## Rise in Enrollment For Summer Term Noted by Officials

A slight rise in summer session enrollment, possibly 100 more students than last year, was expected but session officials were cautious in making any sweeping predictions.

Dr. Harold O. Ried, director of the summer session, said early figures received from registration in workshops and institutes which started before registration today showed a slight gain over last year.

Ried along with Registrar J. D. MacGregor declined to say how many more students were expected.

"We do not expect it (enrollment) to be greatly different from last year," MacGregor told the LOBO. Last year's summer session enrollment was 2263.

The summer academic program includes about 40 concentrated courses, workshop, seminars and institutes in addition to the regular schedule of classes in 31 departments.

Summer faculty include 82 resident members and 14 guest professors from Pennsylvania to Southern California.

Class meetings of the regular eight week courses will open on Monday as will the first group of four-week workshops.

Four of the institutes offered are financed by federal grants including three from the National Science Foundation.

Three of the institutes are already in session as they began last week. The three are: a radiation biology institute for secondary school science teachers co-sponsored by the NSF and the Atomic Energy Commission, an engineering research institute for math and science teachers and a counseling and guidance training institute. The three institutes will continue until Aug. 5.

The fourth institute is in mathematics and designed for secondary math teachers.

All academic activities of the summer session officially close Aug. 12. The session's only holiday is the three day weekend for Independence Day.

## Rules for Parking Will Still Continue

The standard parking regulations will continue in force during the present summer session, Dr. Sherman E. Smith, director of student affairs, said.

All students who have not already registered will be required to obtain parking permits and faculty and staff members are requested to park their vehicles in the lots designated for them, Dr. Smith said.

## New Alumni Memorial Chapel Receiving Close to \$100 a Day

Donations are still pouring in for the \$84,000 Alumni Memorial Chapel now under construction in mid-campus, Mrs. Winifred Reiter, director of the Alumni Association, said.

Latest contribution to the building fund is a \$300 gift from the Chi Omega Alumnae, Mrs. Reiter said. The Association is receiving through the mails about \$100 a day from individuals and groups.

The Franciscan styled chapel, which has been in the planning stages since 1948, is finally becoming a reality for Mrs. Reiter and the Association staff which has worked for years trying to round up funds.

The building fund presently has \$82,500 in it and needs only \$1,500

# \$3.50 Tuition, Fee Hike Begins Here in Fall; Budget Is Approved

STADIUM CONSTRUCTION entered Phase II last week as officials reported work on the 30,000 seat structure was "on schedule." The Lobos are expected to play their first game in the stadium Sept. 17 with the University of Mexico. See Page 2 for story. (Staff Photo)

## Increase Is Okayed By Finance Board; Monies Go in Fund

By TESS MURRAY

Tuition and fees will increase \$3.50 a semester starting with the fall term.

The increase will boost in-state tuition and fees to \$270 a year or \$135 a semester and out-state tuition to \$500 a year or \$250 a semester.

The increase was approved by the state Board of Educational Finance this week in Santa Fe. The added funds will go into a general fund. John Perovich, UNM comptroller, said the need for more revenue was the cause for the increase.

Student fees are expected to yield \$1,217,000 in 1960-61. UNM's state appropriation is expected to amount to \$3,903,749 for 1960-1961. Other sources of revenue are from the university land fund, auxiliaries such as dormitories, dining halls, and the golf course, and various miscellaneous sources, Perovich said.

A budget of \$12,944,325 was approved Tuesday by the finance board for the coming fiscal year. Appropriations include the following: administration and general, \$789,500; instruction \$3,411,700; organized research, \$10,000; library, \$284,900; physical plant operation and maintenance, \$875,000; off-campus program, \$30,900.

Also, non-education expenditures, \$940,000; auxiliary enterprises, \$1,480,000; capital outlay \$350,000 and non-educational research \$54,825; and organized activities, \$16,000.

The budget approved by the board also listed \$407,000 for intercollegiate athletics for the current year. An appropriation of \$428,000 was allowed for 1960-61.

Intercollegiate athletic fees are being raised from \$10 a semester to \$12 a semester to offset the difference between athletic outgo and income. This figure is included in the over-all \$3.50 increase.

UNM anticipates a 10 per cent enrollment increase in 1960-61. Over 1100 out-of-state main campus students are expected to enroll. Compared to other colleges in the state, the university will enroll 44.4 lower division students in the state, 43.7 per cent of all upper division students, and 69.1 per cent of all graduate students.

Four other state schools raised tuition and fees. New Mexico Military Institute listed the largest increase with a boost of \$70.

## 15 Service Merits Given to Residents

Fifteen Coronado Hall residents were awarded service merits recently by the Coronado Hall Board of Governors for promoting unity and harmony in coordination of dormitory functions.

The awards were presented at a banquet at the Silver Spur several weeks ago.

The award winners are: Jack Clarke, president of Coronado Hall; Adolph Plummer, Ed Acosta, Eber Lotze, Barry Cole, Bill Hawke, Hugh Hand, Frank Spurlock, Jim Kimbrough, Willard Cheng, James Donaldson, Bill Mason, Kim Hayner, Ken Cave and Alex Yuen.

## 'C' Grade Average Will Be Enforced

A requirement calling for a C grade average of high school graduates applying for admission to the university will be enforced this fall.

The decision was made by the Board of Regents at a recent meeting on a recommendation of J. C. MacGregor, chairman of the Committee on Entrance and Credits.

The C grade requirement has been listed in the Catalog for several years but has never been enforced.

Students falling under the required average may appeal to the Entrance and Credit committee. The regents agreed that the policy will not be inflexible in special cases.

President Tom Popejoy said that two thirds of the state's high school seniors make better than a C average. The new policy "will help morale of both the university and students," he said.

## Crosby Returns June 23

Dr. Glenn A. Crosby, UNM chemistry professor, returns to the campus June 23 after attending several chemistry meetings in Ohio, Pennsylvania and Alabama.

## Painting of Swastika Still Goes Unsolved

Police have been unable to discover who painted a swastika May 23 on the office door of Edward M. Goldberg, assistant professor of government.

Captain A. F. Ryder, campus police, said several persons were questioned and released. "We have done all we can do. The painting was apparently a prank but not a very funny one," the Captain said.

The swastika was painted on Prof. Goldberg's office door in brown varnish. The government professor had been talking to his classes about Germany and the Jewish people prior to the painting, police said.

The project, originally planned as a memorial to the dead of two world wars and the Korean conflict, now has expanded its meaning to include "the war dead and other former students and friends of the University." The building is expected to be finished by Homecoming of this year.

## Rodey Opens Stand Friday

Summer Theatre '60 at the UNM will open its third season Friday with a comedy-drama, "Roomful of Roses."

Tickets for this production and 23 others planned during the summer session are being sold each morning at the Rodey Theatre box office.

Curtain time for the season will be 8:30 p.m., George Stoughton, director, announced.

The opening production will run for three days and then re-open July 1 for an additional three-day series.

Authored by Edith Sommer, the play is the story of Bridget MacGowan, a cynical young girl. In this role will be Jeanne McCoy while Nancy Gottburg will fill the part of her understanding mother.

Margaret Ann Michael, a senior at Valey High School is cast as Jane Hewitt, a teenage friend of the family who helps Bridget find fun in life. Portraying her brother, Dick Hewitt will be Johnny Saiz.

Others in the cast are Peggy Sullivan as the maid, Wilaway; Reggie Stormont as Bridget's younger brother, Larry; Roxanna Stormont as Mitzi, Bridget's younger sister; Ted Stranczek as Jay Falon, Nancy's husband; Susan Reuter as Grace Hewitt, a neighbor; John C. De Baca as Carl MacGowan, Bridget's father; and Kathy Brixner as another family friend.

## Outdoor Lectures To Begin June 27

The UNM's 26th annual summer lecture series, called "Under the Stars," will begin June 27 with Speaker Wilson O. Clough, of the University of Wyoming.

Clough, a member of the Wyoming faculty since 1924, will speak on "Painting in Words." His talk—like the other five in the series, will begin at 8 p.m. in the Administration Building patio, and no admission charge will be made.

Clough holds an A.B. degree, with honors in English and Philosophy, from Union College, where he was Phi Beta Kappa; an M.A. from the University of Colorado; graduate study at the University of Chicago and the University of Wisconsin; and an honorary Litt.D. degree from Union College.

He is the author of an English grammar text, a volume of poetry entitled "Brief Oasis," a study of literary heritage in the U. S., and numerous poems, short stories, and magazine articles.

He will be followed in the "Under the Stars" series by S. E. Gerard Priestley, who will speak on "The Near East Today" July 11. July 18, Edward Peterson, Jr., will deliver an address entitled "A Living Death," and July 25 will see Estella Warner speak on "India—Whither Goest."

"The Deception of Words" is the topic of Clyde T. Crobaugh's Aug. 1 talk, and the series will close Aug. 8 when Hilton Power speaks on "An Alien Amongst the American Corn."

"Under the Stars" is a project of the UNM division of extension, of which Dr. Harold O. Ried is director. It was originated, as an indoor summer lecture series, by Dr. T. M. Pearce, professor of English, in 1935.

It took the title of "Under the Stars" when it moved outdoors in 1947.

## ADPi Broken Into

A sorority house, Alpha Delta Pi, was broken into recently, but police report nothing was taken. A floor lamp was found in the hall but nothing else seemed to be disturbed, police said. The house is located at the corner of University and Ash.

# NEW MEXICO LOBO

Published Tuesday, Thursday and Friday of the regular university year except during holidays and examination periods by the Associated Students of the University of New Mexico. Entered as second class matter at the post office, Albuquerque, August 1, 1918 under the act of March 3, 1879. Printed by the University Printing Plant. Subscription rate, \$4.00 for the school year, payable in advance.

## Necessary Trimming

The Board of Educational Finance in Santa Fe approved a whopping \$12 million budget for UNM Tuesday and with it, in fine print, goes a \$3.50 semester increase in tuition and fees starting with the fall term. The increase goes along with tuition and fee rises at other state schools and at schools in the Southwest. As much as students may gripe and swear over the \$3.50 boost, the added funds are needed as continuing pressure is put on schools to raise teachers' salaries and improve physical plants. Probably the main factor in the tuition rise is, as UNM Comptroller John Perovich says, we simply need more revenue. Inflation has hit UNM and not much can be done about that.

However, a closer look at the new budget does raise a few eyebrows especially toward the athletic appropriations. For athletics UNM will spend \$428,000 next year, an increase of \$21,000 from last year. As long as we're discussing figures we'd like to throw in a few more. For organized research UNM according to the budget, will spend a measly \$10,000; administration and general, \$789,500; plant operation and maintenance, \$875,500 and most important of all, instruction \$3,411,700. Stacked up to these expenses and others, it appears that our athletic appropriation could have deserved some healthy cutting.

A spot Associated Press check, requested by the LOBO, showed UNM was second highest in athletic appropriation among four Skyline schools. Colorado State University will spend an anticipated \$276,861 in 1960-61; Utah University, close to \$300,000; and Denver University, \$474,000. We grant that a brand new shiny stadium will be a nice thing, and that a good football or basketball team may bring in more enrollment and more money and that an athletic team is a tradition, but we simply believe that \$428,000 is too much for athletics.

Not much can be done about changing appropriations now as the new budget is signed, sealed, though not yet delivered. However, we'd like to see next year's Board of Educational Finance do a little trimming of UNM's athletic budget and put the extra funds into instruction and teachers' salaries where they belong.

## Optimism

Now that you've left that registration sweat box, returned that leaky fountain pen you had to borrow, found out that after four years you're still only a second semester sophomore and snubbed the professor who gave you that nasty, horrible grade, we of the optimistic LOBO staff feel things are looking up. This is the 1960 Summer Session.

Although summer sessions are often uneventful, they are in some ways better than the regular school year. You don't have to hear about the Student Council, blazers, KNMD, impeachment or censure of the LOBO (we hope). This is a time of peace, or relative peace, on the UNM campus. For the summer program Dr. Harold Ried, director of the summer session, as usual, has planned activities including six lectures under the Stars, four band concerts, five films, two outdoor dances (too bad there are not more of these), musicals, lectures, and art exhibits. And don't forget Rodey Theatre.

So things aren't really so bad. As final word, go jump in the pool.

-JR

## Housing Unit Work Delayed

Construction on the 100 housing units for married students will not start until late summer, possibly in September, President Tom Popejoy said Monday.

Work was originally expected to begin in mid-summer on the units situated north of the new football stadium and south of Coal SE. The rough, hilly land was recently acquired by UNM.

A \$925,000 loan from the Community Facilities Administration in Washington for payments of the units was approved, Popejoy said. Popejoy said the apartments would not be completed until February or March of 1961.

## Professor to Speak

Dr. Abraham Rosenzweig, UNM geology professor, will speak this Sunday to members of the Rocky Mountain Federation of Mineralogical Societies during the El GEM-Boree Gem and Mineral Show. His topic is "The Collector's Role in the Science of Mineralogy."

## Student in Golf Tourney

Sue Wood, junior at UNM, leaves Albuquerque today to participate in the Women's National Collegiate Golf Tournament June 20-24 at Stanford University. Miss Wood is an elementary education major.

No woman really makes a fool of a man — she merely gives him the opportunity to develop his natural capacities.

# A NEW TWIST

By SMOKEY

If you don't think that women are explosive, try dropping one.

Here it is again, that season of sunshine, swims, tennis, loafing, short shorts, ponytails, and sweaty people. Isn't vacation time wonderful? Just think of all the people that are out on vacation at the vacation spots of the world — like Cuba, Japan, Chile, Little Rock, flying planes over Russia, etc. As usual the children will now close all of the doors that they left open all winter.

The doctor told me to stay away from dampness. You don't know how silly I feel sitting in an empty bathtub going over myself with a vacuum cleaner.

Isn't it fun to register without a fountain pen?

Swimming is open to all UNM students. From 2-6 every day you can enjoy splashing around at the Carlisle Gym pool. This is one of the most popular summer spots on campus. By the end of summer most of the swimmers have stopped peeling and a couple of them have even learned how to swim. The only thing required to enter the pool area is a swim suit. Without a tie why be formal when you're having fun.

Two beatniks in Russia saw a man being flogged in a public square. "I don't dig the beat," said one cat, "but that sure is a crazy drum."

A revolutionary vanishing cream deodorant has been discovered: You vanish and people wonder where the odor is coming from.

Easy now, remember Smokey would not approve.

# The Fifth Column

By MIKE STRYKER

What I thought was a non-existent generation appeared to protest the House Un-American Activities Committee hearings at the San Francisco City Hall. The date was May 14, the last day of the committee hearings. The committee was concluding their usual performance. The students in the San Francisco area had been activated by the execution of Caryl Chessman. The hypocrisy of his execution was too much for some people. As one student put it, "The only successful case of rehabilitation by the California prison system and they kill him."

It was not just the students who were protesting the hearings. One hundred sixty-five faculty members at San Francisco State, paid for a full page ad in the Golden Gate, to protest the hearings.

The committee members when informed of the demonstration taking place in front of the city hall were quick to label the people involved as communists. And as the hearings resumed after a noon recess the trouble began. The police announced there would only be 15 people allowed in the hearing room that afternoon. Some students started chanting "abolish the committee," then others started singing:

We shall not be moved  
We shall not be moved  
Just like a tree that stands by the water

We shall not be moved . . . Then the police moved on the demonstrators with fire hoses and night sticks. Within half an hour 14 people were hospitalized, 48 people arrested and jailed.

Those who were arrested were released after a court hearing. The Committee still exists. The student demonstrations will continue.

Alf Landon was a Republican candidate for President some time back, but today he lectures before various groups at request. Unlike most people today, he is very outspoken. In the Midwest he gave a ringing declaration calling for the abolition of nuclear testing, and then went on to suggest that Red China be admitted to the UN.

It was a fine breathing speech designed to move the hearts of men, unfortunately it died in the ears of the Daughters of the American Revolution.

I have to admire Mr. Landon. That speech to that group took more courage than all the present candidates for President have combined.

Man is Born to Live Not to Prepare for Life—Pasternak.

I saw an interesting ad in the Washington (D. C.) Star. It went like this:  
Your Entire Family Could Be Wiped Out Tomorrow You Can Protect Them Today From Nuclear Attack Provide your family safety now with a 7-ton underground concrete dome

J-T Survival Shelter This shelter represents the difference between life and death . . . Completely installed under ground or basement or in your back yard. Only takes 24 to 48 hours to install.

No Money Down three years to pay only \$995.00 FHA approved

This shelter will increase your chances for survival of a nuclear war. . . .

I think this ad will be of special interest to those who are familiar with the bureaucratic mess of our civil defense program.

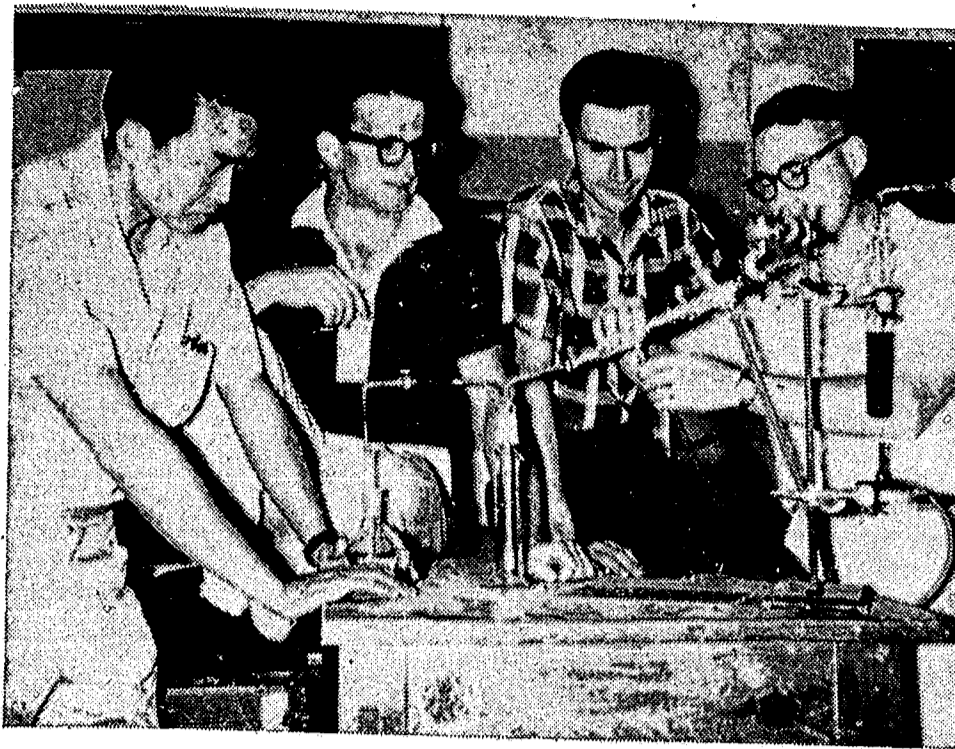

It was certainly nice that Premier Nobusuke Kishi canceled President Eisenhower's trip to Japan, so the President could avoid making an arbitrary decision.

## Letter to the Editor

A LITTLE ASHAMED

To the Editor:  
Regarding that swastika . . . It's times like these I feel ashamed to be called a gentile.

Sincerely,  
JOHN B. MAHONY

SPECIALIZED RESEARCH for the Atomic Energy Commission in co-operation with the UNM Chemistry department will be done this summer by these four students, (from left) Edward Mori-moto, John Solenberger, Ken Applegate and Lewis L. Anderson under the direction of Dr. Milton Kahn. The two graduate students, Mori-moto and Anderson will be assisted by Solenberger and Applegate, both sophomores in the honors program.

## Mirage Is Available In Journalism Office

The 1960 Mirage yearbook is available for students in Room 157 of the Student Publications addition to the Journalism building, a spokesman said.

The \$36-page annual has a black cover with embossed red lettering and sun symbol flaming from the silver seal of the University. It features colored dividers by Paige Blackman and Royal Phillips. Editor for this year's Mirage was Lorenna Bramlett, Neil Frumkin was business manager.

The yearbook is distributed free to 1959-60 activity card holders. If the fee was paid for only one semester, a charge of \$2.50 is made and if no activity fee was paid, the book costs \$5.00. Plastic protector covers are available in the Mirage and sun symbol flaming from the office for 25 cents.

## Possible Merger Of League Schools Is Aired in Frisco

Pete McDavid, UNM athletic director, left Wednesday for San Francisco to attend an intercollegiate athletic conference to discuss the possibility of UNM merging with seven other Western universities in a new league.

McDavid was recently quoted in an Albuquerque newspaper as saying the chances were "very good" with certain qualifications that UNM would merge with the schools. In recent months there have been rumblings among Skyline and Pacific conference members to form or join new leagues.

McDavid will meet with athletic directors of Washington State, Oregon, Oregon State, Arizona, Arizona State University, Utah and Brigham Young.

The meeting will be the third conference of athletic officials of the eight western schools in six months. The first informal contact was made at the NCAA convention in New York City last January.

McDavid said Tuesday the merger is still in the "exploratory stages." McDavid will return Sunday.

## Chileans Receive Aid From UNM Groups

Three campus organizations donated to aid Chileans in the recent earthquake disaster there. Student Council sent \$100 to Patricia Fernandez of the University of Chile in Santiago. Vigilantes donated \$85 and the International Club sent \$10.

A group of eight Chilean student leaders visited UNM this spring and four other American colleges on an invitation from President Eisenhower. The Chilean students spent a week here taking in Fiesta activities, speaking to various groups, attending different classes and touring Santa Fe.

The Red Cross received several private donations for the Chilean people.

## 32 Are Initiated Into Math Group

Thirty-two students have been initiated into the local chapter of Kappa Mu Epsilon national math honorary fraternity. The students were initiated in two separate initiations on April 10, H. Keith Stumpf, math professor announced.

The students are: George L. Adkins, Jr., Kenneth B. Applegate, William Bramlett, Robert I. Butler, Mrs. Holly N. Dahl, Goebel Davis, Jr., Garth R. Fahrback, Wayne R. Hamilton, John B. Hayes, James F. Logan, Donald S. Lund, Virgil C. Lorcham, John Alquist, Robert I. Brasler and Bobbie J. Frost.

Others are James W. Garner, Raymond Gieri, Richard J. Griego, John A. Lindlof, Madeleine J. McDaniel, Daniel N. Zwilling, Mrs. Ruth F. Nutt, Melvin D. Perkins, Arie W. Poldervaart, William E. Putman, Eric H. Regener, Omer F. Spurlock, Jack E. Thompson, Maung Ohn Thwin, Richard D. Volk, Herman A. Watts and Mario V. Fiondella, a member of the faculty.

## Technical Writing Course Is Offered

A new course in advanced technical writing will be offered this summer by the UNM department of English. It carries three hours of credit and will be given daily from Monday through Friday at 8:30 p.m. Instructor in the course, English 120, is Alexander Evanoff, who has taught technical writing at the

state universities of Iowa and Idaho. The course will give practice in the writing and editing of technical, engineering, and scientific reports and articles.
