

Uvodnik

Dragi čitatelji i suradnici!

Izlazak iz tiska ovog broja Drvne industrije, koji zaokružuje još jedan ciklus u životu našeg časopisa, smatram posebnom prigodom, vrijednom kratkog uvodnika. Naime, radovi objavljeni u volumenu 57. imaju iznimnu razinu kakvoće zahvaljujući ozbiljnom i vrijednom znanstvenom radu autora, ali i vrsnoći recenzija. Stoga u ime Uredničkog odbora i Uredništva zahvaljujem svim našim vjernim recenzentima koji su ocijenili radove objavljene u ovom volumenu (a i one neobjavljene) te svojim sugestijama pridonijeli njihovoj kakvoći, a time i značaju i ugledu našeg časopisa.

Posebno zahvaljujem profesoru emeritusu Borisu Ljuljki, koji bespogovorno prihvaća brojne radove na recenziju i u kratkom vremenu, uz izvrsne kontakte s autorima, ustrajno pomaže Uredništvu u unaprjeđenju kakvoće i održanju kontinuiteta časopisa. Uz profesora Ljuljku svakako želim istaknuti i umirovljenog profesora Biotehničkog fakulteta Sveučilišta u Ljubljani Jožu Resnika, koji se također ističe po broju recenziranih radova, brzini i kvaliteti napravljenih recenzija, čime jasno iskazuje volju da pomogne časopisu, ali i visoku znanstvenu etičnost.

Naši umirovljeni profesori mogu nam biti primjer etičnoga znanstvenog odnosa prema recenziranju radova drugih znanstvenika, uz nastojanje da to učine objektivno, navrijeme i, ponajprije, da svojim sugestijama pridonese jasnoći, preciznosti i preglednosti rada te kvalitetnoj objavi znanstvenih rezultata.

Osim kvalitete znanstvenih radova, izvrsnost našeg časopisa određuje i znanje i zalaganje recenzentata, ali i članova Uredničkog odbora časopisa. Stoga želim naglasiti važnu ulogu članova Uredničkog odbora koji već četvrtu godinu samozatajno, ali neumorno rade na očuvanju časopisa, unaprjeđenju njegove kvalitete, zauzimanju čelne regionalne uloge u objavljivanju rezultata znanstvenih istraživanja iz polja drvne tehnologije te na povećanju vidljivosti časopisa u svjetskoj znanstvenoj javnosti.

Dragi čitatelji i suradnici, budite nam i dalje potpora, svojim priložima, prijedlozima i jednostavno, čitajte nas i dalje!

Glavna urednica

Dear readers and contributors!

The release of this issue of Wood Industry, by which another phase in the life of our journal has been completed, deserves a short Editorial. The papers published in the volume 57 are of an exceptional quality thanks to serious and valuable scientific papers of the authors, as well as to the quality of reviews. Therefore, I would like to thank, in the name of the Editorial Board and Editors, to all our faithful reviewers who made the assessment of all published (and also unpublished) papers in this volume, and by their suggestions contributed to the quality of the papers and hence also to the significance and reputation of our journal.

My special thanks go to Professor Emeritus Boris Ljuljka, who accepts unquestioningly numerous papers for review and in a very short time, with excellent contacts with authors, persistently helps the Editors in improving the quality and maintaining the continuity of the journal. Along with Professor Ljuljka, I would also like to emphasise the role of the retired Professor Joža Resnik of the Biotechnological Faculty, University of Ljubljana, who also made reviews of numerous papers, efficiently in terms of both time and quality, by which he clearly showed his will to help the journal as well as his highly ethical scientific behaviour.

Our retired professors can be an example of ethical scientific approach to reviewing the papers of other scientists with the aim of doing it objectively, in time and first of all so as to provide better understanding and precision of the paper as well as better quality of published scientific results.

Apart from the quality of the scientific papers, the excellence of our journal has also been determined by knowledge and efforts of our reviewers as well as of the members of the journal's Editorial Board. I would, therefore, like to point out the role of the members of the Editorial Board, who have been doing their best for four years now, in a modest yet persistent way, in keeping the journal going, improving its quality, taking the leading role in publishing the results of scientific research in the field of wood technology and increasing of availability of the journal to the scientific audience throughout the world.

Dear readers and contributors, please keep supporting us by your contributions, proposals or simply by reading us!

Editor-in-Chief

Radove u volumenu 57. recenzirali su:

The papers in the volume 57 have been reviewed by:

- Alena Očkajová – Fakultet prirodnih znanosti Sveučilišta Matej Bel, Banská Bystrica (Faculty of Natural Sciences, Matej Bel University in Banská Bystrica)
- Anton Velušček – Institut za arheologiju ZRC SAZU, Ljubljana (Institut of archaeology, Ljubljana)
- Boris Ljuljka – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Božidar Petrič – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Drago Katović – Tekstilno-tehnološki fakultet Sveučilišta u Zagrebu (Faculty of Textile Technology, University of Zagreb)
- Hrvoje Turkulin – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Ivan Klement – Fakultet za znanost o drvu i tehnologije Tehničkog sveučilišta Zvolen (Faculty of Wood Sciences and Technology, Technical University in Zvolen)
- Ivica Grbac – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Ivica Veža – Fakultet elektrotehnike, strojarstva i brodogradnje Sveučilišta u Splitu (Faculty of electrotechniques, machine engineering and naval architecture, University of Split)
- Jaroslav Kljak – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Jasna Hrovatin – Biotehnički fakultet Sveučilišta u Ljubljani (Biotechnical Faculty, University of Ljubljana)
- Jože Resnik – Biotehnički fakultet Sveučilišta u Ljubljani (Biotechnical Faculty, University of Ljubljana)
- Kazimierz Orłowski – Strojarski fakultet Tehnološkog sveučilišta Poznań (Mechanical Engineering Faculty, Gdansk University of Technology)
- Ladislav Dzurenda – Fakultet za znanost o drvu i tehnologije Tehničkog sveučilišta Zvolen (Faculty of Wood Sciences and Technology, Technical University in Zvolen)
- Leon Oblak – Biotehnički fakultet Sveučilišta u Ljubljani (Biotechnical Faculty, University of Ljubljana)
- Marko Petrič – Biotehnički fakultet Sveučilišta u Ljubljani (Biotechnical Faculty, University of Ljubljana)
- Mihovil Hus – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Miljenko Primorac – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Miroslav Rousek – Fakultet šumarstva i drvne tehnologije Mendelova poljoprivredno-šumarskog sveučilišta u Brnu (Faculty of Forestry and Wood Technology, Mendel University of Agriculture and Forestry)
- Miroslav Skoko – Tekstilno-tehnološki fakultet Sveučilišta u Zagrebu (Faculty of Textile Technology, University of Zagreb)
- Mladen Brezović – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Slavko Govorčin – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Stjepan Pervan – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Štefan Barcik – Fakultet za znanost o drvu i tehnologije Tehničkog sveučilišta Zvolen (Faculty of Wood Sciences and Technology, Technical University in Zvolen)
- Tomislav Grladinović – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Tomislav Sinković – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Vlado Goglia – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Vlatka Jirouš-Rajković – Šumarski fakultet Sveučilišta u Zagrebu (Faculty of Forestry, University of Zagreb)
- Zdeňek Kopecký – Fakultet šumarstva i drvne tehnologije Mendelova poljoprivredno-šumarskog sveučilišta u Brnu (Faculty of Forestry and Wood Technology, Mendel University of Agriculture and Forestry)
- Željko Gorišek – Biotehnički fakultet Sveučilišta u Ljubljani (Biotechnical Faculty, University of Ljubljana).
