The Chancellor's Leadership Forum Presents

Charles Friedman, PhD

Monday, December 17, 2012

9:30 – 11:00 a.m.

About This Lecture

Dr. Charles “Chuck” Friedman, an internationally known biomedical informatics scholar and health IT expert, will give a talk as part of the Chancellor's Leadership Forum on Monday, December 17.

This is a reprise of a highly acclaimed talk he gave at a recent national meeting of the Association of American Medical Colleges (AAMC).

Dr. Friedman will discuss the following:

- How the ubiquity of information available from the Internet will impact medical student learning
- The implications of medical education we can reasonably expect by 2020

About Dr. Charles Friedman

Dr. Friedman joined the University of Michigan in September 2011 as a professor and Director of the University of Michigan Health Informatics program. This appointment follows an eight-year career with the federal government and 26 years as a university faculty member and administrator.

Dr. Friedman is an elected fellow and a past president of the American College of Medical Informatics, and he is Associate Editor of the *Journal of the American Medical Informatics Association*. He was the Founding Chair of the Group on Information Resources at the Association of American Medical Colleges.

LOCATION

Domenici Center for Health
Sciences Education, Room 2410
