#### NOTICE TO MARINERS. PORT OF MARYBOROUGH.

N and after the 1st October, two Dioptric Condensing Lights, Fourth Order Fixed, will be exhibited from

Lights, Fourth Order Fixed, will be exhibited from Woody Island, to enable vessels to enter the port by night through the west channel. The lights are placed on hexagonal white towers twenty-two feet high. The higher of the two is placed upon Middle Hill, and is at an elevation of 215 feet, while the lower and the more northern light is about 130 feet above the sea level.

DIRECTIONS.—When entering Hervey's Bay, steer so as to pass one or two miles west of the Fairway Buoy, until the two lights on Woody Island are visible, and are brought into line. Steer with the two lights in one, past Dayman Spit and the Middle Bank, until the two lights are almost on the same level; then keep a good look-cut for a red buoy which is placed about a ship's length to the S.W. of the line of lights. On sighting the buoy, steer about E. \(^3\) 4 S. (making due allowance for tide) for the red buoy off the Woody Island Spit. Should the low light appears as a red light first, steer south of the red light until the high light is also red, while, if the high light appears as a red light first, steer south until the lower light is also red. When the lights are seen to become red at the same time, a vessel is about one-third of distance from the spit across the channel. Then steer about S.E. \( \frac{1}{4} \) E., and open the bright lights, when similarly if the lower light shows as a bright light first, a vessel will be to the eastward of the course, and first, a vessel will be to the eastward of the course, and to the westward if the upper light becomes bright first. From thence steer to pass Little Woody and Duck Islands as usual, and keep Little Woody Island open of the latter until the high light is obscured, when a vessel will be abreast the red beacon. Steer S.S.W. until the light again opens out as a bright light, when she will be abreast the red buoy opposite the white cliffs, from which a course must be gradually shaped for the river heads. Should a vessel entering the port with the lights in one, by any accident miss the red buoy which denotes the turning-point, she may still with safety stand on with the lights in one until the high light is dipped below the northern hill.

northern hill.

Portmaster.

Port Curtis, 30th September, 1867.

#### NOTICE TO MARINERS. PORT CURTIS

N and after this date the temporary light on Gatcombe Head will be replaced by a fifth order Dioptric Apparatus. The light will show seaward as a white light as formerly, but northward of the old line of shutoff light on a bearing of about W. by S. ½ S., it will now appear as a red light until it is shut in with the land at the back of Settlement Point. The light will also show as a red light between the bearing of N. ½ E. and N. by E. ½ E.

DIRECTIONS .- Vessels coming from the southwardbeing careful to keep outside the east banks, and in not less than eight fathoms water—will steer to the westward until the bright light appears red, and will then haul up

to the S.E. until the light is again white, and steer for to the S.E. until the light is again white, and steer for the lighthouse, being careful to keep the white light open, which will lead in clear of the rocks off Settlement Point. After passing the Point, haul up so as to pass outside the Oyster Rock, and as soon as the light opens out as red light on a N. \(^2\) E. bearing, a vessel may stand across into the South Channel and will be to the westward of the Junction Buoy, while the red light is in sight.

sight.

Vessels from the northward will stand to the S.E. through the red light, and, as soon as they open the light as a bright light, will haul up and steer for it, keeping the white light open.

#### NOTICE TO MARINERS. PORT CURTIS.

N and after this date the temporary light on Gatcombe Head will be replaced by a fifth order Dioptric Apparatus. The light will show seaward as a white light as formerly, but northward of the old line of shutoff light on a bearing of about W. by S. ½ S., it will now appear as a red light until it is shut in with the land at the back of Settlement Point. The light will also show as a red light between the bearing of N. ¼ E. and N. by E. ½ E.

as a red light between the bearing of N. \(\frac{3}{4}\) E. and N. by E. \(\frac{3}{4}\) E.

DIRECTIONS.—Vessels coming from the southward—being careful to keep outside the east banks, and in not less than eight fathoms water—will steer to the westward until the bright light appears red, and will then haul up to the S.E. until the light is again white, and steer for the lighthouse, being careful to keep the white light open, which will lead in clear of the rocks off Settlement Point. After passing the Point, haul up so as to pass outside the Oyster Rock, and as soon as the light opens out as red light on a N. \(\frac{3}{4}\) E. bearing, a vessel may stand across into the South Channel and will be to the westward of the Junction Buoy, while the red light is in sight.

Vessels from the northward will stand to the S.E. through the red light, and, as soon as they open the light as a bright light, will haul up and steer for it, keeping the white light open.

G. P. HEATH, Lieutenant, R.N.,

Portmaster.

Rockhampton, 4th October, 1867.

#### NOTICE TO MARINERS. PORT OF MARYBOROUGH.

N and after the 1st October, two Dioptric Condensing Lights, Fourth Order Fixed, will be exhibited from Woody Island, to enable vessels to enter the port by night through the west channel. The lights are placed on hexagonal white towers twenty-two feet high. The higher of the two is placed upon Middle Hill, and is at an elevation of 215 feet, while the lower and the more porthern light is about 130 feet above the see level.

northern light is about 130 feet above the sea level.

DIRECTIONS.—When entering Hervey's Bay, steer so as to pass one or two miles west of the Fairway Buoy, until the two lights on Woody Island are visible, and are brought into line. Steer with the two lights in one, past Dayman Spit and the Middle Bank, until the two lights Dayman Spit and the Middle Bank, until the two lights are almost on the same level; then keep a good look-out for a red buoy which is placed about a ship's length to the S.W. of the line of lights. On sighting the buoy, steer about E. \(\frac{3}{4}\) S. (making due allowance for tide) for the red buoy off the Woody Island Spit. Should the low light be the first to appear red, keep upon the edge of the red light until the high light is also red, while, if the high light appears as a red light first, steep south of the red light until the high light is also red, while, if the high light appears as a red light first, steer south until the lower light is also red. When the lights are seen to become red at the same time, a vessel is about one-third of distance from the spit across the channel. Then steer about S.E. & E., and open the bright lights, when similarly if the lower light shows as a bright light first, a vessel will be to the eastward of the course, and to the westward if the upper light becomes bright first. From thence steer to pass Little Woody and Duck Islands as usual, and keep Little Woody Island open of the latter until the high light is obscured, when a vessel will be abreast the red beacon. Steer S.S.W. until the light again opens out as a bright light, when she will be abreast the red buoy opposite the white cliffs, from which a course must be gradually shaped for the river heads.

Should a vessel entering the port with the lights in one, by any accident miss the red buoy which denotes the turning-point, she may still with safety stand on with the lights in one until the high light is dipped below the northern hill.

# NOTICE TO MARINERS. PORT CURTIS.

PORT CURTIS.

On and after this date the temporary light on Gatcombe Head will be replaced by a fifth order Dioptric Apparatus. The light will show seaward as a white light as formerly, but northward of the old line of shutoff light on a bearing of about W. by S. ½ S., it will now appear as a red light until it is shut in with the land at the back of Settlement Point. The light will also show as a red light between the bearing of N. ½ E. and N. by E. ½ E.

DIRECTIONS.—Vessels coming from the southward—being careful to keep outside the east banks, and in not less than eight fathoms water—will steer to the westward until the bright light appears red, and will then haul up to the S.E. until the light is again white, and steer for the lighthouse, being careful to keep the white light open, which will lead in clear of the rocks off Settlement Point. After passing the Point, haul up so as to pass

Point. After passing the Point, haul up so as to pass outside the Oyster Rock, and as soon as the light opens

out as red light on a N.  $\frac{3}{4}$  E. bearing, a vessel may stand across into the South Channel and will be to the westward of the Junction Buoy, while the red light is in

sight.

Vessels from the northward will stand to the S E. through the red light, and, as soon as they open the light as a bright light, will haul up and steer for it, light as a bright ugue, ....keeping the white light open.
G. P. HEATH, Lieutenant, R.N.,
Portmaster.

Rockhampton, 4th October, 1867.

NOTICE TO MARINERS.
PORT OF MARYBOROUGH.

Nand after the 1st October, two Dioptric Condensing Lights, Fourth Order Fixed, will be exhibited from Woody Island, to enable vessels to enter the port by night through the west channel. The lights are placed on hexagonal white towers twenty-two feet high. The higher of the two is placed upon Middle Hill, and is at an elevation of 215 feet, while the lower and the more northern light is about 130 feet above the sea level.

DIRECTIONS.—When entering Herrey's Bay, steer so as to pass one or two miles west of the Fairway Buoy, until the two lights on Woody Island are visible, and are brought into line. Steer with the two lights in one, past Dayman Spit and the Middle Bank, until the two lights are almost on the same level; then keep a good look-out for a red buoy which is placed about a ship's length to the S.W. of the line of lights. On sighting the buoy, steer about E. \( \frac{3}{4} \) S. (making due allowance for tide) for the red buoy off the Woody Island Spit. Should the low light be the first to appear red, keep upon the edge of the red light until the high light is also red, while, if the high light appears as a 'red light first, steer south until the lower light is also red. When the lights are seen to become red at the same time, a vessel is about one-third of distance from the spit across the channel. Then steer about S.E. \( \frac{1}{4} \) E., and open the bright lights, when similarly if the lower light shows as a bright light first, a vessel will be to the eastward of the course, and to the westward if the upper light becomes bright first. From thence steer to pass Little Woody Island open of the latter until the high light is obscured, when a vessel will be abreast the red buoy opposite the white cliffs, from which a course must be gradually shaped for the river heads.

Should a vessel entering the port with the lights in one, by any accident miss the red buoy which denotes the turning-point, she may still with safety stand on with the lights in one until t

northern hill.

Steer with the two lights in one, past Dayman Spit and the Middle Bank, until the two lights are almost on the same level; then keep a good look-out for a red buoy which is placed about a ship's length to the S.W. of the line of lights. On sighting the bucy, steer about E. ¾ S. (making due allowance for tide) for the red buoy off the Woody Island Spit. When the lights are seen to become red at the same time, a vessel is about one-third of distance from the spit across the channel. Then steer about S.E. ¼ E., and open the bright lights, when similarly if the lower light shows as a bright light first, a vessel will be to the eastward of the course, and to the westward if the upper light becomes bright first. Should a vessel entering the port with the lights in one, by any accident miss the red buoy which denotes the turning-point, she may still with safety stand on with the lights in one until the high light is dipped below the northern hill.

# PAYMENT OF RENTS UNDER "THE LEASING ACT OF 1866."

Surveyor-General's Office, Brisbane, 27th November, 1867.

THE attention of Lessees of lands selected under the provisions of the Leasing Act of 1866, is directed to the provisions of the sixth clause thereof, which provides that,—" The rent for the second and every succeeding year, shall be paid in cash in advance to the Treasury, in Brisbane, and in default of such payment in advance, the lease shall be forfeited, and the land and all improvements thereon shall revert to the Crown; but the Lessee may defeat such forfeiture by paying into the Treasury, in Brisbane, in cash, within ninety days of such original rent day, a sum equal to the annual rent, together with an additional sum equal to one-fourth part thereof by way of penalty."

For the convenience of Lessees, who reside at a distance from Brisbane, the Local Land Agents have been instructed to receive and transmit, on behalf of the Treasury, the rents of such lands as have been selected at such local offices. The accompanying Schedule of the rents due on the 1st January, 1868, is published for general information.

EXTRACT of LETTER from the SECRETARY to the TRUSTEES of the GILCHRIST EDUCATIONAL TRUST to Sir F. ROGERS, dated 9th April, 1867.

By direction of the trustees of the Gilchrist Educational Trust, I have the honor to place before you the following statement, and to request that it may receive the consideration of the Secretary of State for the

The above-named trust has been created under the will of the late Dr. Gilchrist, "for the benefit, advancement, and propagation of education and learning in every ment, and propagation of education and learning in every part of the world, as far as circumntances would permit;" and the trustees having first made provision, according to the accompanying scheme, for the establishment of scholarships to promote the education of natives of India (with which country Dr. Gilchrist had been particularly associated) in this country, are now prepared to offer a like advantage to the Colonies of Australia and Canada. With this view, the trustees propose to establish a scholarship of the value of £100 per annum, the appointment to which should be made yearly, in connection with each of the colonies just named, the scholarship to be tenable for three years. It is their intention that the scholar shall follow a curriculum of study in one of the four faculties of the University of London, viz., Arts, Science, Law, or Medicine, but they will probably leave him free to reside and study either in London or Edinburgh.

[Enclosure No. 2 in Despatch No. 30.]

EXTRACT of LETTER from the SECRETARY to the TRUSTEES of the GILCHRIST EDUCATIONAL TRUST to Mr. ELLIOT, dated 16th August, 1867.

I am directed further to suggest whether a good effect might not be produced in stimulating competition for the Australian and Canadian scholarships, if the colonial governments could be induced to grant free passages to the scholars annually elected, on their proceeding to this

[Enclosure in the above.]

MR. HERBERT to UNDER SECRETARY, COLONIAL OFFICE.

Board of Trade, Whitehall, 20th August, 1867.

I am directed by the Board of Trade to acquaint you, for the information of the Secretary of State for the Colonics, that the Board of Trade have had under their consideration the question raised by certain shipowners and builders, relative to the rule of admeasurement for the trade of the should be adopted in the case of steam tonnage which should be adopted in the case of steam vessels, in consequence of a recent decision of the courts of law adverse to the rule issued in 1860 by the Board of Customs, with the approval of the Board of Trade, in exercise of supposed powers under the 29th section of

TIT. [CIRCULAR.]

Downing street, 5th September, 1867.

Cases have not unfrequently occurred in which it has been proposed by foreign Governments to grant decorations to British subjects residing in Her Majesty's colonies. It appears to be not generally known, that British subjects are not entitled to wear such deco-

rations without Her Majesty's special permission, and that such permission is granted only in cases in which the foreign order shall have been conferred in consequence of active and distinguished service which had been performed before the enemy, either at sea or in the field; or in cases in which the recipient shall have been actually and entirely employed beyond Her Majesty's dominions, in the service of the foreign Sovereign by whom the

order is conferred.

You will find in the appendix to the recent edition of the Colonial Regulations, page 128, the regulations respecting the grant of foreign orders and medals to British subjects, which have been promulgated by command of Her Majesty, and which are now in force. It would be desirable that general publicity should be given to these regulations in the colony under your Government.

### I have, &c., BUCKINGHAM AND CHANDOS.

REGULATIONS RESPECTING FOREIGN ORDERS.

1. No subject of Her Majesty shall accept a foreign 1. No subject of Her Majesty shall accept a foreign order from the Sovereign of any foreign country, or wear the insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a warrant under Her Royal Sign Manual.

2. Such permission shall not be granted to any subject of Her Majesty, unless the foreign order shall have been conferred in consequence of active and distinguished service before the enemy, either at sea or in the field; or unless he shall have been actually and entirely employed.

service before the enemy, either at sea or in the field; or unless he shall have been actually and entirely employed, beyond Her Majesty's dominions, in the service of the foreign Sovereign by whom the order is conferred.

3. The intention of a foreign Sovereign to confer upon a British subject the insignia of an order, must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited at the court of such foreign Sovereign, or through his Minister accredited at the court of Her Majesty.

Majesty.

4. If the service for which it is proposed to confer the order has been performed during war, the notification required by the preceding clause must be made not later than two years after the exchange of the ratifications of a treaty of peace.

20th August 1867

<sup>\*</sup>Thus a candidate whose scholarship commences on the 1st of July, 1868, would be considered as having fulfilled this condition, if he pass the first IJ.B. examination in January, 1870; or the first B.S., the first B.Sc., or the preliminary scientific M.B. examination in July, 1870.

If the service has been performed in time of peace, the notification must be made within two years after the date of such service.

5. After such notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present regulations, and arises from naval or military services before the enemy, refer it to Her Majesty's Principal Secretary of State for the War Department previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there may be any objection to Her Majesty's permission being granted.

Her Majesty's Principal Secretary of State for the War Department previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there may be any objection to Her Majesty's permission being granted.

A similar reference shall also be made to the Commander-in-Chief, if the application relates to an officer in the army, or to the Lords of the Admiralty if it relates to an officer in the navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favor it has been made to accept the foreign order and wear the insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the warrant required by clause one to be prepared for the Royal Sign Manual.

When such warrant shall have been signed by the Queen, a notification thereof shall be inserted in the Gazette, stating the service for which the foreign order has been conferred.

- 7. The warrant signifying Her Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.
- 8. Every such warrant as aforesaid shall contain a clause providing that Her Majesty's license and permission does not authorise the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of Her Majesty's realms.
- 9. When a British subject has received the royal permission to accept a foreign order, he will at any future time be allowed to accept the decoration of a higher class of the same order to which he may have become eligible by increase of rank in the foreign service or in the service of his own country, or any other distinctive mark of honor strictly consequent upon the acceptance of the original order, and common to every person upon whom such order is conferred.
- 10. The preceding clause shall not be taken to apply to decorations of the Guelphic Order, which were bestowed on British subjects by Her Majesty's predecessors King George IV. and King William IV., on whose heads the crowns of Great Britain and Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a foreign Sovereign for services rendered according to the purport of clause two of these regulations. They must be rather considered as personal favors bestowed on British subjects by British Sovereigns, and as having no reference to services rendered to the foreign Crown of Hanover.
