## Abstract

The research named “The role of Non- Governmental organizations in the development of Thiruvaiyaru village” is mainly centered on Thiruvaiyaru village in kilinochchi District. This is selected as the research area as this region is differentiated from other regions due to the displacement after the war in 2009 which lasted for 30 years and resettlement that followed and also because this region is in need of much development.

The primary aim of this research is to find out the way in which Non- Governmental Organizations contribute to improve the development of the research area, socially and economically. The special aim of the research are to find out the destructions that happened in this region during the last 20 years, Identity the problem faced by this region regarding development, Identity the activities of Non- Governmental Organizations in the development of this region and tell how these activities should be in future. And also to tell what activity should be carried out in order to improve the development of this region and to tell the feasibilities for same.

The direct relationship between the economic development of the research area and the activities of Non- Governmental Organizations is the hypothesis of the research. The social development of the research area has improved due to the activities of Non- Governmental Organizations. In the rural development of the research area the activities of Non- Governmental Organizations have caused a favorable impact. The conclusions of the research area, Non- Governmental Organizations provided 65% of the contribution to the economic development of the village, they provide 48% of the contribution to the social development of the village. In rural development both economic and social development are included the activities of Non- Governmental Organizations provide 61% of the contribution towards rural development.
