Bibliography

Due to the nature of my source material and because this is an ongoing project of cataloguing previously uncatalogued print I have organised the Printed Primary Sources part of my bibliography into three separate sections to give an accurate and clear record of the print found. The main aim in doing this was to provide an ongoing database of print and make it as useful as possible for any further research.

In Section 1, I have provided a list of all printed receivers receipts from SP 28/296. In Section 2, I have provided a database of all printed receipts I have found so far dating from c.1640-c.1710. In Section 3, I have catalogued all material cited from the ESTC and organised this into sub-sections by type of print. I have done this because the titles given for this material on the ESTC often do not give enough information about what the item of print is and it is therefore clearer to group them by type. I have cited the earliest edition of each text and the first ESTC reference in each case.
