TABLE OF CONTENTS

REGIONAL OVERVIEW

The Southeastern Region of North Carolina

The 11 counties of Southeastern North Carolina stretch from the shores of the Atlantic Ocean to the Sandhills. Its 7,500 sq. miles (19,425 sq. kms) include dynamic New South cities, picturesque small towns, fertile farms and pine-covered woodlands. The Southeast is home to the Port of Wilmington, North Carolina's international container port complex. The region also encompasses Fort Bragg, now among the U.S. Army's largest and most strategically important bases.

Over one million people live in the region, and its growing population includes newly arriving residents from around the world at all stages of life and career. Demographers project continued population growth for the Southeast during the coming five years, with all counties expected to see positive increases in residents. The region's workforce, which now numbers nearly 500,000, includes a diverse cross-section of workers in agriculture, manufacturing, wholesale trades (i.e., distribution), construction, healthcare, government and the professions. Top private employers include GE, Smithfield Foods, Goodyear Tire & Rubber, Wal-Mart Corp., PPD, Inc., and International Paper.

The region's unique network of multi-modal transportation assets continues to spur economic advantages. The Port of Wilmington, which connects firms across the state to buyers and suppliers around the world, makes the Southeast North Carolina's "gateway to the global economy." As competing port complexes in the eastern U.S. operate at full capacity, shipping lines and the firms they serve are turning to Wilmington as an increasingly popular conduit for bulk, break-bulk and containerized goods. State and federal governments have spent generously on highways in the Southeast Region, with new Interstate extensions around Fayetteville and Wilmington complementing I-40, I-95 and the still-in-progress I-73/74 corridor. The region's utility infrastructure is undergoing transformation as Progress Energy's Sutton Plant converts from coal to natural gas in a move that boosts regional natural gas capacity while serving the long-term interests of the environment.

Southeastern North Carolina continues to offer a competitive cost structure for new and existing businesses—including tax rates, construction costs, real estate valuations and other factors. The region's K-12 school systems maintain a commitment to measurable results under state and federal quality improvement programs. Nine campuses of the North Carolina Community College System serve business, industry and residents of all ages with an innovative, responsive catalogue of affordable education and training programs. Three Universities of the University of North Carolina System support Southeastern North Carolina's global economic competitiveness through research, instruction and extension; their athletics and cultural offerings provide engaging entertainment and enrichment opportunities for surrounding communities.

Temperate climate, abundant waterways, stimulating historical attractions and outdoor recreational amenities produce an enviable quality of life for those who live and work in the region.

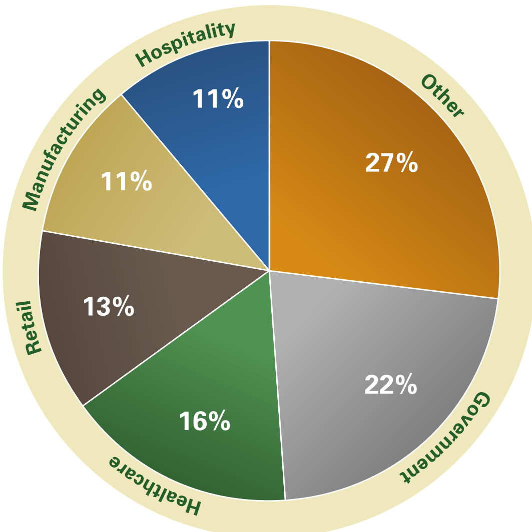
Workforce by Industry



Regional Industry Clusters

Southeastern NC has several industry clusters and concentrations. These are listed below with supporting data and information concerning their prevalence and importance to the region. Manufacturing employs over 40,000 people in the region, which represents 11% of the total workforce. Transportation and logistics and food processing and agricultural industries also have vibrant clusters in the region. Due to growth at Fort Bragg, more defense contractors are locating in the region, crossing several industry sectors. Within the biotechnology sector, a strong contract research organization (CRO) cluster exists in Wilmington.

Manufacturing & Industry Clusters and Concentrations

Southeastern NC has several industry clusters and concentrations. These are listed below with supporting data and information concerning their prevalence and importance to the region. Manufacturing employs over 40,000 people in the region, which represents 11% of the total workforce. Transportation and logistics and food processing and agricultural industries also have vibrant clusters in the region. Due to growth at Fort Bragg, more defense contractors are locating in the region, crossing several industry sectors. Within the biotechnology sector, a strong contract research organization (CRO) cluster exists in Wilmington.

AVIATION AND AEROSPACE

Southeastern North Carolina is an ideal location for aviation and aerospace companies. Our excellence in logistics and distribution, existing metalworking and manufacturing base, the largest military presence on the east coast and the location of over 280 aerospace companies statewide are a few of the assets NC can offer for this growing industry. In our region there are in excess of 10,000 exiting military personnel each year equipped with the skills needed for success in this industry as well as 5 public and private universities graduating over 4,000 students annually and 8 community colleges with an annual enrollment of 115,000 students (roughly 10% of the region's population) to meet this cluster's workforce needs. The southeastern region also boasts five airports with runway lengths ranging from 5,000 to 8,000 feet all with adjacent industrial sites and three with uncontrolled airspace. Several other resources exist in NC to assist new aviation and aerospace companies such as the North Carolina Aerospace Initiative, a joint venture with educational and economic development organizations to promote applied research and aerospace education. The region's strategic proximity to the port of Wilmington, GE's aircraft engines facility in Wilmington, Boeing's Dreamliner facility in Charleston, Spirit Aerosystems in Kinston and HondaJet in Geensboro are just a few examples of why southeastern NC is poised for rapid growth and success in the aviation and aerospace sector.

ADVANCED TEXTILES

Southeastern North Carolina has a long and productive history in the textile industry. Over the past decade, a shift from traditional weaving and sewing textiles to advanced and technical non-weaving textiles has occurred. Advanced and performance textiles are more automated and provide a variety of products in the region, including military uniforms and equipment, synthetic fibers, environmental protection products, industrial and automotive filters, and clothing. As a leading state in textile manufacturing, North Carolina has a number of excellent resource organizations to assist companies in this industry sector.

BIOTECHNOLOGY

Southeastern North Carolina contains excellent opportunities for emerging and established biotechnology companies. North Carolina has tremendous resources and assets within this industry sector. Wilmington has one of the largest clusters of contract research organizations (CRO) in the state and nation. Additionally, the University of North Carolina at Wilmington is developing a $30 Million marine biotechnology research center to take advantage of the region's proximity to the coast. Agricultural biotech research is growing due to the region's strong agricultural base and network of universities and community colleges engaged in biotech research and business assistance through Bio-accelerators. The North Carolina Biotechnology Center has a regional office to lead development in this sector.

BOATBUILDING AND MARINE TRADES

Southeastern North Carolina is an excellent location for boatbuilding and marine companies. The region has a proud history of craftsmanship in boat construction and possesses a skilled workforce in this industry sector. The region's natural proximity to the Atlantic coast, and the many beaches, waterways, intra-coastal waterway, lakes, and rivers provide a ready market and a great location for construction and testing. North Carolina's Industry Boating Services organization provides technical assistance and helps companies match up to potential suppliers and customers.

BUILDING PRODUCTS

Southeastern North Carolina has a large number of building product manufacturers and distributors. The region is an ideal location for these companies due to overall population and business growth in the region. The Fayetteville and Wilmington areas are two of the fastest growing areas in North Carolina. Wood products have always been a strong industry sector in the region, and there are over 75 wood products companies located here, making products such as wallboard, trusses, doors, cabinets, lumber, and panels. The port at Wilmington allows for excellent access for importing and exporting of wood and other raw materials.

DISTRIBUTION & LOGISTICS

Southeastern NC is one of the most competitive regions in the United States and the world in which to do business. It has a growing population of nearly 1.1 million people and a diverse industry base of more than 30 Fortune 500 companies. The region's geographic location midway on the east coast provides excellent distribution access and logistics efficiencies for companies engaged in manufacturing, assembly, and retail distribution. The region boasts a three-tiered, interlinked distribution model: 1) At-Port location offers buildings and sites within 20 miles of the Port of Wilmington. 2) Interstate corridors offer inland locations along three interstates—I-40, I-95, and I-74. 3) The region offers close proximity to key regional markets, including Charlotte, NC, Raleigh, NC, Columbia, SC, and Atlanta, GA.

FOOD PROCESSING AND AGRI-INDUSTRY

Southeastern North Carolina has more than 20,000 people employed with food processing companies. Example of products made/grown here include pork, poultry, sauces, food/drink ingredients, value-added sweet potato products, peanuts, soybean oil, grapes, tobacco, and barbeque. The region has several of the top farm income producing counties in the nation. The region has long been known for its productive land and innovative agricultural companies and farms. Wineries and vineyards are a growth sector in the region, due to the area's fertile loamy soils that are ideal for grapes, as well as blueberries. North Carolina annually exports more than $2 billion of agricultural products—transportation access is made easy by the Port at Wilmington and interstate highways.

METALWORKING

Southeastern North Carolina has a cluster of metal product manufacturing companies that make a range of products, including steel coils, attic fans, aluminum fencing, grills, steel packing straps, metal buildings, pipe fittings, cranes, and nails. Overall, North Carolina has over 150,000 people employed in metalworking industries. Community colleges in the region offer customized worker and classroom training in welding and metal fabrication and technology. Machining technology and robotics programs are also available.

MILITARY CONTRACTORS

Southeastern North Carolina has a long and proud heritage with the presence of military installations in the region. Ft. Bragg, located near Fayetteville, is one of the nation's largest and most important ARMY installations. Ft. Bragg hosts the 82nd Airborne Division and also the U. S. ARMY Special Operations Command, and Pope Army Airfield is located adjacent to Ft. Bragg. By the end of 2011, U.S. ARMY Forces Command (FORSCOM) and the ARMY Reserve Command (USARC) will be fully relocated to Ft. Bragg as part of the BRAC (BASE Realignment and Closure Commission). These moves will bring thousands of new personnel and contractors to the region. The southeast region has a number of excellent resources to assist military contractor companies that have interest in the region, including the Military Business Center, BRAC Regional Task Force, and the Defense and Security Accelerator.

Union Membership Rate

Due primarily to the "Right to Work" law, North Carolina experiences the lowest unionization rate of all U.S. states.

Number of Job Applicants Across the NCSE Region

According to the NC Employment Security Commission, as of January 2011, there were a total of **58,290** job applicants across the Southeast region, of which **44,573** had over **6 months** experience in the workplace.

Right-to-Work State

North Carolina is an "at-will" employment state and one of 23 states with a "right-to-work" law. Closed shops and union shops are not permitted. An employer may not require an employee to join a union, nor may an employer require an employee to refrain from joining a union.

Fort Bragg

- Established in 1918, Fort Bragg is one of the largest military complexes in the world
- Includes 10% of the US Army's active component forces
- Home of the 82nd Airborne Division
- Located just 10 miles from Fayetteville
- Base covers 160,832 acres
- Military Population comprises almost 53,000 officers and enlisted men and women
- Annual payroll is $3 billion
- $641 million awarded annually in government contracts
- $12.9 billion direct and indirect annual impact on the 10 contiguous counties to Fort Bragg

BASE REALIGNMENT AND CLOSURE COMMISSION (BRAC) - 2005

BRAC Impact on Fort Bragg:

1. Relocating the 7th Special Forces Group to Eglin AFB, Florida and by activating the 4th Brigade Combat Team, 82nd Airborne Division and relocating European-based forces to Fort Bragg.
2. Realigning Yeager Airport AGS, WV and by relocating eight C-130H aircraft to Fort Bragg to form a 16 aircraft Air Force Reserve/active duty associate unit.
3. Closing Pittsburgh International Airport (IAP) Air Reserve Station (ARS), PA, and relocate 911th Airlift Wing's (AFRC) eight C-130H aircraft to Fort Bragg to form a 16 aircraft Air Force Reserve/active duty associate unit.
4. Relocating AFRC operations and maintenance manpower to Fort Bragg.
5. Relocating two major headquarters, Army Forces command (FORSCOM) and Army Reserve Command, to Fort Bragg. FORSCOM will transfer 3,000 positions from Atlanta by 2011.

BRAC will impact our region by injecting billons of additional dollars in the economy, increasing construction spending, attracting more defense related industries, increasing federal impact aid for schools, increasing population, raising average per capita income and creating a better business climate.

As a result of projected military investment and the relocation of personnel in this region 18,200 jobs will be created by 2013. The leading sectors where these jobs will be created are listed below.

Projected Precentage Number of Military-Related Jobs Added in the Leading Growth Sectors (2011-2013)

	2011-2013
Government	33%
Construction	30%
Professional & Technical Services	13%
Retail Trade	8%
Healthcare & Social Assistance	7%
Administrative & Waste Services	5%
Accommodation & Food Service	4%

Major Interstates and Highways

North Carolina is known as "The Good Roads State" and the southeast region is no exception:

- The inter-regional network of roads and highways in the region provides ready access to:
  > North-South Interstate 95
  > East-West Interstate 40
  > East-West Interstate 73/74 currently under enhancement
  > US Highways 401, 501, 421, 701, 87, 1, 17 and 220
- The region's strategic location relative to domestic and international markets provides an important competitive advantage.
- For information regarding planned highway improvements, refer to the North Carolina Department of Transportation's Transportation Improvement Program (TIP). http://www.ncdot.gov/planning/development/TIP/TIP/

Port of Wilmington, NC

The Port of Wilmington is strategically located on the U.S. East Coast. Owned and operated by the North Carolina State Ports Authority, the Port of Wilmington offers terminal facilities serving container, bulk and breakbulk operations. Wilmington is one of the few South Atlantic ports with readily available berths and storage areas for containers and cargo.

An aggressive capital program has positioned the Port of Wilmington in a new class of service to the maritime transportation Industry. A 42-foot navigational channel offers customers additional vessel capacity. Readily available modern transit and warehouse facilities, new state-of-the-art Panamax container cranes and support equipment, and the latest in cargo management technology provide a broad platform for supporting international trade to the fast-growing Southeast U.S. market.

Surface transportation supporting the Port of Wilmington is superior to neighboring ports. CSX Transportation provides daily service for boxcar, tanker and general cargo services. The Port of Wilmington has ample capacity to support today's cargo volumes and continues to invest in expanding the facility to meet projected growth in international trade, with a major expansion project currently under way. The Port is a C-TPAT Certified location and is designated as Foreign Trade Zone 66.

FACILITIES

- 26 miles from the open sea on the Cape Fear River
- Channel depth is 42 ft.
- Nine berths with 6,768 ft. of wharf frontage; Berths with contiguous open apron areas up to 300 ft. wide
- 150 additional acres available for development
- Almost one million sq. ft. of prime covered and sprinklered storage
- 100+ acres of paved and 25 acres of semi-improved open storage area
- Rail access to berths, transit sheds, warehouses and open storage
- Direct transfer of heavy lift and dimensional loads between vessel and rail or truck

Foreign Trade Zones

North Carolina currently boasts six approved general-purpose foreign trade zones. Several subzones have been approved for individual manufacturers. The entire Wilmington Port Terminal is in Foreign Trade Zone #66 and the NC Department of Commerce serves as the administrator for Foreign Trade Zone #66.

Ports Competitive Study

The N.C. Department of Environment and Natural Resources will serve as a partner with the federal government in a study of the Wilmington Port. The feasibility study, to be conducted by the U.S. Army Corps of Engineers, will look at how the existing port could be upgraded and made more accessible to increased traffic and larger vessels.

North Carolina's ports are increasingly important to the state's economic growth and an upgraded port in Wilmington could enhance accessibility to businesses across the state, and could result in increased container ship traffic among the newer and larger vessels. In order for the port to stay competitive in this time of dramatic changes within the international container shipping industry, it is critical to look at enlarging the turning basin and modifying the channel alignment for safe navigation at the Port of Wilmington.

2009 Economic Contribution of the Port of Wilmington

The Institute for Transportation Research and Education at North Carolina State University conducted a study to assess the contribution of the Port of Wilmington to the North Carolina economy in 2009. The top five imported commodities through the port in 2009 were chemicals, animal feed, cement, general merchandise/miscellaneous and metal products. The top five exported commodities were forest products, wood pulp, general merchandise/miscellaneous, scrap metal, and food products. The largest shipping partner was China.

Port services contributed almost $6.4 billion to economic activity in the state in 2009, approximately 2% of the total amount of state economic activity. In comparison to other sectors, agriculture, forestry, fishing, and hunting contributed $3.6 billion to the state's economy, utilities $7.4 billion, and accommodation and food services $9.8 billion. The contribution provided by the ports to the state's economy was approximately half that of travel within the state.

Port services supported almost 62,000 jobs, $2.2 billion in labor income (payrolls and self-employment income), and $472.8 million in sales tax, property tax, and state corporate and personal income tax collections. The supported jobs paid an average annual salary of $37,300, greater than the average annual salary of 91 of the state's 100 counties.

The Port of Wilmington's output impact was approximately 12% of that of Georgia ports, 14% of that of South Carolina ports, and 16% of that of Virginia ports. The port's impact on jobs was approximately 22% of the Georgia port impact, 24% of the South Carolina port impact, and 18% of the Virginia port impact.

Airports

Air travel is highlighted in North Carolina's Southeast by a system of thirteen smaller airports and two larger airports offering commercial jet service, all of which are designed to accommodate private and commercial needs. The international hubs of Charlotte-Douglas and Raleigh-Durham are easily accessible from within the eleven-county region and handle approximately 500 and 300 daily flights respectively.

Commercial jet service is provided to Wilmington International Airport and Fayetteville Regional Airport. The Laurinburg-Maxton Airport with its accompanying industrial development complex is quickly evolving into a major facility and can accommodate most types of private and commercial usages.

WILMINGTON INTERNATIONAL AIRPORT (ILM)

1740 Airport Boulevard, Wilmington, NC 28405 (www.flyilm.com)

- ILM provides for non-stop destinations to Atlanta, Charlotte, Chicago, New York, Orlando, Philadelphia and Washington, DC and offers hundreds of other direct domestic and international flights with only one stop.
- Current providers are US Airways (www.usair.com), ASA/Delta Connection (www.delta.com) and Allegiant Air (www.allegiantair.com).
- Served a total of 822,000+ passengers in 2010.

FAYETTEVILLE REGIONAL AIRPORT (FAY)

400 Airport Road, Fayetteville, NC 28306 (www.flyfay.com)

- Fayetteville Regional Airport serves a 12-county area in the Sandhills of southern North Carolina, along the I-95 corridor.
- Fayetteville Regional Airport is serviced by two main airlines: US Airways Express, with daily service to its Charlotte, NC hub and ASA, the Delta Connection, with daily service to its Atlanta hub.
- Fayetteville Regional Airport offers direct service to Dallas by American Eagle Airline.
- Served a total of 380,000+ passengers as of September 2010.

Railways

FREIGHT RAILWAY FAST FACTS

- NCSE Region is a crossroads for national rail transportation, from the classification yards in Hamlet to the international facilities in Wilmington.
- Availability of high-quality rail services is a major economic feature of the Southeast.
- Primary North-South and East-West routes cross near the geographic center of the region and include some of the longest sections of straight and level tracks in the nation.

TWO OF THE NATION'S PREMIERE FREIGHT RAILWAY COMPANIES SERVE THIS REGION;

CSX Transportation

- Miles of track in North Carolina: 1,200
- Annual NC carloads: 170,000
- NC industries served: 400
- One north-south mainline connects the Northeast and Florida
- An east-west mainline connects Wilmington and Charlotte to Atlanta and New Orleans.
- A second north-south mainline connects Detroit to Atlanta via Marion, N.C
- A local route runs from Rocky Mount eastward, serving Greenville and Plymouth.
- Freight-classification yards are located at Hamlet and Rocky Mount
- An intermodal terminal is located in Charlotte

Norfolk Southern

- Miles of track in North Carolina: 1,450
- Annual NC carloads: 593,712
- NC industries served: 723
- One north-south mainline connects the Northeast and Mid-west to Atlanta via Danville, Va., Greensboro and Charlotte.
- A second north-south mainline connects Tennessee to Spartanburg, S.C. through Asheville, while an east-west mainline connects Salisbury and Asheville.
- Operates freight-classification yards at Charlotte and Raleigh, intermodal terminals at Charlotte and Greensboro, and an automobile distribution center at Winston-Salem.
- Key classification yard located in Linwood, NC
- Two additional routes serve eastern North Carolina.
- Two rail hubs, located in Hamlet and Leland

INDEPENDENTLY OWNED RAIL SERVICE PROVIDERS (SHORT LINES)

Carolina Southern Railroad (CALA), Chadbourn, NC (Columbus County) operates in the southeastern corner of NC between Whiteville & Mullins, SC and between Chadbourn & Conway SC.

Natural Gas

PNG announced an agreement with Progress Energy Carolinas to provide natural gas delivery service to the electric utility's power generation facility to be built at its existing Sutton site near Wilmington, N.C. Piedmont will construct approximately 133 miles of transmission pipeline and install 23,000 HP of new compression facilities to serve the new 620 MW combined cycle Sutton plant. Piedmont's capital investment in the pipeline and compression facilities is estimated at $217 million. The new natural gas facilities will not only serve Progress Energy Carolinas' requirements at its new Sutton plant but will also create cost effective expansion capacity that Piedmont will use to help serve the growing natural gas requirements of its other customers in the eastern part of North Carolina. Piedmont will begin construction of the new natural gas pipeline and compression facilities early in 2011 and be ready for service in June 2013.

- Piedmont Natural Gas distributes natural gas to 178,000 residential, commercial, industrial and wholesale accounts.
- Piedmont Natural Gas is the only natural gas provider in southeastern NC.

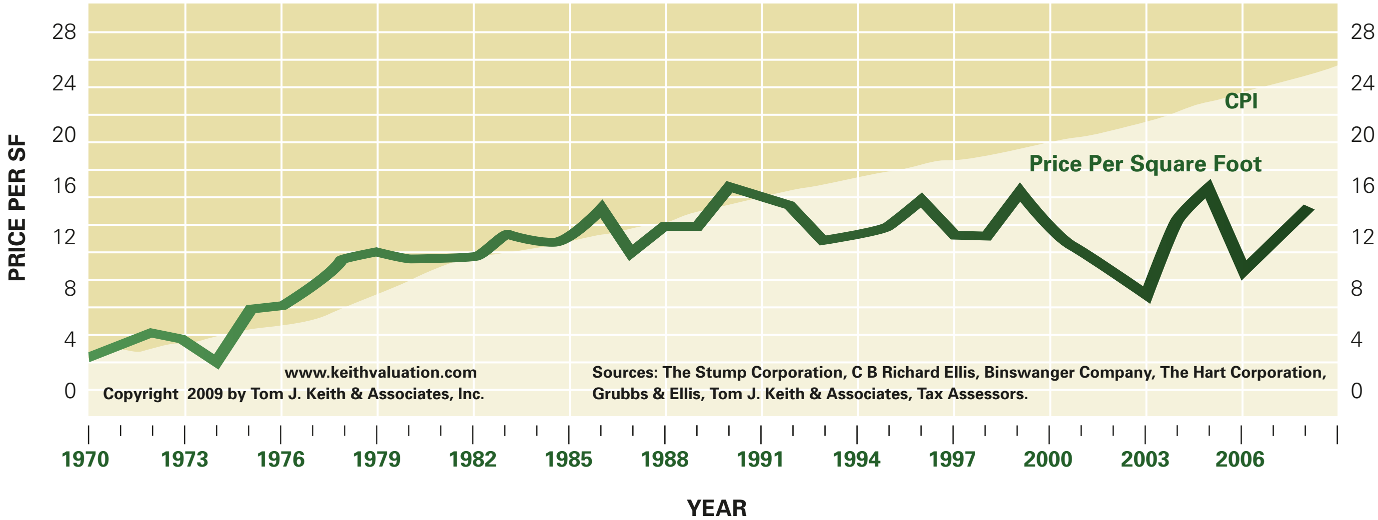
Purchase Price of Industrial Space in Region

Keith Industrial Index for North Carolina



The Industrial Index is based on the average price paid for existing industrial buildings in North Carolina from 1970 to 2008. The sources of data included Binswanger Company, The Stump Corporation, The Hart Corporation, CB Richard Ellis, Grubbs & Ellis, The Walker Company, NC Department of Commerce, Tax Assessors from the 100 North Carolina Counties, and Tom J. Keith & Associates, Inc. Sales of distribution facilities and manufacturing plants dominated the 1996 market while warehouse space dominated the rental market. 1997 and 1998 seemed to be a mixed bag of distribution, warehouse, and manufacturing facility sales. Limited 1996-1997 market data tends to show that prices in Eastern North Carolina are catching up with those prices in the Piedmont. NAFTA phased in completely in 2003 and caused prices to bottom out at $8.63/SF. The average price per square foot paid for industrial buildings including the land in 1997 was 13.11 compared to 15.19 in 2008. See chart above for more detailed information. Copyright 2009 by Tom J. QUALITY OF LIFE

General Overview

Quality of Life is exceptional in the Southeastern North Carolina region due to the following attributes:

WEATHER

- Moderate four-season climate with average temperatures ranging from 44 degrees in January to 80 degrees in July.
- The mean average annual rainfall ranges between 47"-57".
- Pleasant weather accommodates numerous outdoor activities, many of them year-round.
- Occasional snowfalls allow for sledding and other winter recreation.
- Winter weather rarely interferes with business operations and rainfall provides ample water supplies.

HEALTHCARE

- The region has 17 hospitals housing a total of 3,627 beds.
- Primary and specialty care facilities include cancer treatment and cardio-vascular disease treatment.
- 432 long-term care beds in the region.
- Area hospitals maintain strong alliances with medical institutions throughout the state and continuously seek ways to improve overall health care offerings.

CULTURAL & HISTORICAL ATTRACTIONS

- Larger cities and small towns alike offer opportunities for entertainment and enrichment in the realm of art, heritage, military, science and many other areas.
- Festivals and events are held throughout the year, some based on geography, sports, holidays, industry or culture. All offer the opportunity for fun, food, and fellowship.
- Entertainment and conference complexes host events that include sports, equestrian competitions, home shows, craft festivals, business expos, antique shows, beauty pageants, musical and dramatic performances.
- Many of the colleges and universities in the region have performing arts and seminars that feature performers and speakers of national and international renown.
- Several cities also have regional theaters, symphonies, local arts councils and an abundance of local festivals and events throughout the year.

OCEAN AND BEACH ACTIVITIES

- The coast along southeastern North Carolina offers miles and miles of shoreline for the water enthusiast and is home to many natural barrier islands as well.
- Swimming and other water related activities are available, including power boating, sail boating, jet skiing, waterskiing, parasailing and surfing.
- For the boating enthusiasts there are many boating access areas for fresh water access and an ample supply of commercial marinas for access to the Intracoastal Waterway and Atlantic Ocean. For those who enjoy water-related recreation, the area has deep sea fishing available along the coast.

SPORTS AND RECREATION

- For the golf enthusiast, more than 100 championship golf courses are located in close proximity to the region, bordered by Pinehurst to the northwest and Myrtle Beach's Grand Strand to the southeast.
- The region is home to many professional and collegiate athletic events, including indoor and outdoor football, baseball, basketball, motor sports, hockey and soccer.
- Given its temperate climate and many miles of coastline, the Southeast Region is ideal for water-related activities such as boating, water skiing, jet skiing, parasailing, surfing, and deep-sea or freshwater fishing.
- Tennis enthusiasts will find abundant public and private courts.
- Parks, pools and recreation centers can be found through out the region, and the Southeast's coastal counties boast a number of boating marinas along with free boating access areas not only along the coast but the inland rivers as well.
- The mountains of North Carolina are a half-day's drive away and the NC Zoological Park is also nearby.
- Other activities—canoeing, camping, hiking, jogging, swimming and nature walks, for instance—can be found in the state parks, recreation areas or natural preserves in the region and nearby.
- Hunting activities are also available in the numerous hunting preserves in the region.
- Most towns have trails or walks for the enjoyment of hikers, runners or just the pleasure walker. The region boasts seven state parks, recreation areas and natural preserves.
