Changing Regulatory Frameworks for Shale Development and "Social License to Operate"

When	Wednesday, July 24, 2013 4:00 PM - 6:00 PM
Location	Hogan Lovells One Tabor Center, Suite 1500 1200 Seventeenth Street Denver, CO 80202
For	Public; Faculty; Staff; Students; Alumni; CLE Credit
Cost	Participants will earn CLE credit. IEL and EBA members can attend for free. All others, cost is \$20 at the door, cash or check only.

Rapid development of unconventional shale resources in recent years has raised a series of regulatory issues both here and abroad. Because of the "distributed" nature of shale development and the significant increase in wells in key basins, local land-use conflicts have also erupted in certain areas of the country, leading to restrictions and moratoria on drilling by state, county, and municipal governments and raising questions about the industry's continued social license to operate in key jurisdictions. This moderated panel discussion will assess the current regulatory framework governing shale gas development and the changing dynamics among federal, state, and local regulation in Colorado and the United States; highlight important developments and emerging issues in other countries; and analyze best practices.

Moderator: William Boyd, Associate Professor, University of Colorado Law
Panelists: Howard Boigon, Partner, Hogan Lovells
Bill Buck, General Counsel - Upstream Companies, Exxon Mobil Corporation
Bruce Kramer, Thomson Visiting Professor, University of Colorado Law School
