State Board Of Education Lists Scholarship Terms

The State Board of Education has announced its regulations for administering the scholarships authorized at the Special Session of the Virginia General Assembly, 1947, and continued and liberalized by the 1948 Session. Scholarships now available will be for summer school students, who are college graduates, or are holders of a Normal Professional Certificate, or to those who are holders of an Emergency Teacher's License based on two or more years of college training, or teachers who will take training in physical and health education, music, and art, or high school teachers who will take training in any of the following subject matter fields: natural sciences, mathematics, foreign languages, industrial arts, commercial education, agriculture, home economics, trade and industrial education, library science and distributive education.

Though the State Board has not actually authorized such scholarships for the winter session, it is expected that full authorization will be granted at the April meeting of the Board.

Will Not Succeed \$300

Scholarships for the winter session would provide a sum not to exceed \$300. They will be open to elementary prospective teachers, as during the current winter session. It is expected that prospective secondary teachers who will take training in physical or health education, music and art, or prospective secondary teachers in these subject matter fields: natural sciences, mathematics, foreign languages, industrial arts, commercial education, agriculture, home economics, trade and industrial education, library science, and distributive education will also be awarded the scholarships.

Organizations Give Records To Halls

A wide variety of phonograph records including classical, semi-classical, and popular selections, are now obtainable for Junior and Senior halls, and also sorority houses. These records are purchased upon the suggestion of the different organizations on campus who have been and are going to be asked by the record purchasing committee composed of Miss Hope Vandever, Betty Weller and Shirley Jones.

In acting upon the suggestions of various groups, this committee feels that a wider range of musical appreciation and taste in the college's collection will be established.

Several gift contributions are among those catalogued in Miss Vandever's office. It may be noted that the records included in those already purchased are "The Nutcracker Suite," "A Treasury of Grand Opera," several symphonies, and other suites, "Victor Herbert Favorites," Gershwin's "Rhapsody in Blue," an album of "Jeannette McDonald In Song" . . . on to albums of the music of Paul Weston, Vaughn Monroe, Cole Porter, Fred Waring. Pepsi-Cola Aids By Fellowship

According to the Pepsi-Cola scholarship program an extension to its financial aid program has been made which provides each fellowship winner with full tuition and \$750 a year for three years of graduate study. It may be used in any field of specialization at any accredited graduate school in the United States or Canada. The fellowships are financed by the Pepsi-Cola Company, and they are offered as a part of the company's public service program.

Winners in this new fellowship program are selected on the basis of their promise of outstanding achievement in their own fields as evidenced by their undergraduate records and recommendations as to character, personality, and qualifications of leadership, and the awards are limited to those students with financial need.

The applications are grouped by the Pepsi-Cola scholarship board and sent to the Southern regional selection committee. This committee names the most promising applicants as finalists and forwards their records to the national selection committee which choose the winners for each region.

Those interested in this program should write to the Pepsi-Cola Scholarship Board, 532 Emerson Street, Palo Alto, California.

The Right Way To Vote

The student body is to be congratulated for its interest in the major and minor elections which were held before Easter. Interest in the elections was backed by action as well as discussion of the candidates. Approximately 800 students voted for the major officers and about 700 for the minor officers.

The number of votes cast this year far exceeded those of last year. This student body has displayed the fine qualities that every group of people everywhere should: interest in self-government and interest backed by action. Voting is the action to be used in a democracy.

It might be pointed out that 61% of the student body voted in the major elections. Interest was high here as it should have been. But only 54% of the students voted in the minor elections. Does this mean that we consider the minor officers that much less important than the major officers?

We must not forget the minor offices are vital posts too. They carry heavy responsibilities and require fine, well-chosen people to fill them. It is our duty to think over the people who would be best and vote for them as well as their superiors in office. The presidents and editors cannot do all the work, remember. They must have good officials to help them to help us—the students.

So, we must not forget this responsibility while we justly feel proud of ourselves for having one of our best years of voting.

—M. A. K.

Alumnae Honor Mr. Logan

Not only do we here at Madison College miss Conrad T. Logan, but those who came before us, the alumnae, feel his loss also. At the recent homecoming the alumnae of Madison College drew up resolutions to pay tribute to this friend. An excerpt of this is as follows:

"... We might have said, if we were thoughtless, that we shall miss him—but in a truer sense, we, the alumnae, shall not miss him; it is those who follow us who will miss him, for we have had the rich experience of knowing him—a man, kindly and gentle, genial and humorous, thoughtful and gracious—a teacher, wise and perceptive, encouraging and enlightening—a friend, tolerant and helpful—Conrad T. Logan, an enjoying person. His passing is a great loss to the college which he untiringly served."

(Ed. Note: The above was taken from a resolution written by Lois Sloop, of Harrisonburg, Chairman of the Committee on Resolutions of the Madison Alumnae Association.)

Message On Mikes

To many Madison students, speaking to the assembled student body from the stage of Wilson auditorium is the most frightening and mysterious chore that they can be made to perform in college. The staring faces of fellow classmates discomboberate them, and the mysterious microphone standing threateningly before them sends cold chills up and down their spines. Announcements are given reluctantly, as the announcer stands huddled close to the mike, clutching it around the middle in a death grip a la Frankie, blurting out her message and rushing frantically away. Anything goes, just so that she can get away from that terrible MICROPHONE before it bites her. . . BUT still, announcements must continue to be made by students, so for their benefit, we present these pointers of mike usage, nicely summarized for us by Dr. Latimer:

When addressing the mike stand at arm's distance. Talk to be heard 10 rows back without the mike. Speak directly into the mike. Don't clutch mike without reason. Enunciate clearly. Speak to audience and not to people on the stage. I. M.

LETTER TO THE EDITOR

We left our homes and came as green freshmen to Madison College. Our parents told us that we were no longer children and they considered us capable of taking care of ourselves. When we arrived at college we had many rules and regulations, which we had not been accustomed to abiding

by, thrust upon us. We accepted them.

One of the privileges which we had enjoyed at home was taken from us—that of riding with people our own age. We were led to believe that we would be able to ride in the spring. We jokingly made remarks about our not remembering what it felt like to ride but always we would say to ourselves that when spring came we could ride. Would you tell a small child that if he practiced his piano lesson for an hour he might get some of the cookies you just baked and when he finished his practicing tell him you decided not to let him have any? The principle is the same.

We do not think we are unreasonable and if the reasons for our not riding would be set before us perhaps we would accept them. We have not been told these reasons, and we cannot see them.

Many reasons came to our minds which might be given but we do not consider them sufficient. If we are trusted away from home to take care of ourselves in other respects, surely we should be able to enjoy the same if not more privileges than the ones we had at home. We are old enough to go to college, to be away from home for months, and to take care of ourselves in other respects. What are the reasons behind the fact that the riding privileges which the freshman had in the past years have been taken from us. We would like to know.

The New Staff Resolves

Every year the new editor of the *Breeze* no doubt faces the same problem—that of trying to live up to the work of the preceding director of the paper. This time there is no exception but we of the new staff hereby resolve to uphold the standards of our predecessors to the best of our ability.

When we first became members of this staff, three years ago, we all remember Mr. Logan, our helpful and broadminded adviser, reminding us that the *Breeze* was the student's newspaper. It is written by the students and for the students. And never to be forgotten, was his statement to the effect that the editorial department of our paper is to reflect student opinion and to guide student opinion to the best of its ability. Our main aim in the forthcoming year is to uphold these principals. Any editorial comment to the contrary will not be intentional.

We remember, also, that Mr. Logan reminded us that freedom of the press is just as important in a college as in a university, town, or city. This we shall remember and trust that the entire student body will feel free to express their opinions. We must remember, however, that individual gripes don't necessarily reflect the opinions of everyone.

With these pointers in mind, we of the twenty-sixth staff go forth into a new year, trusting that we have each of you backing us.

If You Ask THEM...

What do you, as a veteran, think of Universal Military Training?

Roy Butler—If U. M. T. means the exposure of millions of men to the rigors of K. P., guard duty on the corner lamp post, months of foot-drill, memorization and constant recitation of the 12 general orders, inter-divisional button polishing contests (the winning general gets a free package of crispy crunchies), T. S. card punching chaplains, practical courses on the ego of the 2nd Lieutenant, and how to tell a tea shipping U. S. O. grandmaw from a victory girl, then we really will be a soft touch from Conrad Stalin and his boys.

But! If our military leaders intend to use U. M. T. to develop the type of force necessary to stem the advancing Russian tide, then, by all means, let's have it quickly!

Waldo Miller — If it will build a strong, up-to-date Air Force, fine and dandy, otherwise I don't approve.

Nick Nichols—All for it!

Nick Pascaretti—I'm against it because I think it's too expensive. The government couldn't do it on the full scale it should be done, and therefore the main purpose of U. M. T. would not be fulfilled.

Larry Hatch—At this time the country needs a large army, but under their present set-up, a boy should not be

SHOWGOER

Cary Grant portrays the role of a serene and highly efficient "fixer" in "The Bishop's Wife" which may be seen at The Virginia on Sunday through Thursday. Loretta Young as the wife, and David Niven as the Bishop, are co-starred with him in this gay tale of a clergyman's troubles in a mid-western city. Monty Woolley is also top featured.

The "King of the Cowboys," Roy Rogers, can be seen on Friday and Saturday in "Under California Stars" also at The Virginia.

An unusual "Western melodrama in technicolor, starring Robert Young and Marguerite Chapman, titled "Relentless" will be featured at The State on Sunday through Wednesday. "The Return of Rin Tin Tin" in color is scheduled to be shown on Thursday through Saturday.

forced in to waste this time. A two year college course along with military instruction would be the thing. Otherwise, a six-month training period is more than enough. In war-time, we did it in three months. This method would be a saver of money, materials, time, and train more men.

That's my two cents worth!

Assembly Hears Mr. C. C. Reigner

Mr. Charles G. Reigner, president of the H. M. Rowe publishing company of Baltimore, Chicago, and San Francisco, spoke in Wednesday assembly on "Utility in Education."

Mr. Reigner, a graduate of Princeton, New York University. The Wharton School of Finance of the University of Pennsylvania, and the University of Pittsburgh, has taught in both high schools and universities. He is also the author of numerous textbooks, essays and poems.

His talk centered around a philosophy he heard in a speech by Theodore Roosevelt; that being—"You must be able to pull your own weight in a boat." Quoting Dr. Angelo Patri, Mr. Reigner said that the real educated person, no matter whether he worked with his hands or his head, is able to render some service to society. He stressed the fact that education must earn its own keep, and that the doctrine of efficiency has made America what it is today.

KDP Officers Installed

Kappa Delta Pi initiated Edna Shantz on Thursday night, April 1, after which the new officers were installed. These include: president, Louise Albrittain; vice-president, Vyonne Davis; Margaret Jessup, corresponding secretary and Nancy Bryant, recording secretary. Historian for the new year is Jennie Snowden; reporter, Margaret Hurst and Margaret Brown, treasurer.

G. Smith Addresses IRC

"Universal Military Training" was the topic of Dr. G. C. Smith's discussion at the regular meeting of the International Relations club last night. Members were invited to ask questions or to discuss the "pros" and "cons" of this current subject.

Teacher: A cold, undoubtedly.

Jean—"My Dad!"

Josie—"What did he ever write?"

May Court Maid Of Honor Obtains Honor; To Be Princess At Festival

By Irene Munson

"I'm so thrilled about it! To tell you the truth, I still can't believe it," remarked Peggy Hollis, lovely Madison senior from Martinsburg, West Virginia, who was chosen Apple Blossom Princess for the state of West Virginia. The Shenandoah Apple Blossom Festival will be held in Winchester, Virginia, April 29-30.

"Yes, the first letter was a complete surprise to me," she continued. "I received it directly from the Festival Headquarters in Winchester about February, and I had no idea how or why. Keeping the whole exciting thing a secret for nearly two months until the news was officially reported in the West Virginia papers, was one of the hardest tasks for vivacious Peggy.

Her selection came about through election by the members of the West Virginia Horticultural Society. She does not know who submitted her name to the group. Other states which will send representatives are: Virginia, Maryland, and Pennsylvania. In all, thirty-six princesses have been chosen. (Note: The Madison College representative, to the Festival, elected by the student body, has not yet been revealed.)

Bubbling over with excitement about the big occasion which will feature, in addition to the pageant and other festivities, several dances with a big-name band, Peggy said that the idea of it all almost overwhelms her. "It's seems one of those things that can't happen—"
