1997 OREGON VINEYARD REPORT

January 22, 1998

Wine grape acreage, production and value continue to increase

Oregon's 1997 wine grape crop was a record 18,500 tons, 23 percent above last year's previous record crop and 32 percent larger than 1995. The value of this season's crop totaled \$21.5 million, up 40 percent from the previous record, also set in 1996. Harvested acreage continued the record setting trend, up 9 percent from last year's prior high to 6,300 acres. Funding for the 1997 Vineyard Survey was provided by the Oregon Wine Advisory Board.

Wine Grapes: Acreage, yield, production, price and value, by variety, Oregon, 1996-97

Variety	All planted acreage		Harvested acreage		Yield per harvested acre		Production		Price per ton		Value of production
