CONVENTION TIME

Photos by Bruce Miller

By DON LUNT

The seventh annual Alumni-Student Convention begins this Thursday, March 9. This year, the Convention promises to be one of the finest in our school's history. Each student should plan to attend the lectures and visit the clinical exhibits in the Pavilion. All students, Freshman to the Seniors, are dismissed from classes, Thursday and Friday, March 9 and 10.

For the first time, the American Dental Association is sending a group of professional photographers to our campus to make a motion picture coverage of the L.L.U Convention. This is a real honor, and we welcome these men to our Convention.

In the Pavilion, twenty-four table clinics will be on exhibit. These will be dental and dental hygienist clinics aimed at helping us learn more about new methods to practice better quality dentistry. Much is on original research, some never before demonstrated. The Alumni will present twelve clinics, which should prove to be most interesting. A recap of the previous National Table Clinic winners (from Loma Linda) and their winning clinic will also be displayed. Come see what has been done, and start your planning for a table clinic for next year's Convention.

The Awards Banquet will be held Thursday evening following the judging of the clinics. The winning awards will be presented to the proper clinicians, with the first-place winner receiving an expense-paid trip to the National Competition to be held next Spring.

Due to illness, Mr. Bill Sands, the previously announced Awards banquet speaker, will be unable to be present. Peggy Coburn will entertain with a variety of musical selections from Folk to Pops. Peggy Coburn has appeared as contralto soloist in such renowned places as: Carnegie Hall of New York City, Constitution Hall of Washington, D. C., the Hollywood Bowl, and the Los Angeles Philharmonic Auditorium. Highly successful consecutive engagements include six summers in the Rodgers and Hammerstein Hollywood Bowl concerts, and two in the Southern California Mormon Choir's presentation of Handel's "The Messiah," in the Los Angeles Philharmonic Auditorium. Peggy Coburn is the only soloist to have sung in two consecutive Easter Sunrise Services in the Hollywood Bowl. A signal honor was accorded her recently when she was chosen as contralto soloist for the Salt Lake Oratorio Society's Fiftieth Anniversary performance of "The Messiah" in the famous Great Tabernacle of Salt Lake City.

Registration materials will be in the student mailboxes this week. The deadline for reservations is Thursday morning, March 9. A delicious dinner is planned in the beautiful new "San Grogonio Room" at La Sierra College.

CONVENTION PROGRAM ON PAGE 4

Dean Charles T. Smith

Welcome to the Seventh Alumni Student Convention. Doctor Kenneth Mertz, Alumni President, with Mr. Robert Smith, Student Body President, and their officers and committee chairmen have done an excellent job of putting together an outstanding program for you. This is our first opportunity to have a ten-year reunion and we are pleased to have the alumni back on the campus. This year also marks our first organized program for Dental Assistants and we are indeed fortunate to have Mrs. Mary E. Rowley, Education Chairman of the American Dental Assistants Association, as our speaker.

Many of your suggestions on how to improve our convention have been put to use such as the streamlined registration, the additional lectures by clinicians, and other provisions for your well being which should make for your enjoyment. In addition, we are organizing an Auxiliary to the Alumni at this convention and Marcie Voth and her group have put together a very interesting program for the ladies. Doctor Hugh Love has provided a host for each one of our illustrious judges and the keynote speaker, and this should make them all feel at home. The tours of the campus, including the new medical center, will show to many of you the progressive changes that have taken place since your graduation. It is sincerely hoped that while you are here you will become aware of our needs for additional space so that we may continue to develop a program of which you as alumni will be proud.

Our keynote speaker, Doctor Maynard Hine, Dean of Indiana University, School of Dentistry, is the immediate past president of the American Dental Association and thus is in a position to speak to us concerning the future of our profession. Our student clinicians have been diligently at work for some time and will challenge our judges to select a winner.

It is sincerely hoped that you will find your stay here with us not only enjoyable but profitable, and that you will return to your offices refreshed to take care of the needs of your patients.

The Contrangle is a non-profit newspaper published monthly by the Dental Students Association, Student Chapter of the National Association of Seventh-day Adventist Dentists at the general offices of the Loma Linda Bulletin in Grand Terrace, California

ALUMNI - STUDENT

WELCOME

DR. KENNETH MERTZ
Alumni President

ROBERT SMITH
DSA President

As the Seventh Annual Alumni-Student Convention dates draw close, we are all made aware of the magnitude of this Convention. With many students working on table clinics, and with the Alumni and their wives getting ready to attend (coming all the way from Alaska and Canada to Maine). The Annual Alumni reunion and homecoming atmosphere that prevails around the LLU Dental School and the convention center is very heart warming. It seems that regardless where you meet our Alumni, whether it be during Summer, Winter, Dental Meetings, Recreational meetings, the words most often spoken as you part is "Well, see you at the Alumni-Student Convention at LLU in March." This fact is in itself a tremendous compliment to all Alumni and Students who have ever worked on making this Convention a success. We hope that each year the convention will be bigger and better than before. This is accomplished by two things: Each committee of the convention is headed by an alumnus and a student, working hard to make you time spent at the Convention profitable and stimulating in the Scientific area, in the Social aspect, and the Religious, and secondly, that we have a large attendance by Alumni and guests.

CHANGES

The past year has seen several changes on behalf of the Alumni Association, for instance the beginning and organizing of a Woman's Auxiliary to our Association, changing and improving our Constitution, increasing the number of our Board of Directors and selecting them from all over the U. S., with this comes the activating of an executive committee from Alumni in the Southern California area, to work with the dental students in planning the annual Alumni-Student Convention.

After each of you register be sure to study the convention schedule over carefully (on pages 4 and 5). See all the excellent student clinics, the Alumni clinics and hobbies as they are presented. Visit and place some orders with the exhibitors who are helping to sponsor our Convention and who have the equipment and supplies you need to perform good dentistry. I am sure you will profit by attending the lectures to be given, Thursday morning, by Dr. Maynard K. Hine, immediate past President of the ADA, speaking on the "Fifth Point of the Compass." Friday at 9:00 A.M., Dr. Lloyd Baum will talk about "the most common mistakes in Operative Dentistry", and at 10:30 A.M., Dr. Elmer Kelln will speak on "The Biopsy and Surgical Procedures for the General Practitioner."

BANQUET

The Banquet Thursday night will feature an outstanding menu and the entertainment Duo of Mr. and Mrs. Bill Coburn. Mr. Coburn is a concert pianist and Mrs. Coburn is an outstanding Contralto.

The Convention Committee for planning the ladies activities has worked very hard and consequently has an outstanding program planned for the ladies.

Alumni and students alike look to the annual Alumni-Student Dental Convention as a highlight of the year. The 7th annual Alumni-Student Convention promises to be stimulating educationally and socially as acquaintances are renewed and exhibits are viewed. The magnitude of this convention is unequalled at any other dental school, thus, it is indicative of the "school spirit" possessed by both alumni and students.

The returning alumni will notice many changes in the landscape of Loma Linda, for the structure of the new hospital is completed and the new intramural practice building is producing trained professional people who will serve the needs of more communities here at home and abroad.

The last few months have seen the alumni and student clinicians busily preparing their table clinics for the demonstration of new techniques and ideas as well as presentations to refresh our minds to those basic concepts which are so important in rendering service to patients. The many planned activities range from lectures and table clinics to the annual Awards Banquet which features the recognition of the prize-

winning which features the recognition of the prize-winning So join in with enthusiasm and enjoy the association of old and new acquaintances alike, for we extend a warm and hearty welcome to all alumni, students, wives and friends; that our 7th annual convention will be a most rewarding experience spiritually, educationally, and socially.

(Alumni Welcome Continued)

FOR THE LADIES

The Dental Hygienists have their own speaker and luncheon planned. The Dental Assistants will have a special lecture on Thursday--this is the first time in the history of our Convention that any special provisions have been made for the Dental Assistant, I'm sure they will appreciate it.

The Annual Alumni and Century Club Board Luncheon will be held Friday at 12:30 P.M. in the cafeteria. The church activities will be highlighted by Alumnus Ray Wahlen '57 and other Missionary Dentists such as Clark Lamberton, Larry Day participating.

It is a real milestone in the history of our Dental School to be able to honor its first graduating class ten years later, and as our predecessors and pioneers in their training here at Loma Linda, we salute them.

The climax to the Convention will be Class Reunions to be held Saturday night--the time and places will be announced at the business meeting, Friday noon.

So enjoy this Convention, take time to tour the Dental Building noting the changes and improvements.

Be sure and tour the new Intra-Mural Practice Building for the full time faculty of the Dental school next year. Determine to return each year. Again, WELCOME on behalf of all your Alumni Association officers.

Kenneth J. Mertz, DDS
President, Alumni Association

DSA Officer Elections

The election for next year's DSA Officers is coming soon--are you going to be a candidate? What office are you interested in?

PRESIDENT--(must be a senior dent. next year) appoints all executive standing committees and is a non-voting ex-officio member of each. He is the guy with all the prestige, and gets to go to all the fancy banquets and society meetings when our dental student body is to be represented.

FIRST VICE-PRESIDENT--(must be a junior next year) sets up the DSA monthly meetings and plans the orientation of freshman dental students. Takes over for President if absent from executive meetings.

SECOND VICE-PRESIDENT (she must be a senior next year) is responsible for the orientation plans for the incoming Junior Dental Hygienists. She is to keep all records and do such typing as is required, and to serve as hostess at reception following DSA meetings.

SECRETARY--(may be any student) handles DSA correspondence when requested by other DSA officers.

TREASURER--(may be any student) handles all DSA funds, and signs all checks with the DSA president.

CHAPLAIN--(may be any student) directs and organizes the religious activities of the chapter.

EDITOR OF THE CONTRANGLE (may be any student) is responsible for the publishing of the school paper, once each month for as many months of the school year that seems desirable and financially feasible. The editor has the sole selection of his writing staff.

ELECTION DATES TO REMEMBER

March 22 Petitions will be distributed to all students in the mail boxes.

April 3 (Monday) Petitions due back to Central Supply.

April 4 Campaign platforms turned in to CONTRANGLE

April 13 Speeches at DSA Meeting

April 14 Election day

This year has been an excellent one for the DSA. You can help assure that next year's activities will be as successful if you give your full support to the DSA. We need good officers for next year--you should consider running for an office. Petitions will be out March 22.

RESEARCH CONFERENCE

By

JOHN CHRISPENS

The International Inn, Washington, D. C., was the location of the third annual Dental Student Research Conference. For the past three years, the Dental Schools and the Proctor and Gamble Company, with the cooperation of the American Dental Association have sponsored the Research Conference. This year over 52 dental schools from the U. S., Canada, and Puerto Rico sent their representatives. The conference is an opportunity for dental students who are research oriented to see the scope and possibilities of dental research.

Thursday, February 16, 1967, was the first day of the conference and the students visited the National Bureau of Standards, Dental Division, and the National Institute of Dental Research. The first morning tour was the National Bureau of Standards. It is here that much of the research in and standardization of dental materials takes place. During the tour each department head told of his work. The students heard of the advances in dental material, such as the new structural make up of amalgam which makes it stronger yet easier to pack, and the search for a new and better filling material.

Next was to the "National Institute of Health" for dinner and then a tour of the "National Institute of Dental Research" in the afternoon. It is at NIDH where most of the research in the biological sciences as related to Dentistry is carried on. The students were told of the search for causes of cleft lip and palate, of the connection between some drugs and oral facial malformations, and the continuing advance in the lowering of dental caries through the flouridation of water.

On Thursday evening the dental students and scientists had a reception and buffet dinner at the International Inn. This gave the students an opportunity to meet the men in dental research and to talk with them.

On Friday the students heard from some of the top men in dental research and the advances that are being made. During the day the speakers tried to cover many of the important areas of dental research and what each is trying to do to advance dentistry.

Some may ask why a conference on dental research should be held, and what its purpose should be. If advances are to be made in the field of dentistry, there must be research. The students in school now are the ones that will be the future researchers. It is hoped that through this student dental research conference that it will interest students in the great scope of dental research. The students can see just how wide the scope of dental research is. It is also hoped that these students will interest other dental students who are research oriented to enter this field.

ORDER SUPPLIES AT THE CONVENTION

JDA OFFICERS

LEFT TO RIGHT: Jane Sandquist, Linda Aufdemberg, Mimi Dupper, Deanie Matheson, Joan Sproul, Mary Munce, Donna Little, Bunny Finch, Clara Van Denburgh, Mona Seifert, Sharon Bridges, and (not pictured: Patricia Rose, Linda Bietz, Carol Rick Mrs. A. Chase) New officers for the Junior Dental Auxiliary were installed at the January meeting. The officers serving for the second semester are Mary Munce, president; Joan Sproul, social vice president; Donna Little, religious vice president; Linda Aufdemberg, secretary; Carol Rick, treasurer; Bunny Finch, parliamentarian; Jane

\$600 GIFT TO SCHOOL FOR RESEARCH

Mr. Wm. E. Moore, manager of the L.A. branch of the M. F. Patterson Dental Supply Co. and Mr. M.E. Daugherty, Vice-president of the west coast division, present Dean Smith with a \$600 check for research.

Fashion perspective '67

Sandquist, ways and means; Sharon Bridges, publicity; Patricia Rose, Newsnotes editor; Clara Van Denburgh, hostess and Mona Seifert, J.D.A. representative to J.M.A.

Each year, the Junior Dental Auxiliary sponsors a family in overseas mission service. The mission project for 1966-67 is centered around Dr. Douglas Allen Bixel, a graduate of LLU School of Dentistry, and his family. They are located in Tokyo, Japan. In order to send the Bixels the essential Dental and Medical equipment and supplies they need, JDA is sponsoring, "Fashion Perspective '67" to take place March 19, 1967 at the Azure Hills SDA Church, at 8:00 P.M. Donations are \$2.00. Fashions will be featured from the Highlander Shoppes of Redlands and San Bernardino and the Mark Stevens stores. Refreshments will be served and door prizes awarded. Tickets for this event may be purchased from any JDA member. All proceeds will be directed to the Bixels. Don't miss this enjoyable yet worthwhile event.

Sure am glad that dental student is working on our street crew this summer vacation!!!
