*Aliso: A Journal of Taxonomic and Evolutionary Botany* is the scientific journal of Rancho Santa Ana Botanic Garden. International in scope, the journal specializes in plant evolutionary biology and taxonomy. *Aliso* also features papers on floristics and other facets of botanical research pertaining to the western United States and areas of comparable climate and vegetation. First published in 1948, the journal is named for the aliso, the Spanish word used by the early Californians for the western sycamore (*Platanus racemosa* Nutt.), a tree associated with the founding of Rancho Santa Ana Botanic Garden.

### Submission of Manuscripts

Publication in *Aliso* is currently free of page charges, and page limits are generous. We encourage submission of longer manuscripts that would suffer from length reduction. The large journal format and expertise of a dedicated state-of-the-art printer, Allen Press ([www.allenpress.com](http://www.allenpress.com)), facilitate the publication of high-quality illustrations. *Instructions for Contributors* may be obtained at <http://rsabg.org/research-department/130> or requested from the Editor-in-Chief ([aliso@rsabg.org](mailto:aliso@rsabg.org)).
