The University, in offering graduate programs, is seeking to fulfill an objective set by the Lutheran University Association when it acquired the plant in 1925: to make the institution a Christian center of advanced study. The University desires through these programs to broaden its educational service to its constituency and to the community as a whole. There are elements of uniqueness in these programs, both in breadth and depth, which make them unusual in American higher education.

The program of graduate studies was initiated by Valparaiso University in the Summer Session of 1963. It has continued through late afternoon and evening courses during subsequent academic years. At present the plan is to offer graduate courses in this pattern of Summer Sessions and evening courses.

The graduate programs are under the general supervision of the President and the Faculty of the University. The policies of the Graduate Division are determined by the Graduate Council, and the programs and regulations as defined by the Council are administered by the Director of the Graduate Division.

Accreditation. Valparaiso University is fully accredited by the North Central Association of Colleges and Schools for the offering of bachelor's and master's degrees. The graduate programs for the preparation of teachers are approved by the Indiana State Department of Public Instruction.

Admission Requirements. An applicant to the Graduate Division must be a graduate of an accredited college or university with a standing of at least 2.5 (C=2.00) in all work attempted.[†] Official transcripts of all undergraduate and previous graduate work and a completed form for admission (available from the Graduate Office) must be forwarded to the Director of the Graduate Division for evaluation. The transcripts and other application materials become part of the records of the Graduate Division, Valparaiso University,

[†]Seniors wishing admission to the Graduate Division: A senior in Valparaiso University who has a standing of at least 3.00 in all work and a standing of at least 3.00 in all the work taken in his/her major field, and who needs not more than six semester hours of credit to meet the requirements for the baccalaureate degree, may be granted provisional admission to the graduate program. A student who has been granted such admission will be permitted to enroll for not more than six semester hours of courses designated for graduate credit and not more than a total of twelve semester hours during a semester; or for not more than three semester hours of courses designated for graduate credit and not more than a total of six semester hours during a Summer Session. Courses taken for graduate credit may not be counted toward fulfilling the requirements for a baccalaureate degree.

and are not returnable.

The Director will assign an adviser according to the selected area of academic concentration once the student is admitted to the Graduate Division. Those students who are also working toward qualifying for teaching certificates will be assigned an adviser in the Department of Education in addition to their academic adviser.

Program for Master of Arts in Liberal Studies. This program is broad in scope, offering opportunities for study in several fields. Two basic two-hour courses in The Western Tradition, which are required of all students, provide an integrating core. Also, the student is required to present ten hours of work in one subject matter field other than education. The remaining hours in the thirty hour program are electives, selected by the student after conference with his/her adviser(s). A maximum of ten of these elective hours may be in professional education.

In addition, the program provides for the needs of both elementary and secondary classroom teachers who wish to work toward advanced certificates. Students will be able to adjust their programs within the field of concentration and the electives so as to strengthen subject matter competence and, if they desire, to add to their professional training in education.

The M.A.L.S. program provides a particularly challenging opportunity for professional workers who wish to strengthen their preparation and secure breadth of background in academic areas.

To be eligible for the degree of Master of Arts in Liberal Studies, a student must complete at least thirty semester hours, distributed as follows:

1. A core of 14 semester hours consisting of:
 - A. 10 semester hours in one subject-matter field (other than education), 7 semester hours of which must be taken at Valparaiso University, and
 - B. 4 semester hours in the courses entitled The Western Tradition I and The Western Tradition II.
2. 16 semester hours of electives (of which 10 semester hours may be in education).

At least 5 of the 10 semester hours required in the one subject-matter field and at least 15 of the 30 semester hours presented for the degree must be in courses numbered 300 or higher. These courses must be taken at Valparaiso University.

Under the Master of Arts in Liberal Studies program, students may concentrate their study in the following fields: English, Geography, History, Music, Psychology, or Sociology.

Teachers who plan to use the M.A.L.S. degree to professionalize their licenses should note the teacher certification requirements on page 6 and should consult with the chairperson of the Department of Education concerning their specific programs.

Program for Master of Education. This program is designed for elementary teachers for professionalizing their certificates; for secondary teachers in teaching fields for which there is no appropriate area of concentration available in the M.A.L.S. degree program.

To be eligible for the degree of Master of Education, a student must complete at least thirty-three credits, distributed as follows:

Professional Education	12 semester credits
(a minimum of six hours of 300 courses at Valparaiso University)	
Psychological Foundations of Education	3 semester credits
(Education 310, Psychology 242, 252, 253, 303, or 315)	
Subject-matter Field(s) other than education	12 semester credits
(a minimum of six hours of 300 courses at Valparaiso University)	
Electives	6 semester credits
Total minimum requirement	33 semester credits
(Minimum 300 courses at Valparaiso University)	15 semester credits

All students who are enrolled in the Master of Education program should note the teacher certification requirements on page 5 and should consult with the chairperson of the Department of Education concerning their specific programs.

Regulations for the Degrees M.A.L.S. and M.Ed. No thesis is required, but a term paper is a regular part of graduate courses.

Admission to Candidacy. Admission to candidacy is a separate step from admission to the graduate program, and requires separate approval by the Director of the Graduate Division. To become a candidate for a degree, a student must have completed at least six semester hours at Valparaiso University with a standing of at least 2.7 (B=3.00). Application for candidacy should be filed before the student has completed half or his/her graduate work. The student must file a tentative program of study which has been approved by his/her academic adviser. Forms for this purpose are available through the Graduate Office.

Application for Graduation. To receive the master's degree from Valparaiso University, students must make formal application to the Director of the Graduate Division within the first week of the term in which they expect to be graduated. They must give evidence that they have fulfilled all requirements for the degree and receive the approval of the Graduate Council. No student who has not made application for candidacy (see above) will be eligible for the degree.

Marking System and Quality Points. The grade marks reported and recorded in the Registrar's Office are as follows. The corresponding number of quality points per credit hour are also indicated.

Grade	Quality Points Per Credit Hour
A)	4.0
A-) Excellent	3.7
B+)	3.3
B) Above Average	3.0
B-)	2.7
C+)	2.3
C) Average	2.0
C-)	1.7

D+)	1.3
D) Below Average	1.0
D-)	0.7
F Failure	0.0

Note: Except for the grades D+, D, D-, and F, all grades give credit toward graduation.

Graduate credit may be received for grades of C- and above. BUT NOT MORE THAN six semester hours of C-, C, or C+ work may be counted toward the degree.

Students must maintain a grade point average of 2.7 (B=3.0) in all graduate work undertaken at Valparaiso University.

I. Incomplete. The grade I (Incomplete) may, at the discretion of the instructor, be given to a student whose completed work in a course indicates the probability of his/her passing the course but who has failed to complete a segment of the assigned work of the course because of circumstances beyond his/her control. An I (Incomplete) received in one semester or summer session must be removed by the beginning of the official examination period of the next succeeding semester or it will automatically become an F. The student's deadline for submitting the outstanding work to the instructor shall be one full week prior to that date.

W. Only in exceptional cases, such as prolonged or serious illness, will the Graduate Council permit a student to withdraw from a course without a grade of F after the end of the seventh week of the semester or after the third week of a Summer Session.

Repetition of Courses for Credit. Unless a course may be repeated for credit, only the credits, grade, and grade points received the last time a course is taken by a student at Valparaiso University shall be used in determining credit for graduation and the cumulative grade-point average(s). A grade of W shall be excluded from this policy.

Other Regulations. Not more than fifteen semester hours of work for graduate credit may be carried in any one semester, nor more than nine semester hours of credit in any Summer Session. All work for the master's degree must be completed within a period of five calendar years from the date of admission into the program.

Teacher Certification. Because of new state certification laws now in effect, it is imperative that students seeking professional certification should consult with the chairperson of the Department of Education concerning specific certification requirements prior to, or at the start of, graduate study.

Elementary Certification. Persons seeking to professionalize their general elementary licenses must devote at least 15 semester hours of their work to a combination of courses in education and subject matter directly related to elementary school teaching with a minimum of 12 semester hours in professional education.

The Master of Education degree is designed to meet these requirements. The Master of Arts in Liberal Studies degree may be used for professionalizing the general elementary license, but coursework above the 30 semester hour minimum for that degree will be required. Consult the Department of Education concerning specific requirements.

Secondary Certification. Secondary teachers wishing to professionalize their teaching licenses should take the Master of Arts in Liberal Studies degree program. A minimum of 6 semester credit hours in professional education coursework is required, with at least 3 of these taken at the 300 level at Valparaiso University. A list of subject fields for which licenses may be professionalized is available from the Department of Education.

Reading Program. The University offers courses which meet the certification requirements of the State of Indiana to teach reading as a subject-matter field and to professionalize such certification. Specific information regarding the reading program is available from the Department of Education.

Independent Study. With the permission of the chairperson of the department concerned and of the Graduate Council, a student may earn up to six of the thirty or thirty-three semester hours required for the degree by means of independent-study projects. No student may apply for permission to undertake an independent-study project until he/she has satisfactorily completed at least twelve semester hours of his/her approved master's degree program.

Before registering for an independent-study project, a student must place on file with the Graduate Office an outline of his/her project, together with a bibliography, which have the written approval of the directing professor and his/her department chairperson.

An independent-study project will be recorded as either course 290 or course 390 of the department concerned, depending upon the nature of the project. Neither course may be repeated for credit toward the fulfillment of degree requirements.

The titles and descriptions of these courses are as follows:

290. Independent Study. Cr. 3. Investigation of a special topic through readings under supervision of a faculty adviser. Certain departments may also require research, creative work, and/or a concluding paper.

390. Research Project. Cr. 3. The study of a topic of special interest to the student under regular supervision of a faculty adviser. A concluding paper of substantial proportions is required.

No student may register for an independent-study project during the final Summer Session of his/her program and no student should expect to start and complete an independent-study project in one Summer Session.

Restricted Credits. Not more than six semester credits earned in institutes or workshops may be counted toward the degree. With the exception of workshops and institutes, all graduate courses offered by Valparaiso University which meet for a full semester or summer session will be accepted for credit towards a master's degree. In addition, a student may present in fulfillment of degree requirements a maximum of six hours of credit earned in courses which meet for less than a full semester (or its equivalent as determined by the Graduate Council) or a full summer session.

Transfer Credits. A maximum of six semester hours of transfer credit from another accredited graduate institution will be accepted for the degree. No course presented with a grade of less than B- will be considered for transfer. These credits must have been earned not more than ten years before the student is admitted to the graduate program. Transfer credit is

subject to all of the restrictions that apply to short-term classes, workshops, and institutes. With the exception of travel-study, only graduate courses that meet for more than one calendar week will be eligible for credit transfer. In addition, courses that carry two semester credits must meet for a minimum of two calendar weeks, while courses that carry three semester credits must meet for a minimum of three calendar weeks. Transfer for travel-study will not exceed two credits per calendar week. All requests for transfer must be in writing and will be evaluated by the Director of the Graduate Division.

Fees. Application fee\$10.00
This fee is to accompany the application for admission form. It is payable only once, upon initial application. It is not refundable.

Matriculation fee\$ 5.00
This fee is payable only once, when the student enrolls in his first course at Valparaiso University. It is not refundable.

Graduation fee\$15.00
This fee should accompany the application for graduation.

Placement fee (optional)\$10.00
This fee will be charged each teacher candidate who wishes to use the Teacher Placement Service. This fee provides placement service for one placement year (October 1 - September 30).

Students enrolled in the graduate program are expected not to enroll in undergraduate courses, unless approved by the Director of the Graduate Program. If a deviation is granted, the graduate student will then pay the undergraduate fee rate for those undergraduate courses.

Other fees are indicated in University bulletins covering Summer Session, evening offerings, and the regular academic year.

The Henry F. Moellering Memorial Library. Dedicated on December 6, 1959, the library is a gift of Mrs. Henry F. Moellering of Fort Wayne, Indiana, and her children. Supplementary funds were provided by the Lilly Endowment, Inc. of Indianapolis and the Kresge Foundation of Detroit. An addition was completed in the fall of 1969. A two-story structure with three stack levels, the original library provides reading space for 500 persons and shelf space for more than 200,000 volumes. The addition provides space for 160 individual study carrels and shelf space for 70,000 volumes. The lower level contains stacks, archives, seminar rooms, faculty lounge, multi-media center, rare books, and an educational laboratory. The main level consists of two large reading rooms, lobby, circulation desk, catalog file, lounge, offices, stacks, receiving room and workroom. The Sloan Galleries of American Paintings are located on the main floor.

Living Accommodations. In summer sessions only, comfortable living accommodations in university dormitories on campus are available for graduate students.

The residence halls, with floors reserved especially for graduate students, are within a short walking distance of all classrooms. Dormitory fees are indicated in the University bulletin covering summer session.

Meals may be obtained at the Valparaiso Union located near the residence halls.

Requests for living accommodations must be made in advance of registration—and should be directed to:

The Vice-President for Student Affairs, Housing
Valparaiso University
Valparaiso, Indiana 46383

Recreational Facilities. During the summer, a special social activity is the weekly social hour, attended by students and members of the faculty and the administration. Competitive sports, beach parties, daily swimming in the pool, and impromptu campus gatherings are also arranged.

Students interested in physical recreation can drive to nearby Lake Michigan and other lakes, as well as to the Dunes State Park, all within a radius of fifteen miles. Golf courses are located at the edge of Valparaiso.

The University is less than fifty miles, or an hour's drive, from the city of Chicago and the cultural opportunities offered by the great libraries, museums, art galleries, and concert halls.

Honor System. The student-initiated Honor System has a long history at Valparaiso University and is a strong distinguishing characteristic of the institution. It is in every way consistent with the highest principles of Christian ethics and morality. In sanctioning the Honor System, the University presumes that students are able and willing to accept the duties and responsibilities of honorable conduct for the sake of the Valparaiso University community.

Under the Honor System all written examinations, of any length, are taken in an atmosphere free from the surveillance of a proctor. Every student has the responsibility to keep academic work free of dishonesty, that is, to neither give nor receive unauthorized aid. Non-tolerance of the use of unauthorized aid is a further responsibility which is inherent in the Honor System. Each student must report to the Honor Council any violation of the System of which he/she becomes aware. The student is usually asked to sign a pledge on work done for academic credit to the effect that no unauthorized aid was given, received, or tolerated.

The Honor Council is an educational, preventive, remedial, and judicial body with the duty of maintaining the Honor System in the academic community. The Council hears alleged Honor Code violations and then makes a recommendation to the President of the University regarding guilt or innocence and any penalty. The Council is composed of students who are chosen by the incumbent members subject to the approval of the President of the University.

The faculty reserves the right to abrogate the Honor System at any time.

Graduate Scholarship In English Literature. The Vera L. Sieb Scholarship in Literature was established by Floyd W. Sieb as a memorial to his sister, whose name the scholarship bears.

The purpose of the scholarship is to make it possible for a promising student to devote his/her entire time during the academic year to graduate study with a concentration in English literature at Valparaiso University. No more than five years may have elapsed between completion of the student's undergraduate studies and application for this scholarship.

The scholarship grant will be paid in two installments; one half will be paid

at the beginning of the fall semester of the holder's first graduate year and the other half at the beginning of the spring semester of that year.

The scholarship will be awarded annually upon the recommendation of the professorial staff of the Department of English. The recommendation must be accompanied by a detailed statement of purpose written by the student being recommended.

The Department of English will give first consideration to graduates of Valparaiso University. If there are no suitable candidates in this category, the scholarship may be given to graduates of other colleges or universities who will pursue their graduate work at Valparaiso.

Deadline for application is March 15.

For further information write to: Director, Graduate Division.

Courses for Graduate Credit. All courses numbered 200 and above are open only to those students who have been officially admitted to the Graduate Division.

NOTE: Announcements for specific semesters and for summer sessions will indicate which courses are offered during those periods.

ART

220. Modern Art. Cr. 3. A study of the major developments in painting and sculpture in the nineteenth and twentieth centuries.

298. Special Studies. Cr. 1-3. Special work in the practice of art or the teaching of art arranged for by a professor and one or more students. Included may be, for example, work in the crafts, in liturgical design, or in areas of the practice of art or the teaching of art offered in the catalog. A maximum of six credits may be applied to a master's degree. Prerequisite: undergraduate art major.

BIOLOGY

205. Biochemistry. (Also offered as Chemistry 205.) Cr. 3. The chemistry of proteins, carbohydrates, fats, and nucleic acid, and the changes these undergo during processes of digestion and metabolism; stress on physical biochemistry topics and enzyme kinetics.

257. Ecology. Cr. 3. A study of organisms in relationship to their physical and biotic environment. There is considerable field work in local terrestrial and aquatic habitats.

259. Bacteriology. Cr. 3. A study of the cell biology of bacteria and their viruses including morphology, growth and cultivation, physiology, environmental factors, and genetics.

261. General Physiology. Cr. 3. A study of the fundamental physiological activities of animals and plants. The course will consist of lectures, assigned readings, and experimental work in nutrition (including synthesis, oxidation, and energy release of nutrients and elimination of waste products), irritability and response, and growth and reproduction.

268. Human Environmental Biology. Cr. 3. Lectures and conferences on humankind in its various environments. Special emphasis is given to the problems of human population growth, humanity's impact on the natural environment, resources, pollution, and diseases associated with the environment.

270. Cytology. Cr. 3. A study of the experimental cytology of eucaryotes including cell organelles, cellular and molecular basis of cytogenetics, somatic cell genetics, and methods for cytological analysis.

275. Developmental Biology. Cr. 3. An introduction to the descriptive and analytic study of plant and animal development and growth, with emphasis on higher plants and vertebrate animals.

CHEMISTRY

- 201. Elementary Physical Chemistry.** Cr. 3. A one-semester course in physical chemistry covering elementary thermodynamics and kinetics, together with their applications to various chemical systems.
- 205. Biochemistry.** (Also offered as Biology 205.) Cr. 3. The chemistry of proteins, carbohydrates, fats, and nucleic acid and the changes these undergo during processes of digestion and metabolism; stress on physical biochemistry topics and enzyme kinetics.
- 238. Inorganic Chemistry.** Cr. 3. A systematic study of the elements and their compounds from the standpoint of the periodic law. Special theoretical topics in inorganic chemistry are discussed. Prerequisite: consent of the chairperson of the department.
- 250. Advanced Organic Chemistry.** Cr. 3. The lecture is devoted to a discussion of physical organic chemistry with experimental methods illustrated by modern organic analysis. The laboratory is devoted primarily to organic analysis by functional groups and by modern instrumental techniques. Prerequisites: Chemistry 110 and 101 or 121 or the equivalent or the consent of the chairperson of the department.

ECONOMICS

- 278. Economic History of the United States.** Cr. 3. The history of the economic development of the United States from the colonial period to the present.
- 286. Intermediate Micro-Economic Theory.** Cr. 3. A study of the theoretical concepts and analytical techniques which economists employ to interpret the process of resource allocation under various systems of economic organization.
- 287. Intermediate Macro-Economic Theory.** Cr. 3. A critical examination of theories of national income determination and of techniques for measuring and analyzing aggregate economic activity.
- 289. The History of Economic Thought.** Cr. 3. Economic thought in its historical development from the Mercantilists to the present day.
- 299. Problems in Economics.** Cr. 3. A course in which a special topic in economics will be given intensive study. The topic will vary from year to year. Prerequisites: Economics 71 and 72.

EDUCATION

- 240. Special Education: Learning Exceptionalities.** Cr. 3. A course designed to introduce the student to the needs of exceptional children and the techniques of educating them.
- 270. Mathematics in the Elementary School.** Cr. 3. Psychological and instructional aspects of arithmetic, elementary algebra, and geometry, including new methods of teaching based on recent scientific studies; diagnostic and corrective measures.
- 271. Science in the Elementary School.** Cr. 3. Analysis of curriculum and instruction in elementary science; methods of presentation, problems, trends, research findings, and instructional resources. Demonstrations and appropriate experiments for elementary schools.
- 272. Language Arts in the Elementary School.** Cr. 3. An advanced study of the elementary school language arts curriculum considering content and skill requirements as evidenced in present practice and current theory.
- 273. Social Studies in the Elementary School.** Cr. 3. An advanced study of the scope and sequence of curriculum making in elementary school social studies including instructional resources, methods, trends, and problems as viewed by practice, theory, and research.
- 274. Reading in the Content Areas.** Cr. 3. Lectures and demonstrations cover the reading process as it is involved in the various content areas of junior high, middle school, and secondary school curricula. Specific techniques for developing competencies in diagnosis of reading difficulties and in instruction of reading in the content areas are given emphasis.
- 276. Foundations of Reading.** Cr. 3. A course of lectures and demonstrations which cover the reading process, appraisal of reading needs, directed reading activities and reading skill development. Prerequisite: basic course in the teaching of reading.

277. The Elementary School Curriculum. Cr. 3. A study of the composition of today's elementary curriculum, the factors which affect its development, the principles governing curriculum organization, and current curricular patterns.

278. Kindergarten Education. Cr. 3. This course deals with the curriculum, the teaching techniques and the materials used in the nursery school and kindergarten. Special emphasis will be given to the education needs of the pre-school child.

280. Introduction to Educational Media. Cr. 3. An introduction into the ways of effective selection and utilization of media, both material and equipment. The course includes laboratory experience in the production and equipment operation in different media.

281. Educational Guidance and Counseling. Cr. 3. A course dealing with the nature, functions, and organization of student personnel programs in elementary and secondary schools with counseling and guidance services the central feature.

282. Educational Measurement. Cr. 3. A course dealing with theory of measurement, interpretation of measurement data, and testing in relation to pupil achievement and guidance.

284. Reading Disabilities. Cr. 3. Lectures and demonstrations cover the general nature of identification, diagnosis and classification of individuals with reading problems at all ages and levels of instruction. Emphasis is also given to the various theories of reading disability. Prerequisite: six hours of coursework in reading.

285. The Junior High/Middle School. Cr. 3. A study of the development, organization, and curriculum of junior high and middle schools with emphasis on the unique societal and educational roles played by these institutions.

286. Junior High/Middle School Teaching: Principles and Methods. Cr. 3. A study of the principles, methods and materials involved in teaching in junior high and middle schools. Individualization of instruction and interdisciplinary learning are emphasized.

287. Practicum in Junior High/Middle School. Cr. 3. Each student will be assigned to a minimum of 80 hours of supervised field experiences in a junior high or middle school. The experiences will include department/grade level/team planning activities; intramural-athletic activities; home room/home base activities such as peer counseling, individual guidance, values clarification, moral development, exploratory courses, and recreational events; working with students on individualized study projects; teaching study skills to students, individually and in groups. Prerequisites: Education 285 and Education 286 or concurrent enrollment. Fee, \$35.00.

289. Practicum in Corrective Reading. Cr. 3. A laboratory experience which provides practice with primary, elementary, and middle school/junior high children whose reading disabilities are mild to severe. Emphasis is given to training in evaluation of reading performance and planning and implementing suitable instructional strategies.

299. Current Problems in Education. Cr. 1-3. An intensive study of an area of education. Subtitles, amount of credit, and content will depend on instructor's choice and student interest.

299. Current Problems in Special Education. Cr. 1-3. An intensive study of an area of special education. Subtitles, amount of credit, and content will depend on instructor's choice and student interest. Prerequisite: consent of the chairperson of the department.

305. Philosophical Foundations of Education. Cr. 3. A course in educational thought designed to explore systems of thought with emphasis upon educational philosophical patterns, their implications for influence upon practice and theory in education.

308. Decision Making in Curriculum and Instruction. Cr. 3. The course explores the foundations of school curriculum: social forces, human development, learning, and knowledge. Various instructional models and techniques are studied and demonstrated. Specific areas of both elementary and secondary curriculum and instruction are dealt with in lecture, discussion, and individual research.

310. Advanced Educational Psychology. Cr. 3. Basic study of psychological concepts and phenomena as related to the teaching-learning situation. Emphasis on the interpretation and analysis of psychological research concerning human behavior and development. Designed particularly for experienced teachers.

315. School and Society. Cr. 3. A study of the relationships of the school, its students and its teachers, to the many forces and agencies of our society. The school as transmitter of heritage and agent of social change.

- 317. Research in Education.** Cr. 3. A course designed to develop skill in reading, interpreting, and evaluating research in education. Particular emphasis will be given to research findings in educational areas of interest to students.
- 320. Historical Foundations of Education.** Cr. 3. The history of American education in its cultural framework. Special attention will be given the reform movements of the 20th Century.
- 323. Research in Reading.** Cr. 3. A review of basic research in reading as applied to principles of learning, instructional processes, and curricular organization. Prerequisites: Education 276 or equivalent and a course in statistics or measurement.
- 326. Diagnosis of Reading Difficulties.** Cr. 3. Theory and techniques of testing and evaluation in reading; analysis and interpretation in several areas including physical capacity, mental ability, emotional adjustment and academic achievement. Prerequisite: Education 276 or equivalent.
- 329. Clinical Practicum in Reading.** Cr. 3. Guided experience in clinical practice in reading instruction with emphasis on specific remedial theory and techniques. Prerequisite: Education 326 or the equivalent.
- 335. Current Educational Thought.** Cr. 3. A course designed to familiarize the student with current problems and innovations in the field of education. Extensive reading and discussion of selected essays, articles, and books dealing with issues in education are required. Prerequisite: consent of the instructor.
- 338. The Supervision of Student Teachers.** Cr. 3. A course dealing with the problems of supervising student teaching at the elementary and secondary levels. The historical development of student teaching, current student-teaching programs, and the problems related to the supervision of student teachers in the classroom and the school will be studied. Prerequisites: teaching experience and consent of the instructor.
- 340. Seminar in Education.** Cr. 3. An intensive study of a significant topic in education. Subtitles and course content will depend on instructor's choice and student interest. This course may be repeated for credit if the topics are different.

ENGLISH

- 200. Methods of Literary Criticism and Research.** Cr. 3. Designed to give students practical experience in the theories and methods of modern literary scholarship and criticism. The course aims to acquaint students with the presuppositions about literature which underlie critical writing and thus to provide standards for evaluating critical and scholarly works. It also provides intensive training in the analysis of literary texts.
- 209. Medieval Studies.*** Cr. 3. A study of medieval lyrics, narratives, and romances, with lectures on medieval social and intellectual backgrounds. In alternate semesters, this course will deal solely with the work of Chaucer.
- 210. Shakespeare.** Cr. 3. Close readings of representative plays: histories, comedies, and tragedies.
- 220. Renaissance and Seventeenth Century Studies.*** Cr. 3. Readings in significant works of selected writers ranging from More to Milton, with attention to the intellectual, religious, and political background of the Renaissance and earlier seventeenth century.
