## ALUMNI ASSOCIATION

Boston University School of Medicine

1954-55

LIBRARY  
BOSTON UNIVERSITY  
SCHOOL OF MEDICINE

## *from the President*

Fellow Alumni:

We may all be proud of the accomplishments of the Medical School Alumni Association during the year 1954-55. The continued interest and increased generosity of our alumni, faculty and friends swelled the annual Alumni Fund to the largest amount so far: \$23,463.59 from our alumni and \$3,584.02 from faculty and friends for a grand total of \$27,047.61. The percentage of contributors has likewise increased over the years to 48%.

There are several reasons for these annual snowballing results:

1. An increased loyalty to the school — the Medical School has rightfully earned a reputation as one of the top-flight schools in the country. Dean James M. Faulkner and men on the faculty such as Drs. Keefer and Reginald Smithwick, Burnham S. Walker, and many others of national fame, together with the addition of better teaching facilities and more research projects helped the school gain its high position in the medical world. Graduates are proud of their professional Alma Mater.

2. Greater interest and support by our Fund workers. Both our Fund Chairmen, Bill Croskery and Sam Leard, have worked most enthusiastically in getting out the letters of appeal for contributions to the Fund. Their success depends upon the recruiting of interested alumni to serve as captains and co-captains for the Alumni Fund appeal.

3. Social luncheons at the AMA Conventions. For the past three years, the Alumni Association has held either a luncheon or a dinner during the AMA Convention. Alumni, young and old, have had an opportunity to meet socially and gather first-hand information about the School and recall their own nostalgic school days. The most recent one was held in Atlantic City on June eighth last, where, in spite of a downpour, thirty-two loyal alumni gathered for the evening. Each alumnus went home with an increased feeling of interest and loyalty to the School.

4. Budgeting the Funds for the benefit of the students and improved facilities to the Medical School.

- (a) the Executive Board has allocated money in a most beneficial way to the following objectives:

1. Freshmen-Faculty Dinner: on the evening of Registration Day, the incoming Freshmen and any new advanced-standing students meet, for the first time, their own classmates and their pre-clinical faculty socially. Following dinner, words of greeting and encouragement are given by the various members of the Faculty.

2. Scholarship Fund. With the high cost of tuition, the demands of the Medical Student for financial aid is on the increase. Since this fund was established, some over \$30,000 have been given to the students in the three upper classes.

3. Library Fund. The library has been kept up-to-date with books, periodicals, and expansion needs.

4. The Boston Medical Quarterly. This medical magazine has been sent to each alumnus four times a year. Because of the quality of the contents, its use for discussion purposes in various hospitals throughout the country is well known.

5. Visual Aids. The need for equipping various departments, both pre-clinical and clinical, with tools for better teaching is a necessary function of the Alumni Association. A spectroscope, pathology slides, a skeleton and a projector are a few of the items supplied in this field.

The Alumni Association has passed its stage of infancy and adolescence—it has grown to the stature of an adult. The need for getting active information into our files necessitated mailing questionnaires to the entire alumni body and has brought encouraging results. Those who have not yet sent in the information are urged to do so. The newest addresses, accomplishments, hobbies, papers written, etc., are being catalogued.

During the eight years of Dr. Faulkner's deanship, we had a true and loyal friend to the Alumni Association. He served as an important liaison between the Alumni and the Medical School. His advice was most valuable to us. We all regret his resignation and wish him Godspeed in all his future endeavors.

We can, however, look to the future with a great deal of optimism. The recent announcement by President Case of the appointment of Dr. Chester S. Keefer as Director of the School with the ultimate goal of a Boston University Medical Center has raised the hopes of all alumni that a new Medical School will soon become a reality.

For making my task as President of the Boston University Medical School Alumni Association a most interesting and pleasant one, I wish to express my gratitude to Dean Faulkner, Drs. Croskery and Leard, Dr. Berson, the Executive Board and, finally, but not the least in importance, to our executive secretary, Miss Auburn.

NATHAN L. FINEBERG, '30

Balance on Hand, as of May 8, 1955 . . . . . \$ 28,137.86

THEODORE A. POTTER, '38  
*Treasurer*

\* Does not include contributions received after May 1, 1954.

## *from the Dean*

July 22, 1955

Dr. Nathan L. Fineberg, President  
Boston University School of Medicine Alumni Association  
80 East Concord Street  
Boston 18, Massachusetts

Dear Nate:

Grace Auburn has just given me the financial report of the Alumni Association for the past academic year. The total amount of funds raised is impressive but even more so is the figure of 200 more contributors this year than the year before. This is the kind of solid support which will kindle enthusiasm when we go to the public for help in our building campaign. The figure of 48 per cent participation by our alumni is a heart-warming and tangible indication of their loyalty to the old school.

May I take this opportunity to congratulate you on your splendid achievement as President of the Boston University School of Medicine Alumni Association and to express my personal gratitude for all you and the Alumni Association have done to make our relations so pleasant and harmonious.

The lovely ship's clock with its engraved inscription from the Alumni Association sits on my mantel here and every half-hour gives out a tuneful reminder of cherished friendships.

With best wishes,

Sincerely yours,

JIM

JAMES M. FAULKNER, M.D.

Medical Director

M. I. T.

JMF:k1

## *from the Director*

To all Members of the Medical Alumni Association:

Boston University School of Medicine, the members of the Medical Faculty and its students are extremely grateful to the members of the Alumni Association for their continuing interest and magnificent support. As a result of your efforts, it has been possible for the Medical School to maintain and improve its educational standards. It is the constant aim of the Faculty to make the instruction as thorough, extensive and practical as possible. With your continued and added support, the Medical School can go forward and continue to provide the opportunity for many young men and women to enter medicine and provide the medical service of the future.

Through your efforts, the members of the Alumni Association are setting a fine example for the students and for the public. You are leading the way to improvement through voluntary action and voluntary giving. Your interest and manifestation of loyalty to the institution are most impressive and heartwarming.

I want to tell all members of the Alumni Association that your officers and the members of your Executive Committee deserve high praise for their contributions in time and effort on your behalf. They have demonstrated spontaneous enthusiasm for their duties and responsibilities and they represent you in a highly creditable manner. They deserve your thanks and I take this opportunity of thanking all of them personally.

On July 1, 1955, Dr. Faulkner resigned as Dean of the School of Medicine and became the Medical Director of M.I.T. He continues as Professor of Clinical Medicine on the Faculty and as a Visiting Physician at the Massachusetts Memorial Hospitals. We are delighted that he will continue to take an active part in the teaching of young undergraduates and in the development of educational policy.

On September 12, 1955, the Medical School will open its eighty-eighth annual session. The entering class will number 72 men and women.

The members of the Medical Faculty welcome visits of the alumni to the School and to their departments and the clinical services are pleased to welcome all of you to participate in ward rounds, clinics and discussion groups.

On behalf of the students and the Faculty, I want to extend to all members of the Alumni Association and friends who have contributed to the work of the School, our heartfelt thanks for their fine spirit and generosity.

Sincerely yours,

CHESTER S. KEEFER, M.D.
