# Emergency Meeting Called To Investigate Suspensions Faculty Meeting Student Body Meeting

By ROB BURTON Editor-in-Chief

The UNM faculty will meet in emergency session tonight at 8 p.m. in Mitchell Hall 122 "to discuss the policy issues raised by the suspension of three UNM students in connection with a non-violent demonstration" last week, said a notice delivered yesterday to faculty members.

The meeting has been called an ad hoc committee of faculty who profess themselves concerned at the administration's failure to make use of the student standards committee, "as provided for in the Faculty Handbook."

Henry Weihofen, UNM professor of law, will chair the meeting.

As word of the suspensions Wednesday spread and the role of the University's vice-presidents became clearer, faculty members began to attempt to intercede on behalf of the suspended students.

James Thorson, an English professor and chairman of the UNM chapter of the American Association of University Professors (AAUP), Saturday polled the executive committee of the AAUP and gave a resulting resolution to Vice-President Lavender. It said in part, "we feel that due process, as required by the joint statement on student rights which the UNM chapter of the AAUP adopted last spring, may have been violated."

The AAUP letter suggested the administration rescind the suspensions "until a court of original jurisdiction . . . is able to hold hearings as to fact."

For a while Saturday, for those involved in the peace negotiations, it looked as though the adminstration might take a more conciliatory stance. The vice-presidents met Sunday morning, however, and stood by their original ruling.

At issue, said a high administrative official, was the administration's right to suspend any student without having to hold a hearing.

Yesterday six professors met to consider alternative approaches to the administration. Several had been involved in the circulation of a petition signed by 62 faculty members that was critical of what they called a violation of the spirit if not the letter of university policy and procedure as set forth in the Faculty Handbook.

The petition also criticized the selectivity of the suspensions—it said that since as many as 300 might have been involved the suspensions "might be more related to their other activities (as student leaders) than to the charges against them."

By GRANT HARVEY **News Editor** 

Student Senator Steve van Dresser has reserved the Union Ballroom tonight in the name of student government for a general student meeting to discuss the suspension of Manuel Wright, Alen Cooper, and Larry Russell.

Van Dresser, who indicated that the cost of the room came from the pockets of he and other individuals, said that student government itself was not taking a position on the issue.

"We were able to get the room by using Article Two of the Constitution of the Associated Students of UNM (ASUNM) which reads under Student Rights, section two: The student government shall be bound to protect the free expression of ideas," van Dresser said.

In the scheduling book the meeting is labeled, "student government, open discussion."

A leastet handed out by students yesterday and today publicizing the meeting states the purpose of the meeting is to "Discuss the suspension of three UNM students for their actions on campus."

The leaflet goes on to state, "These students were suspended without benefit of a hearing as an example for the rest of the student body. This action affects all of us. Come and get the facts and ask questions." The three suspended students are expected to attend the meeting to

explain their position and reasons for appealing their suspension. Cooper, Wright, and Russell have stated that the administration has not followed due process of suspension policy.

ASUNM President, Jim Dines, said the meeting could be called a student government function because it is open to all students. "It is the duty of" student government to provide a situation in which dialogue between students on this campus can be exchanged," he said.

"I must stress that anyone can come and express any opinion at this meeting," Dines said. "Student government is not sponsoring any faction in this controversy. We are merely providing the students with a chance to verbalize their opinions."

In respect to van Dresser having reserved the Ballroom in the name of student government, Dines said. "This is perfectly in order. The only people who can officially schedule things like this are van Dresser, president protempore, vice president Ron Curry, and myself.

#### Travelstead Says

# Suspension of Students Not Penal Action

By STEVE LAPRADE Staff Writer

"It shall be understood that the University's function is

educational and not penal."

This excerpt is taken from the "Faculty Handbook" which says penal decisions (such as the suspension of three UNM students for disturbing an NROTC exercise) are the responsibility of the Student Standards Committee.

Dr. Chester Travelstead, UNM academic vice president, when asked if the suspension decision was penal, said, "We didn't consider the ruling to be penal."

The Lobo asked other vice presidents about the suspensions. Dr. Sherman Smith, administrative vice president, said, "Talk to Dr. Lavender. He knows as much as I do and it will be better if he did all the talking".

Dr. Harold Lavender, vice president of student affairs, was not available for comment.

The suspensions were made without consulting Student Standards. As it now stands, any student appealing the suspension must prove he is innocent of the charge.

The Winter 1967 "AAUP (American Association of University Professors) Bulletin", in its "Joint Statement on Rights and Freedoms of Students" said, "The burden of proof should rest upon the officials bringing the charge."

Dr. E. Smith, director of housing and administrative representative on the Student Standards Board, said that today's Student Standards meeting will not have the suspended student on the agenda. Manuel Wright is the only one of the three suspended students who has appealed. His case is tentatively scheduled for next Tuesday.

A "Position Paper on Student Suspensions" has been circulated for signatures of people who feel "an injustice has been committed. Those of us who have signed below urge that the suspensions be lifted."

The paper says, "The administration's action in suspending the three students seems to us invalid for the follow-

1. "According to several ROTC cadets, there was no in-

there was not even a real offense to punish. Furthermore, there was no hostility between members of the two groups; some of those involved in the watch-in were invited by ROTC members to join relay races, and, after the suspensions, several ROTC members expressed sympathy with the suspended students. If nothing in fact happened, how can there be punishment?

2. "The punishment itself, a full year's suspension, was obviously excessive and out of all proportion to what actually occurred. No one was injured, no property was destroyed or harmed, no one was threatened, nothing was stolen, and no one was harassed or intimidated.'

3. "The singling out of three students from 200 or so participants suggests that the administration was using the event as an excuse to retaliate against certain students who have been active in University reform. If the University really thought some serious offense had been committed, they should have proceeded with mass suspensions.

4. The charges on which the students were suspended are flimsy at best. First, it is questionable whether an

terruption of the ROTC calisthenics or relay drills. Thus NROTC relay race is a "regularly scheduled academic event"; in any case, nothing happened on that field to "interfere with others in the pursuit of an education" or to "adversely affect the educational function of the Uni-

> 5. The procedure by which the suspensions were determined cast doubt on the validity of the charge. The decision was made too swiftly, as though there were some imminent danger to the campus."

> A "Complicity Statement" is also being circulated for signatures of other people who were at the NROTC demonstration. The administration has said that anyone who signs the statement will be suspended.

> Allen Cooper, one of the three suspended students, said that about 50 people have signed the complicity statement and the goal is 200 names. Cooper has not yet appealed his suspension to Student Standards. "As far as I know now, I will not appeal unless there is an open hearing."

Larry Russel, another suspended student, said, "I am not planning to appeal at the present time."

If Student Standards overrules the suspensions, University President Dr. Ferrel Heady has the final ruling. He would be, in effect, ruling on his own original decision. Heady does not have to follow the Student Standards ruling, the Faculty Handbook states.

President Heady was in Ecuador for the dedication of the Andean Study and Research Center at Quito and could not be reached for comment.

UNM Academic Vice President Chester Travelstead was asked if he was aware of faculty and student concern about the decision to suspend the three students.

"I'm always aware of the concern. I was concerned about the whole matter, and I feel, as Dr. Lavender does, that our action was just and proper.'

Travelstead, asked why the cases were not referred to Student Standards, said, "We didn't want to cause any greater harm to the students involved, and we wanted to avoid any wider publicity."

Debate ......

"Now gentlemen, time is short, but how can we lose with our wonderful 'something for everyone' offense."

## It Could Happen Here

After releasing his commission's report on the Columbia revolt. Archibald Cox tried to measure the intensity of the crisis. "Columbia both before and after the disturbances," he said, "seems clearly to be a microcosm of the nation. And if the problems cannot be solved at a university, then where can you solve them?"

The awesome, obvious corollary to this is that Columbia's problems are the problems of Duke and of most universities in the country, and it is here that we must fix the blame and find the solution to our distress.

While attacking the use of "violence or physical harassment or obstruction" as "never an acceptable tactic for influencing decisions in a university," the Cox commission accused the administration and the faculty of helping to cause the "combustion."

The faculty, they wrote "did not participate in institutional decisions and, therefore, could contribute little to provide the university with internal coherence." They became "more and more remote from the problems of student life and general policy not directly related to formal instruction."

They accused the administration of "evasive improvisation" and declared that they "too often conveyed an attitude of authoritarianism and invited mistrust."

It is not possible to translate directly these criticisms of Columbia into a commentary on Duke. Douglas Knight is not at all like Grayson Kirk. The university administration for all its faults is not as insensitive as the administration at Columbia. Nor are the students here ready to seize campus buildings. But there are grave similarities.

Perhaps the most important thought of the Cox commission lies in these two lines:

"Any tendency to treat a university as a business enterprise with faculty as employees and student as customers diminishes its vitality and communal cohension."

"The government of a university depends, even more than that of a political community, upon the consent of all the governed to accept decisions reached by its constitutional

All of the members of this university should see themselves as part of a reasonable and open community, but they cannot possibly envision it in this way. Instead students must look at a faculty jealously guarding its hard-won prerogatives in curriculum from student encroachment. They must look at an administration prone to secrecy and, at times, deception. And they must see at the top of this heap 36 men and women who make decisions, usually it seems, without hearing from the entire university community.

We must have a revolution before we can become a community. And this revolution must extend to the trustees, the faculty, the administration, and the students. From their splendid isolation they must realize the stupidity of secrecy. of evasion, of arrogance in decision-making. And while we refuse to listen to one another, we increase the polarization and paranoia that has been growing the past few years.

Until we can all find in ourselves a vision of the community we need we will be governed by stereotypes and misunderstandings. We must have a peaceful revolution in attitudes, a liberation from traditional polarities. And we must have it now.

President Kennedy once said, "Those who make peaceful revolutions impossible make violent revolution inevitable." It could happen here.

## To The Editor:

CIVIL OFFENSE SYSTEM To The Editor:

Friday morning, Oct. 25, at about 11 a.m., six friends and I were given the opportunity to see the Albuquerque Police Department's "civil offense system" in operation.

tral, on our way to meet some friends for a trip to Santa Fe. The car was crowded, but legally so-with three people in front, and four in back. It was an old Ford with Colorado plates, a Mc-Carthy flower on one window, and a "Boycott Grapes" sticker on the rear bumper—obviously a car belonging to a suspicious and/or dangerous individual.

Or thus seemed to be the logic of the Albuquerque policeman who pulled us over and detained us for some 25 minutes in front of the Yale entrance to the uni-

He asked for the car's registration and an explanation of the out-of-state plates; both the registration and explanation were in order. Then without giving any reason for his request, he asked for identification from the seven

One of the people in the car was 17: he was asked if he was running away from home. (Impressed by the policeman's concern we all turned to our friend and heartily urged him to remain in the car, to continue to Santa Fe, and to abandon any foolish thoughts about running away that might have been placed in his in-

Another person said she was 25, she was told she didn't "look it." murmured girlishly, "Thank yew," graciously ignoring any insinuation of her having lied about her

Noticing our impatience, (indeed we had by this time asked the policeman for his reason in pulling us out of a heavy stream of traffic for such intensive interrogation), the Officer of the Law assured us that the procedure was one designed to protect us from ourselves, as it were.

He explained that many times young run-aways can be persuaded to return home by their friendly neighborhood policeman who happens to discover them in the act; we repeated that none of us, not even the 17-year-old, planned to run away that day.

He explained that often sketchy reports were radioed to patrol cars, reports of thefts or murders or other crimes committed by "hippie-types" and a general

search would begin on the basis of the information no matter how To The Editor:

For example, the harrassment here of men and women with long hair several weeks ago was "justified" by a radio call for a California murderer with long hair and an earring in his ear-all men with long hair in the vicinity of the Dairy Queen were natural-

We replied that since we felt at one with the hippies of the area, we would write them all an open letter; "Attention Hippies: There is a California murderer among you," and that method we emphasized, was as likely to uncover pus. the murderer as was the police

Finally he reported that cars with out-of-state license plates were more likely to be stopped, and at that moment—as if by the will of the Great Pumpkin-a big, shiny Chevy rolled by with Arizona plates.

"Hark," we cried, "Arizona plates, and the driver . . . why he looks like a pusher to us!" "After him!" we cried, "and check the hubcaps." But the policeman remained by our side and calmed us with the words that some people looked more suspicious than

You know the rest, I'm surehe threatened us with traffic tickets which legally he could not give. He urged us to cooperate in the future, to understand the work of the police and to assist

Finally we were free to go. We laughed, we yelled, "We love you. But listen, Albuquerque Police, you make it really hard to even like you. It's nothing personal. No more personal than was the policeman's decision to choose us as the audience for his demonstration of the civil offense system designed to humiliate and harrass any young person, anywhere and at any time.

Mary Dorothy Neary

#### **AUTONOMY**

To The Editor: I have read with great interest

your editorials about the need for university autonomy. As a professor (English), a lawyer, and an administrator, this subject rightfully demands much of my interest. I am in complete agreement with your position, and l believe that in championing the integrity of the university you have placed your paper in the best tradition of student journalism.

> Fred B. Warner, Jr. Assistant Dean, College of Arts and Sciences

ROTC RELAYS

We ran up-and-down the fields. played chase, and cheered ROTC calisthenics. The administration and the police felt they had to "protect" two groups from each other—in reality there was little personal hostility. I want to thank my friends in ROTC for their good humor and publically apologize for any insults they may have received. In fact, some of the drillers jokingly invited us to run relays with them. They are all my classmates whom I respect

I oppose the military on cam-

REASONABLE

Manuel Savage

**ALTERNATIVES** 

To The Editor: I believe that the letter by James R. Piatt in The Lobo of Oct. 28 deserves reply since it reflects the muddled thinking of many who support the war. As one who has seen and supported several "reasonable alternatives that won't lead us to anarchy," I consider myself a proper self-appointed spokesman.

First I belive that those Americans who have spilled their blood in Viet Nam have done so in vain. Even Curtis LeMay would probably agree with me on that

Mr. Piatt's argument that the anti-war protesters are responsible for the deaths of American servicemen reminds me of the Mobius strip. No matter where one begins one is led along an essentially one-dimensional path

As far as I can determine anyhow, it was Johnson, Rusk, and a few generals who sent the bulk of the forces "over there" while most of the anti-war types preferred that the soldiers stay home as civilians. Mr. Piatt might more appropriately mourn the loss of blood of those Vietnamese who neither volunteeered nor allowed themselves to be drafted but happened to live where the United States Government chose to impose its ethnocentric style on the

My advice (free, of course) to Mr. Piatt is that if he is as opposed to the war as he claims he is, he should urge his draft-liable friends to use whatever legitimate means necessary to stay out of military service.

Ray Crain

Engineering and Science at IBM

"You're treated like a professional right from the start."

"The attitude here is, if you're good enough to be hired, you're good enough to be turned loose on a project," says Don Feistamel.

Don earned a B.S.E.E. in 1965. Today, he's an Associate Engineer in systems design and evaluation at IBM. Most of his work consists of determining modifications needed to make complex data processing systems fit the specialized requirements of IBM customers.

Depending on the size of the project, Don works individually or in a small team. He's now working with three other engineers on part of an air traffic control system that will process radar information by computer. Says Don: "There are only general guidelines. The assignment is simply to come up with the optimum system.'

#### Set your own pace

Tuesday, October 29, 1968

Recently he wrote a simulation program that enables an IBM computer to predict the performance of a data processing system that will track satellites. He handled that project himself. "Nobody stands over my shoulder," Don says. "I pretty much set my own pace."

Don's informal working environment is typical of Engineering and Science at IBM. No matter how large the project, we break it down into units small enough to be handled by one person or a few people.

Don sees a lot of possibilities for the future. He says, "My job requires that I keep up to date with all the latest IBM equipment and systems programs. With that broad an outlook, I can move into almost any technical area at IBM—development, manufacturing, product test, space and defense projects, programming or marketing."

#### Visit your placement office

# Columbian Educators Aided by UNM Group

A group of UNM advisors is schools train students as elemenhelping educators in Columbia in the first phase of a program which will modernize the secondary education system there.

The first phase of the project consists of technical advice to the Colombian Ministry of Education by the specialists sent by UNM to South America, and training of Colombian educators on the Albuquerque campus.

Additional educators will be sent to the UNM college of education for training. During the past academic year 15 Colombian school administrators were here training as high school principals, and another nine were trained as guidance counselors.

\_ At the same time, UNM has submitted project proposals for the second phase of the project. The entire project possibly may take 15 to 20 years to complete.

"I feel pretty certain that some aspect of the second phase program will be contracted with UNM," Dr. Frank Angel, the project director at UNM, says.

## Society's Flaws Topic of Films

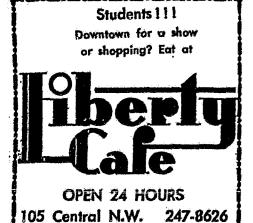

The faults of contemporary society will be the subject of a 90minute program of "underground" films titled "Protest and Politics" to be shown Oct. 31 at 7:30 p.m. in Popejoy Hall.

The program includes the

works of several experimental filmmakers such as Tom Palazzolla. Jeff Dell, and Robert Feldman. "Hey Stop That," by Robert Feldman is a satire on bomb shelters, the police, and the armed forces.

"Not As Yet Decided," uses two small children to make a comment on race hatred. It was produced by Jeff Dell.

Tom Palazzolla's "America In Real Trouble," shows a parade to make a comment on "the regimentation and the pomp of war."

## 'LBJ Doing All He Can'

# War Policy Gains Backing

PHILADELPHIA (UPI)—The lowing the Paris peace talks on percentage of Americans who be- Viet Nam, compared to 75.9 per lieve President Johnson is doing everything he can to end the Viet Nam war has risen in the past six weeks although more people now lisagree with the U.S. conditions for a bombing halt, a nationwide survey indicated Monday.

The findings were reported by the Sindlinger survey following a telephone poll of 1,197 adults conducted last Wednesday and Thursday. Sindlinger, a market analysis firm in suburban Norwood, took a similar poll Sept. 9 through 11.

Sindlinger also reported that despite the climb in approval for Johnson's efforts on Viet Nam, the percentage of persons believing he was doing an "overall good job" as president dropped.

Asked whether they agreed or disagreed "President Johnson is doing all he can to settle the war in Viet Nam," the replies by percentage in the two samplings

Oct. 24 Sept. 11
Agree 49.6 47.1
Disagree 32.1 39.1
Conditional 9.3 5.6
No Opinion 9.0 8.2
This left a balance of 21.7 per cent currently approving of Johnson's efforts, compared to 7.9 per cent last month.

Asked, however, whether they agreed or disagreed with the U.S. position "that we would halt all bombing in North Viet Nam only when there is a compensating and similar reduction of military action by North Viet Nam," the results of the two polls were:

Oct. 24 Sept. 11 61.6 63.2 18.5 22.4 19.9 14.4 Sindlinger said 77.5 of those questioned said they had been fol-

cent in the earlier sampling. The percentage of those who said the progress of the peace talks in Viet Nam was going as well or better than expected rose while the percentage finding the progress "not as good as expected" dropped sharply. The percentages were:

When asked to rate Johnson's overall performance of his job as president, the replies by percent-

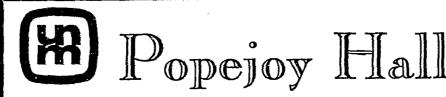

Good 44.0 46.7
Bad 22.2 20.9
Conditional 23.7 24.0

They hooted the few visible Soviet troops off the streets and burned "friendship" literature the Soviets offered.

No arrests or injuries were re-

Inside Hradcany, Soviet and Czechoslovak leaders spoke of cooperation and "normalization" at ceremonies marking the 50th anniversary of Czechoslovak independence. Outside, the youngsters clamored for their leaders.

The young people of Prague took matters into their own hands in total defiance of a ban against anti-Soviet demonstrations imposed by their elder government They filled the cobbled streets

of this old city with sights and sounds since the days immediately following the Aug. 20-21 invasion of Czechoslovakia by Soviet and other Warsaw Pact troops. "Go Home" Russians

estimated 2,000 of them yelled their "Go home" message above the heads of 500 Prague police. Police restrained the cursing, jeering mob firmly and without using billy clubs. A fire truck was

called in to nudge them gently

down the street.

Outside the Soviet embassy, an

alization" through loudspeakers:

"Please, we beg of you, go back to your homes. Otherwise we will be forced to act accordingly to the laws of the land."

"That's trash, that's trash!" the students chanted back. They retreated from the em-

bassy only to mass outside the Prague national theater and to cheer national leaders arriving for an opera.

Student Cheer Dubcek

Dubcek, the Communist party chief who engineered the reform movement curtailed by the Soviets, had to stop his car 100 yards from the theater and struggle through the throng on foot. The students roared their admira-

While the embassy demonstration was in progress, other young people massed in old town square. They foiled the only attempt the Soviets made all day to meet the demonstrators, hooting and

to pass out literature and burning the offered papers. Soviet occupation patrols kept well to the side streets and made no move to launch the "retaliation" predicted by government leaders. Prague police protected

the embassy but did not other-

whistling at soldiers who tried

throngs. From Old Town Square, the students marched miles across Prague to Hradcany — here and there picking up adult support until their ranks were 4,000 strong under red-white-and-blue

national flags. Mini-skirted girls, curly haired youths sporting Mao Tse-Tung buttons, students in bulky sweaters, women pushing baby car-

riages, all joined the parade. Their vanguard banner read "When a giant spits in your eye ... " and pictured the slingshot of Biblical David.

They chanted "occupation army get off our backs" and "long live

# YOU FORGOT MOST IMPORTANT

And you had better believe it. Because Tickets for the talk, one in a throughout your college career, you'll spend over 5,000 hours with your nose in a book doing just your required reading. That's if you are a "normal" student with a reading rate of 250 to 400 words per minute. And you know, that's a shame, because if you had enrolled in the revolutionary Evelyn Wood Reading Dynamics course you could save at least 3,700 of those hours.

> For ten years now Reading Dynamics has guaranteed to at least triple your reading speed or refund your entire tuition. Over 400,000 students have taken up our offer and are now reading 3 to 10 times faster. Results? Hundreds, even thousands, of hours of irreplaceable free time for you to invest as you choose: campus social activities, "want to" courses, making love not war, raising your grade point average, or a part-time job. Just think, if you could cut 3,700 hours off your required reading time and invested only 2,500 of those hours in a job that paid \$1.75 an hour, you could earn \$4,375.

So wise up. Put the remarkable Evelyn Wood Reading Dynamics course at the top of your schedule for the new term. The course takes just a few weeks and is designed to dovetail perfectly with all scholastic classes. And you will find that the time you put into Reading Dynamics comes back many-fold before the basic course is finished.

Reading Dynamics is an incredible educational breakthrough. It's the definitive rapid reading method in the world today. Our graduates consistently surpass the 450 to 600 word per minute rates aspired to by conventional reading courses. Most Reading Dynamics graduates read between 1.000 and 3.000 words per minute. Many go higher, and all understand and appreciate what they read at these staggering speeds.

Free Reading Dynamics Mini-Lesson How does Reading Dynamics do what we say it does? Find out ... at one of the free Reading Dynamics Mini-Lessons listed below. During these exciting, hour-long sessions, we'll tell you the naked truth about Reading Dynamics. And since we dress up the bare facts with some free instruction you'll probably leave the Mini-Lesson reading a little faster than when you came in. Of course, if you want to read a lot faster for the rest of your life, you'll return for the full Reading Dynamics course.

## Date Set For Gridiron Dinner

The Albuquerque Press Club recently announced it is making 100 tickets to its Gridiron Show available to the general public.

The show, which traditionally draws the top figures in New Mexico public affairs, consists of a steak dinner and a two hour program of musical skits, satire, and film clips lampooning both the political fraternity and the news media.

"We limited ticket sales this vear because we oversold the past two years.

"The Board of Directors felt we should make some seats available to persons deeply interested in public affairs who aren't on our list of regular clients," said Tony Hillerman, club president.

early in the season.

Miss Olson said.

Last year with a relatively short team the women remained undefeated through both the state and regional Intermountain tournaments held at UNM. Five of the eight first team starters are returning this year.

More height for the team should come from two Sandia graduate, Kathi Raver (5'10") and Carol Kress (5"7")," said Miss Olson.

"If these two girls work out and make the first team, we should be in good shape," she

Miss Olson explained the empha-

X-Country Team Takes Triangular

Chuck Schuch, Web Loudat, and Adrian De Windt finished 1-2-3 as the UNM cross country team swept a triangular meet from Adams State and Northern Arizona Saturday at Roosevelt Park.

Schuch finished the three mile course in a time of 15:35.4-almost a full 12 seconds ahead of teammate Web Loudat. Loudat's time was 15:47.

UNM's Adrian DeWindt was third in 15:52. Other Lobo finishers were Tom Toft, seventh; Ray Jordan, eighth;

and Bill Utrup, ninth.

Sun Devils Heal After Big Loss

(Continued from page 6) huge Beaver defensive line for his fourth 100-yard-plus performance this season. He had runs of 18, 13, 12 and 10 yards. Enyart managed 69 yards in 23

carries with his long run of the night being an eight yarder. Malone, a junior, has a shot at his predecessor's Western Athletic Conference rushing record. Last season Max Anderson, now with Buffalo, set a league mark of

1,188 which was third nationally. If Art can keep at his current pace of 121 yards per game he'll finish with over 1,200 yards in his first year ever at fullback.

### Lake Blue After Fish Eradication

GRANTS — The waters of Bluewater Lake are blue again. For several years prior to the treatment of the lake with rotenone by New Mexico Department of Game and Fish, the water had been a murky tan in color. Now. weeks after the eradication of all fish life, the lake is crystal clear and its waters have returned to the blue color from which the name was derived.

This would seem to prove that the large number of suckers, approximately 85 per cent of the fish population, was stirring up the silt on the bottom of the lake and causing the murky water.

It appears that the Department's eradication program was 100 per cent effective as Game and Fish personnel have been unable to find a single fish of any species by electro-fishing and gill

The lake will be restocked with rainbow trout in late October or early November.

**Candidate Debate** 

Lobo photo by Bob Lager The three gubernatorial candidates are shown prior to a televised debate on KOAT-TV last night. Seated left to right are Republican David Cargo, Democrat Fabian Chavez, and People's Constitutional Party candidate Jose A. Maestas.

## McCarthy Statement Backs Vice-President

NEW YORK (UPI)-Sen. Eugene J. McCarthy will issue a statement today giving qualified support of Vice President Hubert H. Humphrey, a McCarthy aide said Monday night. Humphrey has sought McCarthy's support unsuccessfully since the Democratic convention last August.

McCarthy, along with other peace candidates from 11 states, addressed a rally at Madison Square Garden that drew 15,000 wildly enthusiastic supporters. They cheered the Minnesota senator with a standing ovation for five minutes when he entered.

McCarthy himself turned aside questions on the endorsement just before addressing the crowd and then told his audience, "I'm not going to make any significant presidential recommendations here to you tonight."

But Jerry Eller, a close friend and personal aide to McCarthy, told a newsman even as McCarthy spoke that the senator would issue a statement Tuesday in Washington. Asked if it would support the vice president, Eller replied, "Of course."

"It will be a matter of degree and extent," Eller added. He did not spell out the qualifications.

The audience chanted "72, 72" when McCarthy came on stage and the senator, smiling and flashing a "V" with his fingers, said, "No matter what happens, we will carry on after Nov. 5."

Doesn't Want Pressure He told them he did not want to be pushed into a position to give "absolution to those who came out . . ." for Humphrey or "a dispensation to those who want to."

He characterized his supporters as being independent and said they could make up their own minds. "This is not the last hurrah," he said. "I think the Pied Piper will be heard from again."

McCarthy, who unsuccessfully sought the Democratic nomination with a major plank of ending the Viet Nam war, has consistently refused to support Humphrey, saying he opposed the vice president's stand on Viet Nam.

Humphrey, both openly and in private, sought McCarthy's en- but "absolutely no package sales. dorsement.

**Gubernatorial Debate** 

# Candidates State Positions

The three gubernatorial candidates, David Cargo, Fabian Chavez, and Jose A. Maestas, had a chance to voice their positions on campaign issues in an hour-long televised debate on KOAT-TV last night.

The debate, moderated by Anthony G. Hillerman, chairman of the UNM journalism department, was originally scheduled last Thursday. The debate was delayed until the People's Constitutional Party (PCP) could nominate a new candidate for governor after Reies Tijerina was ruled ineligible as a candidate by the State Supreme Court.

In response to a question on a tax increase, Cargo said, "I foresee a change in the distribution of taxes. I foresee a tax increase."

Tax Reform He said the form of the tax increase would be "a general reform of our tax structure. We should lean more heavily on the

income tax." Responding to the same question, Chavez said, "How much money we will need will depend

on the tax distribution." PCP candidate Maestas said, "If anyone should be taxed, it should be the higher income brac-

kets." State education and law and order were two other major issues brought up by three reporters, Ernest Mills, Judy Jones, and Dick Kniping, who questioned the gubernatorial trio.

Educational Partnership

On education Cargo said, "You need a partnership between the state and your local school districts." He said he had tried to get more local support but "I did not have very much luck."

"First we have to start with bilingual education at the elemen-

tary level," said Maestas. He continued, "Let's talk to the children of the schools and ask them what they want.'

On law and order Cargo and Chavez both agreed with Maestas that environment was a prime cause of lawbreaking.

Maestas said he would "get rid of State Police Chief Joe Black first thing."

Another big issue was Sunday liquor sales. Cargo said that he favors liquor sales "on a limited basis" and that "special licenses would be necessary."

Chavez suggested a noon to 10 p.m. time limit for sales of liquor,

Maestas's main concern was

with the alcoholic. "We have a lot of alcoholics and these two boys (referring to Cargo and Chavez) have not done anything for the alcoholics."

Cargo disagreed with the accusation saying that funds had been set aside for treatment of alcoholics. "We can hardly pluck every hard drinking man out of his home and send him away for treatment," he said.

## Half-price to college students and faculty: the newspaper that newspaper people read. . .

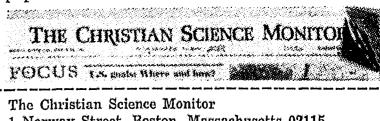

At last count, we had more than 3,800 newspaper editors on our list of subscribers to The Christian Science Monitor. Editors from all over the world.

There is a good reason why these "pros" read the Monitor: the Monitor is the world's only daily international newspaper. Unlike local papers, the Monitor focuses exclusively on world news — the important news.

The Monitor selects the news it considers most significant and reports it, interprets it, analyzes it - in depth. It takes you further into the news than any local paper can.

If this is the kind of paper you would like to be reading, we will send it to you right away at half the regular price of \$26.00 a year.

Clip the coupon. Find out why newspapermen themselves read the Monitor — and why they invariably name it as one of the five best papers in the world.
