NOTE

In this international seminar on Language Maintenance and Shift 7 (LAMAS 7 for short), we try to do the new paradigm, that is publishing the proceeding after the seminar was held. The positive aspect of the paradigm is that the presenters of the seminar have opportunity to revise their paper based on the responses of the audience. However, it takes longer time to process the proceeding until it is ready to distribute. Therefore, we apologize for being late.

In this opportunity, we would like to extent our deepest gratitude to *Balai Bahasa Jawa Tengah* for continuously cooperation in conducting the seminar. Thanks also go to the Dean of the Faculty of Humanities, the Head and the Secretary of the Master Program in Linguistics Diponegoro University, without whom the seminar would not have been possible. We would also express our special thanks to committee for putting together the seminar that gave rise to this compilation of papers.

We would like to thank Mrs. Shu-Chuan Chen, Ph.D. from Asia University Taiwan, Dr. Tupas Topsie Ruanni, from National Institute of Education Singapore, Drs, Pardi M.Hum. from *Balai Bahasa Jawa Tengah*; Prof. Ketut Artawa, Ph.D. from Udayana University, and Dr. Suharno, M.Ed. from Diponegoro University, as invited speakers in plenary sessions, and to all of the participants of the seminar.

Semarang, September, 25th 2017

The Board of Editor in LAMAS

Abstract

PTNBH (*Perguruan Tinggi Negeri Badan Hukum/Corporate University*) is an independent status of universities that have their own authority. Many internal system of universities are undergoing changes, but these changes provide an opportunity for universities to improve their quality. Universitas Padjadjaran (Unpad) inaugurated the change of status to corporate university (PTNBH) in January 2017. The change was officially marked through the signing of declaration by the Minister of Research and Technology. The event is written in an article published in www.unpad.ac.id. The article is considered as important news relating to the topic and it influences the appearance of time in website. In article or discourse, cohesion is the relationship between sentences in a discourse, both grammatically and lexically. Using good cohesion, a speaker or writer will be able to produce good discourse. This study will look at (1) how lexical cohesive devices appear in this article and then see (2) whether the lexical cohesive devices affect the number of readers of the article. This underlies the selection of research objects that are closely related to the change of Unpad status to PTNBH. Halliday and Hasan use cohesion to refer to relations of meaning that define it as a text (1976: 4). The definition is thus a semantic one, and like all the components of the semantic system, cohesion is realized through grammar and vocabulary. According to Halliday and Hasan, cohesion can be divided into grammatical and lexical cohesion. Grammatical cohesion includes devices such as reference, substitution, ellipsis and conjunction, while lexical cohesion is divided into reiteration (repetition, synonymy etc.) and collocation (co-occurrence of lexical items). The result of this study will give recommendation to Unpad website maintainers relating to writing style in news.

Keywords: *cohesion, coherence, Unpad PTNBH, www.unpad.ac.id.*

INTRODUCTION

Nowdays the function of website from universities is like the window of all information relating to universities news. The people do not need to come to the universities to find accurate and latest information but they only need to check through the websites. Any kind information is displayed and can be accessed easily. The style of writing is one of attractive factor that can give positive impact to the readers to read the news completely. The English version of the news is a must to have. It can attract more readers from abroad to be the viewers of the news.

In writing a news, the writer or journalist needs to give more attention to the correlation between sentences containing information. De Beaugrande and Dressler (1981) define a text as a communicative which meets seven standards of textuality. In Linguistics, there are two terms known as cohesion and coherence. Halliday and Hasan (1976) state that a coherent text must satisfy two conditions; one is a text must be consistent with context in which it is created, the other is a text must have cohesion, that is, all parts in a text must be connected by cohesive devices. Cohesive relations are non-structural relations, which help the text hang together. In this research, the writers focus on seeing the good connection between cohesive and coherence factors in text on Unpad website and the reader's frequency of the text. The writers also want know about the country of origin from the readers.

The text we discuss about has title “Unpad as a Corporate University: Minister of Research, Technology and Higher Education Republic of Indonesia Encouraged Unpad to Increase the Number of Scientific Publications”. On Saturday, 14 January 2017, Minister of Research, Technology and Higher Education (Menristekdikti) Prof. Drs. H. Mohamad Nasir, M.Sc., Ak., PhD., CA, legalized Universitas Padjadjaran as a Corporate University in Bale Sawala, Universitas Padjadjaran, Jatinangor. In his address Prof. Nasir encouraged Unpad to increase the number of scientific publications. Prof. Nasir stated that on becoming Corporate University Unpad gained the trust of the government to manage its autonomous state on his own. The trust, mentioned by Prof. Nasir, refers not only to autonomous management, but also to a way to improve the quality of the institution.

On the national level, Universitas Padjadjaran holds the 9th position as a university with the highest number of scientific publications in Indonesia according to the data on January 13, 2017. Prof. Nasir mentioned, Unpad would have an opportunity to improve its quality through its autonomy and would be able to be among 500 world’s best universities. By encouraging the increase in the number of publication, Prof. Nasir expects the research results to go beyond library archives as well as the beyond the borders of Indonesia. Currently, the ministry has been considering various regulations that will enable the *civitas academica* in universities to produce national and international scientific publications.

RESEARCH METHOD

This research uses research method called descriptive-qualitative research method. Descriptive-qualitative research method is a research method that aims to describe the things that become the object of research in gambling, this is in accordance with the definition of descriptive research methods of Djajasudarma (2000: 9) descriptive-qualitative research method aims to create a description or systemic, and accurate data, properties, and relationships of the phenomena studied. In this study, the object of the research data is the linguistic features as the markers for cohesion on the article about Unpad as PTNBH University.

Cohesion refers to the grammatical and/or lexical relationships among different elements of a text (Richards *et al.* 1992). Halliday and Matthiessen (2014) state that there are four ways by which cohesion is created in English, they are: conjunction, reference, ellipsis, and lexical organization. Conjunctions are categorized by Halliday and Hasan (1976) as additive, adversative, causal, and temporal. Based on Halliday and Hasan (1989), reference divided into three types. There are three types of reference; personal, demonstrative, and comparative. The purpose of the ellipsis under three headings, nominal, verbal and clausal ellipsis (Halliday and Hasan, 1989).

Coherence is grammatical and semantic interconnectedness between sentences that form a text. Coherency is a condition where sentences in a text hang together. Semantically, a text is said coherence when there is unity of meaning among elements of the texts. Grammatical cohesion consists of conjunction, reference, ellipsis and substitution. Lexical Cohesion consists of repetition, synonymy, hyponymy, metonymy, and collocation.

DISCUSSION

We classify the data into grammatical and lexical cohesion. Both categorization can be define through the linguistic feature. Not all kinds of both Categorization can be found in the text. Detail analysis can be seen below.

A. Grammatical Cohesion:

1. Conjunction:

a. additive conjunction

Data 1:

...key people from the Ministry of Research, Technology, and Higher Education, prominent representatives of tertiary education, top-administrative staff of Unpad, *and* many other honorable guests.

Data2:

Furthermore, Prof. Nasir emphasized that from a total number of 4,405 public and private universities in Indonesia, there are only two universities that can rank with 500 world's best universities.

Data 1 and data 2 shows that the use of conjunction namely additive conjunction, and, furthermore. Additive conjunctions serve to provide additional information on the information that has been presented previously. The form of these conjunctions are *and*, *and also*, *furthermore*, *moreover*, *additionally*, *beside that*, *or*, *likewise*, *in other word*. On the data 1, the conjunction and adds information relating to the invitees coming to Unpad, and data 2 the conjunction furthermore explains the previous information about the responsibility in publishing scientific article in Scopus indexed journal for all lecturers.

b. Temporal conjunction: durative

Data 3:

Meanwhile, the Rector said that with the transformation of Unpad in a Corporate University, Universitas Padjadjaran would be expected to become an independent university, with greater excellence and benefit.

Temporal conjunction is a conjunction that states the time sequence of events. This temporal relation is expressed in its simplest form *then* (Halliday and Hasan, 1989). *Meanwhile* is example of durative temporal conjunction.

2. Reference

a. Personal reference

Data 4:

In *his* address Prof. Nasir encouraged Unpad to increase the number of scientific publications.

Data 5:

"I believe that Universitas Padjadjaran as Corporate University will be able to increase the number of publications," said Prof. Nasir while delivering his speech.

Data 6:

The transition was marked by the signing of the Declaration of Unpad as Corporate University by *Prof. Nasir* and Rector of Unpad *Prof. Tri Hanggono Achmad*. The ceremony was attended by Governor of West Java *Ir. H. Ahmad Heryawan*, Chairperson of the Unpad Trustee Board *Rudiantara*, MBA.

Personal reference is reference by means of function in the speech of situation, through category of person. Personal reference includes all forms of the pronoun both singular and plural pronouns coupled with 'it'. Pronouns of personal reference include: first personal pronoun: you. Furthermore, third personal pronoun distinguishes between specific and generalized human; 'one'. Specific one categorized in the plural: 'they' and the non-human single: 'it' and based on the human sex are male: 'he' and the female 'she'. Based on the data 4, 5, and 6 there are reference categorized as personal references, namely *his*, *I*, *Prof. Nasir*, *Prof. Tri Hanggono Achmad* and *Ir. H. Ahmad Heryawan*.

B. Lexical Cohesion:

1. Repetition: repeating important words

Salkie (1995) affirms the importance of repetition when saying "One thing that makes texts coherent is repeating important words. "There are some repetition words in the text which are *publication*, *international publication*, *journal publication*, *scientific publication*.

2. Synonymy:

The synonyms are alternatives to repetition (Wales, 1989). The data below shows that the use of synonymy prevents the repetition. It can be seen from the replacement of *key people* becomes *prominent representatives*. Synonymy is useful to distinguish whether the reference is identical or not, because slightly different pattern appear.

key people = *prominent representatives*

Position = *rank* = *level*

Accredited = *trusted*

Excellence = *strength*

Transition = *change*

Assets = *resources*

3. Hyponymy:

Hyponymy is a relationship between two words, in which the meaning of one of the words includes the meaning of the other word. The data below shows that the phrase *university administration*

For example, the words, *the Trustee Board*, *the Academic Senate*, *lecturers*, *employees*, and *students* and phrase *university administration* are related in such a way that *the Trustee Board*, *the Academic Senate*, *lecturers*, *employees*, and *students* refers to a type of that the phrase *university administration*. And phrase *university administration* is a general term that includes *the Trustee Board*, *the Academic Senate*, *lecturers*, *employees*, and *students* as well as other types of and phrase *university administration*.

university administration = *the Trustee Board*, *the Academic Senate*, *lecturers*, *employees*, and *students*.

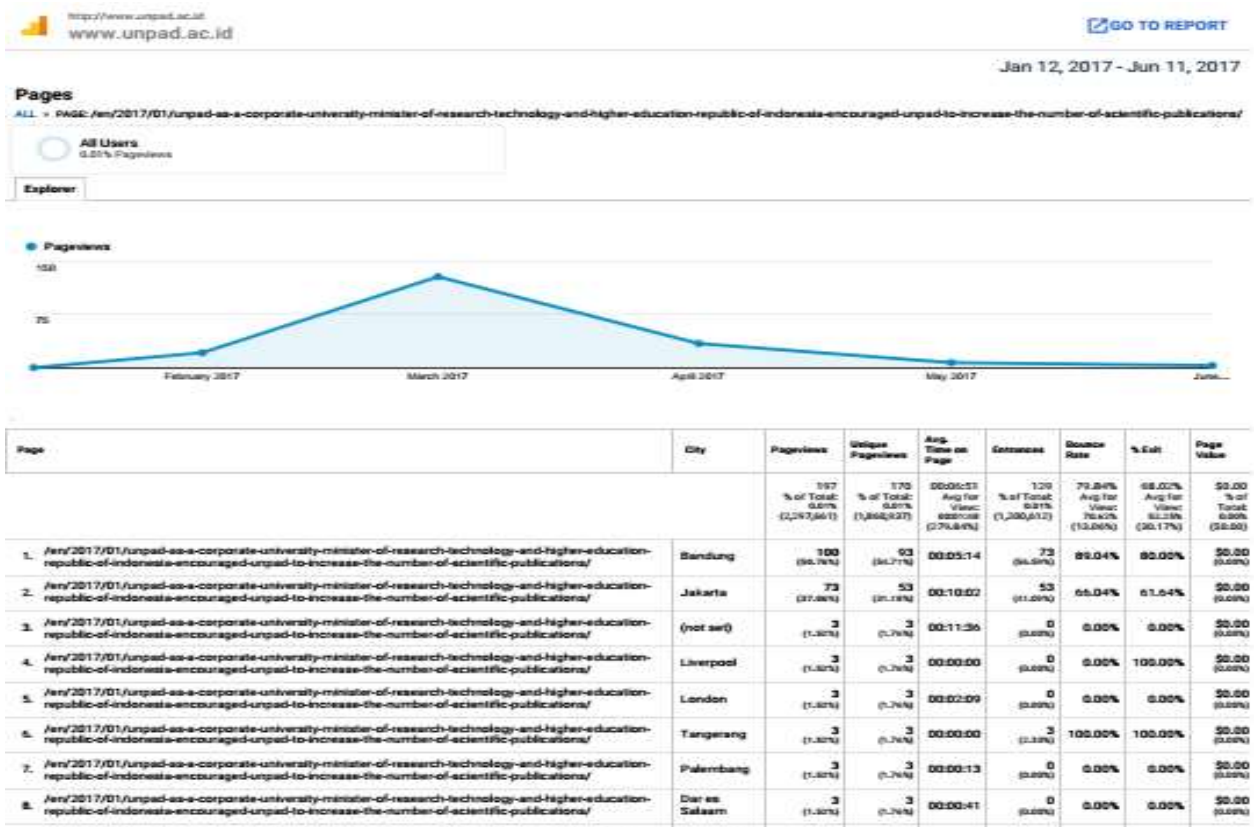

C. The Reader's Frequency of the Text

Picture 1.

Page view: The number of Page / web pages related to a particular article accessed by the user whether it is opened once or repeatedly. From the table above page view for the article above the number of page views that come from:

- Indonesia 178 access times
- America 5 times in access
- UK 5 times in access
- Taiwan 3 times in access
- Tanzania 3 times in access

Picture 2:

Unique Page view: The number of pages / web pages opened by the user and counted only once, (for illustration the user opens page A then opens page B and returns to Page A then Unique Page view = 1 and Page view page A = 2)

- Indonesia has 150 access times
- America 5 times in access
- 5 times as old as UK access
- Taiwan 3 times in access
- Tanzania 3 times in access

Avg. Time on Page: average time spent accessing a single page

- Indonesia 07 minutes 43 seconds
- America as much as 1 minute 10 seconds
- England as young as 03 minutes 13 seconds
- Taiwan as many as 11 minutes 36 seconds
- Tanzania for 41 seconds
