Usk vs Terrace Baseball 24th A Great Day

The 24th of May was a gala day in Usk. The people of Terrace and district were here in large numbers early in the morning, and sports were the order of the day. Two baseball games were played, one between Usk and the Terrace Junior team, and the other with the Terrace senior team.

The game with the Junior team was most keenly contested. Terrace, with Thomas pitching and Mist catching, started off well, and the first inning passed without either side scoring. When Usk came up the second time they put four men across the home plate, and Terrace then tied it up in their second inning. The Terrace battery was changed to Bennett catching and for the balance of the game Terrace only scored two more runs while Terrace piled up a total of 16. But it must not be thought that Usk did not play good base ball. Ernie Laplante, Usk's famous Montreal short stop, came fully up to advance notices. He was all over his area like a map and kept the team pepped up with his constant chatter.

The game between Usk and the senior team was a ragged affair, full of errors and passed runs, finishing with a cricket score of 27 to 21 in favor of the minors. Batteries in the second game were Scott, Frank and Burnett for Terrace and Olson, Martinson and W. O'Brien for Usk.

The new field was tried out for the first time in these games. The infield was in splendid shape, but the outfield is still a little rough and inclined to be dead, not having fully packed down after the grading.

The balance of the day was spent in social events and the evening was given over to the dance for the benefit of the Usk baseball team. There was a good crowd at the dance and the event was greatly enjoyed.

Fred Stewart, the new ferryman had a very busy day, and remained on duty all night to accommodate the visitors from Terrace, some of whom got up in the evening just for the dance, and then everyone was able to go home just when it suited them.

Mrs. E. Drake lent a new feature to the proceedings when she operated a hot dog stand that paid well, adding considerably to the revenue of the ball team. The funds of the ball team are in much better shape now, the day in every way having proven to be successful.

NEW HAZELTON WON SUNDAY

Defeated the Snappy Nine in Smithers, by a Nine-Four Score—Very Fine Game

New Hazelton went to Smithers on Sunday afternoon last to play baseball. It was the return game with the junior team of Smithers. Hazelton was at first scheduled to play, but some internal trouble developed and New Hazelton was asked to fill the bill. The visiting team won by a score of 9 to 4 and those who saw the play say it was the best game of the season. New Hazelton played a faultless game up to the sixth inning when something went wrong and the Snappy Nine got in their first three runs. After that the New Hazelton boys steadied down and allowed the Snappy Nine only one more run. Even at that there was not a little feeling that the base umpire was giving the visitors a lot the worst of his decisions. But New Hazelton won the game anyway by nine runs to four.

Changes Time Table C. N. R. to Daily Trains

Effective Monday, June 13th important changes in train service between Prince Rupert and Jasper are announced by the Canadian National. East-bound passenger trains will leave the Prince Rupert depot at 12.30 noon each Monday, Wednesday and Saturday, arriving at Hazelton at 8.26 and Smithers at 10.30 p.m. the same days. The trains will arrive at New Hazelton at 8.41 p.m.

Westbound passenger trains will leave Redpass Junction at 10.11 a.m. Tuesdays, Fridays and Sundays at Smithers at 3.45 a.m. Mondays, Wednesdays and Saturdays, New Hazelton at 5.57 a.m. and Prince Rupert at 1.30 p.m. same days.

In addition to this passenger service three additional mixed trains will operate each week running on alternate days to those of the passenger trains.

These trains will leave Prince Rupert eastbound at 3.00 p.m. every Tuesday, Thursday and Friday, and arrive at Prince Rupert at 11.00 p.m. every Sunday, Thursday and Friday.

The changes will allow passengers to make close connections at Rupert with Canadian National boats north and south bound, and also will connect with the regular transcontinental trains at Jasper.

The Canadian National will also put on a double daily transcontinental service between Vancouver and Montreal.

PROSPECTORS BUY LOCALLY

Under the provincial government's plan of assisting the prospectors during these times of depression between 25 and 30 men have gone into the hills in the Pacific district and even as far east as New Hazelton. Practically all of these men have come from Prince Rupert or some other congested town where the situation was too much. The home prospectors are not very enthusiastic about the hills being filled up with a lot of amateurs and inexperienced men, but there is lots of room for everyone, and it is usually an experienced man who finds the real mines. The thing that hurt most was that the new men would stock up with supplies in Prince Rupert and then ride the "observation" cars out along the line to some nice camping spot and when those supplies ran out would ride the "observation" back to Rupert, stock up and return to the camp via the same route. At the same time there are a lot of merchants through the district who would be glad to supply those outfits with groceries and other necessities. This matter was taken up with the proper authorities and some changes have been made, to the satisfaction of the interior merchants.

FARMERS' INSTITUTE CONVENTION

The District B. Farmers' Institute convention will be held at Telkwa on Saturday, June 18th. J. B. Munro, deputy minister of agriculture, is expected to be present and will speak on various problems that will be dealt with by the department of agriculture before the meeting. Delegates to the convention are asked to bring up all problems that are for the betterment of agriculture.

The young men who are able to fish without a license on account of their years, would be well to remember that it is not always advisable to brag about the number of trout taken in one day as there is a limit, even for those who are nearly eighteen.

UPPER SKEENA FARMERS MET

Elected Delegate to Convention to be Held in Telkwa—Woodcock's News Items

Woodcock—The annual meeting of the Upper Skeena Farmers Institute, which was postponed until the roads were passable, was held May 14th at Kitwanga school house. The following officers were elected for the year:

President—T. E. Moore
Vice-pres.—T. R. Tomlinson
Sec.-Treas.—W. C. Little
Directors—L. Hutton, Roy Moore, E. Hodkins, A. S. Tordiffe, P. Andrews, Auditor—Roy Holmes.

T. E. Moore was appointed delegate to District B. Convention which will be held in Telkwa next month.

O. Ostead of Prince Rupert has purchased 50 acres from D. McLean of Woodcock. He is already settled and expects to move his family here in the near future.

Dan Quinliven and Walter Moberly gave the Cedarvale district children a picnic on the 24th which was greatly appreciated.

Doc. Clapperton of Prince Rupert spent Tuesday with W. C. Little and Roy Holmes. Doc. thinks a lot of this place.

Mrs. R. Wiggins of Cedarvale was a guest of friends in town on Tuesday.

Mr. and Mrs. Frank gave a birthday party in honor of Alex. Grant of Nash. Mr. Grant is an old timer in the north having come in 1910. He is now well past the three score years and ten. It was a very jolly party. Davie Ross furnished the music with his bag pipes and everyone had a good time.

THAT FAMILY COW

On a small farm the family cow is one of the most profitable investments there is to be found. With the cow milking the family is assured the supply of fresh milk for drinking and cooking, skim milk with which to make cottage cheese, butter for the table and a surplus of skim milk to feed to a flock of hens.

In the jazz years quite a number of people did not like to be tied down to the task of milking bossie night and morning—they preferred to be free to use their cars for a day of it as they saw fit. Now the population is swinging and people are coming to realize that their bovine friend will furnish a good foundation for the family living, and supply food values not obtainable elsewhere.

In this connection results have been published in the last few years of widely spread experiments of the nutritional value of milk. Groups of school children were selected, totaling in the aggregate, several thousands and these from the factory district in the old country. Tests over a number of years showed that where smaller portions of milk were added to the daily menu of the child, growth was twice as fast as that of a child that did not have the milk. In all cases the teachers reported that the children who had the milk diet were much harder handed. They had much higher spirits than the children who lacked that item of diet.

CEDARVALE CELEBRATED

The 24th of May was celebrated by a picnic and sports held on Muskish Island. Good weather added to the pleasures of the day, and the program of sports provided brought much pleasure to the younger as well as the older members of the community.

Mining Man is Reeay to Start If Price Higher

Wm. Glebe of Ferguson, Mo., accompanied by Mrs. Glebe, spent a couple of days in the district looking after his various interests. During his stay he called at the Omineca Herald office for the purpose of renewing his subscription to this paper. "The first information I got about this country and which induced me to invest some money in this northern district, I got out of your paper," said Mr. Glebe to the editor. "I read it every week and all of it. I do not want to miss one issue."

Mr. Glebe has a mining property on Six Mile creek. It is being looked after by Pere Ober, and that old timer has his instructions as to what work is to be done this season in the way of development. Mr. Glebe also has some town lots in the district and he has some farm land in the Terrace district and most of the information he received which induced him to buy his several parcels, he got from the columns of the Omineca Herald.

At a very early hour on Saturday morning, in fact it was on the tail end of the train Mr. Glebe was leaving by and that the editor was coming home on, that he would be back again next year, and by that time he hoped that the outlook for mining would be brighter. He has men interested who are all ready to go the minute the outlook is favorable. He is ready to start at a moment's notice on a fairly large scale.

The visitor from the south is also interested in New Hazelton lots and asked for a map and information to be sent him as soon as possible as he desires to secure a number of them.

REMO CELEBRATES MAY 24th

Held a Picnic and a Sports Program With a dance in the Evening

Remo—For the first time in Remo's history the 24th of May was celebrated in right style. A picnic was put on by the ladies of Remo, Mrs. Lund and Mrs. Murphy in charge. D. Atkinson was in charge of the sports and everything came off splendidly, everyone voting it a complete success. After the sports and lunch the evening was spent in dancing in the R. F. I. hall. The maypole dance by the school children was well worth seeing, Mrs. Lund having trained them perfectly. The Maypole was decorated with pink and white.

The following are the winners in the sports events:

Seven years and under—Helena Lindstrom, Billy Atkinson.

Ten years and under—Doris Atkinson, Billy Lindstrom.

Sixteen years and under—Otto Lindstrom, Franze Froese.

Ladies race—Claire Lindstrom, Mrs. Lund.

Men's race—D. Atkinson, J. Erlandson.

Men's sack race—D. Atkinson, C. Lindstrom.

Children's sack race—Doris Atkinson, Billy Lindstrom.

Ladies sack race—Doris Atkinson, Mrs. Lund.

Children's high jump—

Ten years and under—Billy Lindstrom, Doris Atkinson.

Sixteen and under—Franze Froese, Otto Lindstrom.

Men's—D. Atkinson, J. Erlandson.

Ladies—Mrs. Lund, Doris Atkinson.

Children's balloon race—Billy Lindstrom.

Ladies balloon race—Mrs. Lund, Doris Atkinson.

Men's balloon race—D. Atkinson, A. McDonald.

Hospital Day On June 14th Program Ready

Hospital Day, postponed from May 12th to June 14th will be as big a drawing card this year as ever it was. A splendid program is being prepared to amuse and benefit the people. On the 12th of June (Sunday) there will be a joint service in the United Church in Hazelton, the Anglican church having kindly consented to hold no service that evening, but to join with the United Church in honoring the day. Rev. Mr. Redman will be home then and he will preach a special sermon. Rev. Mr. Bannister will also take part in the service.

On Tuesday, June 14th everyone is asked to meet at the Hazelton Hospital grounds at 2.45 when a program of sports will be run off which it is expected will last until four o'clock at which hour there will be the reception of Hazelton Hospital babies, and at the same time the Auxiliary will hold a public reception at the hospital when light refreshments will be served. The hostesses are Mrs. A. D. Chappell, Mrs. W. W. Anderson, Mrs. C. H. Sawle and Mrs. T. B. Campbell. The young girls of the district will wait on the tables.

It is expected that a half holiday will be declared in the schools so that the children may take in the sports.

On Tuesday evening there will be the graduation exercises held in Kitwanga hall, Hazelton. The graduate nurses this year are Miss Willan and Miss Orr. Rev. Mr. Donaldson of Smithers will deliver the main address to the graduating nurses and he will also present them with their diplomas. There will be other speeches and several musical numbers. This will be followed by a dance. The only charge made during the day will be 50c for the dance. Mrs. Chappell and her orchestra will furnish the music.

CANADIANS LIKE CEREALS

Canadians are very fond of prepared breakfast cereals, and according to most recent statistics consumed nearly \$6,000,000 worth of such prepared cereals in 1930. This was in addition to large quantities of old-fashioned porridge made out of oat meal and rolled oats. Exports of Canadian manufactured breakfast cereals in 1930 amounted to nearly 2,500,000 while imports were valued at about a quarter of a million dollars.

Donald Grey of Hagwilget reports that he has planted 7,400 pounds of spuds this year, and he says the seed was all good seed. He also has a ton and a half of grain planted. He has purchased an additional fifteen acres and he hopes to get it ploughed this year.

The road between New Hazelton and Hazelton was put in much better condition the latter part of last week, and it is now possible to travel over it without losing one's teeth.

Spring salmon are being caught under the high level bridge, Bulkley Canyon, by the Indians. White people are fishing for trout and getting some too, but the catch fluctuates with the rise and fall of the water. Some days the Bulkley is several feet higher than on the previous day.

A. Attree, E. S. Cole, W. H. Johnstone and W. Chapman spent a day or two in Prince Rupert.
A. J. Lancaster, provincial collector, Prince Rupert, was in town a few days last week.
H. C. Cowell of Vancouver spent a couple of days in Terrace last week and then went on to Hazelton. He is connected with the immigration department of the C. N. R.

Terrace Notes

The people of Terrace turned out in force on Thursday morning at 10.30 when the fire alarm warned them of a fresh danger. The men working at George Little's mill caught sight of a fire on the roof of Mr. Ferguson's home and immediately left work to render assistance. The fire, which had started from a defective stove pipe, burned a small hole in the roof.

Rev. H. T. Allen, accompanied by his wife and family returned Wednesday after attending the annual conference of the United Church held in New Westminster.

After sustaining a fifty-fifty deal at Usk, the local ball players are on their toes getting ready for June 3rd when the minors intend to visit Terrace and try to beat the fruit growers, no matter which team they put up. The program for the King's Birthday has not yet been completed but it will include baseball, football and another ball game later. There will be a dance in the evening.

D. McLeod of Cedarvale was in the village on Thursday.

W. Thomson of Kalam Lake was in Terrace over the week end.

During the last few days damage of a mischievous nature has been done in various parts of the district. Windows have been broken and the piles of the fire fighting equipment on the Skeena river bridge have been removed. The police is making a check up on the known smart Alex's and would be had men or boys from the great open spaces.

Monday morning found the Skeena at a higher level than it has been at any time during the present season. A close check is being kept of ferry equipment and various bridges along the river to ensure that damage is kept to a minimum.

Mrs. S. G. Mills is spending a few days in Hazelton.

C. R. Gilbert made a trip last week to Stewart and Ansox.

The beautiful weather last Sunday attracted many out to the lakes to see about their summer homes. The anglers also report good catches.

C. Larson has about finished his cabin built a short distance north of Lakelse Lodge.

Capt. J. B. Colthurst has the cement for the foundations in for a new cottage on his lake front property.

Geo. Little is erecting a cabin on his Lakelse property.
Geo. Little recently brought in a load of cattle from the interior. Included in the shipment were six milk cows, and these have been sold to various settlers who had no stock before. As a result of the careful planning in placing the cattle several families will have the benefits of fresh milk—a goodly portion of the family diet—and at the same time get a start in the stock business.

CARD OF THANKS

Mr. and Mrs. Chas. Nelson wish to thank the many friends who so kindly gave their services in their recent sickness and bereavement; also for the many expressions of sympathy.

Have you paid your subscription?

Here and There

Anticipations are held there will be an attendance of 500 Terracians at the district convention to be held at the Cornwallis Inn, Kenville, N.S., June 1 and 2. It is expected that Sir John Bennett of St. John's, Newfoundland, will address the convention.

Hon. Gordon S. Harrington, Premier of Nova Scotia, accompanied by Mrs. Harrington, left Halifax recently for Montreal where they boarded S.S. Duchess of Bedford for a short holiday in the Old Country. During his absence, Hon. Percy C. Black will be acting premier of the province.

"It is not too much to say that any improvement in the revenues of the railroads will immediately make itself felt in all channels of trade and that the maintenance of railroad solvency will do more than any other domestic factor to restore strength to the nation's institutions," says an editorial in the Charleston, S. C., Post.

The "career open to merit" in railway affairs is well illustrated in the case of Charles H. Ewing, a railroader for 49 consecutive years, recently promoted president of the Reading Company. In 1883, at the age of 17, Ewing began his railroad career as a rodman in the employ of the Philadelphia & Reading Railway, now the Reading Company.

There were 447 moose and 9594 deer shot in New Brunswick last year, according to figures contained in the annual report of Chief Game Warden H. H. Ritchie to the provincial Minister of Lands and Forests. There was also a very successful partridge season with a bag of 44,469 birds.

Warmer weather and generally favorable conditions point to normal development of the western wheat crop, according to the report of the agricultural department of the Canadian Pacific Railway. Virtually all of Manitoba's seed is in and Saskatchewan and Alberta seeding will be completed by the end of the third week of May.

Two famous globe-trotters, Dr Roy Chapman Andrews, noted anthropologist, and Bob Davis, New York Sun's world-girdling correspondent, came together at Victoria recently on Canadian Pacific liner Empress of Canada, the former on his way to Peking and the latter travelling with Mrs Davis to Honolulu.

Success attending the inaugural cruise of S.S. Princess Alice last year to northern British Columbia and Alaska has led the British Columbia Coast Steamship service to provide another special Alaska cruise with the S.S. Princess Charlotte, leaving August 9 from Vancouver, it is announced by E. F. L. Sturdee, general passenger agent, Canadian Pacific Railway.

Capital, Labor, the learned professions, diplomacy and business were all represented in the passenger list of the Canadian Pacific liner Empress of Australia on arrival at Quebec recently. The list included Sir Charles Gordon, president of the Bank of Montreal; Tom Moore, president of the Trades and Labor Congress of Canada; F. E. Meredith, K.C., Dr Moser, consul-general for Czechoslovakia, and Colonel Hercule Barre, Canadian Government Trade Commissioner in Paris.

Residents of Maritime Provinces will have a fine opportunity of visiting Montreal's great Naval and Military Tournament, May 27-29, through a special low rate Canadian Pacific coach excursion leaving Saint John, Fredericton, Woodstock, St. Stephen and St. Andrews May 27. Similar excursions over the same week-end are being operated by the railway from Vermont, and the Sudbury, Ontario, areas. (813)

The New Hazelton Ladies Aid will meet on Thursday afternoon at the home of Mrs. F. A. Goddard.

STRAWBERRIES CAME THROUGH

Very Little Damage Done to Plants and Prospects Good for a Big Crop of the Favorite Fruit

Speaking with a number of berry growers in the Terrace district last week the Herald learned that the prospects of a bumper crop this year are very bright. There had been a few degrees of frost a few nights back, but one man said that he had gone over his patch very carefully and he was glad to see that there was such a very small percentage of bloom with a black heart. The strawberry was what first brought Terrace to the notice of the public, and although the growers have permitted their patches to grow less we believe that in the last year or so there has been a considerable increase in plantings and with a superior berry, that eye long Terrace will again be known as the centre of the best strawberry berries the world has ever had. Rem and Vanarsdol and other sections nearby have also been increasing their berry patches and have won considerable of a reputation for high class fruit.

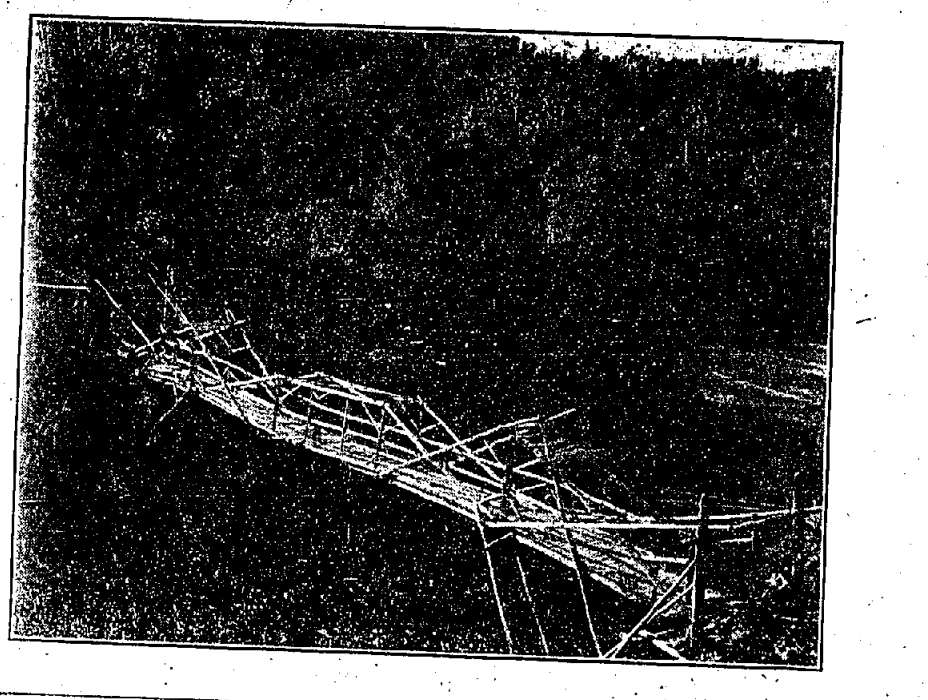

NUDE PARADE FOR TERRACE

Fred Nash, well known old timer in the Terrace district, and a practical man, if at times a little radical along certain lines, says that he believes the Doukhobors have the right solution of the present unemployment and lack of market problem. Mr. Nash says that he has a good notion to organize the people of Terrace and put on a nude parade some time when Attorney-General Pooley is around, in the hopes of getting a "good stiff sentence." Perhaps by the time they have served the sentence the world depression will be over and ordinary persons will have a chance to live.

CHEESE EXPORTS INCREASE

Cheese exports from the port of Montreal to May 10 reached a total of 996,185 lbs. as compared with 653,820 lbs. for the corresponding period last year. Exports of cheese last year totalled \$4,788,400 lbs. with the United Kingdom taking 80,565,500 lbs.

Would You Like To be Blind?

Imagine yourself to be blind, and being asked to buy a motor car, or silverware, or clothing, or a pair of shoes, or a clock, or a refrigerator, or a suite of furniture. Imagine yourself to be set down in a main street with stores on both sides of it, and being bidden to purchase the thing or things on your shopping list.

Being blind you would not know what store or stores to enter; and even if you did find yourself in the right class of store, you wouldn't be able to select intelligently what you were bidden buy. You wouldn't know anything about values. It would be cruel to send a blind person to do selective buying.

Advertisements are like radiovision—They enable you to see in your home what is in the stores, what stores have, what you plan to buy; also, they give descriptions, tell you prices, and answer many of your questions.

Advertisements save you time, and safeguard you against the danger of mischoice.

What is advertised regularly is trustworthy, and is good value.

Be guided by advertisements when you plan to spend money for things to wear, to eat, to give your home ensembles and comforts, to save your time, to increase output of your own labor, or of your soil or flocks or herds or orchards, or to protect your life, your health, your property or money.

What advertisers do and spend in this and in other newspapers to get your attention and favor should have your warm approval, for what may be expense to them represents economy for you.

THE YOUNG AND THE OLD

From the Vancouver Province
A correspondent of the Province suggested the other day that a legislature of young men would be able to solve British Columbia's problems. There should be no one in the house over 27, he said. About the same time Prof. Soward of the University of British Columbia was telling the United Church conference at New Westminster that one of the reasons for present day troubles was an attempt to run twentieth century machinery with eighteenth century methods, and he cited a number of men at the head of important governments whose training and attitude belonged to the past. The young men who might have taken hold, he said, had been killed in the war.

There is truth in the suggestions both the correspondent and Prof. Soward. We can not, of course, look for a legislature composed entirely of men under 27. Perhaps to elect such an assembly would be carrying confidence in youth too far. Experience, after all is worth something and governments need stability as well as aggressiveness. All the same, it is just as absurd to have a house with not a member in it under 27, and nearly every member twice that age or more, as it would be to depend upon a house made up entirely of young men. Canada has been described as a young man's country and British Columbia as a young man's province. But there is no doubt that in our parliament and in our legislature we take too little advantage of the enthusiasm and energy and generosity of youth.

The span of man's life if he is lucky runs to three score years and ten. But the years of his best work and real activity are not nearly so many.

In politics in this country, and the same is true to a great extent of the United States, we let the abilities of youth go largely to waste. Or we turn them to the menial tasks of hewing, political wood and drawing political water. Only when the first fire and enthusiasm have vanished and experience has produced an attitude of cynicism, dissolution and hesitancy, do we trust our men with the affairs of state. And then we wonder why our public life tends backward so much and forward so little. Less reliance on the old war horses who hang back in the harness, and more dependance on the passion of youth to get things done, would probably carry us farther.

And it is not only in the matter of action and doing that we suffer from too much old blood. It is the field of ideas as well. Our world today is different from the world of the eighties or nineties, when most of our leaders grew up, as the nineteenth century was in the eighteenth. Our needs are different, our problems are new and they cannot be satisfied or solved by the old thinking unless it is lighted by some sparks at least from the new.

MOSQUITO BITE CURE

The Entomological branch of the department of agriculture, supplies the following remedy for mosquito bites:

The most satisfactory remedial substances known are household ammonia and tincture of iodine, while many find glycerine or alcohol effective. A number of others advocate the use of ordinary toilet soap, which is moistened and rubbed gently over the puncture after which the irritation soon passes away.

Mrs. (Dr.) Cade of Prince Rupert spent a few days in Hazelton this past week.

Here and There

Practically an egg a day is eaten by every man, woman and child in Canada. The average per capita yearly consumption of eggs in the Dominion is 361, the highest of any country, according to an official computation.

Canada's gold production in 1931 reached the new high total of 2,682,776 ounces valued at \$55,457,900. This is 27.6 per cent above the 1930 production. Of this total the province of Ontario accounted for 2,079,752 ounces valued at \$42,992,288.

New Brunswick can now claim the rare distinction of producing a white squirrel. The animal was caught by Jack Felsing of Fredericton who trapped it near the village of Lincoln. It has been bought by the government and will be mounted and placed on exhibition.

Hon. Cairine Wilson, Canada's only woman Senator, arrived recently at Quebec on board the Empress of Australia, from a trip through Europe. While in London she visited the House of Lords, but could not make comparisons with the Senate since the House was not in session.

Western plains have been given a boost by the rains of the last days of April and farmers of the prairie provinces are cheered by fine seeding conditions and good prospects of crop success, according to information summarized by the Canadian Pacific agricultural department crop report.

Following the announcement of reduced ocean rates on Canadian Pacific ships on the Atlantic, one of the largest parties ever to leave Toronto at this time of year for the Old Country sailed recently aboard the Duchess of York. There were 275 in the party drawn from all parts of eastern Ontario but mostly from Toronto.

The first cases of roses and shrubs from France for Grand Pre Park, Nova Scotia, arrived there recently. They are from Chateaurault, France, the gift of the mayor of that town. Chateaurault is one of the places in France where the exiled acadians settled after the Grand Pre expulsion.

Four stretches of New Brunswick trout and salmon waters were sold at the Department of Lands and Mines recently for prices totalling \$8,850. These leases for a term of 10 years are on the Restigouche, Kedgwick, Matapeia and Big Sevogle Rivers and prices paid are the annual rental charges.

Daylight saving time, commencing in Quebec and Ontario provinces May 1, occasioned little confusion on Canadian Pacific travel. Travellers have nowadays learned that the railways remain on standard time and govern themselves accordingly. The railway announced a number of train time alterations prior to the introduction of daylight saving.

From little Norfolk Island in the South Pacific, one of the smallest units in the British Empire, an excellent sample of beans for exhibition at the World's Grain Exhibition and Conference to be held at Regina July 1933, has just arrived. Norfolk Island is the scene of the punishment of the mutineers of the "Bounty" in 1856 but it has long ago changed from a penal to a prosperous settlement. (841)

You don't need "sea-legs" on the

TRIANGLE TOUR

For 600 miles you are carried through the river-smooth seas of the famous Inside Passage—a vacation trip all in itself.

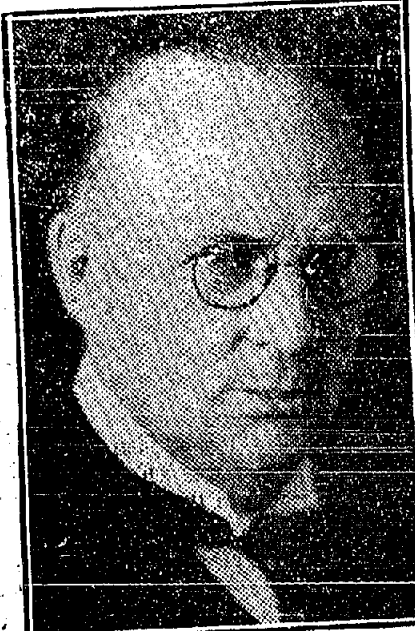

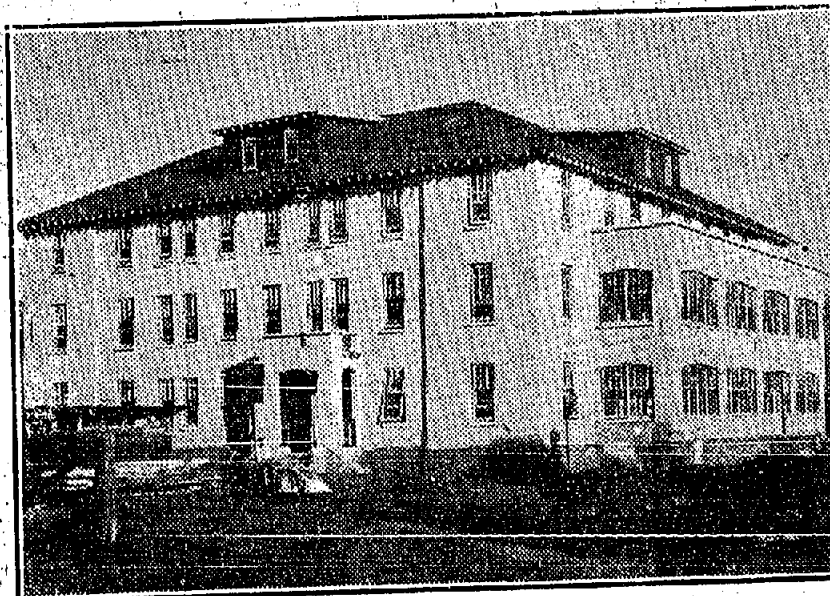

You see the highest Canadian Rockies; Jasper National Park, (world's largest); and the picturesque tetem-pole villages of the Skeena River Country.

Why not plan a complete change of vacation scenes this summer? Folders from your nearest travel agent, or—

There's
even a
difference
in the
fresh
aroma

KELLOGG'S Corn Flakes have such a delicious aroma that you'd be sure to choose them if you compared them with others, just on the strength of opening the packages. And of course there's a *big* difference in the taste and crispness.

Kellogg's are the very best corn flakes possible to make and they are protected by a sealed WAXTITE inside bag that brings them *oven-fresh* to your table. This feature is patented!

Kellogg's guarantee you the highest quality and satisfaction. Look for the red-and-green package. Made by Kellogg in London, Ontario.

Tony Grecco was injured by a bull on his farm near New Hazelton on Tuesday evening last. He will be in the hospital for the next two or three months.

A cold supper will be served by St. Peter's Auxiliary on Saturday afternoon, July 9th, on the Mission House Lawn from 4 to 7 o'clock. Everyone welcome.

Inspector McDonald of the provincial police, with headquarters in Prince Rupert, paid a visit to the several detachments along the railway the past week.

The New Hazelton church has been redecorated both inside and outside and now presents a much more attractive appearance.

Doings Around Home

Of interest to you and your friends

Seventeen pack horses loaded with seed spuds and other seeds left Wednesday for the Babine. Accompanying the pack train were two mounted policemen and two Indians. The department of Indian Affairs are endeavoring to make the Indians more self-relying, and the natives are being encouraged to go into farming now more than at any other time.

Moses Jones, chief at Kitseguckla was married to Alice Wilson of Kitwancool on Thursday of last week. The ceremony was performed by Dr. Wrinch and was witnessed by about five hundred Indians from the various reserves. After the ceremony a banquet was served and over two hundred were seated at each sitting. It was a very grand affair. Only a few favored whites were present.

A fire got started in an old burn on the Kiwancool trail about 12 miles out from Kitwanga and for several days burned merrily.

HOSPITAL PATRIOTIC BRIDGE

Come and enjoy a game of cards and help the Hospital; Hodder's Hall, on Friday, June 3rd, the King's birthday. Play starts at 8.30 sharp. Admission 50c.

In due course Hon. Mr. Jones, minister of finance, will be forced to admit that the late Hon. John Oliver was the king of tax collectors, and that his government left nothing untaxed that could be taxed and made produce a revenue. Any reductions in the deficit will have to be through economy as the people refuse to be taxed any more.

Dr. Wrinch was in Kitseguckla last weekend in one afternoon vaccinated 72 people there. He said they were all quite pleased with the operation but he came home the same night.

Robt. Hunter of the Royal Bank, has returned to Hazelton after spending a vacation in Vancouver. He said that while there were a large number of unemployed in that city most of them were from outside and many from over the line. He said business was pretty fair in the city.

R. J. McDonell of Smithers, who has been ill since last New Year, passed through here Tuesday morning enroute to Vancouver where he expects to remain in future.

The regular general meeting of the W. A. to the H. H. will be held at the home of Mrs. H. C. Wrinch on Tuesday, June 7th at 8.30.

Jack Sargent returned to Hazelton the first of the week having completed his studies at the University of British Columbia for the year.

The new steel foot bridge at Valeont has been completed and on Tuesday of this week Paul McMaster and his staff passed through town enroute to Vancouver.

The new gas tax of seven cents a gallon has had the opposite effect that was expected. The people are not using gasoline to the extent they did or would have continued to use it at five cents a gallon. Just another killing of the goose that laid the golden egg.

There were quite a number of picnics held last Sunday in various parts of the district. There was a fair sized army of mosquitos and other pests so that the girls "had just a lovely time."

Chas. Taylor of Dorreen, but recently of Kamloops, passed away at the latter place on May 15th. He was an old Klondyker and among the originals in the Dorreen district. He was well known and will be remembered by all the old timers.

The third Sunday of June, the 19th, has been set apart as a Rural Life Sunday by the United Church in Canada. Rural Life in its religious, social and economic aspects is being stressed.

Tight Fit But Paint Untouched

Residents of Panama Canal Zone had their biggest thrill since the "big ditch" was finished when the Canadian Pacific liner "Empress of Britain" passed through the canal in April. As the largest vessel ever to navigate the canal the Empress received unusual attention. In fact as far as canal officials were concerned, she was viewed with furrowed brows. The lock-keepers, if they wanted to, could have jumped aboard her, so tightly did she fit.

Furrowed brows marked Chief Officer, W. G. Busk-Wood, R.N.R., of the Empress of Britain. As the "Mate" he is responsible for her gleaming white painted sides

and bets were freely offered that he would have to put men over the side when she reached Cristobal to re-paint. Scotchmen amongst the 481 passengers covered every bet—they had faith in the Scottish caution of Commodore R. G. Latta, her commander. It was a tight fit, but never a scratch of paint!

The photograph shows the Empress of Britain entering the Pedro Miguel lock. Her passengers, crowded the decks to watch the spectacle and so interesting was this feat of navigation that Chief Steward Frank Moss complained that for the first time in four and a half months they forgot to eat!
