P.&G. Show Rapidly Approaching

Scene from P. & G. rehearsal. Mike Whitehead directing.

Skits O' Frenzy Selling Out

By Bruce Woodruff

"This year's P & G show is expected to be sold out by Monday if ticket sales continue at the present rate", said Danny Davids, producer of the show. Clubs and individuals are selling tickets rapidly, competing for a \$25 prize. Tickets are also being sold at Schendel's, Goudies and The Chicken Nest.

The local radio stations have granted eighty-five hours of free time for publicity. Beginning Saturday morning, CKCR will broadcast from a mobile unit elevated fifty feet above the new Towers plaza as part of the publicity programme. A CKCR

missing ticket booth has been ap- P & G has ever had, was rehearsed pearing in a different location every day this week selling P & G tickets, the first person to find the booth of a "Skits O' Frenzy" truck, espeeach day receiving two free tickets.

Work Progressing

By Shari Graham

THE PRODUCER:

Danny Davids has been busy in nearly all aspects of the show. On Sunday night the programme, which promises to be the best one that

in its entire length. As of Sunday, P & G is also the proud possessor cially designed to carry everything from outhouses to T.V. sets.

THE DIRECTOR:

A few of the skits have been touched up with more of Mike Whitehead's natural English wit. Rehearsals have been going well and the cast is an energetic and enthusiastic one. Soon, they will move over to the Waterloo Collegiate auditorium where the show is being performed.

THE STAGE-MANAGER:

Brian Baker's latest report is that everything is under control. There is sufficient help for the time being; however, more help will be needed Sunday, Nov. 19 at Waterloo Collegiate moving sets and props and setting up the electrical equipment. All work at present is being done in the new Women's Residence and the stage-manager would like to express his appreciation to Mrs. Binhammer for her wonderful co-operation.

Constitutions Discussed At Students' Council

By Shari Graham

At the last Students' Council meeting constitutions were the main issues of argument. The Psychology Club's constitution was presented by Bob McGaw, president. After two changes it was passed by the indents' Council and subjected for atification by the Club.

The English Club called "The Scholar Gypsies" put forth its policies which were accepted by the Council. John Erb, chairman of the Committee, read the Honours Awards Institution. Various changes were made in the wording of the constitution but in principle it was passed. The Committee was commended for its fine work.

The Students' Council constitution was next on the agenda but it was tabled until the next meeting in order to give the Council members a chance to read it.

John Vermeulen, treasurer of Students' Council, gave his report in dents' Council and with the N.F.C. meeting was adjourned.

class, being unable at present to know whether or not they will be able to finance completely the Frosh formal, Students' Council if it is needed.

Reports from the class presidents followed. Gary Brown stated that the editors of "Keystone" want as many graduation pictures as possible taken before Christmas. Paul Enns reported that tickets for the Soph formal are being sold in the main lobby. These tickets are \$3.00 per couple. Roger Lillyman announced that there would be a Freshman class meeting on Wed. Nov. 29th.

A report from the N.F.C.U.S. chairman, Marg Emerson, was given. With regard to this, Tom Freure told national chairman of N.F.C.U.S.,

which he stated that the Freshman U.S. executive. It was decided to hold a meeting for the Students' Council and all other interested members of N.F.C.U.S. in the has requested assistance from .the Board Room on Thursday at 3 p.m.

> Jack Leon, president of W.U.S., extended an invitation to all members of the Council to attend the opening tea of Treasure Van on Mon. Nov. 13 at 2 p.m. in the new Women's Residence.

The final section of the business was the executive report of the meeting with Dr. Villaume on the subject of the "name change." Tom Freure read the executive report and the reply from the President to the Students' Council brief. After a lengthy discussion over the matter and the matter of choosing a faculty the Council that he had received a advisor for the Students' Council, telephone call from Walter McLean, a vote of confidence was extended to Prof. Durst, faculty advisor of the requesting a meeting with the Stu- Students' Council. At 11 p.m. the

Editorial

In absence of the Editor, a member | the visitor the gift of a "tubbing" of the "Cord" staff has contributed to the editorial column.

The tradition of water-bombs is still in existence. It is a pity that such juvenile delinquents in Willison Hall can derive pleasure only by inflicting pain on others. "Little drops of water" are not considered injurious but they are considered inconvenient. However, the "little boys" are not content to sprinkle the students with drops of water. Now, they are "bomb-basting" the people with bags of water and mailboxes. It does not occur to their small minds that the result of this action can be and will be very dangerous.

They show their hostility not only to the students making their way to the cafeteria but also to the visitors going to any floor other than that few of the boys have not yet, and of the first. In their childishness perhaps never will mature. they seek pleasure in bestowing on

These "enfants terribles" have no comprehension of the word, courtesy. Hostility seems to be ingrained upon their personalities.

For several years people have been concerned with the irresponsible actions of the immature Willison These college "kids" Hall boys. seem to think that their presence at university justifies their actions. They feel that now that they are away from home, they do not need disciplinary measures. If, however, they lived by a system of rules, these "young children" may be able to welcome visitors and display a hospitality instead of a hostility. At least during certain hours of the day the visiting students could visit Willison Hall without receiving the "royal bath". At present, all residents of Willison Hall must accept the blame of these childish actions because a

Balmy Breezes

No Winter Freezes

By Jim Meade

It was in the Fall season that I came to Canada. Two things which are very noticeable at this time of year are the beauty everywhere and the rather cool weather. In every conversation overtones of the beauty of the Fall become obvious.

In "Montserrat, West Indies"

at the National Conference of the Student United Nations Association (SUNAC) in Ottawa Nov. 30 to Dec. 3. ANYONE interested in attending please call Nancy Phillips, SUNAC Regional Director, at SH 5-4415 during the evenings.

To The Editor

I have some questions concerning the Student Council report of the last Cord Weekly. First, I would like to know the date and the time of the so-called "recent student meeting expressing controversy regarding the name of the institution". How was it publicized? Who called it? And how did it happen that the majority of the students that I know were unaware that such a meeting had taken place? Can one call such a secret meeting a "student meeting"?

I would like, moreover, to know by what right the representative of such a meeting can be styled "a representative of student opinion". The majority of the student body was unaware of this secret meeting. Surely Bill Town is not so arrogant as to suppose that by virtue of a secret meeting to which most students were not invited he now represents student opinion? Or rather, I trust that he is not arrogant. And yet we must admit that actions speak louder than words. Soon every little Caesar will call secret meetings and bestow upon themselves the title of "representative of student opinion".

Finally, I would like to ask how the Student Council can claim to be "in sympathy with student opinion" when it presents the resolutions from this secret meeting to the adminiscouncil make such a claim without consulting the student body by means of a plebiscite and/or class meetings? Is not the Student Council arrogant when it says that the student body has an opinion when in fact that opinion has been expressed by a minority, those who were invited to the secret meeting.

In fact, the resolutions themselves are nonsense. Let us first consider the second: that "A statement of this institution's standards for graduation be published". This resolution tells me something about Mr. Town. He is illiterate. The admission standards of Waterloo Lutheran University, as well as those of every other university, are published . . . in the calendar. This is not a secret document; anyone who can read has access to it.

The other demands are equally absurd. Mr. Town and his conclave's demand that "the name 'Lutheran' be removed from the title (scil. of the university)" and that "a more appropriate name be chosen for the Why? What can be institution". more appropriate than to refer to a Lutheran university in Waterloo as "Waterloo Lutheran University"? Surely Mr. Town would not suggest that the institution be named "Oshawa Seventh-Day Adventist University" or "Mecca Islamic University"? Or would he?

> JACK HORMAN, L.G., E.D.J., who does not claim to be a "representative of student opinion.'

Revision! Down With Tradition

KEYSTONE

By Irene Posluszny

This year's Keystone promises to be one of the best yearbooks W.U.C. has ever had. This is mainly because you, the students are all going to contribute something to it-your pictures, your help and your creative abilities.

Our two enterprising editors, Paul Dudgeon and Bob Gavreluk have decided that this year the Keystone will be bold and different. We are living in a modern age, one with 'wild art", vivid contrasts and evolutionary ideas. This trend of thought will be transposed into a revised Keystone. The yearbook will be unique because it will be composed of individuals, you, the student body. You are not just mass committees but are people who are willing to conform, to extend your thoughts into this yearbook.

One of the ways in which you, the individual can help is by adding your vote to the cover you prefer. The cover, drawn from yearbook designs by two excellent artists from W.U.C. will be displayed in the hall venturesome-without offending

and you will sign under your p ference. The cover which received the most signatures will be us Remember; if you want a good Ke stone cover - vote!

Another innovation this year the "KEYSTONE PHOTO COM TEST." You, the individual again invited to participate. Even one is urged to enter. The best the candid shots submitted will prizes --- monetary prizes at the The photographs which do not prizes but which are still good unusual will be printed in the "Can Corner" of the Keystone. Beward you may never know when and when your picture is taken.

To make this yearbook a succe your co-operation and help is need The Keystone this year will splashed with colour, present pictar of you, exhibit modern art, and has up-to-date faculty pictures-we hop In all, the Keystone is being on pletely revised, from cover to com page to page, in a modernistic tre it will be bold, distinctive

tration. In fact, how can any student Scholarship Award Impressions Programme

In the past a Scholarship Award Programme has been held on some evening during the month of November. This year with evening lectures and many community events we were forced to select a more suitable time. Chaplain Dolbeer has agreed to relinguish the Chapel period on Friday, November 24th, for this purpose.

At this Scholarship Award Programme not only entrance scholarships and bursaries will be awarded but also undergraduate bursaries, prizes and scholarships for the 1960-61 academic term.

Recipients of awards are requested to be present so that the donors of awards may meet them at least once. Other students and members of the Faculty are also invited to be present for this programme.

L. H. SCHAUS, Dean

Geography Club Meeting

On Wednesday, November 22, at 8:00 P.M. in Room 208, the Geography Club meeting will feature an address by Dr. Powers of the University of Waterloo. Dr. Powers will compare fisheries in Canada with those of Barbados, British West Indies. To illustrate his topic, the speaker will use a series of coloured slides.

By John Fedor

Nothing is more pathetic than world situation to-day. For the pu several weeks now the "Rust have antagonized and shocked world with their senseless explo of atomic bombs. Whether or the Soviet Union is preparing for war-nuclear style, we are still for to take precautionary measures,

Throughout the world, count are preparing for the worst. Ew Canada has somewhat increased militia power and planned "Exer Tocsin-B", the country's second a tion-wide civil defensive exercit Meanwhile, our friends to the sou keep digging in at a rapid rate.

It's ridiculous to have to defe ourselves against such a mach weapon as the A-bomb. Canceran the hundreds of other unsch diseases don't seem to be enoug So another burden is placed mankind's shoulders.

It is unfortunate that the ordinal people in Russia are in no health position to stop their country im following a path to annihilation seems always that the decisions a desires rest in the hands of a kw Generally, they are the states or the leaders of nations.

Since nothing is accomplished ow the conference tables, why don't the leaders take their angers and proble to a battlefield? Historically would be a nice change to see th statesmen or leaders knock Hades out of each other, instead nations.

the fall is unknown. If the season is ever mentioned it is referred to as Autumn. There, most trees maintain their foliage indefinitely unless they are forced to gradual death by the action of certain chemicals. The Cocoa trees are among the few trees which respond to annual coloration.

In Canada, the fall seems to remind me that colder weather is in store. I have to take the warning in good spirit.

At home, the temperature averages about 84 degrees over the year. December is one of the coolest months. The temperature drops as chilly breezes blow, perhaps reminding us that our northern friends are having a change in climate.

Now that I am residing in Canada, I have become aware of this fall season. I wonder when are we going to have some snow.

Jots And Tiddles

It has come to our attention that a new course, Charm 62, will be given at W.U.C. next year. Its arrival will be none too soon according to the statistics for tonight's formal dance. The disinterest shown by the female representation is no stimulus for modest young men. Their aloofness foretells refusal; yet if the young ladies were approached earlier, as suggested by charm experts, the tension of the past week may have been avoided. Overheard in the Torque Room: "I couldn't possibly attend that meeting! I have too much work to do." However, a dossier on such a person's time for one week indicates:

 $5\frac{1}{2}$ hrs. in the Torque Room

19 hrs. in class rooms

7 hrs. in social contact These hours do not total the number of hours in the week, but they do add up to a small number of students doing all the work for the benefit of the student body because others do not and will not exert themselves. Suggestion for the Male Populace: Last week the W.U.A. held its annual Faculty Banquet and Pinning Ceremony. The occasion gave the female students on campus an opportunity to meet the female faculty and faculty wives. With a school of this size such contact is possible. Perhaps the male students on campus could follow this example. We would assume that such an opportunity would prove that professors were human too.

Freshettes Accepted Into Women's Undergraduate Society

By Edie Klinck

Last Thursday evening in the turesque surroundings and digilied atmosphere of the Granite mb, the "little sisters" of W.U.C. keived the symbol of true sisterhood the ceremonial pinning by their hig sisters". Indeed, by citing irious examples, I could easily rove that "little sisters", freshettes, m not necessarily more petite than teir "big sisters" who are sophs. could be so mean-but I won't.

After a delicious chicken meal, Mrs. Diem, the wife of our geography blessor, began the formal part of be evening by introducing the wives four faculty, and some of the female bulty members. I'm sure that we'll I remember Janice's subtle? comment: "I hope that you'll be better repared next year, if you're invited.' A representative of the Women's miliary of the Lutheran Church, Mrs. Webb, briefly commented on their organization's work on the cam- was now fulfilled.

Women's Fleece

"Phi Delta Pi", the words on our sorority pins, hold a world of significance, according to Janice Inglis, the president of the Women's Undergraduate Society. Greek words, 'Phi Delta Pi" are symbols of the purpose and ideals of our sorority, friendship, integrity and loyalty These three ideals, stressed by Janice, should help guide us in the diversified society of our day. As Janice finished speaking, suddenly an awful silence was cast over the room as the lights were dimmed. Each "little sister" holding a lighted candle, proudly came forward to be pinned by her beaming "big sister". True initiation

promised their continuing support. was aptly introduced by Barb The chief aims of the Women's Mackay. Graduating from our University in 1940 with an Honours French and Latin degree, Mrs. bridge; these are advanced education Stewart did postgraduate work at for women and the provision of the University of Toronto and is now an alumni member as well as a professor here at Waterloo.

The theme of Mrs. Stewart's speech was the importance of higher education for women. A broad education is the best discipline for a women's complex life. After marriage, the woman guides the development of thought and education in the home. For example, commented Mrs. Stewart, Mrs. Roosevelt's dynamic personality and intelligence were omnipresent and beauty was forgotten. Educated, a woman has a greater opportunity for a happy marriage, a greater security when married and a greater success as a homemaker. But combining a home and a career, according to Mrs. Stewart, is like 'having your cake and eating it too". However, assimilated education stays with one forever for immediate or future use. Quoting Bunting, Mrs. Stewart pointed out that "one must have something awfully interesting to work at awfully hard". A woman owes it to herself to develop all her potentialities to the highest possible degree, so that with all her resources and funds of knowledge, she will be able to contribute to society and make her life a worthy one.

Christine Pletch graciously thanked Mrs. Stewart for her timely speech. In conclusion Janice Inglis thanked all the head table guests and ended this memorable evening by wishing us all a very successful academic and social year.

Professor John Montgomery, Chairman of the History Department, came to W.U.C. a year ago last September to begin teaching in Canada. He pursued his education at various centres in the United States, obtaining first his B.A. with distinction in Philosophy at Cornell University in 1952. While at Cornell he was admitted to two Honor societies, Phi Beta Kappa and Phi Kappa Phi. Following this Professor Montgomery went to the University of California at Berkeley where he worked towards his M.A., also obtained his Bachelor of Library Science, and was admitted to a third honor society, Beta Phi Mu.

Professor Montgomery today is an ordained Lutheran minister, and holds the Bachelor of Divinity degree from Wittenburg University. While

Meet Your Students' Council

Council members-Left to right; John SaFrance, Vice-Pres. of Freshman Class; Roger Lillyman, Freshman President; Jim Kent, Soph. Vice-Pres.; Paul Enns, Soph. Pres.; Bill Leggett, Senior Class Vice-Pres.; Absent was the senior class president Gary Brown.

John Erb, Council Vice-President; Tom Freure, Council President and Pat Jackson, Secretary.

Left to right-Pat Jackson, Secretary; John Vermeullen, Treasurer; Fred Jacobie, Undergraduate Chairman; Danny Davids, Junior Class President; Jim Meade, Junior Class Vice-President.

The College Scene

To the many woes of the Freshman, there is the added burden of orientation. If the Freshman body were to have the right to condemn or to condone, the majority would without a doubt condemn. After all, one must have a course in Library Science or else the academic year would not be complete because as everyone realizes, the student body would never have heard of the library if it were not for this course. Well, perhaps someone would have mentioned it. In fact if someone had written a booklet about Library Science, and had distributed it among the Freshman body; then had given an exam on its content-perhaps we could have saved these lecture hours. Alas, this procedure could only be done on the assumption that everyone could read. Oh well, we cannot expect a perfect system, can we? Back to your lectures scum; it is only one hour a week anyway.

Hats off to the Student Council, for theirs is a noble cause, unfortunately part of their cause was abruptly stopped by the president as he issued the statement that the executive would not even consider the advanced proposal of changing the university's name. Although this might be the practical solution for immediate conciliation, the executive could be more tolerant of student opinion and less prejudiced in their outright condemnation of Student Council statements. If we have a democracy we should at least practice it by deed not only by words.

This is the school for the individual, for the student who craves warmth, friendship, unity, and professor contact. Students at this college probably get more opportunity to meet and associate with a larger number of the student body than at most universities. Though we have a shortage of femmes, this deficit does not present any serious crises-yet! The professors are very fun-loving and tolerant with student antics whereas students sometimes lose patience with them! When a student runs after a professor in the hall, calling out in vain for some Mr. Smith who has just managed to duck past a crowd of hangers-on and slip down the stairs, then one can truely feel sympathy for the frustrated chaser. Of course all professors are not as evasive, only the odd fox among them is. Then again, there are many ways to catch a fox. With half an effort one should be able to trap a professor - but not to ask him or her what the time 21 points. The semi-finals and finals is nor to find out if he noticed you running after him. Have a heart fellas. As for finding professors: Seek and ye shall find. M. V.

(Matt Veskimets)

Over Fred Astaire's fireplace in Beverly Hills is a yellowed MGM studio interoffice memo-a souvenir of the dancer's first screen test. Dated 1933 and sent by the testing director to his superior, it reads: "Fred Astaire. Can't act. Slightly bald. Can dance a little." Perhaps that director had the

No Visa For Journalist

OTTAWA Nov. 7-In a press of External Affairs and the De report of November 6 a spokesman ment of Citizenship and Immign for a student-sponsored seminar on In our experience at least they the causes of war has charged that the Canadian government refused to grant visas to two Soviet students who had been invited to attend the seminar at Montreal's Sir George Williams University. The spokesman allegedly stated that, "if we must be hampered by the stupidity, inefficiency and narrow-mindedness of our government, we are no better than our enemies."

Commenting on this report, in Ottawa, the executive secretary of the National Federation of Canadian University Students (NFCUS), Leonard LeGault, said that he was surprised and shocked by the serious nature of the charge brought against the Canadian government.

"NFCUS has had a good deal of experience in relations with the students of the USSR," he said. "In 1959 a Soviet student official was an observer at our national congress in Saskatoon. In the fall of 1960 four Soviet students were guests of NFCUS in a month-long tour of Canada, and in the spring of 1961 six Canadian students paid a reciprocal visit to the USSR. At our national congress in Kingston in September of this year, two Soviet students were in attendance as observers and afterwards were received as guests at several Canadian universities. In all of these cases we received whole-hearted cooperation from officials of the Department

Ping Pong Tom Ramautarsingh Wins Tournament

On Friday, November 10th, a great deal of skill was displayed in the men's common room. The occasion was the table tennis singles elimination tournament. Official elimination was scheduled to start at 5:00 p.m. With 86 students signed up to play and with only two tables, the first two rounds of competitions consisted of 11 point games. The following games went to the regular were two out of 3 games; one lost game meant elimination.

The players were divided into division A and B. The winners of these divisions competed for the school championship.

Players of honourable mention were such stars as Mike (Smasher) Morlock, Bill (Star) Braby, Bob Bailey, Robert Cook, Michael Stankowitsch, Bob (Shiftyeyes) Megaw and

always been efficient and u standing."

Mr. LeGault went on to say he was satisfied with the repl the Department of Citizenshi Immigration to these charges. original request for visas for Soviet students named Chiub and Rigin had been granted in to permit them to attend the sem At a late date, however, the Dep ment was advised that Rigin to be replaced by Boris Pankin request for Pankin's visa was refused but could not be gran soon enough to enable him to atta Pankin, moreover, was not a stu but a journalist with the Sci newspaper Pravda which alread representatives in Canada. On basis of this statement and of quiries made with government ficials, Mr. LeGault said he felt no proof had been given for accusation that compromised Can dian students and the Cana government in the eyes of the wor

Paul Merrick; Paul tried to w down the opposition by lengthy pla There were also mixed singles. Gi who defeated boys and continued the quarter semi-finals were Shi Denning and Carmen Blake.

Mathematical theorems were applied to the game by the o participating professor, Profes Sweet.

At 8:15 p.m. Tom Ramautani of Division B wound up as scho champion by defeating Michael Sta kowitsch of division A in the fin round. Scores 21:18; 21:19. She wood (Moon) Eddy had the m fortune of being the first vict who was defeated by the cham Tom's most interesting and m difficult games were against Bo Bailey, a greatly improved play over last year. Scores 21:15; 26:2 21:16.

From this competition, six of th best players will be chosen to represent this school in inter-univer competition later on in the year. MIKE STANKOWITS

Strictly For Laughs

by Pete Rempel

A few columns back we included a criticism of young people written by Socrates in 500 B.C. The following is another criticism of the same type.

Our earth is degenerate in these latter days. There are signs that the world is coming to an end. Children no longer obey their parents. Everybody wants to write a book. The end of the world is near.

An appropriate title for the above passage might be "The Priest's Lament". The priest, in this case, being an Egyptian living in the year 4000 B.C.

more recent.

I see no hope for the future of our people if they are to be dependent upon the frivolous youth of today. For certainly all youth are reckless beyond comparison and opinionated beyond their years (fellow columnists, take note). When I was a boy we were taught to be discreet and respectful toward our elders, but the present youth are exceeding wise and impatient of restraint.

This pessimistic opinion was expressed by the Greek, Hesiod, living in the 10th century B.C. Perhaps there is still hope for us.

While we are dealing with the past, The following criticism is a little it seems fitting that we mention the following story.

same foresight as the minister in this story.

A travelling Methodist preacher, many years ago, was always criticizing those people who maintained that man would eventually fly through the air. He stoutly argued that, had God wanted man to fly, He would have created him with wings and feathers as he did the birds. The preacher's name was Bishop Milton Wright and waiting for him at home were his two small sons, Orville and Wilbur.

A finishing touch for this journey into the past is the definition of forests cover two hundred million uranium, found in a dictionary published in 1901: "A worthless white metal, not found in the United are connected with some phase of States."

Spooner On Campus

Conservatives Hear Minister

On Tuesday evening, November the fact that at present our form 7th, the Honourable J. Wilfred offer us many benefits yet uncover Spooner, Minister of Lands and His mentioning of the fact that 959 Forests for Ontario, was a guest at WUC under the sponsorship of the Progressive Conservative Club on campus. Mr. Spooner delivered a comprehensive speech on the importance of Ontario's forest wealth her own exports of lumber secure on the economy of our country. To illustrate the magnitude of the vital role played by our forests in the economy he quoted many interesting statistics such as the fact that our acres, or two-thirds of the province and that over eighty thousand people the lumber industry. He stressed

of our newsprint is exported lead him to mention Russia and the possibil in fighting the cold war, of her attem to undermine our huge export trad in lumber and pulp and paper with from her vast forest reserves in Siberia which surpass those of Canad or any other country. It is only to be hoped that the economic cos of harvesting this crop will preven Russia from such action.

At the conclusion of his speech the meeting was adjourned to the ladied common room for coffee and cake. LEONARD SCHAEFE
