## **Justice and Natural Resources**

Mutz, Kathryn, Gary Bryner and Douglas Kenney. Justice and Natural Resources: Concepts, Strategies, and Applications. Washington DC: Island Press, 2002.

This book is inspired by the simple observation that the inequitable distribution of the burdens and benefits of environmental protection reaches well beyond the facility siting and pollution focus of the traditional environmental justice movement. Charges of inequity involving natural resources extraction, management, and preservation are heard increasingly throughout the nation, often emanating from the public lands and American Indian reservations of the rural West. These natural resource equity issues – as distinct from environmental issues – are typically outside the scope of the environmental justice movement, which derived largely from the environmentalism and civil rights movements.

This book explores equity issues across a diverse range of natural resource concerns, engaging readers in a debate over whether natural resource equity issues should be integral elements of the environmental justice agenda, and if so, how they can be addressed. Contributing authors organize this discussion around three integrating questions: What claims are, and should be, the concerns of environmental justice? What communities should have their interests championed under the banner of environmental justice? How do we remedy the existing injustices and prevent future ones?

The book is organized into three major sections. Part One explores frameworks for understanding environmental justice in the natural resources realm; Part Two focuses on specific contextual and conceptual issues of defining justice; and Part Three reviews on strategies for identifying and remedying injustices. A concluding chapter offers thoughts about the future of justice and natural resources.

Introduction xxxi

## Part One. Frameworks

Chapter 1. Beyond "Traditional" Environmental Justice 3  
DAVID H. GETCHES AND DAVID N. PELLOW

Chapter 2. Assessing Claims of Environmental Justice:  
Conceptual Frameworks 31  
GARY C. BRYNER

Chapter 3. Water, Poverty, Equity, and Justice in Colorado:  
A Pragmatic Approach 57  
JAMES L. WESCOAT JR., SARAH HALVORSON,  
LISA HEADINGTON, AND JILL REPLOGLE

Chapter 4. International Environmental Protection: Human  
Rights and the North-South Divide 87  
TSEMING YANG

## Part Two. Concepts

Chapter 5. The Coincidental Order of Environmental  
Injustice 117  
JEFF ROMM

Chapter 6. Environmental Justice in an Era of Devolved  
Collaboration 139  
SHEILA FOSTER

Chapter 7. Tribal Sovereignty and Environmental  
Justice 161  
SARAH KRAKOFF

### **Part Three. Strategies and Applications**

Chapter 8. Expanding Civil Rights Protections in  
Contested Terrain: Using Title VI of the Civil  
Rights Act of 1964 187  
LUKE W. COLE

Chapter 9. Forest Management and Environmental Justice  
in Northern New Mexico 209  
HENRY H. CAREY

Chapter 10. NEPA in Indian Country: Compliance  
Requirement to Decision-Making Tool 225  
DEAN B. SUAGEE

Chapter 11. A Framework to Assess Environmental Justice  
Concerns for Proposed Federal Projects 253  
JAN BUHRMANN

Chapter 12. Protecting Natural Resources and the Issue of  
Environmental Justice 285  
BARRY E. HILL AND NICHOLAS TARG

Chapter 13. Mineral Development: Protecting the Land and  
Communities 307  
KATHRYN M. MUTZ

### **Conclusion**

Chapter 14. Hoping Against History: Environmental Justice  
in the Twenty-first Century 337  
PATRICIA NELSON LIMERICK
