## 1996 OREGON VINEYARD REPORT

**Wine grape acreage, production and value continue to increase** Oregon's 1996 wine grape crop was a record 15,000 tons, 7 percent above last year's previous record crop and 39 percent larger than 1994. The value of this season's crop totaled \$15.3 million, up 15 percent from the previous record, also set in 1995. Harvested acreage continued the record setting trend, up 4 percent from last year's prior high. Funding for the 1996 Vineyard Survey was provided by the Oregon Wine Advisory Board.

### Wine Grapes: Acreage, yield, production, price, and value, by variety, Oregon, 1995-1996

Variety	All planted acreage		Harvested acreage		Yield per harvested acre		Production		Price per ton		Value of production
