## OREGON AGRICULTURAL STATISTICS SERVICE

### APRIL 17, 1996 Frequency: Annual

#### 1995 Oregon grape crush up 50 percent; Sales during 1995 up 20 percent

- \* For the 1995 crush, Oregon had 92 wineries that crushed 14,280 tons of grapes, 50 percent more than in 1994.
- \* The total number of wineries in the State decreased by 2 to 99.
- \* Cooperage capacity was up 12 percent, to 3.60 million gallons.
- \* Sales by Oregon wineries during 1995 were up 20 percent to 734,437 cases.
- \* Inventory at Oregon wineries on January 1, 1996 totaled 724,240 cases, down 12 percent from January 1, 1995.
- \* The leading varieties were: Pinot Noir, 5,699 tons crushed, 67 percent more than last year; Chardonnay, 2,909 tons, up 17 percent; White Riesling, 1,624 tons, up 16 percent; and Pinot Gris, 1,430 tons, up 152 percent.

\* Wineries had unfilled grape crushing needs of 891 tons in 1995. Reported needs were: Pinot Noir, 431 tons; Pinot Gris, 186 tons; Merlot 103 tons; Chardonnay, 87 tons; White Riesling, 50 tons; Gewurztraminer, 22 tons; Sauvignon Blanc, 6 tons; Zinfandel, 5 tons; and Cabernet Sauvignon, 1 ton.

Estate grown grapes accounted for 34 percent of the crush, while grapes grown by other Oregon vineyards made up 63 percent and 3 percent were grown in other states. Custom crush was 4 percent of the total. Yamhill County remained Oregon's leading wine producer, with 28 wineries crushing 31 percent of the State's grapes.

Inventory included both bottled case goods and gallons of bulk storage converted to case equivalants. The figures include bonded and tax-paid inventory, regardless of location, owned by wineries. Wines from the 1994 vintage were the most recent included, and account for 60 percent of total inventory. Funding for the 1995 Winery Survey was provided by the Oregon Wine Advisory Board.

#### Non-grape Wines

During 1995, there were 9 wineries that produced approximately 29,000 gallons of non-grape wines, not including hard apple cider which is taxed as a wine product. Blackberries, raspberries, and loganberries were the leading fruits used for these wines. Other fruits used for

wines by commercial wineries in 1995 were apples, cranberries, currants, peaches, pears and rhubarb. Some non-grape wines were made

from undesignated commodities.
