

BAB 6

KESIMPULAN DAN SARAN

Sebagai kesimpulan, riset kami menemukan bahwa kunjungan pasien merupakan suatu aktivitas yang memiliki peran penting dalam interaksi sosial dalam masyarakat Jawa, tidak saja bagi pasien sebagai bentuk dukungan sosial untuk kesembuhannya, tetapi juga bagi pengunjung itu sendiri. Sudah sewajarnya aktivitas tersebut diakomodasi dalam ruang pasien di rumah sakit. Tiga hal utama dalam kaitannya dengan aktivitas kunjungan pasien adalah (1) desain ruang pasien secara keseluruhan yang tidak hanya mengakomodasi aktivitas perawatan pasien, tetapi juga aktivitas interaksi sosial. (2) Adanya area khusus untuk interaksi sosial antara pengunjung dan pasien di dalam ruang pasien menjadi hal yang krusial. Dan (3) penataan lay out yang efisien yang mendukung aktivitas tersebut tanpa mengurangi kontrol pasien terhadap kebutuhan privasinya.
