CPTED School Assessment (CSA)

Introduction

The purpose of the Crime Prevention Through Environmental Design (CPTED) School Assessment (CSA) is to rate the physical parts of the school which may have an impact on youth fear and aggressive behavior. This rating scale is based upon School CPTED Principles as defined on page 32.

Organization

The assessment is divided into nine sections:

- 1. Initial Impressions statements to register your very first, overall impression of the grounds, buildings, and interiors. These impressions are generally spontaneous and represent a felt response versus an intellectual assessment, or a gut reaction versus a mental analysis. This would be equivalent to what is commonly referred to as "curb appeal."
- **2. The Grounds** statements pertaining to the outside areas of the school property, such as parking, student pick-up/drop-off, and athleticareas.
- **3. The Buildings** statements pertaining to the physical parts of the building you can see from the outside, such as entryways, windows, and doors. This section also includes subsections for assessing additional buildings associated with the school but which may differ greatly in age, use, and style. It may be used by students or by the community. Examples include vocational, alternative education, or community health buildings.
- **4. The Interiors** statements pertaining to the space inside a building or buildings such as classrooms, corridors, and public areas. Blank sections are provided for any use which is not already covered by the assessment form. Examples might include home economics education classrooms or special theatrical workshops.
- **5. Global Impressions** statements to be completed after the physical assessment has been completed. These statements pertain to the overall atmosphere or ambiance of the school and are similar to the initial impressions in that the ratings are a felt response versus an intellectual assessment.
- **6. Additional Observations** an area to register any observations of the physical environment which has not been adequately covered in the assessment.
- **7. Surrounding Land Use** a list of land uses <u>adjacent</u> to the school property, i.e. properties observable from the school grounds. Check each one observed and circle the most predominant.
- **8. Surrounding Land Use Condition** the same list of land uses to be rated for the overall physical conditions on a scale of 1-5: with 1 for unsightly, poorly maintained, signs of vandalism (including graffiti), and no enhancements to a rating of 5 for attractive, well maintained, lack of vandalism and with enhancements such as flower beds, decorative lighting, pavement treatments and other decorative features.
- **9. Assessment Day Information** notations regarding date, time, weather and any unique factors that might affect the assessment on that particular day. Examples of unique factors are special, one-time events or unusual or traumaticincidents.

Under each section are subsections (A. B. C. etc.) related to specific areas of interest. Within the subsections is a list of statements that describe the perfect or ideal conditions for that type of area. Key words, which highlight the most important part of a statement, are underlined. Definitions for the key words are included on page 27. A summary matrix of key words by CPTED principles is on page 35.

Rating Scale

Read each statement and then:

- 1. Decide how much agreement there is between the actual situation and the perfect situation, represented by the statement.
- 2. Give each statement a rating of 1-5, with "1" being the lowest amount of agreement between the actual situation and the perfect situation and "5" being the highest.

For example, "School property boundaries are <u>delineated</u> from adjacent properties. Under the Key Word Definitions, "delineate" is defined as *to draw or trace the outline of*. A school property with continuous fencing, landscaping, and/ or curb treatments would be considered "delineated" and get a rating of "5," the highest possible score. A school property without any of these things would get a "1", the lowest possible score. A school with just part of the property delineated would get a score in-between, depending upon the degree of delineation.

In general, conditions rated 1-2 are considered unacceptable and in need of improvement. Conditions rated 3 are considered acceptable or common, with room for improvement and scores of 4-5 are considered good to excellent with no adjustment necessary for coming into compliance with CPTED principles.

Does Not Exist (DNE)

This assessment can be used at ANY middle or high school in the U.S., however some subsections or statements may not apply to the school you are rating. Before you start rating the school, your group should decide if there are any areas that do not exist. If so, circle "DNE" (Does Not Exist) as appropriate. For example, if your school does not have exterior stairs, balconies, ramps, or upper level open corridors, then under 3. Building(s) subsection B circle "DNE" on the subsection title.

Areas that may not exist at your school include:

Grounds: Bike Racks; and/or Exterior Athletic Areas
Building(s): Exterior Stairs, Balconies, Ramps and Open Upper Level Corridors; courtyards; and/or Portables (including Trailers)
Interior(s): Student Entry Areas – Other Than Main Lobby; Corridors; Stairs and Balconies; In-School Suspension Areas; Auditorium; Gymnasium; Men's or Women's Locker Rooms; and/or Elevators.
Aleas, Additionality, dyninasiam, Mens of Women's Locker Rooms, and/or Elevators.

Under various subsections there may be statements regarding a particular item that does not exist. In these instances, the "DNE" appears after the statement. However, some statements are intended to assess whether the school you are rating has a trait that all schools should have. When these items refer to a characteristic that is missing from the school, they should be given a low rating, rather than coded as "DNE." For that reason, these statements do not have a "DNE." For example, "There is an attractive and visible sign indicating the school's name and address near the primary entry." All schools should have such a sign. If the sign does not exist, the correct response would be "1."

In some situations, there is more than one statement for a particular subject that may or may not exist. In these cases, the first statement would receive a low mark since it should exist. However, the following statements would be marked with a "DNE." For example, under K. Grounds: General there are two statements regarding student involvement with campus beautification. If there are no student projects then the first statement, K12 would receive a "1." The second statement, K13 regarding the condition of student projects, would be marked "DNE."

Unable to Observe (UTO)

If you cannot see an activity for any reason, circle the "UTO." For example, "Delivery activities are orderly and do not interfere with normal school functions." If you do not see any deliveries during your rating time, mark "UTO."

Time Sensitive Statements

At a minimum, the reviewing period should cover from 30 minutes before the start of the school day through 30 minutes after the school day ends. To see how the school environment is being used, you will need to visit some areas during certain times. Please look at the list below for areas that must be rated during arrivals and departures, classroom changes and lunch periods.

Arrival	s and Departures
The Grou	<u>unds</u>
	Section C. Grounds: Parent Drop-off/Pickups
	Section D. Grounds: Bus Unloading/Loading
	Section F. Grounds: Parking Areas
	Section G. Grounds: Exterior Pedestrian Pathways and Gathering Areas
The Build	<u>dings</u>
	Section A. Buildings(s) Entries and Exits
	Section B. Buildings(s) Exterior Stairs, Balconies, Ramps, and Upper Level Corridors
The Inte	<u>riors</u>
	Section A. Interior(s) Main/VisitorLobby
	Section B. Interior (s) Student Entry Areas
Classro	om Changes
The Inte	rior(s)
	Section D. Interior: Corridors
	Section E. Interior: Stairs and Balconies
Lunch P	Periods
The Inte	rior(s)
	Section I. Interior: Cafeteria(s)/Food Courts & VendingMachines

Blank Sections

At the end of the Buildings and Interiors sections are blank forms, which can be used to add outbuildings of a different nature than the rest of the school or of specific interior areas, which are not already covered. Use these to assess outbuildings such as vocational schools, community health centers, etc. and for areas such as computer labs, music rooms, woodworking shops, art galleries, etc.

Limitations

This CPTED School Assessment looks at environmental factors related to youth behaviors, and their sense of safety and well-being. It does not look at fire safety, building and equipment security, staff and personnel safety, hazards for non-intentional injuries or crisis response capability. Additionally, the assessment does not include a review of security equipment.

The assessment is limited to reviewing the school 30 minutes before the start of the official school day and 30 minutes after the normal school day has ended. Therefore, you may or may not be able to answer questions about exterior lighting. If not, circle "UTO" (Unable to Observe). Additionally, you will not be able to assess for after-school activities or community-use of the school during non-school hours.

7. Surrounding Land Use

Check the land uses which are adjacent to the school property, i.e. properties observable from the school grounds. Circle the most predominant ones.

- Single family
- Multifamily
- Public housing communities
- Commercial (including hotel/motels)
- Industrial
- Recreational (parks, etc.)
- Government (libraries, offices, etc.)

- Other schools
- Vacant lots
- Vacant buildings
- Minor roads (2-3 lanes)
- Major roads (4 or more lanes)
- Other

8. Surrounding Land Use Condition

Rate the overall physical conditions of surrounding Properties on a scale of 1-5: with 1 for unsightly, poorly maintained, signs of vandalism (including graffiti), and no enhancements to a rating of 5 for attractive, well maintained, lack of vandalism and with enhancements such as flower beds, decorative lighting, pavement treatments and other decorative features.

School CPTED Principles¹

Natural Surveillance (NS) is the design and placement of features and persons to facilitate observations and maximize visibility. The objectives are to eliminate hiding or hard to see places and increase the ability of authorized adults to monitor and respond. This deters aggressive behaviors by increasing the threat of detection and increases feelings of security for students and staff.

Access Management (AM) is the use of real or perceived barriers and other features to orient and guide people and vehicles along appropriate paths and to restrict inappropriate access. The objectives are to increase comfort and decrease prohibited behaviors by providing safe routes and restricting unauthorized access.

Territoriality (T) is the use of physical attributes to delineate space and to express a sense of ownership and pride. The objective is to communicate to others that an area is claimed and cared for and therefore unacceptable behavior will not be tolerated.

Physical Maintenance (PM) is the repair, replacement and general upkeep of a building or area. The objectives are to allow for the continued use of features and spaces and to further convey a sense of ownership and caring.

Order Maintenance (OM) is the attention to and reduction of minor inappropriate behaviors. The objectives are to maintain decorum and promote pro-social behaviors by preventing the escalation of tension, conflicts or inappropriate behaviors.

Key Word Definitions and Examples

The following list provides a definition and example of key words used in the assessment tool. It also includes, in parenthesis, which CPTED principles are related to each of these definitions found in the CSA. The principles are referenced by initials: (NS) Natural Surveillance, (AM) Access Management, (T) Territoriality, (PM) Physical Maintenance, and (OM) Order Maintenance. The CPTED principles are listed in order of being the primary, secondary or tertiary construct. A summary matrix of the key words by CPTED principle follows on page 31.

access (AM) A means of approaching, entering, exiting, or making use of; a passage, such as design features do not provide easy access to rooftops, staff and seldom used areas, spaces under portables, light switches, chemicals, elevators, etc.

adjacent (NS) Close to, next to, such as visitor parking is located directly adjacent to the main entry of the administrative offices.

amenities (T/OM) Something that contributes to physical comfort; increases attractiveness or value, such as pedestrian seating, trash receptacles, shelters from foul weather, and other pedestrian amenities.

attractive (T) Pleasing; charming, such as attractive entryways.

auditory surveillance (NS) The ability to hear activity for monitoring purposes, such as auditory surveillance of restrooms with open zigzag entries versus double doors.

authorized adults (NS/AM/OM) Adults who are sanctioned by the school to operate in an official capacity such as administrators, teachers, security personnel, school resource officers, cafeteria staff, parent volunteers and others.

authorized locations (AM/OM) Designated areas for particular activity, such as parental drop-offs and pick-ups.

1. Carter SP. Surrounded by Safety: A Crime Prevention Through Environmental Design (CPTED) Handbook for Youth. Youth Crime Watch of America, Miami, FL; 2001

available for assistance (OM) To give aid or support such as being available to take care of minor occurrences so they don't become larger incidents and to respond appropriately to any incident, small or large. To be within a reasonable distance to see, hear and respond to a situation.

barriers (AM/T) Real or symbolic limitations to movement, such as fencing, bollards, chains, landscaping, and other physical features.

capacity (OF/OM/AM) *The ability to receive, hold or absorb,* such as there is sufficient capacity for all students to sit within authorized locations.

cheerful (T) Pleasant, bright, enjoyable, and comforting, such as classrooms or interior corridors are cheerful.

clearly marked (AM/OM/T) Readily observable, *visible impressions*, such as large lettering, bold stripes or other physical markings.

comprehend (AM/T) To take in the meaning. such as the organization of the school campus is easily comprehended.

controlled (AM/OM) To hold in restraint; check; to regulate, such as access to the school staff area(s) is controlled.

crowding (OM/AM) To press, cram or force tightly together, such as lockers are adequately spaced to avoid crowding.

delineate (T/AM) To draw or trace the outline of, such as to delineate the school boundaries from adjacent properties or student parking from staff parking spaces.

direct (AM) To show or indicate the way; to give instructions to, such as directing visitors to the administrative offices for signing in.

distinctive (OM/AM) Serving to identify; a distinguishing factor, attribute or characteristic, such as distinctive nametags or clothing.

easily monitored (NS/AM/OM) The ability to keep close watch over, to supervise, such as bus loops, public phones and other features being easily monitored.

easily viewed (NS/AM/OM) A convenient way of seeing something, as from a particular angle, such as entrances being easily viewed from nearby offices.

enhanced (T) To make greater, as in value or beauty. To go beyond basic utility, such as enhancing the school grounds with landscaping, student artwork, monuments or other physical means.

emergency exits (AM) A way of leaving but not of entering, such as the design of emergency exits deters access from the outside.

fresh (PM/T) Free from impurities or pollution, such as the interior air quality is fresh.

good condition (PM/T) To be in a *positive or desirable state*, clean, litter free, in good repair, such as buildings, grounds or student projects are in good condition.

graffiti (PM/OM) Writing on walls, inscriptions, such as there are no signs of graffiti.

hard-to-see (NS) *Difficult to perceive with the eye*, such as blind corners.

hiding places (NS) Spaces where one can be out of sight, in secret, or concealed, such as there are no hiding places in or around bike rack or dumpster areas.

include/inclusiveness (OF/T) To take in as a member/comprehensive, taking everything (everybody) within it's scope, such as including a wide range of student interests and all cultural backgrounds.

inviting (T) Welcoming and appealing, such as the lobby is attractive, cheerful and inviting.

limit (AM) *The line or point beyond which something* (someone) *may not proceed*, such as the access to the underside of stairs or bleachers is limited.

motivational signs (T/OF) Posted notices that provide incentives, move to action, or impel, such as motivational signs herald accomplishments, reflect student pride, give positive messages and otherwise encourage student excellence.

natural light (OF/NS) Light provided by the sun, such as there is an abundance of natural light in interior spaces.

natural surveillance (NS) Allowing for casual observations, such as perimeter fencing allows for natural surveillance of the school grounds.

noise (OM/PM) Sound, or a sound that is loud, unpleasant, unexpected, or undesired, such as there are no continuously occurring loud noises on school grounds.

odor (PM/T) *Strong, pervasive quality,* such as there are no unusually foul odors.

open ziqzaq (NS/AM/OM) A door-less restroom entry with sharp turns designed to shield the interior.

orderly (OM/NS) A condition of logical or systematic behavior, free of disruption, such as pedestrian flows are orderly.

outdoor learning area (OF) A designated area used for environmental or agricultural educational activities, where students can interact with live plants and enjoy fresh air and sunshine.

posted rules (OM/AM) Signs which warn or give information on regulations, such as posted rules designate parking lot usage.

secured (AM) Firmly fastened, such as site utilities are secured.

security devices (AM/OM) Any number of physical means to secure or detect, including but not limited to window and door grates; barbed or razor wire; motion detectors, alarms, closed circuit TV cameras/ monitors; metal and bomb detectors, such as security devices are unimposing.

see-through (NS) *Transparent, permeable to light*, perforated material, such as lockers and/or locker doors are seethrough.

student involvement (T) Engage students as participants, such as there are examples of student involvement with campus beautification.

temperature (OF) The degree of hotness or coldness of a body or an environment, such as the temperature in interior spaces is neither too hot nor too cold.

unimposing (T) *Unobtrusive*, *considerate*, such as security devices are unimposing.

uplifting (T) Raising the spirits, such as the atmosphere of the school is uplifting.

vandalism (PM/OM/T) Willful or malicious destruction of property, such as there are no signs of vandalism.

visible (NS) Possible to see, obvious to the eye, such as authorized adults are visible during classroom changes.

wayfinding (AM/OM) A collective means (landscaping, lighting, signage, pavement treatments, and landmarks) of informing or directing vehicular or pedestrian movements.

welcoming (T/AM) Cordial, inviting, agreeable, hospitable, such as entries to the site are attractive and welcoming.

well defined (T/AM) Having definite and distinct lines, such as gathering areas are well defined.

well lit (NS/AM/OM/T) Sufficient *illumination* to enable easy viewing of activities and people, such as corridors are well lit.

Source: Italicized definitions are from *The American Heritage College Dictionary, 3rd Edition*. Boston, New York: Houghton Mifflin Company: 1993.
