

**PRODUCTION OF REDUCING SUGAR IN SOLID STATE  
FERMENTATION (SSF) USING *Aspergillus fumigatus***

**MUSFIRAH BINTI AZMI**

**Final Year Project Report Submitted in  
Partial Fulfillment of the Requirements for the  
Degree of Bachelor of Science (Hons.) Biology  
in the Faculty of Applied Sciences  
Universiti Teknologi MARA**

**JANUARY 2016**

This Final Year Project entitled “**Production of Reducing Sugar in Solid State Fermentation (SSF) using *Aspergillus fumigatus***” was submitted by Musfirah Binti Azmi, in partial fulfilment of the requirements for the Degree of Bachelor of Science (Hons.) Biology, in the Faculty of Applied Science, and was approved by

## ACKNOWLEDGEMENT

Bismillahirrahmanirrahim,

Alhamdulillah. All praises to Allah for the opportunity and strength He gave me in finishing this Final Year Project (FYP). I would like to express my gratitude to those who gave me the opportunity to complete this thesis. My deepest appreciation to my supervisor, Mr. NoorAzrimi bin Umor for his supervision, constant support, and endless help throughout this study. Also, for always being there whenever I need, to answer all my inquiries regarding the research method and help choosing the best solution in order to solve my problem. Thanks to Miss Noor Ashikin binti Jamroo, a research master student for her knowledge regarding this topic. To Madam Zuraida and Miss Amirah who spent their time to teach me how to do statistical analysis on my data and construct Two-Way ANOVA by my own. I am also indebted to my diligent laboratory assistant, Mr. Sheikh who always support and closely supervised me while doing my project and show the correct technique in handling the machines. Thanks to Mdm Shamsinar for sharing her knowledge and help to calm me down whenever I was at my worst by giving her best suggestions. Not forgotten, Madam Dayang, Madam Sarah and Madam Ana for giving me permission to use the labs. Many thanks to my all classmates who had supported me in my research work for all their help and interest. Special thanks to my family especially my mother and sisters whose patient love and continuous support enabled me to complete this work.

Musfirah Binti Azmi

## TABLE OF CONTENT

<b>ACKNOWLEDGEMENTS</b>	<b>iii</b>
<b>TABLE OF CONTENTS</b>	<b>iv</b>
<b>LIST OF TABLES</b>	<b>v</b>
<b>LIST OF FIGURES</b>	<b>vi</b>
<b>LIST OF ABBREVIATIONS</b>	<b>vii</b>
<b>ABSTRACT</b>	<b>viii</b>
<b>ABSTRAK</b>	<b>ix</b>
<b>CHAPTER 1: INTRODUCTION</b>	
1.1 Background study	1
1.2 Problem statement	2
1.3 Significance of the study	2
1.4 Objectives of the study	3
<b>CHAPTER 2: LITERATUR EREVIEW</b>	
2.1 Oil Palm	4
2.2 Oil Palm Frond	8
2.3 <i>Aspergillus fumigatus</i>	9
2.4 Cellulase enzyme	10
2.5 Solid State Fermentation	10
2.6 Bioconversion of oil palm biomass	13
<b>CHAPTER 3: METHODOLOGY</b>	
3.1 Materials	14
3.1.1 Raw materials	14
3.1.2 Microorganism and Source	14
3.1.3 Chemicals	15
3.1.4 Apparatus	15
3.1.5 General Equipments	15
3.2 Methods	16
3.2.1 Growth Medium	16
3.2.2 Inoculum Preparation	16
3.2.3 Dry Mycelium Weight	16
3.2.4 Standard Curve	17
3.2.5 Autohydrolysis	18
3.2.6 Media for Production of Reducing Sugar	18
3.2.7 Statistically Analysis	19

<b>CHAPTER 4: RESULT AND DISCUSSION</b>	
4.1 Dry Mycelium Weight	20
4.2 Standard Curve	21
4.3 Production of Reducing Sugar in SSF	21
4.4 Analysis of Reducing Sugar Production Based on Particle Size Factor and Moisture Factor	26
4.5 Statistical Analysis	28
4.5.1 Interaction between particle size and moisture level on production of sugar	
4.5.2 Interaction between presence and absence of water fed and moisture level on production of sugar.	
<b>CHAPTER 5: CONCLUSIONS AND RECOMMENDATIONS</b>	33
<b>CITED REFERENCES</b>	35
<b>APPENDICES</b>	37
<b>CURRICULUM VITAE</b>	54
