. Details of otter bounty payments in the Churchwardens' Accounts of the township of Doncaster (Doncaster Archives Department no. P. 1/4/1A)
APPENDIX 5.11. Details of otter bounty payments in the Churchwardens' and

(Doncaster MBC Archives Department no. P. 6/B1-6)
APPENDIX 6.1. Pine Marten Records for all parts of Yorkshire 18th century to 21st century (all sources)
APPENDIX 7.1. Data derived from Flintoff (1933, 1935) relating to levels of persecution (population density) on shooting estates in Yorkshire 2 pages
APPENDIX 7.2. Data on winter whitening of stoats according to gender and locality derived from From Flintoff (1933, 1935) re-worked according to geographical regions)
APPENDIX 7.3. Comments on stoat status
APPENDIX 8.1. Comments on weasel status
APPENDIX 9.1. Allusions to polecat presence or status in literature references 19th c. to 1940s
APPENDIX 10.1. American mink records in Yorkshire (Chronologically by river catchment or region)
