

## Silver Standard Mine to Resume Operations Soon Instal Newest Machinery

The Herald learns on the best of authority that the Silver Standard mine on Glen Mountain, four or five miles from New Hazelton, will be opened up this spring and mining will be on a large scale. The first work will be driving a long tunnel on the lower level to be used as a main working tunnel. The mine will be brought to a shipping basis as quickly as possible and the very latest machinery is to be installed.

At the present time General J. W. Stewart, one of the chief owners, is in the east, but is expected in Vancouver very soon. In the meantime preparations are being completed and all information made available, so that when the General arrives, the final decision can be quickly made. The probability is that the tunnel will be driven first, and later in the year, when the new bridge has been opened, that the new mill will be here and ready to haul across to the mine.

The Silver Standard is one of the oldest mines in the district and the one which attracted so much attention to this district as a mining centre. The owners, in face of many difficulties shipped many cars of high grade silver-lead ore and later on installed a

mill and from it shipped many cars of concentrates. The property closed as a result of the big slump in metal prices following the war. As far as the mine is concerned very little ore has been taken out, only about enough to prove the extent of some of the ore shoots and the depth and consistency of the veins. In the early period of development a shaft was sunk to the 400 foot level and considerable underground work done from there. In later years the work was all done on the upper levels.

There will be general pleasure in the district now that it is known that the Silver Standard is going to resume operations. It is so far developed that it will help encourage all the other operators who are getting started on other mines. But the Silver Standard is itself a great asset to the district, and will provide a market for all the farm produce that is being grown in the district now and all that the Kispix will grow for some time. This, with the market that other properties, and there is now reason to believe one or two will be working on as large a scale as the Standard, will consume all that the Bulkley Valley will have to spare from their own local markets.

## McGill Talks to Vancouver of Local Mining

While in Vancouver recently L. S. McGill of Smithers addressed a meeting in the Georgia Hotel of some of those interested in mining. The Star reports the meeting as follows:

"Vancouver will grow only so rapidly as her hinterland, the interior of the province is opened up and developed," declared L. S. McGill, president of the Omineca Chamber of Mines, in his address on mining possibilities in Smithers district, at a joint luncheon of the Mining Bureau of the Board of Trade, the British Columbia Chamber of Mines and the Institute of Mining and Metallurgy, in the Hotel Georgia on Tuesday.

"I come here as an apostle of a great new mining north, the Omineca district," he said. "So far capitalists in Seattle and Spokane know more of our possibilities, and it is up to Vancouver and Victoria to step in and get their own while the getting is good."

"Capital and enterprise, and capital to back many good claims now owned by prospectors were needed, he said.

"He declared the construction of the Peace River outlet would be of tremendous value in the opening up of new territory wherein lay potential Sullivans and Hollingers. He remarked the Omineca was particularly free of wild-cat schemes."

## One Hundred and Eight Dollar Ore Was Carload Assay from the Mohawk

The assay returns on the first car of ore shipped by the Mohawk Co. from Four Mile mountain went \$108.00 per ton. This is excellent ore for carload samples. It is the intention of the company to continue the shipment of ore direct to the smelter and once the machines get working the shipments can be made fairly regularly. In the meantime a large reserve of a lower grade ore will be piled up for mill treatment as soon as the mill is installed on the property.

If things go as expected the machinery at the Mohawk mine will be in running order the end of this week and a start will be made at once to continue the drift tunnel. So far fifty feet have been run by hand and there are still 30 feet to go to get under the best surface showing. This will be finished in short order and the company will know pretty well what to expect in further development. The showing in the face of the tunnel is fine and the ore was just as good in a few feet of stope that was taken out to complete the first carload of ore which was shipped out last Friday.

ery at the Mohawk mine will be in running order the end of this week and a start will be made at once to continue the drift tunnel. So far fifty feet have been run by hand and there are still 30 feet to go to get under the best surface showing. This will be finished in short order and the company will know pretty well what to expect in further development. The showing in the face of the tunnel is fine and the ore was just as good in a few feet of stope that was taken out to complete the first carload of ore which was shipped out last Friday.

### OLD GOLD MINE RELOCATED

It is reported that the Sacramento Gold Ledge in the Kitmaat district has been relocated. A Vancouver man at the head of a party beat another party to the ground and now the Vancouver man is preparing to do some development work. This property was staked about three quarters of a century ago and has since been lost. A good deal of ground was staked and the new owners state that there is nothing to get excited about. Still there is a touch of the old romance of gold and of prospecting and it is safe to bet a lot of the boys will take a slide in to Kitmaat this summer just in case.

### OFFICERS FOR W. A. TO H. H.

The annual meeting of the W. A. to the H. H. was held in the United Church in Hazelton on Friday afternoon last. There was a very fair number of the members present and after the reports and routine business was transacted the ladies proceeded with the election of officers for the ensuing year with the result that almost an entirely new lot were chosen, as follows:

President—Mrs. R. Tomlinson  
Vice-pres.—Mrs. S. J. Winsby  
Secretary—Mrs. Sharpe  
Executive Committee—Mrs. Sealy  
Mrs. Falconer, Mrs. H. C. Wrinch and Mrs. F. A. Goddard of New Hazelton.

### OLD INDIAN DIED ON THE TRAIL

A report was received by the provincial police in Hazelton on Monday that there was a dead man on the trail some miles out from Kispix. Upon investigation the police found that it was an old Indian known as Timothy Skulsh who had gone out trapping a number of weeks ago. He was not in the best of health when he left, and it is supposed he died of heart failure. The trap line is two or more days trip out from Kispix and as the old man's partner is on his way in, the police are awaiting his arrival to complete their investigation.

Rev. T. Ferrier, superintendent of hospitals under the United Church of Canada, is expected to pay his annual visit to the Hazelton Institution next week.

Mr. Gibbs, sales-manager for Canadian Fairbanks Morse Co., Vancouver, will be in this district the end of the week.

The Oyster Bridge Club of New Hazelton met last Friday night at the residence of Mrs. Roy Guss. This week the club will meet Thursday evening at Mrs. F. A. Goddard's.

Last Thursday night the Felix Bridge Club entertained their husbands. The affair was held at the home of Mrs. R. S. Sargent. The hostesses were Mrs. Sargent, Mrs. Chappel, Mrs. Sharpe and Mrs. Newick. The prizes were won by Mr. Sharpe and Mr. Anderson, and by Mrs. Turnbull and Mrs. Winsby. This week the club will be guests of Mrs. Matheson.

Some of the boys from South Town are now getting in on the Four Mile mineral claims. They were out two or three days last week.

Geo. Parent has discovered some indications of mineral on his claims on Four Mile below the Comet group and the end of the week expects to put in a shot or two.

### ANNIVERSARY SERVICES MAR. 18

On Sunday, March 18 the anniversary services in connection with the United Church, Hazelton will be held. The speaker of the day is to be Rev. William Allen of Terrace and chairman of the Presbytery of Prince Rupert. Services are at the usual hour of 11 at New Hazelton at 7.30 at Hazelton. During the Sunday in question Rev. J. H. Young will take Mr. Allen's work at Vanarsdol and Terrace. On Monday evening there will be the usual social evening to which all are invited to be present.

### PUBLIC WORKS ROAD ESTIMATE

The estimates of the Provincial Department of Public Works for road building and improvements and maintenance for 1928 are reported as follows:—Omineca, represented by Hon. A. M. Manson, \$78,000; Skeena, represented by Dr. H. C. Wrinch, \$80,000; Prince Rupert, represented by Hon. T. D. Pattullo, \$27,000. The total for the Province is \$1,822,017. This does not include large sums for new work on the main highways. Out of this latter fund there should be at least \$100,000 for the Skeena highway if the government hopes to make any kind of a showing in the construction of that road. In addition to the road money there will be the construction of the new, high level bridge at Hagwilget canyon, and the Copper river bridge out from Terrace.

The Absentee Vote will continue in force in British Columbia. As much as both parties claimed to dispise it as an unfair voting system, neither could figure out any other system which the other party would accept. Anyway, the absentee vote is a mighty handy instrument in the hands of the party in power. Of course neither party is suspected of making use of those absentee ballots.

Mr. and Mrs. D. B. Boden expect to leave Thursday morning for Vancouver where they will reside in future.

### LOOKING AFTER OUR INTERESTS

J. C. Brady M. P., has never missed an opportunity to put Northern British Columbia and Central B. C. before the members of the House of Commons. He does it in such a way that even the cabinet ministers are listening to him. The policy of some in Rupert to "punish this district for daring to vote for a good man because he was a Tory" is dying out. The Dominion government realizes now that that policy is not getting them anywhere. At the same time the government realizes it was just such a policy and the men who advocate such a policy that defeated their party at the last election.

### THE FEEDING OF BABIES

From time immemorial it has been recognized that babies thrive best when breast fed, and it is the ambition of every mother to nurse her baby. But since it frequently happens that this is not practicable for one reason or another, the young mother looks about most anxiously for that food which will best take the place of the natural food which is not obtainable. It is essential that the food used should be absolutely pure, that it should contain all the necessary elements of nourishment for the child, and finally it should be easily digestible. For three generations Borden's Eagle Brand Condensed Milk has been the standby of mothers who were unable to nurse their babies. It is the leading infants' food, more Eagle Brand being used than the combined total of all others. It measures up to the requirements of the infants perfectly, and nearly all babies thrive on it from the first feeding.

The new policy of immigration which Gen. McRae is advocating in the Dominion House has many features of the policy advocated by the Omineca Herald advocated for British Columbia in 1915-16, but which the government of the day failed to adopt—much to the detriment of Northern and Central British Columbia.

## Commit Suicide in Hotel Room On Wednesday

Einar Ericksen Broen, a Norwegian, was found Thursday morning last in a room in a Hazelton hotel with his head blown off, apparently with a rifle. The man had been in town only two days and seemed to be worrying; his partner said because he had not made enough money to take him back to his old home. Olsberg Ingolf, a cousin of the dead man, was also his partner. They had worked last summer on the prairies and during the winter had been in the camps around Houston and Smithers. Last Wednesday night Ingolf went up to Evelyn, leaving his partner here. The man fired the fatal shot sometime during the night, none of the other inmates heard it and nothing was known of the affair until towards noon on Thursday when an attendant went to the room to do it up. The police were notified and after an investigation it was decided an inquest was unnecessary, as it was clear case of suicide. Ingolf was notified at Evelyn and he returned to Hazelton on Sunday for the funeral, interment taking place in the Hazelton cemetery.

### FAREWELL MR. AND MRS BODEN

There was a farewell social given in the United Church, Hazelton, on Friday evening, March 9th in honor of Mr. and Mrs. D. B. Boden who have been residents of Hazelton during the past 8 years. Among other features of the evening there were addresses by Wm. Grant on behalf of the church Board of Management and of the S. S. by Mrs. Young on behalf of the Ladies Aid of which Mrs. Boden has been a faithful worker; by Ethel Tomlinson representing the Sunday School scholars. A presentation of a cabinet of silver was also made, showing the esteem and high regard in which Mr. and Mrs. Boden were held. The good wishes of the whole community will follow them to their new location.

### WORK STARTS ON SUNRISE

The Abbotsford Lumber Co. is now negotiating a deal for the Sunrise property on Nine Mile mountain. Last Friday two men went up to the mine to start work on a fifty foot tunnel contract. This contract is a continuation of the tunnel work done last year, and it is expected that the additional fifty feet will pick up the ore that was lost above on account of a bend in the formation. If the ore is encountered there is every likelihood that quite an extensive campaign of development by the new owners will result. On the surface there was no more promising prospect in the north than was the Sunrise. Several cars of ore have already been shipped from surface cuts and it was a good grade of ore.

### TO DEVELOP COMET GROUP

Last week two men arrived from the south to start development work on the Comet group on Four Mile mountain near New Hazelton. This property was formerly owned by Jas. Dyer and recently bonded to W. B. Dornberg of Vancouver and owner of the Silver Cup mine. Mr. Dornberg is a real mining man whose ambition is to make a mine out of any and every property he takes hold of. He has made a mine at the Silver Cup and since he got the machines going the property is rapidly improving. He will attempt to do the same with the Comet group. He should have a good prospect as it adjoins the Mohawk which is showing up better all the time.

The Ladies Aid of the United church Hazelton will hold their annual Easter Tea and Sale of Warw, including Easter Novelties, Home Cooking, with Hot Cross Buns, etc., in the United church, on Thursday afternoon, April 5th, from 3 to 6.

Miss Irvine, R. N., who has been at the Hazelton Hospital temporarily, is leaving Thursday morning for Vancouver.

Mrs. Munro arrived from Smithers on Tuesday and while here is the guest of Mrs. Greig.

Mr. and Mrs. Reginald Hogan and daughter of Prince George are holidaying at the home of Mr. and Mrs. Taft.

Mrs. O. Weld of Vancouver arrived on Tuesday and is a guest of Mrs. C. R. Gilbert for a few days. She left Saturday for Montreal.

Dan Clacker returned Wednesday from the south where he had a good holiday.

Miss Ester Moore of Prince Rupert arrived Wednesday last and is visiting at her home on the Bench.

Mrs. O. T. Sundal was a bridge hostess on Wednesday evening last entertaining two tables. The prizes for the evening were won by Mr. and Mrs. A. H. Barker.

Word has been received of the death of Mr. E. Farr of Vancouver in his 75th year. He was well and favorably known in the valley having spent the summer here during the erection of the bridge of which he was inspector.

Mrs. (Dr.) Brummitt was an afternoon hostess on Friday entertaining a number of friends. It was a very pleasant affair.

Examinations for the position of forest ranger were held in the forestry office on Thursday last. E. C. Manning and R. E. Allen presided. Three candidates presented themselves, viz., G. McDonald and D. Kerr of Terrace and G. Graham of Cedarvale.

Mrs. Geo. Little entertained two tables at bridge on Friday evening in honor of Mrs. Munro. Mrs. Munro won the prize and Mrs. Sundal got the consolation.

A special mothers' service will be held on Sunday in St. Matthews church. Special music by the children.

Rev. Wm. Allen and Rev. J. H. Young will exchange pulpits next Sunday. Service will be held in Knox church in the evening at 7.30.

Mr. and Mrs. P. Murphy of Remo were week end visitors in town.

K. Blacklock of Langley Prairie arrived last Sunday to give Terrace the once over before continuing his trip to the east Monday night.

G. Bailie of Vancouver, Movie agent was a business visitor here over the week end.

W. H. Watt of Amsbury was here a day or two before going east to the Alberta country.

Mrs. Geo. Dover entertained a few friends on Saturday evening at bridge when the prize for high score was won by Mrs. Munro.

Alex. Rix of Prince Rupert was in town a couple of days last week.

Thos. McCubbin of Pacific was a guest of Rev. T. J. Marsh for a day or two recently.

Misses Easthope and Mallott entertained a few friends to afternoon tea

on Sunday in honor of Mrs. Munro who returned to her home in Smithers on Monday. Mrs. Munro does not expect to spend the summer here as she has for quite a number of years, much to the regret of many old friends.

Frank Watt who has spent the past couple of months in and around Terrace left Sunday for Vancouver where he will spend some time before returning to High Prairie, Alta.

Mrs. I. Martin, of Queen Charlotte City, formerly of Terrace, arrived Sunday and is a guest of Mrs. J. Cook and Mrs. G. Hamlin. Mrs. Martin has been a patient in the Prince Rupert hospital for several weeks but is now on the road to recovery.

Winter is here again and is not at all welcome. After dry streets and nice balmy days it is too much to ask the natives to appreciate two feet of snow and especially when they are trying to raise money for a golf course.

S. Sjostrand went to Rupert last week for a day or two.

Mrs. T. E. Brooks returned from a visit to Prince Rupert on Wednesday.

Dr. and Mrs. Brummitt entertained three tables at bridge on Saturday evening, it being the Doctor's birthday. The prizes were won by Mrs. A. H. Barker and E. T. Kenney.

Harry Vernon of Usk was here for a day or two this week.

Joe. Cook is in Prince Rupert receiving further medical treatment.

S. Frederick of Kalum Lake got back Saturday from the coast where he had a short holiday.

Mr. and Mrs. G. W. Bissonnette and family returned from Vancouver early in the week and will remain here.

### HAD TALK WITH ENGINEERS

District Engineer of Public Works Mackay of Prince Rupert and his assistant, G. H. Pethick, made a visit to Terrace last week end to examine the slide on West's hill which came down last October. No definite decision, it is understood, was reached as to when or how this piece of road was to be repaired. While in town these representatives of the public works department had a lengthy conference with the village commissioners regarding the classification of the roads within the municipality. Other matters of interest to the town were discussed.

### PARENT TEACHERS MEETING

The Parent Teachers held their regular monthly meeting in the school house on Thursday evening and despite the unfavorable weather and bad roads there was a fair attendance. Pres. Rev. Wm. Allen occupied the chair and he called upon Miss Elderkin to address the meeting on the subject "A trip to France." The speaker proved to be most interesting as she took her audience down the St. Lawrence, across the pond to Paris and to the shops where every woman loves to go, or to hear about. The speaker was very efficient in her descriptive matter and some of the lady members of the association almost imagined they were there. A vote of thanks was tendered Miss Elderkin.

## Terrace Board Of Trade had Important Meet

The monthly meeting of the council of the Board of Trade was held on Tuesday evening with Pres. J. K. Gordon in the chair. There was a good attendance of members and business was transacted in good shape. The railway committee reported having taken up several matters with the railway officials. A complaint of discrimination against Terrace in the matter of freight rates on goods for employees of the company was answered by Mr. McEwen who said that the employees could nominate Terrace as the place from which they wished to purchase their goods if they so desired. A letter from W. H. Tobey, the superintendent, intimated that the request for improvements at Terrace station was being gone into and a further communication would be made. The same applied to the request for more wayfreight service. Little hope was held out, however, for the inauguration of a gas-electric car service between Terrace and Prince Rupert. The secretary was instructed to try and speed up the work of repairing the wash-out on KWest's hill. Word from the Secretary of State at Ottawa was to the effect that the complete amendment of the Board's by-laws had been approved. Dr. Brummitt, Mr. Barker and the secretary were appointed to adjudicate on the prize essay competition in connection with Empire Shopping Week.

It was decided to support an application from Aiyansh for a road between that place and Terrace.

Several suggestions for road improvements were considered and the secretary was instructed to ask Ottawa and Victoria with a view to obtain material for a reference library on mining subjects. Mr. Barker was appointed to represent the Board on the Hospital Board.

### TERRACE AND A GOLF COURSE

Steps are now being taken to raise finances to establish a golf course at Terrace. For a long time this proposition has been hanging fire but as soon as the Board of Trade got under way steps were taken to get action on it. There is a small ranch at Little Canyon owned by Geo. Little that is about the nearest approach to what is wanted that can be found in the immediate district. A committee of the Board, recently examined it and a number of other possible courses, but at the last meeting of the Board reported in favor of the Little Canyon site. It is close to town and along side the railway; it is mostly cleared and the uncleared part is light clearing; the rental is low and the grounds are big enough for a Nine Hole course. The committee that has been handling the matter has been instructed to get busy now and see what can be done about it. A number in town who have an idea that golf would be good for them the busy and tired business men of Prince Rupert will be appealed to and there should be no trouble in getting all the necessary funds from that ambitious and prosperous city. Terrace is a nice distance from Rupert and the transportation facilities are improving all the time so that the business men and the professional men can have a good healthful week end in the open all through nine or ten months of the year.

A fair sized blizzard visited the district last week, but since Saturday the weather has been more favorable.

### Steamship and Train Service

S. S. Prince Rupert will sail from Prince Rupert for Vancouver, Victoria, Seattle and intermediate points, each FRIDAY, 9.00 a.m.

For Stewart and Anyox, Wednesday, 10.00 p. m. For North and South Queen Charlotte Islands—fortnightly.

### PASSENGER TRAINS LEAVE TERRACE B.C.

Eastbound—MONDAY, WEDNESDAY, SATURDAY, 3.08 p. m.

Westbound—TUESDAY, THURSDAY, SUNDAY, 11.52 a. m.

Use CANADIAN NATIONAL EXPRESS for Money Orders, Foreign Cheques, etc., also for your next shipment.

\*For Atlantic Steamship Sailings or further information apply to any Canadian National Agent or R. F. McNaughton, District Passenger Agent, Prince Rupert, B.C.

Calgary. — The Province of Alberta exported goods to the value of \$9,120,305 to the United States during the year 1927, according to the annual report of S. C. Reat, United States Consul for Calgary district. The total exports show an increase of \$764,660 or 17 per cent. over 1926. Cattle and hogs held a conspicuous place in these exports, the former amounting to \$1,215,686 and the latter to \$982,045.

Winnipeg. — Homestead entries made in the four western provinces in the calendar year 1927 totalled 6,447, as compared with 6,012 the year before—an increase in 1927 of 435. Entries by provinces — 1926 figures being in brackets — were: Manitoba 719 (942), Saskatchewan 2,819 (2,780), Alberta 2,796 (2,166) and British Columbia 113 (124). December filings totalled 488, an increase of 69 with Manitoba 46 (54), Saskatchewan 221 (219), Alberta 215 (139) and British Columbia 6 (7).

Thirteen new ocean liners, at least, of a total of 138,000 gross tons, are expected in Montreal during the coming season. Of this total Canadian Pacific vessels make up more than half, or 90,000 gross tons. These are the "Duchess of Atholl" and the "Duchess of Bedford", of 20,000 gross tons each, and the five Canadian Pacific freighters, the "Beaverburn", "Beaverford", "Beaverbrae", "Beaverhill" and "Beaverdale", each of 10,000 gross tons.

Saint John.—The Harbor Commissioners have now drawn up a \$10,000,000 project of port development, to extend over a 5-year period, subject to the approval of the Minister of Marine. The general scheme includes the construction of one grain conveyor gallery at pier No. 7; a grain jetty, 1,250 feet long; a pier, 1,250 feet long and equipped with four one-storey, fireproof, sheds and shipping office; one grain elevator of 2,400,000 bushels capacity with grain conveyor galleries for locating grain at pier No. 7 and the necessary railway tracks, railways, sewage facilities and water supply to serve the new works.

The Omnica Herald is \$2.00 a year.

*A Clean Newspaper*

**Your Kiddies  
and mine!**

"PRACTICALLY all children find the newspaper a source of entertainment. I have seen very few exceptions. Our kiddies are devoted readers in their way—we take the 'Vancouver Province'—perhaps that is why. I do not mind the children reading what they can of it, for the 'Province' is always clean and wholesome. It is very satisfying to know that any and every day our children can pick up the 'Province,' without being exposed to vulgarity and objectionable news. Really there are very few papers I know of that interest the whole family like the 'Province' does."

Order the Daily and Sunday Province direct or through your postmaster—\$1.00 for four months or \$3.00 for one year.

NEW HAZELTON, B. C.

**Need Careful  
Cleaning all for  
Seed Grains**

There could be no better proof that thoroughness in grading and cleaning seed grain is worth while than that which lies in the fact that the use of high quality seed is becoming more and more a general practice among growers.

The principle of cleaning and grading seed has many times been shown to be sound. The practice of cleaning and grading entails little labour and relatively little expense in equipment. The use of good seed then is a matter which the good farmer cannot overlook as a means of producing larger and better crops.

The fanning mill, which was once referred to by some one as the farmer's 'plant breeder' helps to maintain the high quality of the crop as well as to offer a means of keeping down weeds.

The work ordinarily done by a fanning mill consists first of removing the light kernels and some trash with a blast of air from the fan, second with a complete set of sieves the smaller seeds can be separated out, as well as miscellaneous material consisting of grain or other cereal crops if such be present.

With the coming of central cleaning plants, many farmers are able to take their grain to be cleaned and graded at comparatively small cost. Those who are fortunate enough to live within hauling distance and do not care to purchase equipment of their own can make use of the central plant. These plants of course are necessarily somewhat better equipped to handle large quantities of seed in short space of time and also to make a more thorough job, particularly of removing mixtures of different kinds of grain.

None of the cereal crops requires grading so much as do oats. The nature of the crop, containing as it is an excellent seed sample. It is and in unfavourable seasons many light, poorly filled kernels, make it all the more important to use the fanning mill very generously with this grain.

Dirty grain which may give the appearance of being very unsuitable for seed may often be cleaned and graded into an excellent seed sample. It is quite often better economy to clean up a dirty lot of home grown grain than to purchase seed elsewhere. There is

always the danger of introducing other varieties as well as 'weed stragglers' when seed is bought from another source unless it is brought under certification.

Too much care cannot be taken nor too much attention given when it comes to preparing the seed for spring sowing.

**RATIONS FOR BIG EGG YIELDS**

Some excellent egg laying records have been made the Lethbridge, Alberta, Experimental Station. A record of three hundred eggs was made by one hen, while twenty-seven produced two hundred and fifty eggs or more, and one hundred and four exceeded two hundred eggs in the year. To obtain such records it was necessary to follow a careful system of feeding. The winter scratch ration was made up of two parts of wheat and one part each of cracked corn and crushed oats. A very small portion of this feed was thrown in the litter in the morning to start the birds exercising. The balance of the scratch feed was given about one hour previous to the birds going to roost. A dry mash was available to the birds at all times, was composed of equal parts of bran, shorts, wheat, middlings, corn meal, oat chop, and meat meal, with a very little fine salt and charcoal added. The birds were also fed moist noon meal consisting of a crumbly mash made with the same ingredients as the dry mash with thyme meal, salt and charcoal omitted. This noon meal was omitted on days according to the judgment of the feeder, who aimed at all times to keep the appetites of the birds keen. The flock was also given green feed such as cabbage, alfalfa, mangels, turnips, beets, and sugar beets. With the arrival of spring growth the birds had the liberty of the runways that had been seeded with a mixture of wheat, barley and oats. The report for 1926, available at the publication Ottawa further states that the summer feed was changed gradually to five parts wheat to one of cracked corn and crushed oats.

eat. If we are to have sound teeth there must be provided the materials from which to build such teeth.

Mineral elements, such as calcium, form a large part of the teeth which in many ways are like the bone. The outer surface, or crown of the tooth is much harder than bone. This outer surface or enamel is the hardest substance in the body.

These mineral substances can only be secured from the food eaten. In other words, proper food must be eaten if we are to have sound teeth.

The kind of teeth a child has depends upon the food his mother ate before his birth, and the kind of food he received during the earliest years. The beginning of the tooth is laid down very early in life at the tenth week of fetal life, to be exact. This is one reason why expectant mothers should know what to eat.

What are foods that expectant mother and growing children must have for proper building of the teeth? Foods possessing these elements are milk and milk products, whole grains, leafy vegetables, such as celery, lettuce and spinach.

It will be remarked, whenever the question of diet is considered in relation to health, that milk and milk products are of the first importance and following closely, are the green leafy vegetables and fruits.

When, as a nation, we begin to eat intelligently, many of our ills will disappear, and we will become a sturdier, healthier people.

Questions concerning health addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered. Questions as to diagnosis and treatment will not be answered.

**QUICK NEWS**

Frank Gilbert is considering installing a double compressor. That will help solve the hay market problem.

Carl Wakefield loaded out a car of hay this week.

Kerr Bros have completed their tie contract for Jack Palmer and are now helping out Wm. Auderkirk.

It is reported that a local man has made an offer for Harry Lunn's farm. The rabbit industry in this district seems to be on the increase.

Mr. Hawkins is now loading his household effects and will soon start for the prairie. He does not like his taxes increased every time he builds a new piece of fence or cuts down a tree. The improvement tax and the personal property tax are big bears.

### Short Stories Close to Home

Roy Guss went upt up to Smithers Saturday night to write an examination for forest ranger.

The Silver Cup property on Nine Mile mountain shipped another car of high grade ore from New Hazelton to Trail.

The Canadian National Railway is now operating a day coach on the way-freights on the Bulkley sub. between Pacific and Smithers. The freight is to go west on Thursdays and east on Fridays. This would have been a big help had it been adopted last fall when the daily train service was discontinued. It will help some now, but the daily train will be back on the run again in a few weeks.

Services will be held in St. Peters church, Hazelton, next Sunday at the usual hours, 11, 3 and 7.30.

The W. A. of St. Peters Church will hold the usual St. Patrick's Tea and Saturday afternoon, March 17th from three to six o'clock.

Wm. Grant, notary public and insurance, expects to be in New Hazelton next Tuesday afternoon at the Omineca Herald office....Will be glad to talk business.

Mr. Wilson and family arrived from Vancouver last week and have taken up their residence at Mountain View, one of Geo. Parents houses. Mr. Wilson is associated with the development of the Comet property on Four Mile.

Mr. Sheriff arrived from Vancouver last week to assume the duties formerly carried on by Wm. Muerer. He will be W. B. Dornberg's business representative in New Hazelton.

The Upper Skeena Farmers Institute will hold a special meeting at Kitwanga on Saturday, March 17th at 7 p.m. Subjects to be discussed are powder, seed and fertilizer for the year and for general business.

H. C. Hindle of the hospital staff is able to be around again after being laid up for a few days with a sore toe.

Norman Cary is again on the job after a rest of several weeks and he expects to get the picture shows started at an early date.

Mr. Pease of the Silver Cup mine is moving his family down from the mine to New Hazelton where they are to make their home.

The mounted police of Kitwanga arrived in town on Monday riding two very handsome horses which had just come up from Vancouver. The police travelled the river from Kitwanga to Andlmaul and crossed over there and took the road up to town.

Miss Bertha Rock of San Francisco, sister of Mrs. Cooper Wrinch, will arrive Wednesday night to make her home here. She will open a house and prepare for the coming of her parents Mr. and Mrs. T. Buchanan Campbell of Winnipeg.

W. J. Larkworthy is expected to return from Vancouver on Wednesday evening. He is feeling very much improved in health.

J. E. Miller and Thos. Mason of the customs department were in Hazelton and Smithers on inspection work this week.

R. C. McCorkell of Vanderhoof is superintending the shipment of a lot of machinery into the Manson Creek district for one of the Gold Mining Companies that will operate there this summer. McCorkell says that one out-

fit has already got over the worst part of the journey and he expects to get through without much trouble.

### BONUS THE MANUFACTURERS

The Montreal Star recently, in an editorial, outlined a scheme of bonus an export trade, as a solution to the immigration problem of Canada. No doubt, by developing the manufacturing industries Canada is going to stop the flow of the most efficient and the best producers of our men and women to the United States. There is no use educating boys and girls in the economies and sciences if there are no industries to absorb those boys and girls when through college. Canada has suffered from a lop-sided policy of preparing the experts and then shutting off their jobs.

Mrs. Geo. Little entertained two tables at bridge on Friday evening in honor of Mrs. Munro. Mrs. Munro won the prize and Mrs. Sundal got the consolation.
