"WHAT CAN I take now. Everything's closed out." It was ever thus as tense moments are portrayed during the latter phases of Tuesday's registration for spring semester, 1966. (LOBO photo by Kendall).

Letter Sent to India Concerns Viet Peace

NEW DELHI, India — North Viet Nam President Ho Chi Minh has reportedly sent a letter to India asking that peace moves be made by that country to settle the war.

There was no official confirmation of the report.

The letter, sent to Indian President Sarvepalli Radhakrishnan, suggested that neutral India, chairman of the International Control Commission, should initiate the peace moves.

The International Control Commission was set up by the 1954 Geneva Conference ending the Indochina war, and its job is to enforce the peace. Other members of the commission are Canada and Poland.

During talks between President Johnson and South Viet Nam Premier Nguyen Cao Ky, however, Ky made it clear that South Viet Nam would not enter into peace talks with the National Liberation Front. Officials also said that they favored bombing of Haiphong and other industrial targets in North Viet Nam.

The letter is reported to be receiving urgent consideration by India's Prime Minister, Mrs. Indira Gandhi, Foreign Minister Swaran Singh, and their advisors.

The International Control Commission was active in both North and South Viet Nam and in Laos but its work was hampered because each member has veto power within the commission itself. North Viet Nam has in the past few weeks, however, protested directly to the commission against American bombing attacks.

Military Records Given to Library

A document collection given to UNM provides a glimpse into what life was like in Albuquerque a century ago.

The papers are the records kept by Major (later General) Daniel Henry Rucker when he was the Army Assistant Quartermaster here in 1858. The collection was given to UNM's Zimmerman Library by General Rucker's great-nephew, Commander Louis Rucker of Miami, Fla.

The records, detailed in the major's handwriting, involve all types of military spending, including money for the capture of a pair of deserters.

The names of families long associated with Albuquerque appear from time to time on the civilian payroll, kept by the major. The literacy of some of these sturdy pioneers, however, apparently left something to be desired. On one list of 29 payees, 24 signed with an "X."

University officials say the documents are a valuable resource for the study of western military history.

Kentucky School Drops From NSA

The University of Kentucky recently withdrew from NSA, the National Students' Association. The decision was taken after fierce discussion.

The Kentucky Kernel, the student paper, reported that the action was taken mainly because of the "political nature of NSA."

The move to withdraw from NSA was led, at Kentucky, primarily by the Young Republicans. A young Republican spokesman said the group was opposed to NSA "because of the extremely liberal stands taken by the group, and because of its contention that it represents the American college student."

YAF Meeting

The Eliseo Viva chapter of the Young American for Freedom will have an executive officers meeting tomorrow night at 7:30. The meeting will be held in 231-A in the Union. Officers are asked to be prompt.

Humphrey, Others Sent To Viet-Nam In New Plan

HONOLULU — Vice President Hubert H. Humphrey and others have been sent to South Viet Nam by President Johnson in a new plan to aid that country's internal improvement.

Humphrey, along with Agriculture Secretary Orville L. Freeman and a group of American technical advisors will make the trip to Saigon with Gen. Nguyen Van Thieu, chief of state of South Viet Nam, and Premier Nguyen Cao Ky. The new plan was revealed at the close of South Vietnamese and American conferences in Honolulu.

The purpose of the Humphrey mission is to implement plans made at Honolulu to facilitate the internal improvement of South Viet Nam through a variety of programs involving agriculture, education, health and economics, while still pursuing the most effective war possible.

CLOTURE EFFORT FAILS

WASHINGTON—Efforts to invoke cloture and thus end the Senate filibuster against Section 14-B of the Taft-Hartley Law were defeated yesterday.

Section 14-B now makes it possible for states to outlaw the union shop, at their own choosing.

By a vote of 51-48, the Senate decided to not end the filibuster. The 51 for cloture, which would end the debate, was 15 less than the need two-thirds.

Senate Democratic Leader Mike Mansfield of Montana told newsmen in a press conference one hour before the voting that if his move for cloture failed at this time he would initiate a second cloture petition Thursday. Mansfield said that if the cloture vote fails two times, it will be dead for this session.

63 VIET CONG KILLED

SAIGON—Some 63 Viet Cong soldiers were killed yesterday in hand-to-hand combat with U.S. paratroopers near Tuy Hoa, 240 miles northeast of Saigon.

At the same time, Australians uncovered a Viet Cong supply depot 30 miles east of Saigon, U.S. officials reported.

Another 52 Viet Cong were killed when South Vietnamese forces struck back with planes, tanks and artillery to beat off an ambush of a government troop convoy in the Mekong Delta southwest of Saigon. A South Vietnamese official reported that Vietnamese casualties were heavy.

U.S. jets also resumed air attacks on North Viet Nam targets,

bombing some and dropping leaflets explaining the resumption of the air strikes on others.

AMERICANS WILL ACCEPT UN DECISIONS

PRINCETON, N.J.—A recent Gallup Poll indicates that many Americans would be willing to accept any U.N. decisions made concerning the Viet Nam war, whatever they happen to be.

The question posed by the poll was: "It has been suggested that the U.S. agree to submit the case of what to do about Viet Nam to the United Nations and agree to accept the decision, whatever it (Continued on page 2)

Show Cause Suit Filed Against U

Some \$86 in alleged illegal parking violations have resulted in a show cause order filed against the UNM comptroller and the campus security director.

Freston H. Colby, constable from Pct. 12, said he was prevented from entering the University for the second semester because of the tickets.

Colby, also known as Preston Strunk, filed a petition for the show cause order in district court. Named as defendants were John Perovich, UNM comptroller, and Jack A. Cairns, campus security supervisor.

Dist. Judge Robert W. Reidy signed an order directing the two defendants to show cause on Feb. 14 to 9 a.m. why a restraining order should not be issued enjoining them from preventing the enrollment and attendance of Colby at UNM and from collecting the penalty allegedly imposed upon Colby without due process of law.

Colby said he was a full time UNM student in addition to being a constable. During the course of his official duties as constable, Colby asserted, he operated a vehicle on roads and parking areas at the University.

Colby said there is no law that requires him to obtain permission of any UNM authority to operate his vehicle on university grounds while he is engaged in official duties.

Nevertheless, the plaintiff stated, six parking fines totaling \$86 were imposed against him.

Colby said he protested to the "proper authorities" and requested that the matter be sent to court where he could present defenses showing him to be innocent.

No such opportunity was given him, he said, adding that he was prevented from enrolling for the second semester because he had not paid the fines. He said he was informed that his refusal to pay the fines was the only reason he was prevented from registering.

Trees Planted

It's tree planting time on the new University golf course near the south edge of the city. Some 300 trees of all varieties — some as high as 35 feet — are being set out over the new 18-hole golf course. The links are expected to be ready for golfers this summer.

U Magazine Plans Series of Movies

A series of experimental and special interest films will be featured at Don Pancho's Art Theatre, 2108 Central SE, beginning this Sunday, Feb. 13.

The films are being sponsored by The Thunderbird, literary magazine at University of New Mexico.

On Sunday's film fare is a movie by experimental film-maker and pop artist Andy Warhol, entitled "Vinyl." Sharing the bill is a work by Fred Zimmerman, entitled "Scarface and Aphrodite." Both films experiment in form and technique. Warhol's film is called by its maker, an effort to duplicate the musical technique of counterpoint by filming a series of reverse images and feelings. Zimmerman's film elaborates a dreamlike experience of a sleepwalker who finds himself drawn "through the eye of a needle."

Other Thunderbird films to be shown this semester are: "The Magician;" "Dream of the Wild Horses," and "Ivanhoe Donaldson," all on Feb. 27; "Ordet," March 13; "Maass," "Fireworks" and "Birth of a Nation" and the "Streets of Greenwood" will be seen April 17.

Two movies in May, "Guns of the Tree" and "Hallelujah the Hills," will end the series.

The former will be seen May 8; the latter, May 22.

Showings of each movie are at 2 and 4 p.m. Admission is 75 cents for students and \$1 for non-students, and season tickets will also be sold at the door.

QUEENS OF THE BALL: Sharon Birkenbuel, representing the Navy ROTC, and Pam Hennessee, representing Air Force ROTC, were chosen as queens of the joint Navy-Air Force Military Ball last night at Kirtland AFB Officers' Club. The Air Force ROTC was the sponsor of the annual affair this year.

CROWNING THE QUEEN: Colonel William C. Naylor, professor of aerospace studies, places the glittering tiara on Pam Hennessee. Miss Hennessee was elected by cadets last semester to represent Air Force ROTC at the Military Ball.

Museum Features Three Exhibits

Three exhibits will hang in the University Art Museum Feb. 13 through March 13. They are Drawings of Andrew Dasburg, the Collection of W. H. and Rebecca S. James and Oriental Prints from the Josef Imhof Collection.

The Dasburg show is a selection of 75 drawings borrowed from major museums and private collections. Dasburg has lived in New Mexico several years and now resides in Taos.

In 1959 he was honored by a Retrospective Exhibition circulated nationally by the American Federation of Arts under a Ford Foundation Grant.

The James Collection includes works of such well-known artists as Tom Benrimo, Nicolai Fechin, Marsden Hartley, Gaston LaChaise, John Marin, Georgia O'Keeffe and Alfred Stieglitz.

The collection has been assembled over many years by the James, who have personally known many of the artists. Mrs. James herself is a noted artist of Taos.

The Imhof collection will continue to March 6 in the lower gallery along with an exhibit of recent paintings by Jesse Reichel.

The Reichel collection in black and white is entitled Etcetera and contains 20 paintings in a series. It is related to his book of draw-

ings of the same title published in 1965. Reichel acts as consultant to the UNM department of art and architecture on courses and curricula in design. A reception Feb. 13 from 1 to 5 p.m. will open the three month-long exhibits.

happens to be. Do you think this is a good idea?"

Forty-nine per cent felt that this was a good idea, 37 per cent thought it was bad and 14 per cent had no opinion.

Unemployment Rate Lowest In 4 Years

WASHINGTON—The nation's unemployment rate is reported to have dropped to a nine-year low of four per cent in January. Secretary of Labor Willard Wirtz predicted yesterday that the rate would drop to 3.5 per cent or lower this year.

The Labor Department issued the unemployment percentage while Wirtz made his prediction in testimony before the Joint Economic Committee of Congress.

The 4 per cent unemployment rate is the lowest rate since April of 1957 when it also was 4 per cent.

Pope Abolishes Curia Office

VATICAN CITY—Pope Paul VI has abolished the Curia office that judges writing for the Roman Catholic Church's index of for-

bidden books. The Pope's action did not mean an end to the index or surveillance of books by church authorities but Vatican sources said it signified a totally new approach.

Maria Von Trapp Tells of Pictures

By TISH GRANGER
LOBO Feature Editor

Since the production of the play and the movie, "The Sound of Music," millions of theatre-goers have become closely acquainted with the Von Trapp Family Singers.

Tuesday of closed week the Baroness Von Trapp, Maria, came to UNM to tell of her experiences as stepmother of the seven Von Trapp children, their singing tours, and her views on the Broadway play and the movie.

Baroness Von Trapp said that she did not work on the movie production at all, but did think it was "lovely." "I worked on the Broadway play," the Baroness said, "and got to know Mary Martin (star of the play) quite well."

The Baroness said that she had no real preference between the two and enjoyed both very much.

Not all of the Von Trapp children are married, the Baroness said. "My youngest just graduated from Dartmouth and is now living at home with me at the Trapp Family Dodge in Stowe, Vermont," she said.

The lodge in Vermont was once the home of the twelve-member family — the Baroness had three children, bringing the original seven up to ten. The home is now open to the public.

None of the children are in show business, the Baroness said. "After some twenty years we all have had enough," she said.

The Baroness has twenty-seven grandchildren.

Lobo Basketball Will Be Telecast

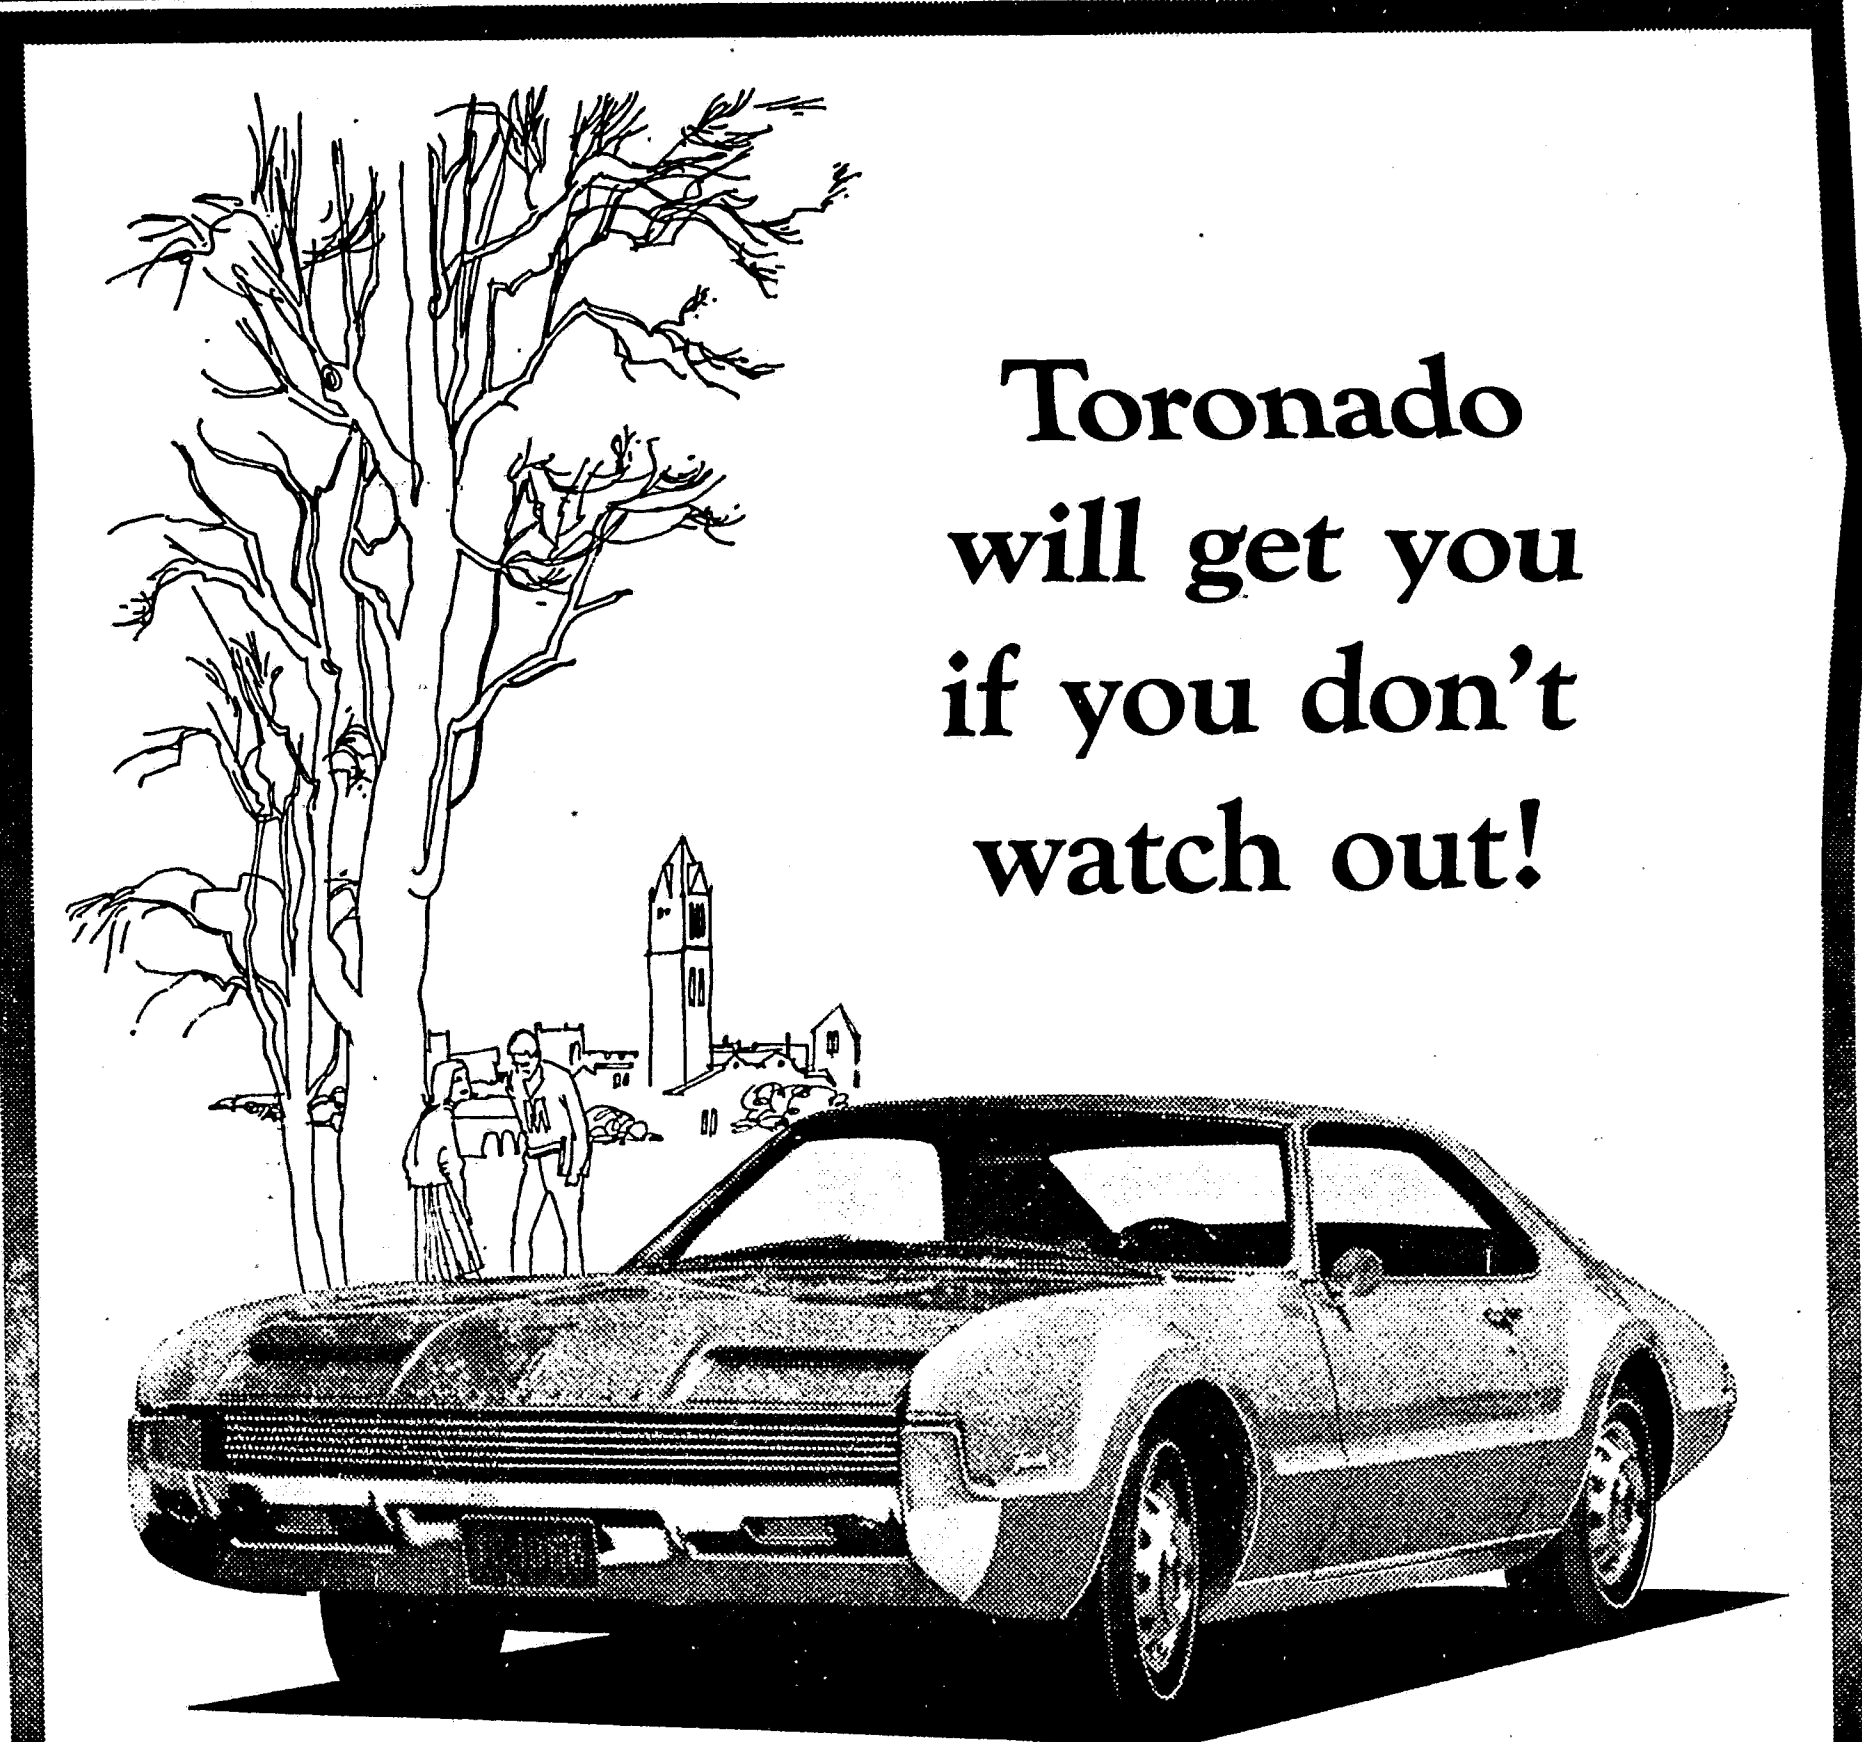

With tickets sold out for the University of New Mexico-Texas Western basketball clash Saturday night, fans can watch the Lobos in action through TV facilities set up in the Union Ballroom.

KNME-TV is handling the closed circuit telecast with an eight-by-ten-foot screen and several smaller monitors placed around the ballroom.

The door opens for students at 7 p.m. Admission is by athletic card. At 8 p.m. the public will be admitted if room permits. Admission is \$1.00 a person. Game time is 8:05 p.m.

The remaining two Western Athletic Conference games with Arizona and Arizona State will be telecast in March.

FIRST HAND OPINION

Yesterday General James Gavin (US Army, retired) appeared before the Senate Foreign Relations Subcommittee on national television. The committee, with Senator William Fulbright (D-Ark.) as the leader, has been holding hearings on the crisis in Viet Nam.

GAVIN HAS BEEN in the limelight the last couple of weeks because of a letter he wrote in "Harper's" magazine concerning the United State's position in Viet Nam.

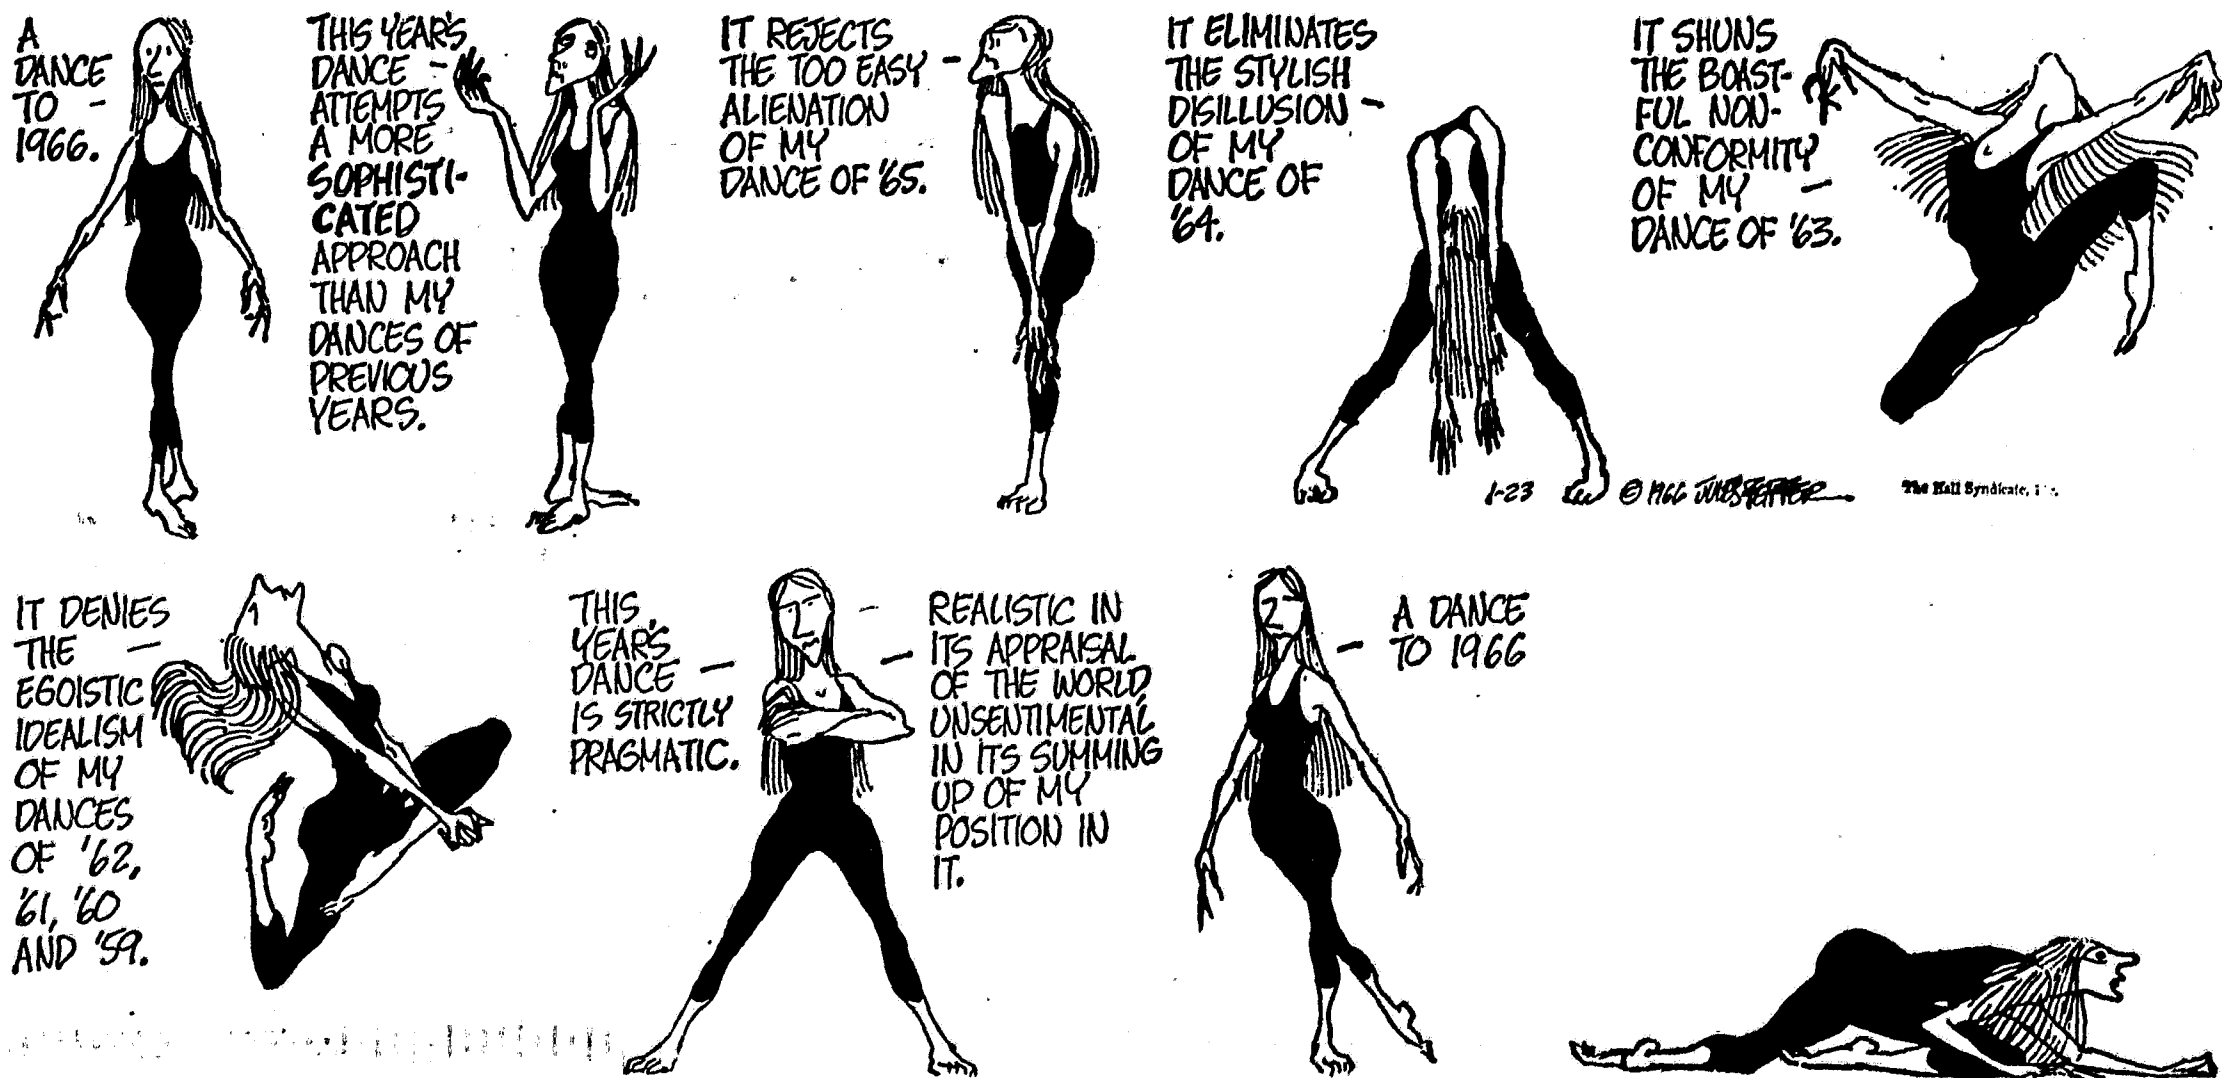

He has developed a theory involving enclaves whereby U.S. forces now in Viet Nam would hold their present positions, not escalating the war. Whether one agrees with the general's policy is a matter for just about anyone who cares to do so.

However, we must applaud the networks and the Congress for allowing the hearings to be viewed by the public. It was quite apparent that there were some of President Johnson's chief dissenters on the panel, but that too was not meaningful. What was meaningful was that for one of the first times since the whole Viet Nam business began, the American people were let in on something pertinent that was going on.

IT WAS VERY gratifying to be getting first-hand opinion from a competent individual instead of the same old stories that papers, magazines, and digests are so full of today. Even if one doesn't agree with Gavin's theories, there was some interesting and valuable information coming from the obviously intelligent and concerned general's mind. We had begun to wonder if the American people were ever going to get any first hand information from some of the first hands.

Earlier in the week, and sometimes during periods last week, the networks carried parts of the testimonies of Secretary of State Rusk and David Bell, Director of the Foreign Aid department, but they weren't quite as extensive as the hearings held yesterday. There is much confusion in the minds of some Americans as to whether or not we should stay in Viet Nam. Perhaps broadcasts of this nature would help clarify the situation for them.

—Paul Couey

U-pcoming

The General Honors Assembly has been scheduled for April 28. The program has been set, tentatively for an evening hour, a departure from the tradition of having it in the afternoon.

Fiesta, the big student event, has been marked down on the calendar for May 20 and 21.

Actor-comedian Bill Cosby has been signed for an appearance at UNM April 23.

Cosby, who co-stars in the television series "I Spy," is being brought by the Union Cultural Committee as part of its Pop Concert series.

Also scheduled for a UNM appearance is jazz musician Stan Getz. He will appear with the University's Concert Band March 14 and the following night will present a concert.

Ann Landers, author of the syndicated column of advice to the troubled, will be at UNM April 25.

She will be the final speaker in the Newman Forum series for this academic year. Before Miss Landers makes her appearance, two other lecturers will take the podium in the series. Dr. Irving Lazar, consultant to the Office of Economic Opportunity, will discuss the poverty program on Feb. 28.

Douglas Hyde, a noted British author, a former Communist and a one-time editor of the Daily Worker in London, will speak on Viet Nam on March 22.

Grants

The U.S. Department of health, education and welfare has approved another research grant for UNM. Dr. James Weaver of the UNM School of Medicine has been awarded \$19,815 each year for two years to study the physical properties of bone under disease conditions.

Nancy Hahn, UNM sophomore majoring in art has received the \$75 Delta Kappa Gamma grant-in-aid from the Albuquerque Gamma Chapter of the international honorary for women educators.

UNM students, Thomas M. Davies, Richard A. Hansis, William F. Harrison and Kenna Eileen Lauser, are being interviewed by a national screening committee for Fulbright Scholarships. Selections for advanced study in Latin America.

Mrs. Paul Greenberg, a UNM senior insuring has been awarded the \$175 Jean Norris Memorial Scholarship in Nursing by the Progress Womens Club.

Economist Shows Anti-Poverty Plans

By TIM HUNTER

University of Chicago economist Milton Friedman has proposed a new program which has designed to revamp federal welfare programs through a tax device which should cut the costs of administering anti-poverty programs and return a greater amount of money to the needy.

The program, already under serious consideration by administration officials, is known as the "negative income tax" and is designed to eliminate various bureaucratic agencies which some claim waste poverty funds.

The negative income tax involves a set of relatively simple proposals whose purpose is to make present welfare programs obsolete. The program, as proposed by Dr. Friedman, would operate along the lines of the present graduated income tax. It would set up a national minimum wage level which would be considered on tax returns.

Under the proposal, citizens would continue to pay the usual withholding taxes and would be subject to prevailing tax laws.

Citizens would continue to file tax returns as is presently done and to claim the regular deductions.

However, if the income of the individual should not come to the minimum level wage, then a lump sum of money would be paid back to the wage earner. The sum would be equivalent to the difference between the reported standard wage and the minimum wage.

(Thus a wage earner whose income amounts to \$1,600 would receive a government check amounting to \$1,400 if the wage level were set at \$3,000, a level commonly reported by government sources as being a poverty level indicator.)

Dr. Friedman originally proposed his plan during the 1964 election campaign when he was a member of the so-called Republican think tank. Though few of the proposals coming from the think tank were picked up by Senator Goldwater for use in his speeches, the negative income tax idea was occasionally mentioned in the press as one of the type of programs which Republicans would advance if elected.

'Spy Who Came from Cold' Is Contrast to James Bond

By BOB STOREY
LOBO Campus Editor

Perhaps the best way to judge the new movie "The Spy Who Came in From the Cold" is to look at the reaction of the crowd. We arrived early for the second showing and had a chance to observe the audience as it emerged from the theater. The total absence of talking and laughing was strangely apparent.

The film from Paramount Pictures, produced by Martin Ritt, stars; Richard Burton as Alex Limas, Claire Bloom as Nan, Oscar Weiner as Fiedler and Peter Van Eyck as Mundt.

When we left the theater we too were in the stupefied condition exhibited by those who preceded.

After being fed on Bond and company spy pictures for the last few years, and being given the glory and riches image of the infamous spy, I was not able to accept or comprehend the feeling of numbness left by this movie.

There were no beautiful sets, clothes, girls or scenery. Rather the film is in black and white, the wheat cold and raining and the sets functional, at times drab.

The mundane mood of the movie is carried on by the cast. Richard Burton with his rugged face and short heavy body des-

troyed the Bond image of a spy, Claire Bloom as Burton's girl is plain and simple, complete with big hips.

A striking figure is Peter Van Eyck as the East German colonel. One close up shows cold cruelty in his wrinkled face as he calmly spashes Limas's face with a pistol. Burton shows no emotion as he goes through his job of spy and he continues the act as he watches his girl killed because she is expendable and then calmly goes to his death.

"At times we must be as ruthless as the enemy" says control head of British intelligence as he addresses Burton. In this case the enemy is the Communists. The movie shows that in the "spy business" for either side there is no good or bad, no right or wrong, just a job, which is to "keep the flow of information."

Says Limas, Spies are dirty little men who do what they are told, never question and never think about . . . God, right or wrong. They are left out in the cold.

BYU Looks Strong UNM Vies for Ute Swim Throne; Sun Devil Seen as Diving Champ

If early season performances provide a reliable indication, the Utah Redskins should win their fourth consecutive Western Athletic Conference swimming crown this year.

A compilation of best 1966 competitive performances in twelve aquatic events shows the Utes currently with eight firsts, four seconds, three thirds, and two fourths. They have not only class, but depth as well, and can make good replacements if any swimmer sprains a fin or suffers hyper-humidity.

Strongest challenger to the Ute throne is New Mexico. In best times to date, the Lobos have posted three firsts, four seconds, five thirds, and five fourths, some of which are barely off the pace. In the 1965 conference meet, the Utes scored 203 points to the Lobos' 101.

Entering conference swimming competition this year for the first time, Brigham Young has launched some good performers and will bid for third-place honors.

Wyoming, Arizona State and Arizona swimmers have posted no first or second best times, although Sun Devil Bernie Wrightson is regarded as an easy favorite to repeat as diving champion.

Six individual swimming championships are back this year, but all will be pushed to the limit by outstanding newcomers. Returning champions, their events, and times posted in the 1965 conference meet are as follows:

Steve Smith, Utah, 100 yard freestyle (:50.4); Kim Bernard, Utah, 100 breaststroke (1:03.4), Tom Mellars, New Mexico, 100 butterfly (:53.8); John Ploehn, Wyoming, 100 backstroke (:57.8), Greg Rendahl, New Mexico, 200 breaststroke (2:21.0); and Carter Shillig, New Mexico, 50 freestyle (1:22.8). Bernard, Mellars, and Rendahl hold conference records. To date, 1966 best times have not been reported for Ploehn, Bernard and Mellars.

Among the outstanding newcomers are Mike Garibaldi, Tom Browne, Allen Logan, Dave Fuhrman, and Terry Craig, Utah; Rick Heisley, Jon Mayhew, and Ralph

3 Commissions For AFROTC

Three men received commissions from the Air Force Friday, Feb. 4 through the Air Force ROTC, Detachment 510, at the University of New Mexico.

The new Air Force officers are Joel E. Adkins, James S. Corbin and William W. Fuller. All three are from Albuquerque and they all were graduated from Highland High School.

Col. William C. Naylor, professor of aerospace studies at UNM, officiated at the commissioning ceremony. The invocation was given by Col. Willis L. Stowers, chaplain at Kirtland AFB.

Adkins, 7409 Arvada NE, is the son of Mr. and Mrs. Clarence E. Adkins, New Boston, Ohio. He majored in industrial administration and will report in for his first assignment at Forbes AFB, Topeka, Kansas.

Corbin, the son of Mr. and Mrs. Gordon M. Corbin, 717 Lafayette NE, majored in biology. His first assignment is with the 3415th Student Squadron at Keesler AFB, Mississippi, where he will receive pilot training.

Fuller, a mechanical engineering major at UNM, is the son of Mr. and Mrs. N. A. Fuller, 1416 Princeton, NE. He will report for active duty to Malmstrom AFB in Montana.

U Summer Institute For Teaching Media Frieda Osoff Fund Formed

A summer institute scheduled for this summer at the University is designed to meet specific needs in New Mexico school systems.

The Institute is for educational media supervisors — persons in charge of the various teaching aids used in schools. Thirty participants will be chosen from among applicants holding teaching, library or administrative posts in the state's elementary and secondary schools.

There is a lack of trained personnel in the educational media field in spite of some recent advances and federal support for audio-visual programs. The Institute will be directed by Dr. Peter Helfert, associate professor of education at UNM.

Two UNM graduates students, Bert Alman, in English Audrey M. Joseph in history are attending the University on Woodrow Wilson Fellowships.

Fellowships Frieda Osoff Fund Formed

The Fort Burgwin Research Center, in Taos, is offering two \$250 fellowships to architecture students to study religious buildings in the Taos area this summer. Prof. Bainbridge Bunting of the UNM Architecture department is handling arrangements.

A tribute to Mrs. Osoff. President of the organization is Mrs. David D. Cooper. She is assisted by Mrs. David Specter, secretary-treasurer. Board members and incorporators are Mrs. Harold Gardenswartz, Mrs. Henry Hillson, Mrs. Jack Kleinfeld, Mrs. Jack Mendelsberg, Mrs. Julius Rothman and Mrs. Leonard Strimling.

Miss Harding is a member of Mortar Board, senior women's honorary. She plans a career in teaching.

The corporation already has announced a special \$175 scholarship to Anne Harding, a senior majoring in English and daughter of Mr. and Mrs. Milton Harding of Grants. The aid project consists of two separate funds. One is a \$500 loan fund for all students and the second is a \$500 allocation for students in the College of Nursing. Both will be administered by the UNM Office of Student Aids.

Mrs. Osoff was a resident of Albuquerque for many years and was well-known for her charitable activities. The incorporators of the fund originally were organized as a sewing group. Their project is

Careers/in Adventure at General Electric

TO: General Electric Company
570 Lexington Ave., Rm. 801-C
New York, N. Y. 10022

Gentlemen:
Show me what it's like to be one of the new generation of idea men at General Electric. Where I might work. What I'd do. What kind of people I'd work with.

Send me my free copy of the 20-page booklet "Careers in Adventure," filled with full-color photographs that show G.E.'s young men — and women — at work in today's most challenging fields: electronics, urban lighting and transit design, aerospace and computers, jet propulsion and nuclear power and all the rest.

Name _____ (PLEASE PRINT)
College or University _____
Address _____
City _____ State _____ Zip _____

Got a pencil?

Frankly, General Electric is after the cream of the 1966 crop of graduates. See for yourself what you could be doing next year. Fill out the coupon for a copy of our booklet "Careers in Adventure."

Not just the top engineers. And not just the top scientists. But the outstanding graduates in other fields: economics, business, law, accounting and the liberal arts as well.

And talk to the man from G.E. during his next campus visit. Come to General Electric, where the young men are important men.

Progress Is Our Most Important Product
GENERAL ELECTRIC

Over or Under 21? Need Identification for Both

By ROGER EBERT
The Collegiate Press Service
"Effective Jan. 27, anybody 12 through 21 can ride an Astrojet for half fare . . . To qualify for the fare, all you have to do is prove, you're at least 12 years of age but under 22 years, and purchase a \$3 identification card."—Advertisement.

"Next, please."
"Uh, I'd, uh, like to fly to, uh, San Francisco? One of those half price deals for us college kids under 21?"
"You don't look 21 to me. You look about 23."

"Well, yeah, I guess I do look old for my age. Like a lot of times I get served in a bar, you know, without showing my I.D. card. I mean, without being asked for my I.D. card."
"That's another thing; to participate in our new program you must have an I.D. card."
"Great. You can put down I'm 19."
"Do you have any identification?"
"Identification?"
"We can't give you an I.D. card without identification."
"Oh. Well . . . yeah, I've got identification."

"Can we see it?"
"See it? Oh, yeah, sure. There's this thing, though. It's fixed."
"Fixed?"
"Yeah. It—uh—says I'm 23. So I can get served. You know the bit."
"Well then how can you say you're 19 when your identification says you're 23?"
"Look, man, who bothers to be 23 anymore except us 19-year-olds? Use your head."
"Birth certificate?"
"Counthouse burned down."
"Well, give us three bucks then and you can have a card."

"Can I pay by Diner's Club?"
"Diner's Club? You have to be 25 to get a diner's Club card."
"Yeah? Well, it's not in my name but I pay the bill, see? It's in my brother-in-law's name."
"How old is he?"
"Nineteen. But I got it for him by pretending to be 25. Since it's in his name."
"Right. Then sign here."
"Thanks a lot, I mean I really appreciate this."
"Glad to be of service. There's only one thing."
"One thing?"
"We aren't permitted by law

to serve alcoholic drinks to minors in flight."
"Hell, man, that's okay. I got I.D."
Anthropology
All interested persons have been invited to attend this Friday's meeting of the Anthropology Club to be held in Anthro 141 at 7 p.m. The meeting will have a two-fold purpose. Jerry Dawson will present a talk with slides on the Folsom material on which he has been working, and annual officer elections will be held.

TEAR OUT THIS AD

Our average student reads 5½ times faster than his starting speed with good comprehension

How Is This Possible?

READING DYNAMICS is a unique, revolutionary new process of reading rapidly down the page, allowing the eyes to trigger the mind directly.

HOW DID IT START?

Twenty years ago Mrs. Evelyn Wood, while working toward her master degree, handed a term paper to a professor and watched him read the 80 pages at 6,000 words per minute with outstanding recall and comprehension. Determined to find the secret behind such rapid reading, she spent the next two years tracking down 50 people who could read between 1,500 and 6,000 words per minute. She studied their techniques, and taught herself to read at these faster rates. Now after years of testing, you can benefit from this great discovery.

WHAT ARE THE RESULTS?

95% of our graduates read 3 to 10 times faster than their starting speed with good comprehension and recall.

WHY DO MANY PEOPLE READ SLOWLY?

Three bad habits cause most slow reading:
(1) Saying the words to yourself.
(2) Seeing only one word at a time.
(3) Regression — going back and rereading unnecessarily.

WHY READ RAPIDLY?

With the knowledge explosion of today it is impossible for the average reader to keep up in his field, much less learn about the many new things that are happening.

How is it Different From Other Courses?

Conventional rapid reading courses aspire to 450-600 words per minute. Most Reading Dynamics graduates can read between 1,500 and 3,000 words per minute.

NO MACHINES ARE USED

You learn instead to use your hand as a pacer, a tool you always have with you.

HOW ABOUT TECHNICAL MATERIAL?

Special techniques are used on technical material. Students are asked to bring their own technical books to study. That way they can get some of their homework out of the way.

WHAT DOES THE COURSE TEACH?

- Reading more than one word at a time.
- How to read down the page
- How to preview the book
- How to read without hearing or saying words
- Reading with a planned purpose
- How to recall what you read
- How to study for a test
- How to read technical material
- How to make permanent recall records.
- How to read newspapers, magazines. How to read classics and conceptual material
- How to comprehend rapidly
- Stabilizing of speed and comprehension

Who Has Taken The Course?

Over 150,000 people from 12 to 84 years of age have taken the course. Here are some of their comments:

Senator Proxmire, Wisconsin: "I must say that this is one of the most useful education experiences I have ever had. It certainly compares favorably with the experiences I've had at Yale and Harvard."

Senator Symington, Missouri: "I can read most material at speeds above 3000 W.P.M. and technical materials in the 2000 W.P.M. range."

Pete Smythe, KOA radio: "I not only enjoy reading more, but feel that my concentration and comprehension have greatly improved. On novels I have now settled down to about 2000-2500 W.P.M. My initial test showed a reading speed of 350 W.P.M."

Ed Koepke, Co-owner KDEN Radio: "I feel a real sense of achievement in being able to multiply my reading speed by about 10 times what it was when the course began, and also being able to increase my comprehension."

RESULTS ARE GUARANTEED

We guarantee to increase the reading efficiency of each student by at least three times with equal or better comprehension. We will refund the entire tuition of any student who does not triple his reading efficiency as measured by the beginning and subsequent tests, or the student may retake the course free of charge.

LIFE TIME GRADUATE PROGRAM

The Evelyn Wood Reading Dynamics Institutes conduct regularly scheduled classes for their graduates, free of charge. During these classes graduates retain their new reading skills, learn to achieve higher speeds, better comprehension . . . and when necessary, receive individual counseling.

You Are Invited To Attend Free Public Demonstrations

You will see an amazing documented film about Reading Dynamics.

Learn how Reading Dynamics can help you to faster reading, improved comprehension, greater retention.

Just by being present you may win a course absolutely free.

Chapel Has Only One Fault; Hours Are Not Long Enough

By BARBARA E. WARNE, LOBO Copy Editor

There is peace in this world of war. There is even quietness in which a person can sit alone and think. Of course, a place where one can find these qualities is rare indeed. But there is one place like that on this campus.

The Alumni Memorial Chapel is religious only for those who go there looking for religion. There are no symbols of any kind in its tranquil room. The only permanent fixtures in the chapel are the Indian paintings on the wall. Nothing in the place is moveable.

Smokey's Friends Don't Play With Matches

To Europe below \$100

Your summer in Europe for less than \$100 (including transportation). For the first time in travel history you can buy directly from the Tour Wholesaler saving you countless dollars. Job offers may also be obtained with no strings attached. For a "do-it-yourself" pamphlet with jobs, discount tours and applications send \$1 (for material, handling, air mail) to Dept. W., International Travel Est., 68 Herrengasse, Vaduz, Liechtenstein (Switzerland).

Therefore nothing can be stolen. Hence we wonder why the chapel is locked so tightly much of the time.

The chapel, southwest of the Administration Building, is open from 8 a.m. to 5 p.m. Monday through Friday when the University is in session.

What good is a chapel that is only open one-third of the time on three-fourths of the days. That is not enough.

Perhaps the people responsible for this would argue that vandals might destroy parts of the chapel if it is left open at night. Perhaps this is true.

But what about the people who could use the chapel so very well to think, or perhaps to pray, without being hindered by someone else's symbols.

The chapel was even locked one morning during finals week at 10 a.m. Of all the times for the chapel to be locked! Finals were everywhere, life was hanging in the balance. And the chapel was locked.

We have enough police on this campus to patrol it well. At least it always seems that way when someone is parked the wrong way.

The chapel should be open until midnight each night including Saturday and Sunday. It should be ready for use by students who have found out what a beautiful place the Alumni Memorial Chapel is.

Concerts Scheduled By UNM Orchestra

The University orchestra has scheduled three concerts for the second semester.

One of these — on March 27th — will be in Los Alamos. Its being sponsored by the Los Alamos Sinfonietta.

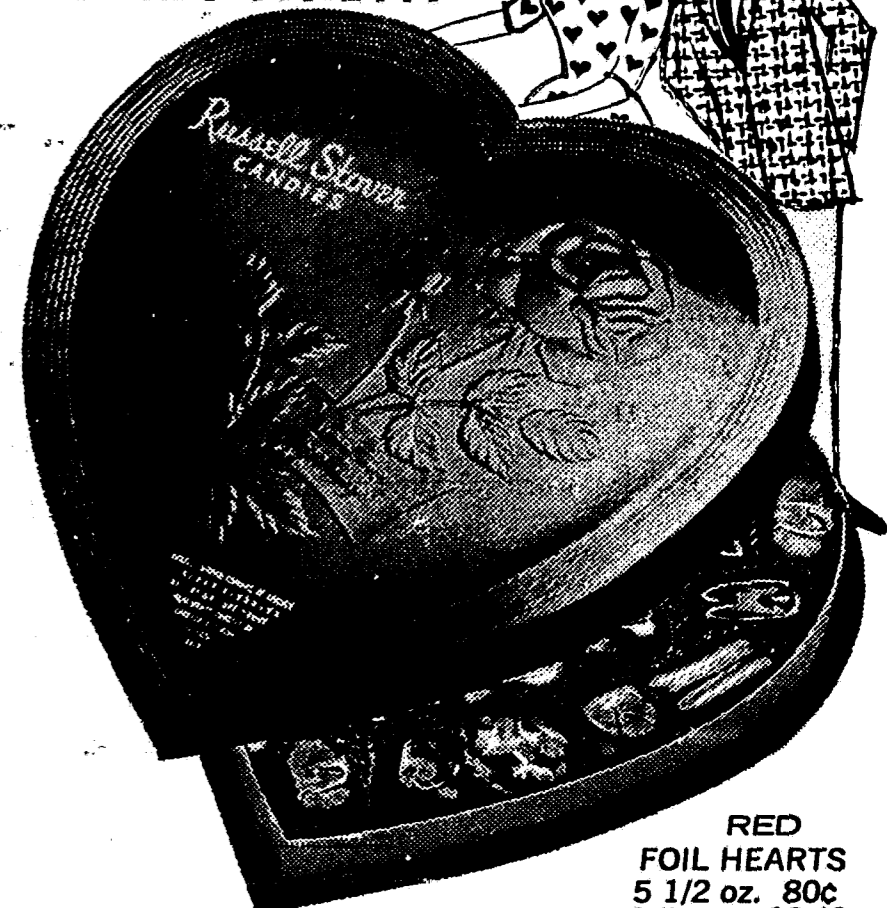

The other two programs — on March 1st and May 12 — will be presented in the University's Fine Arts Center. Music professor Kurt Frederick is the orchestra's director.

Baseball Exams

All freshman baseball prospects have been requested to report for their physical examinations at the varsity training room in Johnson Gym. The physicals will begin promptly at 7:30 p.m., Wednesday, February 9.

You'll like living in the Southwest!

Gymnasts Face Arizona

The UNM swimming and wrestling teams will be home this weekend but the gymnastics team faces a tough assignment in Arizona.

Coach Bob Barney's swimmers face the defending Western Athletic Conference champion Utah Saturday at the Johnson Gymnasium pool. The 2 p.m. dual could be a preview of the upcoming WAC championships. Utah scored 203 points for its first place finish last year while the Lobos were in second with 101.

New Mexico enters the meet with a 6-2 record after taking one victory during last week's three meet swing through the midwest. The Lobos defeated Notre Dame 62-33 after losing to Illinois 50-44 and Northwestern 58-37.

Top returnees from last year's Utah squad include Kim Bernard, WAC champion in the 100 yard breaststroke and 100 yard freestyle winner Steve Smith. Coach Don Reddish will be bolstered by

a fine group of Junior College All Americans including Mike Garibaldi, a transfer from Foothill JC who was the fifth person in the history of swimming to cover the 1650 yard freestyle in less than 17 minutes plus Terry Craig from Orange Coast City College who holds the national junior college record in the 100 yard backstroke.

Coach Bill Bynum's wrestling team puts its 5-4 record on the line here this weekend when the Lobo grapplers meet Arizona State College Friday at 8:00 p.m. and the Air Force Academy at 2:00 p.m. Saturday.

New Mexico wrestlers split last week with a 37-0 loss to second ranked Oklahoma but came back with a 28-10 victory over the University of Arizona. Marty Lyman suffered his first loss of the year when Oklahoma's Greg Ruth won a 4-3 decision. Lyman now stands at 8-1 for the year.

Coach George Gilmore's gymnastics team travels to Tempe, Arizona, for a three way meet with host Arizona State University and the University of Southern California Saturday.

The gymnastics team upped its season record to 6-4 last week

with a clean sweep in Kansas. The Lobos defeated Central Missouri State 137-25-93.90, Wichita State 137.25-119.05 and Fort Hays State 127.65-116.40. Arizona State University finished third in the league last season and defeated the Lobos 61.5-58.5 in the dual meet last season.

Simms Lecture Set for April 1

The annual John Field Simms lecture has been set for April 1 with Chief Judge Charles E. Wyzanski Jr. as the lecturer.

Wyzanski is the chief judge of the United States District Court in Boston, a senator of Phi Beta Kappa and a former president of Harvard University's Board of Overseers. He has lectured widely in the United States and abroad and is the author of numerous articles in professional and literary journals.

The lecture is sponsored by the UNM School of Law.

UNM Library Given \$1200 Microfilm

UNM librarian David O. Kelley has announced that \$1,200 worth of microfilm has been given the library by the Friends of the University Libraries.

The microfilms cover the papers from eight presidents beginning with Andrew Jackson and ending with Benjamin Harrison.

The reels were purchased from the Library of Congress in Washington, D.C. Dr. Hamlin Hill, professor of English heads the Friends of the Libraries.

UNM's Varsity Golfers Defeated by Alum Team

By NOOLEY REINHEARDT
LOBO Sports Editor

The UNM varsity golf team started the season in a manner that local golf fans hope will not become a habit.

In a triangular meet last weekend the varsity was soundly defeated by the "has beens" or if you prefer the alumni squad, and edged by the Wolfpups.

Guy and Herb Wimberly, both former conference title holders, led the alum attack. Guy took medalist honors with a 3-under par 69 and Herb was right behind with a 1-under 71.

Between them they had only one bogey all day—Guy bogeyed No. 15. He toured the front side in 34 shots and a 35 on the back. Herb had nine straight pars on the opening side and eight pars and a birdie on the back.

The Wolfpups' Terry Dear also

fired a 71 to tie for second place honors. Perhaps the outstanding performance of the day was turned in by another freshman—Dwayne Knight who hails from Valley High School in Albuquerque.

In the match, match, medal play tournament he was paired with Guy Wimberly who has turned pro since winning the WAC title in 1963. The 125-pound freshman fired a sizzling 35 on the front side only to lose that match to Wimberly's 34.

On the back side he played flawless golf until the 16th and 17th where he bogeyed only to rally with a par on 18 after a fine effort for the bird.

Dwayne is originally from the golf-minded state of Florida where now touring professional Dave Ragan gave him his first lessons. But he gives full credit to Lobo coach Dick McGuire for "perfecting his game,"

Childrens' Pictures Featured in Exhibit

A photography exhibit is this month's feature by the Art and Exhibit Committee of the Union Program Directorate.

The Magnum Photos exhibit, entitled "Chim's Children," consists of 40 black and white photographs of children from different countries. The pictures were taken by photographer David Beymour, who is known as "Chim," and they

depict his distress of the misfortunes of foreign children.

The exhibit will hang in the Union Gallery all through this month. Visiting hours for the gallery are Monday through Thursday from 7:30 a.m. to 10 p.m., on Friday and Saturday from 7:30 a.m. to midnight, and Sunday from 9 a.m. to 10 p.m.
