## **SAUL B. COHEN PAPERS**

### **SCOPE AND CONTENT NOTE**

The Saul B. Cohen papers reflect the wide range of his activities between 1965 and 1978. They provide information about his leadership of the Graduate School of Geography and Clark University affairs. Also discussed are his scholarship, participation in the American Geographical Society and the Association of American Geographers, and contributions to programs to improve geographical instruction.

The Graduate School of Geography transferred the Cohen papers after he moved to Queens College, CUNY. Most files were clearly labeled and the original titles were retained. However, series of files apparently became separated. Therefore, the University Archives grouped files into appropriate series. For example, all files pertaining to the American Geographical Society or the American Association of Geographers are now together. Files concerning past Graduate School of Geography faculty, office personnel, and Directors prior to Professor Cohen were moved to appropriate University Archives record groups.

Major correspondents include AGS and AAG leaders and program officers working for the U.S.O.E. during the late 1960's and early 1970's. The AGS files are of special interest because they document the deliberations which resulted in the Society's move from New York City to the University of Wisconsin, Milwaukee. TTT, COMGA, and other federally-funded or national programs emphasize Professor Cohen's interest in improving geographical education for disadvantaged students.
