

## Two Nurses of Local Hospital Have Finished

One of the most successful graduation ceremonies yet held in connection with the Hazelton Hospital, was that of last Friday night. Both the nurses who received their diplomas were particularly well liked throughout the district, especially by all who had been patients under their care. They are both very efficient. For this reason their friends came from far and near to witness the ceremony and to wish them all good luck.

Assembly hall, Hazelton, was filled last Friday night when Miss James and Miss Castell, the two nurses of the Hazelton hospital staff who had completed their course of training, and that night received their diplomas and graduation pins.

W. W. Anderson, chairman of the board of directors, occupied the chair. The address of the evening was given by Rev. T. H. Wright, B. A., and Dr. H. C. Winch presented the diplomas, but before doing so spoke at length on matters connected with the hospital, nursing and nurses. Mrs. Mathieson, matron of the hospital, and superintendent of the nurses training school, gave the obligation and presented the young ladies with their nurse's pins.

A program was given by local talent as follows:—

- Piano solo—Miss G. Miller
- Vocal solo—Mrs. Sealy
- Address—Rev. T. H. Wright
- Address—Mrs. Sutherland
- Violin solo—Mrs. Dugate
- Presentation of diplomas
- Piano solo—Mrs. Roy Guss
- Reading—Mrs. Tomlinson
- Duet—Miss Rock and Mr. Cameron

Following the program refreshments were served and then there was a dance until one o'clock.

The hall was very prettily decorated with flowers and greens and great bouquets were presented to the graduates and to Mrs. Mathieson from the nurses.

The evening was most successful in every way, and everyone extended their best wishes for the young ladies' future.

## Prepare Now Next Spring's Early Bloom

The earliest spring flowers are bulbs and should be grown in gardens for this reason as well as for their beauty. Sandy, well drained soil suits them best, but they will grow on heavier soils. The ground should be well and deeply dug, and old rotted manure mixed with it. If this is not available then pulverized sheep manure or bone meal can be mixed in the soil or used as a top dressing. The bulbs should be planted in late September or October, from four to six inches deep for narcissus and tulips. A mulch of well rotted manure should be put on the beds after the ground is frozen, particularly in districts where the snowfall is light and thaws frequent.

There are many kinds of spring flowering bulbs. A few of the best are mentioned here:

Chionodoxa or Glory of the Snow is one of the earliest flowers to bloom. The flowers are blue with white streaks towards the throat. The bulbs should be planted two or three inches apart and three inches deep.

The narcissus family is one of the most welcome signs of spring and includes, besides yellow trumpet varieties commonly called daffodils, many kinds of flowers in various shades of yellow and white.

Scilla, known as squills are hardy bulbs which grow well under trees and in grass as well as in the open border. Of these *S. sibirica*, the Siberian squill is the earliest to bloom and grows about six inches high and has bell-like flowers of rich blue. They spread rapidly by division of the bulbs and also by seeds which are abundantly produced.

*S. campanulata*, the Spanish squill, and *S. nutans*, the bluebell or wild hyacinth of English woodlands bloom later.

Tulips are the most popular of all spring flowering bulbs. There are a number of varieties which bloom at different seasons and have also a large color range. Early flowering varieties of tulips are Keizerskroon, Couleur de Cardinal, Vermillion brillant, Cottage Maid, Goldfinch, Lady Boreel.

The following are some of the late flowering tulips. Breeder, Louis XIV, Yellow Perfection, Cottage, Gesneriana Intea, John Ruskin, La Merveille, Darwin Bariton, Moonlight, Picotee, Clara Butt, Pride of Haarlem, King Harold, La Tulipe noire, Rev. H. Ewbank.

## TRAVELLING ON A BICYCLE

Joseph de Gagne, a long distance bicycle rider, arrived in New Hazelton last week. Mr. Gagne stated that he was really pleased to know and now understands the reason why people live up here. In his 26,750 of travel over the American continent he has never seen such endless beauty as the snow covered peaks among the silver grey clouds. de Gagne is a native of Montreal but for eleven years he has been peddling a bicycle from one city to another and from Mexico to New Hazelton. He is now trying to arrange a trip to Europe and to cover Europe by wheel. Mr. Gagne was delighted to see agriculture making the forward strides that it is. He did not know until his visit that such crops would grow here at all.

Anyone who has not yet had the measles will have to hurry as they are about over and only a few more germs left that can be spread around.

## Bad Stretch of Road

When Hon. Mr. Lougheed, minister of public works, visits this district, it will be well to show him the Main Skeena River Highway from New Hazelton west to Carnaby. A ride over those twelve miles would be an eye-opener to him, if he did not pass out altogether. It is a road everyone should attempt to drive over once as a recollection of what was, at one time considered a road. Such construction will not be accepted by the public in future, particularly on main highways.

The motor owning public are paying a special tax of 3 cents a gallon for the specific purpose of getting a better class of road than the general appropriations would permit. That special tax brings in an income that pays the interest and sinking fund on all the millions the government has borrowed or wants to borrow for main highway construction. There is no excuse for such work as has been done. There are enough engineers in the country employed by the government to see that the work is done properly and not skimmed over and left in a condition that not even the old timers would accept for a wagon road.

A lot of people employed on road work seem to forget that main highways are to be automobile roads, and that they must be a superior road to what was accepted twenty years ago. A shortage of money is no excuse in these days for poor work. There is lots of money for the main roads if it was put on the main roads.

## HIGHER EDUCATION FOR PEOPLE ON THE LAND

### New Minister of Education is Working on a big problem just now

The British Columbia school trustees association met last week and was addressed by Hon. Joshua Hinchcliffe the new minister of education, who said in part:—"To bring the benefits of higher education to people on the land is one of the big problems which confronts the department of education. The people who are pioneering and cultivating the land in the remote districts deserve every consideration the province can give them in the way of education for their children. It would be his endeavor to help the trustees to that end.

The minister declared that he realized his position as minister of education was not for one political party, but for all, and he wanted to be satisfied that when he relinquished office that no child had been deprived of any educational advantages for any political reasons. The department of education is characterized as the most important of the many branches of government. It conserved the greatest asset of all—the young people of British Columbia—and its work was the development and building up of a nation.

## B. C. GOT A CHEAP LOAN

The sale of \$6,000,000 of British Columbia bonds to a powerful syndicate at 4.91 yesterday was hailed at the Parliament buildings as one of the most successful financial coups that the province has achieved in years.

This sale, it was learned, clears the province's financial decks and makes it unnecessary for the government to go into the present chaotic bond market for probably twelve months. Should conditions suddenly improve, of course the province will be in a position to profit by them, but it will not have to risk its securities under existing bond prices. Conditions are expected to be satisfactory by the time the next big loan is floated.

## About Buying at Home Store Did You Think

E. P. Chase, editor of the Atlantic (Iowa) News-Telegraph, says:—

"That the greatest problem for all local communities is the drift towards concentration in the larger centres. The average town of ten thousand or less, has a goodly per cent of its business made up of concerns, all of whose profits go away. One is surprised to learn just how large a portion of the business of every small community in this day is in that category. The communities which support concerns bringing in money from the outside are fortunate. The dollar which is kept at home is a most valuable asset to community building.

"In this connection an interesting stunt was staged here some months ago and illustrated in a most potent way what the dollar kept at home will do. A dollar was started out from a local bank and was spent by every business man in the business section of the town, each fellow buying a dollar's worth of the next fellow's wares. When the rounds had been made the dollar was back in the bank from which it started, on savings deposit, and the merchandise which the dollar bought, displayed in a show window, filled the window. In the same window was displayed a dollars worth of goods bought of a mail order house.

"The moral pointed by the display was a strong one. In the one instance the dollar kept at home bought a truck load of merchandise and was still in the community. In the other the dollar spent with the mail order house bought a handful of goods and was lost to the community forever.

There can be argument as to the desirability of keeping the dollars at home, and fostering those concerns profits are used to build up home enterprise. If the smaller communities are to continue their place in the sun they will do so by stressing the keeping of money at home. This is a fundamental principal of community building for which there can be no substitute."

## HARVEST THANKSGIVING SERVICES ON OCT. 7th

Special anniversary and Harvest Thanksgiving services will be held in St. Peter's church on Sunday, October 7th at the following hours:—Morning prayer and Holy Communion at 11 a. m., special Native service at 3 p. m., Evening prayer at 7.30 p. m. Special Soloists at the morning and evening services. The preacher at all the services will be the rector, Rev. T. D. Proctor. Gifts of grain, fruits, flowers, and vegetables will be thankfully received on Saturday.

This is the 48th anniversary of the arrival of Bishop Ridley for his first services in Hazelton. Arriving by canoe from Victoria on the morning of October 7th, 1880. It is also the 23th anniversary of the opening of the present church.

A hearty invitation is extended to all.

Mr. and Mrs. Castell of Evelyn were guests of their daughter who was one of the graduating nurses who got her diploma last Friday night.

Mrs. Sawle spent a couple of days in Smithers this week the guest of Mrs. Geo. Wall.

Someone broke into Percy Williams' home in Vancouver and stole his suit case and clothes. Most likely one of those nuts known as souvenir hunters.

## Ken. Morrison Passed Away A Long Illness

After suffering a long time Kenneth Morrison passed away at the Hazelton hospital on Sunday, October 30th. He was 68 years of age and was a native of Cape Breton, N. S. The funeral was held on Tuesday afternoon from the United Church in Canada. Rev. T. H. Wright, B. A., conducted the services, also the services at the grave side. The pall bearers were Geo. McBean, Jos. Benson, Wm. Larmer, Ed. Sweet, Charles Donaldson, and A. E. Falconer. A wonderful lot of flowers were sent by his friends, the old timers.

Kenneth Morrison was a carpenter by trade. He arrived in Hazelton about twenty years ago, ahead of the railway. After construction days he did some prospecting, but for a number of years he has resided at Two Mile and lived a retired life. He was known to all the old timers in the district and was liked by all of them and all who were within reach were present to pay their last respects to one of their old pals.

So far as could be ascertained there are no relatives surviving, although it may be possible a sister is living in the far east.

## BRACK FROM MOTOR TRIP

Mr. and Mrs. Jas. Turnbull returned Monday of last week after a very fine trip by car over the Cariboo road to Vancouver. Mr. Turnbull remained in Vancouver while Mrs. Turnbull went on to Campbell River Falls on Vancouver Island and visited with her friends and relatives. This is the second or third year that Mr. and Mrs. Turnbull have made the trip by car and they enjoy it more each time. The weather was especially fine all the time they were away and they enjoyed the holiday to the full. Only one accident happened to mar the complete success and that was five miles the other side of Soda Creek when they collided with another car on one of the sharp curves. Their car was damaged somewhat and they were held up for a week until new parts arrived from Vancouver. Mrs. Turnbull was thrown forward against the windshield and received injuries that were painful, but in no way interfered with the trip. Mrs. Turnbull motored from Nanaimo to Campbell River Falls, a distance of 200 miles; and she says that anyone touring Vancouver Island should not miss Campbell River Falls. The sight is indeed a wonderful one.

There will be a general meeting in the Hazelton Assembly Hall on Monday, October 8th at 8.30 p. m. to elect officers for the Badminton season of 1928-29. All are welcome.

The steam heating system for the Silver Cup mill camp arrived this week.

Al. Harris is expected home the end of this week. He has been in Vancouver and vicinity for the last couple of weeks. He is travelling by car.

Wheat is now moving over the O. N. R. The first was a car from the Bulkley Valley which graded No. 1 Northern. It is expected that the elevator at Prince Rupert will handle much more wheat this season than it did last year.

S. Sweeney and John Howard of Copper City spent the week and in town.

## ORDER YOUR WINTER COAL NOW

Another carload of Pembina coal is due to arrive in New Hazelton the 15 of October. Have you placed your order for your fall and winter fuel?

Remember, Pembina coal almost as quickly as wood; it burns all day and it burns all night; it keeps your house always comfortable; it is as clean as wood—no soot, no smoke—and you empty the ashes once a day.

Coal does away with sawing, splitting and carrying in wood—a heavy, a regular and a big job. Coal burns longer and is cheaper to use. Pembina coal is a real good coal.

Leave your order now at the Herald office. Price \$12 delivered. Cash on delivery.

## INVITATION TO MINISTER

On Monday evening last there was a meeting of citizens of New Hazelton held in Larkworthy's store when the matter of the high level bridge was under discussion. There was a good deal of talk which resulted in a long telegram being sent to the minister of public works, Hon. Nels. Lougheed. After pointing out the hardship inflicted upon the people by closing the present bridge, the minister was invited to come to New Hazelton and meet the people.

LUMBERING  
MINING  
HORTICULTURE

Word has been received by friends of the death of Harry Edgar Connelly Wagner, District, Munro, Wash., on the third of September. The deceased resided here with his family in 1921-22. He is mourned by his wife, one daughter, Bessie, and two sons, Daniel and David. The eldest son, Walter, having pre-deceased him.

J. B. Agar, the local agent for the Chev. cars, received this week another carload of trucks, their being six in the shipment. This is the third shipment received this season.

Miss Lillian Toper of Pacific was a guest of Miss Margaret Lanfear during the past week.

The wonderful weather the district was enjoying for so long was broken on Friday with a high wind and an overcast sky. The trees and shrubs are now all in their fall dress and the local flower gardens have been in full bloom right along. E. T. Kenney has dahlias in bloom 12 1/2 feet high. The flowers are very fine.

Messrs. Hout Bros. of Lakelse Valley wish to take this opportunity to thank Constable Service and all those who took part in expressing their sympathy in our sad bereavement, also for floral tributes from Mr. Turner and family and Mr. and Mrs. West and family.

Mrs. Curzon left for her home in Prince Rupert on Saturday after visiting with Mrs. E. T. Kenney.

Harvest Thanksgiving services will be held morning and evening in St. Matthews church on Sunday, Oct. 7th. In the afternoon there will be a Sunday school rally.

Mrs. Ross Thompson entertained the W. A. of the Anglican church, on Thursday afternoon.

Mrs. Jackson of Montreal spent last week the guest of Mr. and Mrs. R. L. McIntosh at "The Crossways."

The train service was changed this week and until further notice the mail will arrive from the east on Tuesday, Thursday and Sunday, and from the west on the same days as formerly—Monday, Wednesday and Saturday. There will be no train from the east on Wednesday and none from the west on Sunday.

R. Brealey of New Westminster was a business visitor over the week end.

T. B. Campbell of Hazelton who has charge of the re-construction and preservation of totem poles adjacent to the C. N. R., was in Terrace Saturday.

A. Carmichall of Lakelse Lake was in town over Sunday.

## Great Rally in Knox Church Last Sunday

Special services were held in Knox United Church of Canada on Sunday, September 30th. During the afternoon the Sunday school assembled, the attendance being 97 children and the young people, and a number of parents were also present. Reference to the great success which had attended the work of the school throughout the year, was made by Rev. Wm. Allen. He said the weekly attendance had been very encouraging, and the fact that no less than eleven scholars had been successful in obtaining certificates (Intermediate Bible Study Efficiency certificates) showed that careful application had been given to the study of the lessons. On behalf of the church board Mr. Allen also expressed appreciation of the substantial aid rendered in connection with the missionary givings of the church. During the coming winter it has been arranged to carry on eight classes under the following teachers:—primary, Mrs. Allen; junior and intermediate girls, Miss Gladys Kenney, Mrs. Glass and Miss Betty Anderson; junior and intermediate boys, Miss Doris Robinson, Mr. A. Holmwood; senior girls Miss Kerr; Bible class, Rev. Mr. Allen.

With a view to carrying out more extensive work with the kindergarten and primary department, it was felt that it would be better for the children of these departments to meet separately, and in the meantime, arrangements are being made for this class to meet at the parsonage at the usual hour of 2.30.

There was a large turnout at the evening service, whereat the Rally Day program was followed. The theme of the day was "Peace." Several musical numbers were rendered including a solo by Mrs. Dyson "Oh Rest in the Lord," a duet by Rev. and Mrs. Allen, "The Lord is My Shepherd," a solo by Rev. Allen "O Lord with Weary Hearts" and a violin solo by Miss Kerr. Mrs. Geo. Keith accompanied throughout the evening.

Miss Lillian Christie gave a reading on the subject "The Christ of the Andes," this being followed by a short address by the pastor in which he pointed out that, by virtue of the General Council just concluded, the United Church of Canada had consecrated herself anew to the great ideal of obliterating from our national life all racial antipathy, selfish nationalism and international jealousy, and this by means of daily prayer and intercession, by intensive education in the causes and processes of war, and by making a general effort in every possible direction to bring about amongst the people of Canada a true atmosphere of peace.

W. Lassen and Cole McCutcheon of Seattle, who made the trip to Kallum Lake by motorcycle, have returned to town and gone back south. Mr. Lassen went home by train.

Several of the boys were in from Kallum Lake during the week.

After spending several months holidaying at Kallum Lake Miss Moffatt returned to Terrace on Sunday and is a guest of her sister Mrs. E. J. France.

Messrs. Brummitt, Holmwood, Walters and Stanley Brooks spent Sunday on Copper mountain. Going up it was very enjoyable, but the weather turned against them and the return trip was togh.

### Steamship and Train Service

Sailings from Prince Rupert for Vancouver and intermediate points each Thursday and Sunday at 11 p. m.  
For Stewart each Wednesday, 10.00 p. m.  
For Anyox and Ketchikan each Saturday, 4.00 pm  
For North and South Queen Charlotte Islands, fortnightly.

### PASSENGER TRAINS LEAVE TERRACE B.C.

Eastbound—Daily, except Sunday 8.08 p. m.  
Westbound—Daily except Wednesday, 11.52 a. m.

For Atlantic Steamship Sailings or further information apply to any Canadian National Agent or R. F. McNaughton, District Passenger Agent, Prince Rupert, B.C.

### A ONE DISH DINNER

In many families it is a problem to serve up a simple meal on one course. Here is a dish that will please a family of six, besides having the indispensable elements of nourishment:—  
2 cups cooked macaroni; 1 cup cooked carrots (diced); 2 tablespoons grated onion; 2 tablespoons chopped parsley; 2 tablespoons chopped fresh red pepper; 1 cup chopped ham; 6 tablespoons buttered crumbs; 1 cup Borden's St. Charles milk; 1 cup water; 2 tablespoons butter; 2 tablespoons salt; 1 teaspoon salt; 1/2 teaspoon paprika.

Cook macaroni in boiling salted water 35 minutes; make a white sauce of butter, flour, milk, water, salt, paprika. Place a layer of macaroni in a well greased baking dish; sprinkle with ham, carrots and seasonings; repeat until all are used. Pour over all the white sauce. Cover top with the bread crumbs and bake in a moderate oven for 40 minutes.

Mrs. A. Ross, accompanied by Miss Cousins, left Sunday for the south to visit friends in Vancouver, before going to Lowell, Wash. to remain for the winter. Miss Cousins will be away only a month.

A farewell party was held at the rectory on Friday evening in honor of Miss J. Sherwood who left Tuesday for her home in England. Several of the guests contributed musical numbers during the evening. Miss Sherwood has spent several months with her uncle, N. Sherwood and has made many friends who wish her a safe trip home. She will be met at New York by her father.

Mr. and Mrs. Morris of Prince Rupert spent a few days holidaying here.

W. J. McCutcheon, the pioneer druggist of Prince Rupert, was a visitor in town last week and went on to visit New Hazelton, Smithers and Telkwa.

## Timber for Sale

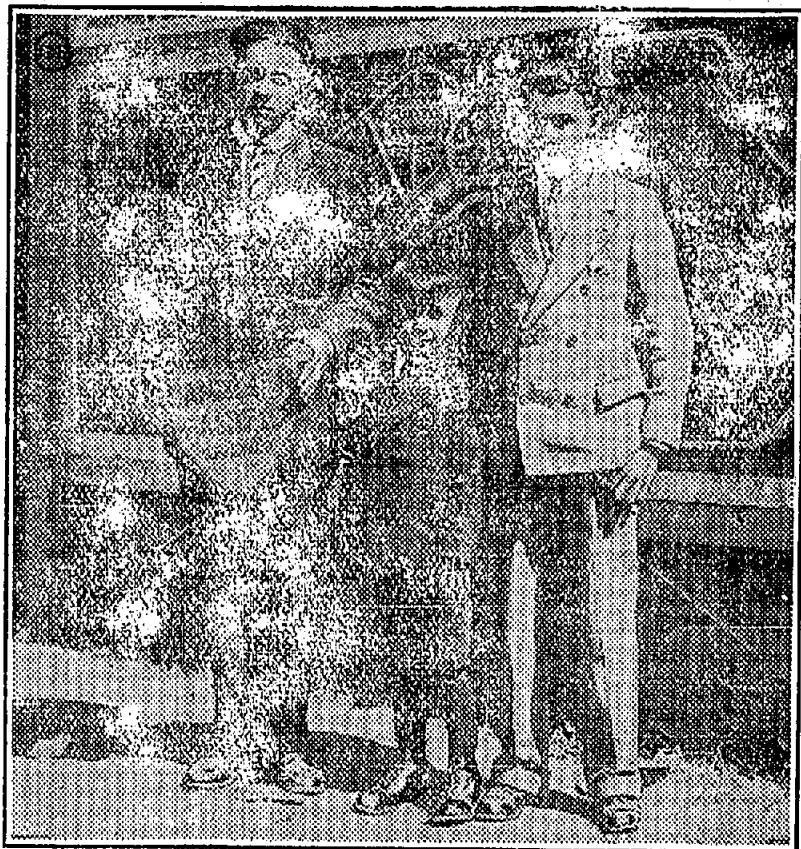

Will accept offers for timber on Lot 4361, Range 5, on Kallum road, 9 miles from Terrace. The timber consists of cedar poles and tie timber.

Send offers to

**Ed. Eby, Smithers**

S. Sweeney and John Howard of Copper City spent the week end in town.

Mr. Judson will return this week after an absence of six weeks in the south where he conducted shipments from his camps.

## Travelling School's Promising Trio

More good than a row of medals pinned on them is the value three young lads from the backwoods of Ontario will derive from a wonderful week spent in Toronto. These three boys are: Rene Thibault, aged 14 years, French-Canadian from Ramsay; George Kingston, a little 6-year-old Indian of Wye, and John Paul Paquette, French-Canadian of Esber, aged 16 years. They are ardent pupils of the Canadian Pacific Railway travelling school car, and are up betimes each morning to attend the school on wheels the week it spends in each month on a siding in their section of the North. Their teacher, Mr. McNally, chose three boys to spend a week in Toronto and the Canadian National Exhibition, as guests of Premier Ferguson, the boys of the entrance class of the Normal School, and the Canadian Pacific Railway.

Bewildered by all he saw young George Kingston scarcely spoke, although he is learning English rapidly, and even the smallest thing he saw brought a shy smile. He had never been upstairs until he boarded the train that brought him to the city, and the largest body of people he had seen together at one time was 80. He was intensely interested in mirrors and elevators and his pockets were stuffed with a collection of mechanical toys. He has not yet mustered up enough courage to talk on a telephone and when he saw a parade of cadets in their bright red tunics it was difficult to hold him back. The two older boys were most interested in aeroplanes and the animals they saw at the exhibition.

# TAX SALE LIST

## Omineca Assessment District

I HEREBY GIVE NOTICE that, on Friday the 12th day of October, 1928, at the hour of 10 a. m. at the Court House, Village of Smithers, B. C., I will sell at public auction the lands on the list hereinafter set out, for persons in said list hereinafter set out, for delinquent taxes unpaid by said persons on the 30th day of June, 1926, and for interest, costs and expenses, including the cost of advertising said sale, if the total amount due for period ended December 31st, 1926, and interest thereon, together with cost of advertising said sale, are not sooner paid.

### Women will know This to be True!

Haven't you found this to be true—that one batch of flour will give you certain results but that the next time you bought the same brand your results would be quite different. Now, the big flour companies employ chemists to see that their flours are kept to a constant standard. Drugs, like flours, may be thoroughly pure but of a variable standard. Think what this means in the effectiveness of your doctor's prescriptions.

Ormes buy their drugs only from manufacturers who guarantee that their products are not only 100 per cent. pure, but that their strength is as unvarying as the daily round of the sun.

### Health Service

#### DOES YOUR CHILD SEE?

When a child is blind in both eyes, the condition is, of course, recognized. There are many children who have defective sight, which fact is unknown to their parents. That this is so is evidenced every year by the number of children entering school who are found by school physicians to have defective eyesight. The good work of the school health service does not provide for the pre-school child, or for the child who attends a school where there is no school physician or nurse.

A child should be able to recognize a picture or an object one-half an inch square at twenty feet. Each eye is tested separately, one eye being covered with a card during the test of the other. For near vision, a picture book may be used. If there is any appreciable defect in either eye, for near or distant vision, the family doctor should be consulted.

Cross-eye is a condition frequently neglected because of ignorance as to its significance by its parents. Children with this condition should be put under medical care without delay. A cross-eyed child sees double. This causes confusion and so the mind trains itself to pay attention only to the image that comes to it through the

straight eye. This results in one eye being developed through use and the other's becoming useless because it is not used.

Unless the condition is properly treated early, the child uses the use of one eye and is actually blind in that eye. If the child is treated between two and three years of age, the most or all of his vision can be saved; the longer treatment is delayed, the more vision is lost. Cross-eye is a condition that does not correct itself. Children do not grow out of it.

Your child will appreciate in later years your care of this special organ.

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

#### HDA ANCIENT SKULL IN RUPERT

An ancient human skull, at least 400 years old, was presented to the National Museum of Canada by George Osborne of Prince Rupert. The skull is of an elderly person. It was found in the refuse of an ancient Indian village at Ritchie Point at the northern end of Prince Rupert. Its age is proven by the huge trees growing over the refuse.

The cabinet ministers of the new provincial government were all returned by acclamation.
